**Finding**
FS 11-005

The F DFS Bureau of Accounting (Bureau) did not, in all instances, identify and correctly record financial accounts and balances related to the Rehabilitation and Liquidation Trust Fund activities for the fiscal year.

**Recommendation**

We recommend that the Bureau enhance its fiscal year-end reporting procedures to ensure that all financial transactions related to Rehabilitation and Liquidation Trust Fund activities are accurately and completely identified and reported in the State’s financial statements.

**Original Response**

The Division of Rehabilitation and Liquidation (Division) presents year-end financial data on a cash liquidation basis of accounting (Other Comprehensive Basis of Accounting per the National Association of Insurance Commissioner’s guidelines, and for the Division’s internal financial analysis purposes). The Bureau of Financial and Support Services (Bureau) will work with the Division to more accurately convert fiscal year-end financial statements the Division presents on a cash basis to accrual basis financial statements, as required by generally accepted accounting principles. The Bureau has also enhanced procedures for the Division’s review of year-end financial statement data to ensure that all financial transactions related to Rehabilitation and Liquidation Trust Fund activities are accurately and completely identified and reported in the State’s financial statements.

**Six-month Follow-up:** September 20, 2012

**Responsible Division** Division of Administration

**Reported Status**

The Bureau of Financial Services and the Division of Rehabilitation and Liquidation (Division) worked closely to ensure that financial data provided by the Division for the most recent fiscal year ended June 30, 2012 was properly converted from the Other Comprehensive Basis of Accounting to the Accrual Basis in accordance with Generally Accepted Accounting Principles.

**OIG Assessment** Closed. It appears management has taken appropriate corrective action.
