September 26, 2018

Mr. Justin M. Senior, Secretary
Agency for Health Care Administration
2727 Mahan Drive
Tallahassee, FL 32308

Dear Secretary Senior,

Enclosed is a six-month status report on the Auditor General’s Operational Audit of the Agency for Health Care Administration, Collection and Use of Medicaid Managed Care Encounter Data and Selected Administrative Activities, Report No. 2018-172, issued March 2018. This status report is issued in accordance with the statutory requirement to report on corrective actions resulting from the Auditor General’s recommendations six months from the report date.

If you have any questions about this status report, please contact Pilar Zaki, Audit Director, at 412-3986.

Sincerely,

Mary Beth Sheffield
Inspector General

MBS/szg
cc/enc: Joint Legislative Auditing Committee
        Eric W. Miller, Chief Inspector General, EOG
        Toby Philpot, AHCA Chief of Staff
        Mallory McManus, AHCA Communications Director
        Molly McKinstry, Deputy Secretary, Division of Health Quality Assurance
        Jon Manalo, Deputy Secretary, Division of Operations
        Scott Ward, Director of Information Technology
        Beth Kidder, Deputy Secretary, Division of Medicaid

<td>Collection and Use of Medicaid Managed Care Encounter Data. Use of Medicaid Managed Care Encounter Data. The Agency could not demonstrate that it forwarded to managed care Organizations for investigation any leads or referrals related to possible acts of fraud, abuse, or overpayment based on analysis of Medicaid managed care encounter data.</td>
<td>We recommend that Agency management ensure that the MPI utilizes Medicaid managed care encounter data to identify leads related to possible acts of fraud, abuse, or overpayment in the Medicaid program, and that the MPI documents timely communication of those leads to the MCOs.</td>
<td>As explained during the audit, MPI does not typically distinguish encounter claims and fee-for-service claims for detection purposes. Encounter data is used at varying stages of project planning for determining which providers may warrant a deeper review. MPI will continue to make referrals to the Medicaid health plans, and will continue to review and improve processes for documenting and tracking the timely communication of referrals.</td>
<td>Fully Corrected</td>
<td>MPI will continue to make referrals to the Medicaid health plans, and will continue to review and improve processes for documenting and tracking the timely communication of referrals. To further support these efforts, MPI has updated its referrals internal operating procedure to ensure better tracking standards. In addition, the number of referrals made to the Medicaid health plans will be included in MPI’s Annual Report. Kelly Bennett (HQA/MPI) (850) 412-4019</td>

| Collection and Use of Medicaid Managed Care Encounter Data. Medicaid Data Analytics Contract. | We recommend that, prior to renewal, Agency management document consideration of the cost effectiveness of applicable contracts. We also recommend that, prior to contracting for similar services in the future, Agency management establish and clearly identify vendor performance benchmarks. | The Agency agrees with the recommendation. The Agency agrees that procurements should require vendors to meet or exceed performance expectations to warrant payment. Throughout the contract with the data analytics vendor, the Agency refined the contract terms to improve the deliverables within the requirements of the state procurement laws. | Fully Corrected | Completed

Florida Agency for Health Care Administration  
Auditor General FY 2016-17 Operational Audit – AHCA Collection and Use of Medicaid Managed Care Encounter Data and Selected Administrative Activities (Report# 2018-172)  
Six-Month Status Report as of September 26, 2018
Finding# 3  |  Recommendation  | Previous Management Response(s)  | Status of Finding as of September 26, 2018  | Management Response as of September 26, 2018 and Agency Contact  
---|---|---|---|---
Selected Administrative Activities. Accounting and Budgeting Policies and Procedures and Staff Training.  
As similarly noted in our report No. 2015-045, the Bureau of Financial Services (BFS) had not established sufficiently comprehensive policies and procedures or developed a BFS-specific training program to ensure staff were provided appropriate training related to the Agency’s complex accounting and budgeting tasks.  
We recommend that BFS management continue updating policies and procedures to ensure that BFS responsibilities and unique operations are sufficiently addressed. The updated policies and procedures should promote compliance with applicable laws, rules, regulations, and accounting standards, and provide sufficient guidance to staff to ensure consistency in the event of staff turnover. In addition, we again recommend that BFS management develop a staff training program that is specifically tailored to address the complexity of the Agency’s financial operations, maintain appropriate documentation to demonstrate BFS staff attendance at training activities, and revise BFS position descriptions to specify the relevant policies and procedures.

Policies and Procedures  
BFS will continue to work diligently to enhance existing policies and procedures to ensure that they are comprehensive and sufficiently address our unique and complex responsibilities. BFS is in the beginning stages of developing a manual to serve as an additional tool that can be used to address the complexity of its operation as well as identify and catalogue all applicable laws, rules, regulations, standards, and guidance that govern the work performed by BFS. There will be sections specifically for new employees to introduce them to BFS.

In addition, BFS invested in an independent information technology consultant to automate many of its accounting and budgetary processes. This effort, in conjunction with the written documentation, will help ensure compliance, promote consistency, and mitigate loss of knowledge due to staffing changes. The project to automate our processes was initiated during fiscal year 2014-15 and is expected to continue through fiscal year 2016-17.  

BFS has either developed or enhanced the following written policies and procedures:  
- Florida Single Audit Act  
- Travel Manual  
- Purchasing Card Manual  
- Due From Federal Government  
- Accounts Receivable Process (as part of the new automated system)  
- Delinquent Accounts Write-off Process,  
- Encumbrance Tracking and Monitoring Process  
- New FLAIR Account Code Review  
- Medicaid Services Categories Budget Realignment  
- Non-Operating Budget Analysis and Monitoring  
- One-to-One OCA for Revenue and Disbursements Activities  
- Implementation of Public Assistance Cost Allocation Plan  
- Civil Monetary Penalty Grant Awards,  
- Wireless Device Personal Use Reimbursement Policy  
- Purchasing Card Charges Reconciliation
### Finding # 3

**Recommendation:**

Education and experience needed to perform the Agency’s complex accounting and budgeting tasks.

**Previous Management Response(s):**

2020-21. Through the use of the consultant, BFS has documented many of its processes within its comprehensive system called Enterprise. The vendor is also responsible for providing training on each module as it is implemented.

**Staff Training**

BFS has an unofficial training plan. BFS management developed a SMART goal in fiscal year 2016-17 to address staff training. To obtain the highest rating of 5, staff must participate in quarterly training as well as engage in some type of cross training. Based upon performance, the supervisor can require staff to attend a specific training to improve performance and knowledge.

In addition, BFS provides routine guidance and training to staff through one-on-one meetings, workgroups, and staff meetings. Staff also attend meetings and workshops hosted by the Department of Financial Services (DFS) and the Executive Office of the Governor (EOG) to prepare for year-end activities as well as other ad hoc meetings to address specific or immediate needs. However, there are limitations in

**Status of Finding as of September 26, 2018:***

All of these policies and procedures are not yet in their final format, but are currently moving through the workshop and review process to receive final approval.

BFS continues to work with the independent information technology consultant to automate our processes.

Anticipated Date of Completion: Ongoing, but the major ones by September 2019.

**Management Response as of September 26, 2018 and Agency Contact:**

BFS management continues to promote and monitor its staff training through the performance expectation process. Based upon performance, the supervisor can require staff to attend a specific training to improve performance and knowledge.

BFS management continues to provide guidance and training to staff through one-on-one meetings, workgroups, staff meetings, and performance review meetings. BFS staff continues to attend meetings and workshops hosted by the Department of Financial Services (DFS) and the Executive Office of the Governor (EOG) to prepare for year-end activities as well as other ad hoc assignments.

<td></td>
<td>attending the DFS events. Some of them are: only two employees from each agency can participate, conferencing in to the meetings is not always an option and when it is, the conversation is difficult to hear due to background noises. Because of these limitations, BFS has to employ the train-the-trainer model. Furthermore, it is not DFS’ practice to provide certificate or proof of attendance for events they host. BFS will, however, work to improve documentation of staff attendance for internal meetings and workshops and will continue to look for training opportunities for all level staff.</td>
<td></td>
<td></td>
<td>However, due to limitations set by DFS, the number of BFS staff who can attend DFS-hosted events is still limited. Based upon supervisors’ requests, BFS management has created a FLAIR and other financial systems training. The purpose of this training is to provide staff with a refresher course on FLAIR basic account codes and how to use our unique financial systems to gather needed financial data. This is the first of many trainings we plan to host for BFS staff. BFS has worked to improve its documentation of staff attendance at internal meetings, workshops, and trainings.</td>

**Position Descriptions**
The adoption of a broadband classification system by the State eliminated minimum qualifications including education and experience requirements. Therefore, unless statutes explicitly require educational requirements, BFS cannot make education a qualifying condition of employment.

**Position Descriptions**
BFS management has identified the minimum qualifications for each position that falls under their purview and will be discussing this further with HR.

BFS management has also identified state and federal statutes that pertains to the Bureau’s duties and responsibilities and...

| 3       | There are no educational requirements explicitly stated in statutes for any of the positions in BFS. However, each position has minimum qualifications that are based upon the occupation profile. The minimum qualifications, in accordance with Agency policy, are included in all advertisements along with the duties and responsibilities of that position. During the interview process, BFS is proactive by providing the candidate with a true depiction of the job's complexity and describing the needed skill sets to be successful. Work samples are based upon real Agency scenarios to give the candidate a true impression of the duties.  
Because the position description serves as the official record of the duties and responsibilities assigned to a position and used to officially classify a position, BFS after speaking with the Agency's Human Resource Classification Manager believes that the position descriptions are adequate as written because there are no education and experience requirements. However, BFS will work with the Agency’s Human Resource Classification Manager to add the... | will be updating all position descriptions to reflect these laws.

Recommendation
minimum qualifications to the position
descriptions. Section 9 of the position
descriptions will be updated to reflect
job-related requirements based upon the
occupation profile.

Finding# 4
Recommendation
We again recommend that BFS management ensure
that sufficient documentation is maintained to support the
timeliness and approval of all Agency accounting
transactions. We also recommend that BFS management take
appropriate actions to improve the accuracy and
timeliness of FLAIR accounting transactions.

Previous Management
Response(s)
To ensure that payments are processed
timely, BFS has implemented an invoice-
tracking log to ensure the timely
processing of invoices. In addition, BFS
implemented the use of a
MyFloridaMarketplace (MFMP) Secure
Report entitled "Invoice Reconciliation
(IR) Last Approver." This report is sorted
by the IR submit date (oldest from
newest) to ensure that IRs are
processed on a First In/First Out (FIFO)
basis. Staff also uses this report to track pending IRs that may have pending
issues that are preventing payments to
ensure they are processed timely.

Status of Finding

Management Response
as of September 26, 2018
and Agency Contact
BFS management has implemented an
invoice tracking log and the use of a
MFMP Invoice Reconciliation Report to
ensure that payments are processed in a
timely manner as required by state
statutes. In addition, BFS management
routinely reviews its processes in search of
opportunities for improvement and as a
result, developed an encumbrance report
which is another tool used to track and
monitor payment activity.

Anita B. Hicks (Operations/BFS)
(850) 412-3815
Since the implementation of these processes, BFS has obtained 100 percent compliance rate with zero invoices exceeding twenty days; ranking the Agency at number one out of thirty-two reporting agencies. With the timely processing of invoices, BFS has reduced the payment of interest to vendors to zero.

BFS will continue to monitor this process to ensure that best practices are being implemented. BFS is also working with an independent consultant to determine the feasibility of creating an automated Invoice Management system and incorporating it into the existing Enterprise system, which is currently used by BFS for its day-to-day operations.
Selected Administrative Activities. Purchasing Card Controls.

The Agency did not always timely cancel purchasing cards upon a cardholder’s separation from Agency employment.

We recommend that Agency management ensure that purchasing cards are promptly canceled upon a cardholder’s separation from Agency employment.

In cancelling purchasing cards (PCards), the Bureau of Financial Services (BFS) relies on the Bureau of Human Resources’ system called Transfer Promotion Separation (TPS). This system provides notification that a cardholder has separated from the Agency. This is currently being updated and will later be known as CRM (Customer Response Management) TPS system. To timely cancel the PCard upon a cardholder’s separation from Agency employment, BFS has implemented the following process:

- The PCard Administration’s inbox (PCardAdmin@ahca.myflorida.com), a multi-user email account, will be used to assist with daily monitoring of emails received.
- The new CRM TPS system will email the PCard Administration’s inbox for any separation, internal move, or cancellation.
- A shared calendar specifically for tracking separation notifications has been created by the PCard Administrator (PCA).

The Customer Response Management (CRM) Transfer Promotion Separation (TPS) system is now operational and is the system that notifies BFS’ staff of personnel separation action. As stated in the previous management response, BFS has implemented several processes to ensure that PCards are promptly canceled. The following are some of the updates and enhancements:

- The CRM TPS system currently sends notifications to the PCard Administration’s inbox for any separations, internal moves, or cancellations.
- A tickler has been set for each separation on the shared calendar. The PCard Administration’s inbox receives an alert one day before the employee’s separation from the Agency. These notifications are then moved into a sub-folder in Outlook entitled “Policy HR Action Notifications.” This will remind the PCA and the back-up POA to deactivate the cardholder’s account in the PCard module in FLAIR. To further enhance

| **Selected Administrative Activities. IT Access Privilege Controls.** Information technology user access controls for the Florida Medicaid Management Information System, VERSA Regulation system, and Care Provider Background Screening Clearinghouse need improvement to ensure that periodic reviews of user access privileges are performed, user access privileges are appropriate, and Agency records demonstrate that access privileges are timely deactivated when access is no longer needed. | We recommend that Agency management ensure that periodic reviews of FMMIS, VERSA Regulation system, and Clearinghouse user access privileges are performed. We also recommend that Agency management ensure and Agency records demonstrate that FMMIS, VERSA Regulation system, and Clearinghouse user access privileges are timely deactivated upon a user’s separation from Agency employment or when the user no longer requires access privileges. | The Agency updated the authentication policy (P&P 5002) to include addressing the review of access privileges in August 2017. A new Cherwell Help Desk ticketing system was implemented in May of 2017, which allows tracking for the authorization of users allowed by the business units to access Agency applications. When this audit took place, an older Microsoft Sharepoint application was used by the Division of IT Help Desk. The new Cherwell system offers robust workflows and tracking abilities. The Agency is implementing additional security procedures to ensure that Florida Medicaid Management Information System (FMMIS) user access privileges are timely deactivated upon separation of employment from the Agency. In addition, the Agency is implementing a periodic review process of FMMIS access privileges to validate that FMMIS users maintain only the minimum necessary access privileges needed to perform their job functions. | Fully Corrected | Fully Corrected

Karen Calhoun (IT) (850) 412-4849

On May 3, 2018, the Agency implemented a new Florida Medicaid Management System (FMMIS) security process to review and verify timely deactivations of FMMIS user access upon employment separation from the Agency. As of June 5, 2018, the Agency began performing an ongoing desk audit, validating timely deactivations of FMMIS user access for non-Agency staff. The Agency has limited access to non-Agency
