

The Journal OF THE *House of Representatives*

Number 26

Friday, March 22, 2002

The House was called to order by the Speaker at 10:30 a.m.

Prayer

The following prayer was offered by Mrs. Shirley Lindsay of First Baptist Church of Jacksonville, upon invitation of Rep. Hogan:

Our Heavenly Father, we come to pray for our loved one whose mother is no longer with us, and we ask for the strength of You to encourage him. Lord, our hearts are always sad when our loved ones leave us, but we know that Your grace is sufficient to meet our every need.

What a joy and a privilege and an excitement it is to be here. When Dr. Lindsay and I would pray, and we'd read the Word, and then he would pray for Tallahassee and for the great leaders that lead our state. I'm grateful, Lord, that I am a Floridian. And I'm grateful for the leaders that make it possible to do Your work. I'm grateful for the way that we have Mr. and Ms. Bush, and for the way that they're concerned about the people in Florida.

There is warmth, there is love, and there is excitement here as I feel it. So I ask that Your will be done, and Your leadership walk among these that need encouragement and these, Lord, that need to be forced by You to know Your will.

And so in the name of Jesus, I thank You for the gentlemen and for the ladies, and for the way in which we're able to see these wonderful leaders that represent our Florida.

In Jesus' name, Amen.

Bill(s): The Special Rule applies to each bill after passage on day 60 of the 2002 Regular Session and any extension thereof.

During day 60 of the 2002 Regular Session and any extension thereof, the Clerk of the House shall retain possession of each bill after passage and not transmit the bill to the Senate until the Speaker authorizes in writing the release of the bill.

Parliamentary Inquiry

The Chair recognized Rep. Goodlette on the report.

Rep. Goodlette stated that the report outlined Special Rule 02-04 which applied to each bill after passage on day 60 of the 2002 Regular Session and any extension thereof. Copies were placed on the Members' desks.

The Chair recognized Rep. Ryan for a question.

Rep. Ryan made inquiry in reference to the authority to invoke the Special Rule and stated that the Special Rule spoke to the authority of the Speaker to retain a bill after passage in the House as was being accomplished through Rule 10.14. The proposed rule contemplated action to be taken after passage of a bill and was not contemplated or authorized within the rule.

The Chair recognized Rep. Goodlette for a response.

Rep. Goodlette stated that the Rules of the House continue to govern the time and conditions of the debate and the amendment of the bills, however during the 60th day of the 2002 Regular Session and any extension, the Clerk would merely be required to retain possession of those bills pursuant to the terms of the Special Rule and he recommended that the point not be well taken.

On motion by Rep. Goodlette, the Special Rule report was adopted. The vote was:

Section 893. Effective upon this act becoming a law, paragraph (h) of subsection (3) of section 110.123, Florida Statutes, is amended to read:

110.123 State group insurance program.—

(3) STATE GROUP INSURANCE PROGRAM.—

(h)1. A person eligible to participate in the state group insurance program may be authorized by rules adopted by the department, in lieu of participating in the state group health insurance plan, to exercise an option to elect membership in a health maintenance organization plan which is under contract with the state in accordance with criteria established by this section and by said rules. The offer of optional membership in a health maintenance organization plan permitted by this paragraph may be limited or conditioned by rule as may be necessary to meet the requirements of state and federal laws.

2. The department shall contract with health maintenance organizations seeking to participate in the state group insurance program through a request for proposal or other procurement process, as developed by the Department of Management Services and determined to be appropriate.

a. The department shall establish a schedule of minimum benefits for health maintenance organization coverage, and that schedule shall include: physician services; inpatient and outpatient hospital services; emergency medical services, including out-of-area emergency coverage; diagnostic laboratory and diagnostic and therapeutic radiologic services; mental health, alcohol, and chemical dependency treatment services meeting the minimum requirements of state and federal law; skilled nursing facilities and services; prescription drugs; and other benefits as may be required by the department. Additional services may be provided subject to the contract between the department and the HMO.

b. The department may establish uniform deductibles, copayments, or coinsurance schedules for all participating HMO plans.

c. The department may require detailed information from each health maintenance organization participating in the procurement process, including information pertaining to organizational status, experience in providing prepaid health benefits, accessibility of services, financial stability of the plan, quality of management services, accreditation status, quality of medical services, network access and adequacy, performance measurement, ability to meet the department's reporting requirements, and the actuarial basis of the proposed rates and other data determined by the director to be necessary for the evaluation and selection of health maintenance organization plans and negotiation of appropriate rates for these plans. Upon receipt of proposals by health maintenance organization plans and the evaluation of those proposals, the department may enter into negotiations with all of the plans or a subset of the plans, as the department determines appropriate. Nothing shall preclude the department from negotiating regional or statewide contracts with health maintenance organization plans when this is cost-effective and when the department determines that the plan offers high value to enrollees.

d. The department may limit the number of HMOs that it contracts with in each service area based on the nature of the bids the department receives, the number of state employees in the service area, or any unique geographical characteristics of the service area. The department shall establish by rule service areas throughout the state.

e. All persons participating in the state group insurance program who are required to contribute towards a total state group health premium shall be subject to the same dollar contribution regardless of whether the enrollee enrolls in the state group health insurance plan or in an HMO plan.

3. The department is authorized to negotiate and to contract with specialty psychiatric hospitals for mental health benefits, on a regional basis, for alcohol, drug abuse, and mental and nervous disorders. The department may establish, subject to the approval of the Legislature pursuant to subsection (5), any such regional plan upon completion of an actuarial study to determine any impact on plan benefits and premiums.

4. In addition to contracting pursuant to subparagraph 2., the department shall enter into contract with any HMO to participate in the state group insurance program which:

a. Serves greater than 5,000 recipients on a prepaid basis under the Medicaid program;

b. Does not currently meet the 25-percent non-Medicare/non-Medicaid enrollment composition requirement established by the Department of Health excluding participants enrolled in the state group insurance program;

c. Meets the minimum benefit package and copayments and deductibles contained in sub-subparagraphs 2.a. and b.;

d. Is willing to participate in the state group insurance program at a cost of premiums that is not greater than 95 percent of the cost of HMO premiums accepted by the department in each service area; and

e. Meets the minimum surplus requirements of s. 641.225.

The department is authorized to contract with HMOs that meet the requirements of sub-subparagraphs a.-d. prior to the open enrollment period for state employees. The department is not required to renew the contract with the HMOs as set forth in this paragraph more than twice. Thereafter, the HMOs shall be eligible to participate in the state group insurance program only through the request for proposal process described in subparagraph 2.

5. All enrollees in the state group health insurance plan or any health maintenance organization plan shall have the option of changing to any other health plan which is offered by the state within any open enrollment period designated by the department. Open enrollment shall be held at least once each calendar year.

6. When a contract between a treating provider and the state-contracted health maintenance organization is terminated for any reason other than for cause, each party shall allow any enrollee for whom treatment was active to continue coverage and care when medically necessary, through completion of treatment of a condition for which the enrollee was receiving care at the time of the termination, until the enrollee selects another treating provider, or until the next open enrollment period offered, whichever is longer, but no longer than 6 months after termination of the contract. Each party to the terminated contract shall allow an enrollee who has initiated a course of prenatal care, regardless of the trimester in which care was initiated, to continue care and coverage until completion of postpartum care. This does not prevent a provider from refusing to continue to provide care to an enrollee who is abusive, noncompliant, or in arrears in payments for services provided. For care continued under this subparagraph, the program and the provider shall continue to be bound by the terms of the terminated contract. Changes made within 30 days before termination of a contract are effective only if agreed to by both parties.

7. Any HMO participating in the state group insurance program shall submit health care utilization and cost data to the department, in such form and in such manner as the department shall require, as a condition of participating in the program. The department shall enter into negotiations with its contracting HMOs to determine the nature and scope of the data submission and the final requirements, format, penalties associated with noncompliance, and timetables for submission. These determinations shall be adopted by rule.

8. The department may establish and direct, with respect to collective bargaining issues, a comprehensive package of insurance benefits that may include supplemental health and life coverage, dental care, long-term care, vision care, and other benefits it determines necessary to enable state employees to select from among benefit options that best suit their individual and family needs.

a. Based upon a desired benefit package, the department shall issue a request for proposal for health insurance providers interested in participating in the state group insurance program, and the department shall issue a request for proposal for insurance providers interested in participating in the non-health-related components of the state group insurance program. Upon receipt of all proposals, the department may enter into contract negotiations with insurance providers submitting bids or negotiate a specially designed benefit package. Insurance providers offering or providing supplemental coverage as of May 30, 2002 ~~1991~~, which qualify for pretax benefit treatment pursuant to s. 125 of the Internal Revenue Code of 1986, with 5,500 or more state employees currently enrolled ~~shall may~~ be included by the department

in the supplemental insurance benefit plan established by the department without participating in a request for proposal, submitting bids, negotiating contracts, or negotiating a specially designed benefit package. These contracts shall provide state employees with the most cost-effective and comprehensive coverage available; however, no state or agency funds shall be contributed toward the cost of any part of the premium of such supplemental benefit plans. With respect to dental coverage, the division shall include in any solicitation or contract for any state group dental program made after July 1, 2001, a comprehensive indemnity dental plan option which offers enrollees a completely unrestricted choice of dentists. If a dental plan is endorsed, or in some manner recognized as the preferred product, such plan shall include a comprehensive indemnity dental plan option which provides enrollees with a completely unrestricted choice of dentists.

b. Pursuant to the applicable provisions of s. 110.161, and s. 125 of the Internal Revenue Code of 1986, the department shall enroll in the pretax benefit program those state employees who voluntarily elect coverage in any of the supplemental insurance benefit plans as provided by sub-subparagraph a.

c. Nothing herein contained shall be construed to prohibit insurance providers from continuing to provide or offer supplemental benefit coverage to state employees as provided under existing agency plans.

And the title is amended as follows:

On page 8, line 20 after the semicolon,

insert: amending s. 110.123, F.S.; requiring inclusion of certain supplemental coverage within a supplemental insurance benefit plan;

1. To ensure timely completion of projects or avoidance of undue delay for other projects;
2. To accomplish minor repairs or construction and maintenance activities for which time is of the essence and for which significant cost savings would occur; or
3. To accomplish nonemergency work necessary to ensure avoidance of adverse conditions that affect the safe and efficient flow of traffic.

The department shall make a good faith effort to obtain two or more quotes, if available, from qualified contractors before entering into any contract. The department shall give consideration to disadvantaged business enterprise participation. However, when the work exists within the limits of an existing contract, the department shall make a good faith effort to negotiate and enter into a contract with the prime contractor on the existing contract.

If applicable, the resolution must state that the district school board has been recognized by the State Board of Education as having a Florida Frugal Schools Program. The statement shall conform to the requirements of s. 101.161 and shall be placed on the ballot by the governing body of the county. The following question shall be placed on the ballot:

... FOR THE	... CENTS TAX
... AGAINST THE	... CENTS TAX

(c) *As an alternative method of levying the discretionary sales surtax, the district school board may levy, pursuant to resolution adopted by a two-thirds vote of the members of the school board, a discretionary sales surtax at a rate not to exceed 0.5 percent when the following conditions are met:*

Additionally, the plan shall include the costs of retrofitting and providing for technology implementation, including hardware and software, for the various sites within the school district. Surtax revenues may be used for the purpose of servicing bond indebtedness to finance projects authorized by this subsection, and any interest accrued thereto may be held in trust to finance such projects. Neither the proceeds of the surtax nor any interest accrued thereto shall be used for operational expenses. (3) The jury shall determine solely the amount of compensation to be paid, which compensation shall include:

(a) The value of the property sought to be appropriated;

(b) Where less than the entire property is sought to be appropriated, any damages to the remainder caused by the taking, including, when the action is by the Department of Transportation, county, municipality, board, district or other public body for the condemnation of a right-of-way, and the effect of the taking of the property involved may damage or destroy an established business of more than 4 years' standing before January 1, 2005, or the effect of the taking of the property involved may damage or destroy an established business of more than 5 years' standing on or after January 1, 2005, owned by the party whose lands are being so taken, located upon adjoining lands owned or held by such party, the probable damages to such business which the denial of the use of the property so taken may reasonably cause; any person claiming the right to recover such special damages shall set forth in his or her written defenses the nature and extent of such damages; and

(c) Where the appropriation is of property upon which a mobile home, other than a travel trailer as defined in s. 320.01, is located, whether or not the owner of the mobile home is an owner or lessee of the property involved, and the effect of the taking of the property involved requires the relocation of such mobile home, the reasonable removal or relocation expenses incurred by such mobile home owner, not to exceed the replacement value of such mobile home. The compensation paid to a mobile home owner under this paragraph shall preclude an award to a mobile home park owner for such expenses of removal or relocation. Any mobile home owner claiming the right to such removal or relocation expenses shall set forth in his or her written defenses the nature and extent of such expenses. Section 36. Section 341.8201, Florida Statutes, is created to read:

341.8201 *Short title.—Sections 341.8201-341.843 may be cited as the "Florida High-Speed Rail Authority Act."*

Section 37. Section 341.8202, Florida Statutes, is created to read:

341.8202 *Legislative findings, policy, purpose, and intent.—*

(1) *The intent of this act is to implement the purpose of s. 19, Art. X of the State Constitution, which directs the Legislature, the Cabinet and the Governor to proceed with the development, either by the state or an approved private entity, of a high-speed monorail, fixed guideway, or magnetic levitation system, capable of speeds in excess of 120 miles per hour. The development of such a system, which will link Florida's five largest urban areas as defined in this act, includes acquisition of right-of-way and the financing of design and construction with construction beginning on or before November 1, 2003. Further, this act promotes the various growth management and environmental protection laws enacted by the Legislature and encourages and enhances the establishment of a high-speed rail system. The Legislature further finds that:*

(a) *The implementation of a high-speed rail system in the state will result in overall social and environmental benefits, improvements in ambient air quality, better protection of water quality, greater preservation of wildlife habitat, less use of open space, and enhanced conservation of natural resources and energy.*

(b) *A high-speed rail system, when developed in conjunction with sound land use planning, becomes an integral part in achieving growth management goals and encourages the use of public transportation to augment and implement land use and growth management goals and objectives.*

(c) *Development and utilization of a properly designed, constructed, and financed high-speed rail system and associated development can act as a catalyst for economic growth and development, mitigate unduly long and traffic-congested commutes for day-to-day commuters, create new employment opportunities, serve as a positive growth management system for building a better and more environmentally secure state, and serve a paramount public purpose by promoting the health, safety, and welfare of the citizens of the state.*

(d) *Transportation benefits of a high-speed rail system include improved travel times and more reliable travel, which will increase productivity and energy efficiency in the state.*

(2) *The Legislature further finds that:*

(a) *Access to timely and efficient modes of passenger transportation is necessary for travelers, visitors, and day-to-day commuters, to the quality of life in the state, and to the economy of the state.*

(b) *Technological advances in the state's transportation system can significantly and positively affect the ability of the state to attract and provide efficient services for domestic and international tourists and therefore increase revenue of the state.*

(c) *The geography of the state is suitable for the construction and efficient operation of a high-speed rail system.*

(d) *The public use of the high-speed rail system must be encouraged and assured in order to achieve the public purpose and objectives set forth in this act. In order to encourage the public use of the high-speed rail system and to protect the public investment in the system, it is necessary to provide an environment surrounding each high-speed rail station which will allow the development of associated development for the purpose of creating revenue in support of and for the high-speed rail system, enhance the safe movement of pedestrians and traffic into and out of the area, ensure the personal safety of high-speed rail system and related facility users and their personal property while the users are in the area of each station, and eliminate all conditions in the vicinity which constitute economic and social impediments and barriers to the use of the high-speed rail system and associated development.*

(e) *Areas surrounding certain proposed high-speed rail stations can, as a result of existing conditions, crime, and traffic congestion, pose a serious threat to the use of the high-speed rail system, reduce revenue from users, discourage pedestrian and traffic ingress and egress, retard sound growth and development, impair public investment, and consume an excessive amount of public revenues in the employment of police and*

other forms of public protection to adequately safeguard the high-speed rail system and its users. Such areas may require redevelopment, acquisition, clearance, or disposition, or joint public and private development to provide parking facilities, retail establishments, restaurants, hotels, or office facilities associated with or ancillary to the high-speed rail system and rail stations and to otherwise provide for an environment that will encourage the use of, and safeguard, the system.

(f) The powers conferred by this act are for public uses and purposes as established by s. 19, Art. X of the State Constitution for which public funds may be expended, and the necessity in the public interest for the provisions herein enacted is hereby declared as a matter of legislative determination to implement the intent of s. 19, Art. X of the State Constitution.

(g) Urban and social benefits include revitalization of economically depressed areas, the redirection of growth in a carefully and comprehensively planned manner, and the creation of numerous employment opportunities within inner-city areas.

(h) The provisions contained in this act are a declaration of legislative intent that the state develop a high-speed rail system to help solve transportation problems and eliminate their negative effect on the citizens of this state, and therefore serves a public purpose.

(i) Joint development is a necessary planning, financing, management, operation, and construction mechanism to ensure the continued future development of an efficient and economically viable high-speed rail system in this state.

(3) It is the intent of the Legislature to authorize the authority to implement innovative mechanisms required to effect the joint public-private venture approach to planning, locating, permitting, managing, financing, constructing, operating, and maintaining a high-speed rail system for the state, including providing incentives for revenue generation, operation, construction, and management by the private sector.

Such techniques may include, but are not limited to, state-of-the-art technology for pavement, safety, and other aspects of highway construction and maintenance; innovative bidding and financing techniques; accelerated construction procedures; and those techniques that have the potential to reduce project life cycle costs. To the maximum extent practical, the department must use the existing process to award and administer construction and maintenance contracts. When specific innovative techniques are to be used, the department is not required to adhere to those provisions of law that would prevent, preclude, or in any way prohibit the department from using the innovative technique. However, prior to using an innovative technique that is inconsistent with another provision of law, the department must document in writing the need for the exception and identify what benefits the traveling public and the affected community are anticipated to receive. 2. To accomplish minor repairs or construction and maintenance activities for which time is of the essence and for which significant cost savings would occur; or
3. To accomplish nonemergency work necessary to ensure avoidance of adverse conditions that affect the safe and efficient flow of traffic.

The department shall make a good faith effort to obtain two or more quotes, if available, from qualified contractors before entering into any contract. The department shall give consideration to disadvantaged business enterprise participation. However, when the work exists within the limits of an existing contract, the department shall make a good faith effort to negotiate and enter into a contract with the prime contractor on the existing contract.

However, construction activities may not begin on any portion of such projects until title to the necessary rights-of-way and easements for the construction of that portion of the project has vested in the state or a local governmental entity and all railroad crossing and utility agreements have been executed. Title to rights-of-way vests in the state when the title has been dedicated to the public or acquired by prescription.*

Funds for resurfacing, bridge repair and rehabilitation, bridge fender system construction or repair, public transit projects except public transit block grants as provided in s. 341.052, and other programs with quantitative needs assessments shall be allocated based on the results of these assessments. The department may not transfer any funds allocated to a district under this paragraph to any other district except as provided in subsection (7). Funds for public transit block grants shall be allocated to the districts pursuant to s. 341.052.

2. Notwithstanding the provisions of subparagraph 1., the department shall allocate at least 50 percent of any new discretionary highway capacity funds to the Florida Intrastate Highway System established pursuant to s. 338.001. Any remaining new discretionary highway capacity funds shall be allocated to the districts for new construction as provided in subparagraph 1. For the purposes of this subparagraph, the term “new discretionary highway capacity funds” means any funds available to the department above the prior year funding level for capacity improvements, which the department has the discretion to allocate to highway projects.

(f) The central office shall submit a preliminary copy of the tentative work program to the Executive Office of the Governor, the legislative appropriations committees, the Florida Transportation Commission, and the Department of Community Affairs at least 14 days prior to the convening of the regular legislative session. Prior to the statewide public hearing required by paragraph (g), the Department of Community Affairs shall transmit to the Florida Transportation Commission a list of those projects and project phases contained in the tentative work program which are identified as being inconsistent with approved local government comprehensive plans. For urbanized areas of metropolitan planning organizations, the list may not contain any project or project

phase that is scheduled in a transportation improvement program unless such inconsistency has been previously reported to the affected metropolitan planning organization. ~~The commission shall consider the list as part of its evaluation of the tentative work program conducted pursuant to s. 20.23.~~

(g)1. The Florida Transportation Commission shall conduct a statewide public hearing on the tentative work program and shall advertise the time, place, and purpose of the hearing in the Florida Administrative Weekly at least 7 days prior to the hearing. However, nothing contained in this subsection shall operate to limit such agencies from adjusting their fee schedule in conformance with existing authority.

Section 28. Section 341.8201, Florida Statutes, is created to read:

341.8201 *Short title.—Sections 341.8201-341.843 may be cited as the "Florida High-Speed Rail Authority Act."*

Section 29. Section 341.8202, Florida Statutes, is created to read:

341.8202 *Legislative findings, policy, purpose, and intent.—*

(1) *The intent of this act is to implement the purpose of s. 19, Art. X of the State Constitution, which directs the Legislature, the Cabinet and the Governor to proceed with the development, either by the state or an approved private entity, of a high-speed monorail, fixed guideway, or magnetic levitation system, capable of speeds in excess of 120 miles per hour. The development of such a system, which will link Florida's five largest urban areas as defined in this act, includes acquisition of right-of-way and the financing of design and construction with construction beginning on or before November 1, 2003. Further, this act promotes the various growth management and environmental protection laws enacted by the Legislature and encourages and enhances the establishment of a high-speed rail system. The Legislature further finds that:*

(a) *The implementation of a high-speed rail system in the state will result in overall social and environmental benefits, improvements in ambient air quality, better protection of water quality, greater preservation of wildlife habitat, less use of open space, and enhanced conservation of natural resources and energy.*

(b) *A high-speed rail system, when developed in conjunction with sound land use planning, becomes an integral part in achieving growth management goals and encourages the use of public transportation to augment and implement land use and growth management goals and objectives.*

(c) *Development and utilization of a properly designed, constructed, and financed high-speed rail system and associated development can act as a catalyst for economic growth and development, mitigate unduly long and traffic-congested commutes for day-to-day commuters, create new employment opportunities, serve as a positive growth management system for building a better and more environmentally secure state, and serve a paramount public purpose by promoting the health, safety, and welfare of the citizens of the state.*

(d) *Transportation benefits of a high-speed rail system include improved travel times and more reliable travel, which will increase productivity and energy efficiency in the state.*

(2) *The Legislature further finds that:*

(a) *Access to timely and efficient modes of passenger transportation is necessary for travelers, visitors, and day-to-day commuters, to the quality of life in the state, and to the economy of the state.*

(b) Technological advances in the state's transportation system can significantly and positively affect the ability of the state to attract and provide efficient services for domestic and international tourists and therefore increase revenue of the state.

(c) The geography of the state is suitable for the construction and efficient operation of a high-speed rail system.

(d) The public use of the high-speed rail system must be encouraged and assured in order to achieve the public purpose and objectives set forth in this act. In order to encourage the public use of the high-speed rail system and to protect the public investment in the system, it is necessary to provide an environment surrounding each high-speed rail station which will allow the development of associated development for the purpose of creating revenue in support of and for the high-speed rail system, enhance the safe movement of pedestrians and traffic into and out of the area, ensure the personal safety of high-speed rail system and related facility users and their personal property while the users are in the area of each station, and eliminate all conditions in the vicinity which constitute economic and social impediments and barriers to the use of the high-speed rail system and associated development.

(e) Areas surrounding certain proposed high-speed rail stations can, as a result of existing conditions, crime, and traffic congestion, pose a serious threat to the use of the high-speed rail system, reduce revenue from users, discourage pedestrian and traffic ingress and egress, retard sound growth and development, impair public investment, and consume an excessive amount of public revenues in the employment of police and other forms of public protection to adequately safeguard the high-speed rail system and its users. Such areas may require redevelopment, acquisition, clearance, or disposition, or joint public and private development to provide parking facilities, retail establishments, restaurants, hotels, or office facilities associated with or ancillary to the high-speed rail system and rail stations and to otherwise provide for an environment that will encourage the use of, and safeguard, the system.

(f) The powers conferred by this act are for public uses and purposes as established by s. 19, Art. X of the State Constitution for which public funds may be expended, and the necessity in the public interest for the provisions herein enacted is hereby declared as a matter of legislative determination to implement the intent of s. 19, Art. X of the State Constitution.

(g) Urban and social benefits include revitalization of economically depressed areas, the redirection of growth in a carefully and comprehensively planned manner, and the creation of numerous employment opportunities within inner-city areas.

(h) The provisions contained in this act are a declaration of legislative intent that the state develop a high-speed rail system to help solve transportation problems and eliminate their negative effect on the citizens of this state, and therefore serves a public purpose.

(i) Joint development is a necessary planning, financing, management, operation, and construction mechanism to ensure the continued future development of an efficient and economically viable high-speed rail system in this state.

(3) It is the intent of the Legislature to authorize the authority to implement innovative mechanisms required to effect the joint public-private venture approach to planning, locating, permitting, managing, financing, constructing, operating, and maintaining a high-speed rail system for the state, including providing incentives for revenue generation, operation, construction, and management by the private sector.

Section 62. Paragraph (a) of subsection (1) of section 255.20, Florida Statutes, is amended to read:

255.20 Local bids and contracts for public construction works; specification of state-produced lumber.—

(1) A county, municipality, special district as defined in chapter 189, or other political subdivision of the state seeking to construct or improve a public building, structure, or other public construction works must competitively award to an appropriately licensed contractor each project that is estimated in accordance with generally accepted cost-accounting principles to have total construction project costs of more than \$200,000. For electrical work, local government must competitively award to an appropriately licensed contractor each project that is estimated in accordance with generally accepted cost-accounting principles to have a cost of more than \$50,000. As used in this section, the term "competitively award" means to award contracts based on the submission of sealed bids, proposals submitted in response to a request for proposal, proposals submitted in response to a request for

qualifications, or proposals submitted for competitive negotiation. This subsection expressly allows contracts for construction management services, design/build contracts, continuation contracts based on unit prices, and any other contract arrangement with a private sector contractor permitted by any applicable municipal or county ordinance, by district resolution, or by state law. For purposes of this section, construction costs include the cost of all labor, except inmate labor, and include the cost of equipment and materials to be used in the construction of the project. Subject to the provisions of subsection (3), the county, municipality, special district, or other political subdivision may establish, by municipal or county ordinance or special district resolution, procedures for conducting the bidding process.

(a) The provisions of this subsection do not apply:

1. When the project is undertaken to replace, reconstruct, or repair an existing facility damaged or destroyed by a sudden unexpected turn of events, such as an act of God, riot, fire, flood, accident, or other urgent circumstances, and such damage or destruction creates:

- a. An immediate danger to the public health or safety;
- b. Other loss to public or private property which requires emergency government action; or
- c. An interruption of an essential governmental service.

2. When, after notice by publication in accordance with the applicable ordinance or resolution, the governmental entity does not receive any responsive bids or responses.

3. To construction, remodeling, repair, or improvement to a public electric or gas utility system when such work on the public utility system is performed by personnel of the system.

4. To construction, remodeling, repair, or improvement by a utility commission whose major contracts are to construct and operate a public electric utility system.

5. When the project is undertaken as repair or maintenance of an existing public facility.

6. When the project is undertaken exclusively as part of a public educational program.

7. When the funding source of the project will be diminished or lost because the time required to competitively award the project after the funds become available exceeds the time within which the funding source must be spent.

8. When the local government has competitively awarded a project to a private sector contractor and the contractor has abandoned the project before completion or the local government has terminated the contract.

9. When the governing board of the local government, after public notice, conducts a public meeting under s. 286.011 and finds by a majority vote of the governing board that it is in the public's best interest to perform the project using its own services, employees, and equipment. The public notice must be published at least 14 days prior to the date of the public meeting at which the governing board takes final action to apply this subparagraph. The notice must identify the project, the estimated cost of the project, and specify that the purpose for the public meeting is to consider whether it is in the public's best interest to perform the project using the local government's own services, employees, and equipment. In deciding whether it is in the public's best interest for local government to perform a project using its own services, employees, and equipment, the governing board may consider the cost of the project, whether the project requires an increase in the number of government employees, an increase in capital expenditures for public facilities, equipment or other capital assets, the impact on local economic development, the impact on small and minority business owners, the impact on state and local tax revenues, whether the private sector contractors provide health insurance and other benefits equivalent to those provided by the local government, and any other factor relevant to what is in the public's best interest.

10. When the governing board of the local government determines upon consideration of specific substantive criteria and administrative procedures that it is in the best interest of the local government to award the project to an appropriately licensed private sector contractor according to procedures established by and expressly set forth in a charter, ordinance, or resolution of the local government adopted prior to July 1, 1994. The criteria and procedures must be set out in the charter, ordinance, or resolution and must be applied uniformly by the local government to avoid award of any project in an arbitrary or capricious manner. This exception shall apply when all of the following occur:

a. When the governing board of the local government, after public notice, conducts a public meeting under s. 286.011 and finds by a two-thirds vote of the governing board that it is in the public's best interest to award the project according to the criteria and procedures established by charter, ordinance, or resolution. The public notice must be published at least 14 days prior to the date of the public meeting at which the governing board takes final action to apply this subparagraph. The notice must identify the project, the estimated cost of the project, and specify that the purpose for the public meeting is to consider whether it is in the public's best interest to award the project using the criteria and procedures permitted by the preexisting ordinance.

b. In the event the project is to be awarded by any method other than a competitive selection process, the governing board must find evidence that:

(I) There is one appropriately licensed contractor who is uniquely qualified to undertake the project because that contractor is currently under contract to perform work that is affiliated with the project; or

(II) The time to competitively award the project will jeopardize the funding for the project, or will materially increase the cost of the project or will create an undue hardship on the public health, safety, or welfare.

c. In the event the project is to be awarded by any method other than a competitive selection process, the published notice must clearly specify the ordinance or resolution by which the private sector contractor will be selected and the criteria to be considered.

d. In the event the project is to be awarded by a method other than a competitive selection process, the architect or engineer of record has provided a written recommendation that the project be awarded to the private sector contractor without competitive selection; and the consideration by, and the justification of, the government body are documented, in writing, in the project file and are presented to the governing board prior to the approval required in this paragraph.

11. *To projects subject to chapter 336.*

Section 93. Section 373.4137, Florida Statutes, is amended to read:

373.4137 Mitigation requirements.—

(1) The Legislature finds that environmental mitigation for the impact of transportation projects proposed by the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 can be more effectively achieved by regional, long-range mitigation planning rather than on a project-by-project basis. It is the intent of the Legislature that mitigation to offset the adverse effects of these transportation projects be funded by the Department of Transportation and be carried out by the Department of Environmental Protection and the water management districts, including the use of mitigation banks established pursuant to this part.

(2) Environmental impact inventories for transportation projects proposed by the Department of Transportation *or a transportation authority established pursuant to chapter 348 or chapter 349* shall be developed as follows:

(a) By May 1 of each year, the Department of Transportation *or a transportation authority established pursuant to chapter 348 or chapter 349* shall submit to the Department of Environmental Protection and the water management districts a copy of its adopted work program and an inventory of habitats addressed in the rules tentatively, pursuant to this part and s. 404 of the Clean Water Act, 33 U.S.C. s. 1344, which may be impacted by its plan of construction for transportation projects in the next 3 years of the tentative work program. The Department of Transportation *or a transportation authority established pursuant to chapter 348 or chapter 349* may also include in its inventory the habitat impacts of any future transportation project identified in the tentative work program.

(b) The environmental impact inventory shall include a description of these habitat impacts, including their location, acreage, and type; state water quality classification of impacted wetlands and other surface waters; any other state or regional designations for these habitats; and a survey of threatened species, endangered species, and species of special concern affected by the proposed project.

(3)(a) To fund the mitigation plan for the projected impacts identified in the inventory described in subsection (2), the Department of Transportation shall identify funds quarterly in an escrow account within the State Transportation Trust Fund for the environmental mitigation phase of projects budgeted by the Department of Transportation for the current fiscal year. The escrow account shall be maintained by the Department of Transportation for the benefit of the Department of Environmental Protection and the water management districts. Any interest earnings from the escrow account shall remain with the Department of Transportation.

(b) *Each transportation authority established pursuant to chapter 348 or chapter 349 that chooses to participate in this program shall create an escrow account within its financial structure and deposit funds in the account to pay for the environmental mitigation phase of projects budgeted for the current fiscal year. The escrow account shall be maintained by the authority for the benefit of the Department of Environmental Protection and the water management districts. Any interest earnings from the escrow account shall remain with the authority.*

(c) The Department of Environmental Protection or water management districts may request a transfer of funds from *an* the escrow account no sooner than 30 days prior to the date the funds are needed to pay for activities associated with development or implementation of the approved mitigation plan described in subsection (4) for the current fiscal year, including, but not limited to, design, engineering, production, and staff support. Actual conceptual plan preparation costs incurred before plan approval may be submitted to the Department of Transportation *or the appropriate transportation authority* and the Department of Environmental Protection by November 1 of each year with the plan. The conceptual plan preparation costs of each water management district will be paid based on the amount approved on the mitigation plan and allocated to the current fiscal year projects identified by the water management district. The amount transferred to the escrow ~~accounts~~ *account* each year by the Department of Transportation *and participating transportation authorities established pursuant to chapter 348 or chapter 349* shall correspond to a cost per acre of \$75,000 multiplied by the projected acres of impact identified in the inventory described in subsection (2). However, the \$75,000 cost per acre does not constitute an admission against interest by the state or its subdivisions nor is the cost admissible as evidence of full compensation for any property acquired by eminent domain or through inverse condemnation. Each July 1, the cost per acre shall be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period

ending September 30, 1996. At the end of each year, the projected acreage of impact shall be reconciled with the acreage of impact of projects as permitted, including permit modifications, pursuant to this part and s. 404 of the Clean Water Act, 33 U.S.C. s. 1344. The subject year's transfer of funds shall be adjusted accordingly to reflect the overtransfer or undertransfer of funds from the preceding year. The Department of Transportation *and participating transportation authorities established pursuant to chapter 348 or chapter 349* ~~are~~ *is* authorized to transfer such funds from the escrow ~~accounts~~ *account* to the Department of Environmental Protection and the water management districts to carry out the mitigation programs.

(4) Prior to December 1 of each year, each water management district, in consultation with the Department of Environmental Protection, the United States Army Corps of Engineers, the Department of Transportation, *transportation authorities established pursuant to chapter 348 or chapter 349*, and other appropriate federal, state, and local governments, and other interested parties, including entities operating mitigation banks, shall develop a plan for the primary purpose of complying with the mitigation requirements adopted pursuant to this part and 33 U.S.C. s. 1344. This plan shall also address significant invasive plant problems within wetlands and other surface waters. In developing such plans, the districts shall utilize sound ecosystem management practices to address significant water resource needs and shall focus on activities of the Department of Environmental Protection and the water management districts, such as surface water improvement and management (SWIM) waterbodies and lands identified for potential acquisition for preservation, restoration, and enhancement, to the extent that such activities comply with the mitigation requirements adopted under this part and 33 U.S.C. s. 1344. In determining the activities to be included in such plans, the districts shall also consider the purchase of credits from public or private mitigation banks permitted under s. 373.4136 and associated federal authorization and shall include such purchase as a part of the mitigation plan when such purchase would offset the impact of the transportation project, provide equal benefits to the water resources than other mitigation options being considered, and provide the most cost-effective mitigation option. The mitigation plan shall be preliminarily approved by the water management district governing board and shall be submitted to the secretary of the Department of Environmental Protection for review and final approval. The preliminary approval by the water management district governing board does not constitute a decision that affects substantial interests as provided by s. 120.569. At least 30 days prior to preliminary approval, the water management district shall provide a copy of the draft mitigation plan to any person who has requested a copy.

(a) For each transportation project with a funding request for the next fiscal year, the mitigation plan must include a brief explanation of why a mitigation bank was or was not chosen as a mitigation option, including an estimation of identifiable costs of the mitigation bank and nonbank options to the extent practicable.

(b) Specific projects may be excluded from the mitigation plan and shall not be subject to this section upon the agreement of the Department of Transportation, *a transportation authority if applicable*, the Department of Environmental Protection, and the appropriate water management district that the inclusion of such projects would hamper the efficiency or timeliness of the mitigation planning and permitting process, or the Department of Environmental Protection and the water management district are unable to identify mitigation that would offset the impacts of the project.

(c) Surface water improvement and management or invasive plant control projects undertaken using the \$12 million advance transferred from the Department of Transportation to the Department of Environmental Protection in fiscal year 1996-1997 which meet the requirements for mitigation under this part and 33 U.S.C. s. 1344 shall remain available for mitigation until the \$12 million is fully credited up to and including fiscal year 2004-2005. When these projects are used as mitigation, the \$12 million advance shall be reduced by \$75,000 per acre of impact mitigated. For any fiscal year through and including fiscal year 2004-2005, to the extent the cost of developing and implementing

the mitigation plans is less than the amount transferred pursuant to subsection (3), the difference shall be credited towards the \$12 million advance. Except as provided in this paragraph, any funds not directed to implement the mitigation plan should, to the greatest extent possible, be directed to fund invasive plant control within wetlands and other surface waters.

(5) The water management district shall be responsible for ensuring that mitigation requirements pursuant to 33 U.S.C. s. 1344 are met for the impacts identified in the inventory described in subsection (2), by implementation of the approved plan described in subsection (4) to the extent funding is provided by the Department of Transportation, *or a transportation authority established pursuant to chapter 348 or chapter 349, if applicable*. During the federal permitting process, the water management district may deviate from the approved mitigation plan in order to comply with federal permitting requirements.

(6) The mitigation ~~plans plan~~ shall be updated annually to reflect the most current Department of Transportation work program *and project list of a transportation authority established pursuant to chapter 348 or chapter 349, if applicable*, and may be amended throughout the year to anticipate schedule changes or additional projects which may arise. Each update and amendment of the mitigation plan shall be submitted to the secretary of the Department of Environmental Protection for approval. However, such approval shall not be applicable to a deviation as described in subsection (5).

(7) Upon approval by the secretary of the Department of Environmental Protection, the mitigation plan shall be deemed to satisfy the mitigation requirements under this part and any other mitigation requirements imposed by local, regional, and state agencies for impacts identified in the inventory described in subsection (2). The approval of the secretary shall authorize the activities proposed in the mitigation plan, and no other state, regional, or local permit or approval shall be necessary.

(8) This section shall not be construed to eliminate the need for the Department of Transportation *or a transportation authority established pursuant to chapter 348 or chapter 349* to comply with the requirement to implement practicable design modifications, including realignment of transportation projects, to reduce or eliminate the impacts of its transportation projects on wetlands and other surface waters as required by rules adopted pursuant to this part, or to diminish the authority under this part to regulate other impacts, including water quantity or water quality impacts, or impacts regulated under this part that are not identified in the inventory described in subsection (2).

(9) *The process for environmental mitigation for the impact of transportation projects under this section shall be available to an expressway, bridge, or transportation authority established under chapter 348 or chapter 349. Use of this process may be initiated by an authority depositing the requisite funds into an escrow account set up by the authority and filing an environmental impact inventory with the appropriate water management district. An authority that initiates the environmental mitigation process established by this section shall comply with subsection (6) by timely providing the appropriate water management district and the Department of Environmental Protection with the requisite work program information. A water management district may draw down funds from the escrow account as provided in this section.*

Section 94. Paragraph (b) of subsection (3) of section 380.04, Florida Statutes, is amended to read:

380.04 Definition of development.—

(3) The following operations or uses shall not be taken for the purpose of this chapter to involve “development” as defined in this section:

(b) Work by any utility and other persons engaged in the distribution or transmission of gas, *electricity*, or water, for the purpose of inspecting, repairing, renewing, or constructing on established rights-of-way any sewers, mains, pipes, cables, utility tunnels, power lines, towers, poles, tracks, or the like. *This provision conveys no property*

interest and does not eliminate any applicable notice requirements to affected land owners.

Section 95. Paragraph (d) of subsection (2), paragraph (b) of subsection (4), and paragraph (a) of subsection (8) of section 380.06, Florida Statutes, are amended to read:

380.06 Developments of regional impact.—

(2) STATEWIDE GUIDELINES AND STANDARDS.—

(d) The guidelines and standards shall be applied as follows:

1. Fixed thresholds.—

a. A development that is ~~at or~~ below 100 ~~80~~ percent of all numerical thresholds in the guidelines and standards shall not be required to undergo development-of-regional-impact review.

b. A development that is at or above 120 percent of any numerical threshold shall be required to undergo development-of-regional-impact review.

c. Projects certified under s. 403.973 which create at least 100 jobs and meet the criteria of the Office of Tourism, Trade, and Economic Development as to their impact on an area's economy, employment, and prevailing wage and skill levels that are at or below 100 percent of the numerical thresholds for industrial plants, industrial parks, distribution, warehousing or wholesaling facilities, office development or multiuse projects other than residential, as described in s. 380.0651(3)(c), (d), and (i), are not required to undergo development-of-regional-impact review.

2. Rebuttable ~~presumption~~ presumptions.—

~~a. It shall be presumed that a development that is between 80 and 100 percent of a numerical threshold shall not be required to undergo development-of-regional-impact review.~~

~~b. It shall be presumed that a development that is at 100 percent or between 100 and 120 percent of a numerical threshold shall be required to undergo development-of-regional-impact review.~~

(4) BINDING LETTER.—

(b) Unless a developer waives the requirements of this paragraph by agreeing to undergo development-of-regional-impact review pursuant to this section, the state land planning agency or local government with jurisdiction over the land on which a development is proposed may require a developer to obtain a binding letter if:

1. the development is at a presumptive numerical threshold or up to 20 percent above a numerical threshold in the guidelines and standards; ~~or~~

~~2. The development is between a presumptive numerical threshold and 20 percent below the numerical threshold and the local government or the state land planning agency is in doubt as to whether the character or magnitude of the development at the proposed location creates a likelihood that the development will have a substantial effect on the health, safety, or welfare of citizens of more than one county.~~

(8) PRELIMINARY DEVELOPMENT AGREEMENTS.—

(a) A developer may enter into a written preliminary development agreement with the state land planning agency to allow a developer to proceed with a limited amount of the total proposed development, subject to all other governmental approvals and solely at the developer's own risk, prior to issuance of a final development order. All owners of the land in the total proposed development shall join the developer as parties to the agreement. Each agreement shall include and be subject to the following conditions:

1. The developer shall comply with the preapplication conference requirements pursuant to subsection (7) within 45 days after the execution of the agreement.

2. The developer shall file an application for development approval for the total proposed development within 3 months after execution of

the agreement, unless the state land planning agency agrees to a different time for good cause shown. Failure to timely file an application and to otherwise diligently proceed in good faith to obtain a final development order shall constitute a breach of the preliminary development agreement.

3. The agreement shall include maps and legal descriptions of both the preliminary development area and the total proposed development area and shall specifically describe the preliminary development in terms of magnitude and location. The area approved for preliminary development must be included in the application for development approval and shall be subject to the terms and conditions of the final development order.

4. The preliminary development shall be limited to lands that the state land planning agency agrees are suitable for development and shall only be allowed in areas where adequate public infrastructure exists to accommodate the preliminary development, when such development will utilize public infrastructure. The developer must also demonstrate that the preliminary development will not result in material adverse impacts to existing resources or existing or planned facilities.

5. The preliminary development agreement may allow development which is:

a. Less than ~~or equal to~~ 100 80 percent of any applicable threshold if the developer demonstrates that such development is consistent with subparagraph 4.; or

b. Less than 120 percent of any applicable threshold if the developer demonstrates that such development is part of a proposed downtown development of regional impact specified in subsection (22) or part of any areawide development of regional impact specified in subsection (25) and that the development is consistent with subparagraph 4.

6. The developer and owners of the land may not claim vested rights, or assert equitable estoppel, arising from the agreement or any expenditures or actions taken in reliance on the agreement to continue with the total proposed development beyond the preliminary development. The agreement shall not entitle the developer to a final development order approving the total proposed development or to particular conditions in a final development order.

7. The agreement shall not prohibit the regional planning agency from reviewing or commenting on any regional issue that the regional agency determines should be included in the regional agency's report on the application for development approval.

8. The agreement shall include a disclosure by the developer and all the owners of the land in the total proposed development of all land or development within 5 miles of the total proposed development in which they have an interest and shall describe such interest.

9. In the event of a breach of the agreement or failure to comply with any condition of the agreement, or if the agreement was based on materially inaccurate information, the state land planning agency may terminate the agreement or file suit to enforce the agreement as provided in this section and s. 380.11, including a suit to enjoin all development.

10. A notice of the preliminary development agreement shall be recorded by the developer in accordance with s. 28.222 with the clerk of the circuit court for each county in which land covered by the terms of the agreement is located. The notice shall include a legal description of the land covered by the agreement and shall state the parties to the agreement, the date of adoption of the agreement and any subsequent amendments, the location where the agreement may be examined, and that the agreement constitutes a land development regulation applicable to portions of the land covered by the agreement. The provisions of the agreement shall inure to the benefit of and be binding upon successors and assigns of the parties in the agreement.

11. Except for those agreements which authorize preliminary development for substantial deviations pursuant to subsection (19), a

developer who no longer wishes to pursue a development of regional impact may propose to abandon any preliminary development agreement executed after January 1, 1985, including those pursuant to s. 380.032(3), provided at the time of abandonment:

a. A final development order under this section has been rendered that approves all of the development actually constructed; or

b. The amount of development is less than 100 80 percent of all numerical thresholds of the guidelines and standards, and the state land planning agency determines in writing that the development to date is in compliance with all applicable local regulations and the terms and conditions of the preliminary development agreement and otherwise adequately mitigates for the impacts of the development to date.

In either event, when a developer proposes to abandon said agreement, the developer shall give written notice and state that he or she is no longer proposing a development of regional impact and provide adequate documentation that he or she has met the criteria for abandonment of the agreement to the state land planning agency. Within 30 days of receipt of adequate documentation of such notice, the state land planning agency shall make its determination as to whether or not the developer meets the criteria for abandonment. Once the state land planning agency determines that the developer meets the criteria for abandonment, the state land planning agency shall issue a notice of abandonment which shall be recorded by the developer in accordance with s. 28.222 with the clerk of the circuit court for each county in which land covered by the terms of the agreement is located.

Section 96. (1) *Nothing contained in this act abridges or modifies any vested or other right or any duty or obligation pursuant to any development order or agreement that is applicable to a development of regional impact on the effective date of this act. A development that has received a development-of-regional-impact development order pursuant to s. 380.06, Florida Statutes 2001, but is no longer required to undergo development-of-regional-impact review by operation of this act, shall be governed by the following procedures:*

(a) *The development shall continue to be governed by the development-of-regional-impact development order and may be completed in reliance upon and pursuant to the development order. The development-of-regional-impact development order may be enforced by the local government as provided by ss. 380.06(17) and 380.11, Florida Statutes 2001.*

(b) *If requested by the developer or landowner, the development-of-regional-impact development order may be abandoned pursuant to the process in subsection 380.06(26).*

(2) *A development with an application for development approval pending on the effective date of this act, or a notification of proposed change pending on the effective date of this act, may elect to continue such review pursuant to s. 380.06, Florida Statutes 2001. At the conclusion of the pending review, including any appeals pursuant to s. 380.07, Florida Statutes 2001, the resulting development order shall be governed by the provisions of subsection (1).*

Section 97. Paragraph (d) is added to subsection (10) of section 768.28, Florida Statutes, to read:

768.28 Waiver of sovereign immunity in tort actions; recovery limits; limitation on attorney fees; statute of limitations; exclusions; indemnification; risk management programs.—

(10)

(d) *For the purposes of this section, operators, dispatchers, and providers of security for rail services and rail facility maintenance providers in the South Florida Rail Corridor, or any of their employees or agents, performing such services under contract with and on behalf of the Tri-County Commuter Rail Authority or the Department of Transportation shall be considered agents of the state while acting within the scope of and pursuant to guidelines established in said contract or by rule.*

Section 98. *Dori Slosberg Driver Education Safety Act.—Effective October 1, 2002, notwithstanding the provisions of s. 318.121, Florida Statutes, a board of county commissioners may require, by ordinance, that the clerk of the court collect an additional \$3 with each civil traffic penalty, which shall be used to fund traffic education programs in public and nonpublic schools. The ordinance shall provide for the board of county commissioners to administer the funds. The funds shall be used for direct educational expenses and shall not be used for administration. This section may be cited as the “Dori Slosberg Driver Education Safety Act.”*

Section 99. Subsection (2) of section 2 of chapter 88-418, Laws of Florida, is amended to read:

Section 2. Crandon Boulevard is hereby designated as a state historic highway. No public funds shall be expended for:

(2) The alteration of the physical dimensions or location of Crandon Boulevard, the median strip thereof, or the land adjacent thereto, except for:

(a) The routine or emergency utilities maintenance activities necessitated to maintain the road as a utility corridor serving the village of Key Biscayne; or

(b) *The modification or improvements made to provide for vehicular ingress and egress of governmental public safety vehicles.*

Section 100. Paragraph (a) of subsection (1) of section 212.055, Florida Statutes, is amended to read:

212.055 Discretionary sales surtaxes; legislative intent; authorization and use of proceeds.—It is the legislative intent that any authorization for imposition of a discretionary sales surtax shall be published in the Florida Statutes as a subsection of this section, irrespective of the duration of the levy. Each enactment shall specify the types of counties authorized to levy; the rate or rates which may be imposed; the maximum length of time the surtax may be imposed, if any; the procedure which must be followed to secure voter approval, if required; the purpose for which the proceeds may be expended; and such other requirements as the Legislature may provide. Taxable transactions and administrative procedures shall be as provided in s. 212.054.

(1) CHARTER COUNTY TRANSIT SYSTEM SURTAX.—

(a) Each charter county *which adopted a charter prior to January 1, 1984 which adopted a charter prior to June 1, 1976*, and each county the government of which is consolidated with that of one or more municipalities, may levy a discretionary sales surtax, subject to approval by a majority vote of the electorate of the county or by a charter amendment approved by a majority vote of the electorate of the county.

Section 101. Paragraph (b) of subsection (2) and paragraph (b) of subsection (3) of section 316.006, Florida Statutes, are amended to read:

316.006 Jurisdiction.—Jurisdiction to control traffic is vested as follows:

(2) MUNICIPALITIES.—

(b) A municipality may exercise jurisdiction over any private road or roads, or over any limited access road or roads owned or controlled by a special district, located within its boundaries if the municipality and party or parties owning or controlling such road or roads provide, by written agreement approved by the governing body of the municipality, for municipal traffic control jurisdiction over the road or roads encompassed by such agreement. Pursuant thereto:

1. Provision for reimbursement for actual costs of traffic control and enforcement and for liability insurance and indemnification by the party or parties, and such other terms as are mutually agreeable, may be included in such an agreement.

2. The exercise of jurisdiction provided for herein shall be in addition to jurisdictional authority presently exercised by municipalities under law, and nothing in this paragraph shall be construed to limit or remove

any such jurisdictional authority. Such jurisdiction includes regulation of access to such road or roads by security devices or personnel.

3. *Any such agreement may provide for the installation of multiparty stop signs by the parties controlling the roads covered by the agreement if a determination is made by such parties that the signage will enhance traffic safety. Multiparty stop signs must conform to the manual and specifications of the Department of Transportation; however, minimum traffic volumes may not be required for the installation of such signage. Enforcement for the signs shall be as provided in s. 316.123.*

This subsection shall not limit those counties which have the charter powers to provide and regulate arterial, toll, and other roads, bridges, tunnels, and related facilities from the proper exercise of those powers by the placement and maintenance of traffic control devices which conform to the manual and specifications of the Department of Transportation on streets and highways located within municipal boundaries.

(3) COUNTIES.—

(b) A county may exercise jurisdiction over any private road or roads, or over any limited access road or roads owned or controlled by a special district, located in the unincorporated area within its boundaries if the county and party or parties owning or controlling such road or roads provide, by written agreement approved by the governing body of the county, for county traffic control jurisdiction over the road or roads encompassed by such agreement. Pursuant thereto:

1. Provision for reimbursement for actual costs of traffic control and enforcement and for liability insurance and indemnification by the party or parties, and such other terms as are mutually agreeable, may be included in such an agreement.

2. Prior to entering into an agreement which provides for enforcement of the traffic laws of the state over a private road or roads, or over any limited access road or roads owned or controlled by a special district, the governing body of the county shall consult with the sheriff. No such agreement shall take effect prior to October 1, the beginning of the county fiscal year, unless this requirement is waived in writing by the sheriff.

3. The exercise of jurisdiction provided for herein shall be in addition to jurisdictional authority presently exercised by counties under law, and nothing in this paragraph shall be construed to limit or remove any such jurisdictional authority.

4. *Any such agreement may provide for the installation of multiparty stop signs by the parties controlling the roads covered by the agreement if a determination is made by such parties that the signage will enhance traffic safety. Multiparty stop signs must conform to the manual and specifications of the Department of Transportation; however, minimum traffic volumes may not be required for the installation of such signage. Enforcement for the signs shall be as provided in s. 316.123.*

Notwithstanding the provisions of subsection (2), each county shall have original jurisdiction to regulate parking, by resolution of the board of county commissioners and the erection of signs conforming to the manual and specifications of the Department of Transportation, in parking areas located on property owned or leased by the county, whether or not such areas are located within the boundaries of chartered municipalities.

Section 102. Paragraph (c) of subsection (3) of section 316.066, Florida Statutes, is amended to read:

316.066 Written reports of crashes.—

(3)

(c) Crash reports required by this section which reveal the identity, home or employment telephone number or home or employment address of, or other personal information concerning the parties involved in the crash and which are received or prepared by any agency that regularly receives or prepares information from or concerning the parties to motor vehicle crashes are confidential and exempt from s. 119.07(1) and s.

24(a), Art. I of the State Constitution for a period of 60 days after the date the report is filed. However, such reports may be made immediately available to the parties involved in the crash, their legal representatives, their licensed insurance agents, their insurers or insurers to which they have applied for coverage, persons under contract with such insurers to provide claims or underwriting information, prosecutorial authorities, radio and television stations licensed by the Federal Communications Commission, newspapers qualified to publish legal notices under ss. 50.011 and 50.031, and free newspapers of general circulation, published once a week or more often, available and of interest to the public generally for the dissemination of news. For the purposes of this section, the following products or publications are not newspapers as referred to in this section: those intended primarily for members of a particular profession or occupational group; those with the primary purpose of distributing advertising; and those with the primary purpose of publishing names and other personally identifying information concerning parties to motor vehicle crashes. Any local, state, or federal agency, agent, or employee that is authorized to have access to such reports by any provision of law shall be granted such access in the furtherance of the agency's statutory duties notwithstanding the provisions of this paragraph. Any local, state, or federal agency, agent, or employee receiving such crash reports shall maintain the confidential and exempt status of those reports and shall not disclose such crash reports to any person or entity. Any person attempting to access crash reports within 60 days after the date the report is filed must present legitimate credentials or identification that demonstrates his or her qualifications to access that information. This exemption is subject to the Open Government Sunset Review Act of 1995 in accordance with s. 119.15, and shall stand repealed on October 2, 2006, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 103. Subsection (2) of section 316.1975, Florida Statutes, is amended to read:

316.1975 Unattended motor vehicle.—

(2) This section does not apply to the operator of:

(a) An authorized emergency vehicle while in the performance of official duties and the vehicle is equipped with an activated antitheft device that prohibits the vehicle from being driven; or

(b) A licensed delivery truck or other delivery vehicle while making deliveries; or

(c) A solid waste or recovered materials vehicle while collecting such items.

Section 104. Section 316.2127, Florida Statutes, is created to read:

316.2127 Operation of utility vehicles on certain roadways by homeowners' associations.—The operation of a utility vehicle, as defined in s. 320.01, upon the public roads or streets of this state by a homeowners' association, as defined in s. 720.301, or its agents is prohibited except as provided herein:

(1) A utility vehicle may be operated by a homeowners' association or its agents only upon a county road that has been designated by a county, or a city street that has been designated by a city, for use by a utility vehicle for general maintenance, security, and landscaping purposes. Prior to making such a designation, the responsible local governmental entity must first determine that utility vehicles may safely travel on or cross the public road or street, considering factors including the speed, volume, and character of motor vehicle traffic on the road or street. Upon a determination that utility vehicles may be safely operated on a designated road or street, the responsible governmental entity shall post appropriate signs to indicate that such operation is allowed.

(2) A utility vehicle may be operated by a homeowners' association or its agents on a portion of the State Highway System only under the following conditions:

(a) To cross a portion of the State Highway System which intersects a county road or a city street that has been designated for use by utility

vehicles if the Department of Transportation has reviewed and approved the location and design of the crossing and any traffic control devices needed for safety purposes.

(b) To cross, at midblock, a portion of the State Highway System where the highway bisects property controlled or maintained by a homeowners' association if the Department of Transportation has reviewed and approved the location and design of the crossing and any traffic control devices needed for safety purposes.

(c) To travel on a state road that has been designated for transfer to a local government unit pursuant to s. 335.0415 if the Department of Transportation determines that the operation of a utility vehicle within the right-of-way of the road will not impede the safe and efficient flow of motor vehicle traffic. The department may authorize the operation of utility vehicles on such a road if:

1. The road is the only available public road on which utility vehicles may travel or cross or the road provides the safest travel route among alternative routes available; and

2. The speed, volume, and character of motor vehicle traffic on the road is considered in making such a determination.

Upon its determination that utility vehicles may be operated on a given road, the department shall post appropriate signs on the road to indicate that such operation is allowed.

(3) A utility vehicle may be operated by a homeowners' association or its agents only during the hours between sunrise and sunset, unless the responsible governmental entity has determined that a utility vehicle may be operated during the hours between sunset and sunrise and the utility vehicle is equipped with headlights, brake lights, turn signals, and a windshield.

(4) A utility vehicle must be equipped with efficient brakes, a reliable steering apparatus, safe tires, a rearview mirror, and red reflectorized warning devices in both the front and the rear.

(5) A utility vehicle may not be operated on public roads or streets by any person under the age of 14.

(3)(a)1. As used in this section, a motor vehicle or mobile home is a "total loss":

a.1. When an insurance company pays the vehicle owner to replace the wrecked or damaged vehicle with one of like kind and quality or when an insurance company pays the owner upon the theft of the motor vehicle or mobile home; ~~a motor vehicle or mobile home shall not be considered a "total loss" if the insurance company and the owner agree to repair, rather than to replace, the motor vehicle or mobile home; or~~

b.2. When an uninsured motor vehicle or mobile home is wrecked or damaged and the cost, at the time of loss, of repairing or rebuilding the vehicle is 80 percent or more of the cost to the owner of replacing the wrecked or damaged motor vehicle or mobile home with one of like kind and quality.

2. A motor vehicle or mobile home shall not be considered a "total loss" if the insurance company and owner of a motor vehicle or mobile home agree to repair, rather than to replace, the motor vehicle or mobile home. However, if the actual cost to repair the motor vehicle or mobile home to the insurance company exceeds 100 percent of the cost of replacing the wrecked or damaged motor vehicle or mobile home with one of like kind and quality, the owner shall forward to the department, within 72 hours after the agreement, a request to brand the certificate of title with the words "Total Loss Vehicle." Such a brand shall become a part of the vehicle's title history.

If the estimated costs of repairing the physical and mechanical damage to the vehicle are equal to 80 percent or more of the current retail cost of the vehicle, as established in any official used car or used mobile home guide, the department shall declare the vehicle unrebuildable and print a certificate of destruction, which authorizes the dismantling or destruction of the motor vehicle or mobile home described therein. This certificate of destruction shall be reassignable a maximum of two times before dismantling or destruction of the vehicle shall be required, and shall accompany the motor vehicle or mobile home for which it is issued, when such motor vehicle or mobile home is sold for such purposes, in lieu of a certificate of title, and, thereafter, the department shall refuse issuance of any certificate of title for that vehicle. Nothing in this subsection shall be applicable when a vehicle is worth less than \$1,500 retail in undamaged condition in any official used motor vehicle guide or used mobile home guide or when a stolen motor vehicle or mobile home is recovered in substantially intact condition and is readily resalable without extensive repairs to or replacement of the frame or engine. (Amendment Bar Code: 720244)

Senate Amendment 1 (with title amendment)—Delete everything after the enacting clause

and insert:

Section 1. Part III of chapter 121, Florida Statutes, consisting of sections 121.70, 121.71, 121.72, 121.73, 121.74, 121.75, 121.76, 121.77, and 121.78, Florida Statutes, is created to read:

Part III

Florida Retirement System Contribution Rates

121.70 Legislative purpose and intent.—

(1) This part provides for a uniform system for funding benefits provided under the Florida Retirement System defined benefit program established under part I of this chapter (referred to in this part as the defined benefit program) and under the Public Employee Optional Retirement Program established under part II of this chapter (referred to in this part as the optional retirement program). The Legislature recognizes and declares that the Florida Retirement System is a single retirement system, consisting of two retirement plans and other nonintegrated programs. Employers participating in the Florida Retirement System collectively shall be responsible for making contributions to support the benefits afforded under both plans. As provided in this part, employers participating in the Florida Retirement System shall make contributions based upon uniform contribution rates determined as a percentage of the total payroll for each class or subclass of Florida Retirement System membership, irrespective of which retirement plan individual employees may elect. This shall be known as a uniform or blended contribution rate system.

(2) In establishing a uniform contribution rate system, it is the intent of the Legislature to:

(a) Provide greater stability and certainty in financial planning and budgeting for Florida Retirement System employers by eliminating the fiscal instability that would be caused by dual rates coupled with employee-selected plan participation;

(b) Provide greater fiscal equity and uniformity for system employers by effectively distributing the financial burden and benefit of short-term

system deficits and surpluses, respectively, in proportion to total system payroll; and

(c) Allow employees to make their retirement plan selection decisions free of circumstances that may cause employers to favor one plan choice over another.

121.71 Uniform rates; process; calculations; levy.—

(1) In conducting the system actuarial study required under s. 121.031, the actuary shall follow all requirements specified thereunder to determine, by Florida Retirement System employee membership class, the dollar contribution amounts necessary for the forthcoming fiscal year for the defined benefit program. In addition, the actuary shall determine, by Florida Retirement System membership class, based on an estimate for the forthcoming fiscal year of the gross compensation of employees participating in the optional retirement program, the dollar contribution amounts necessary to make the allocations required under ss. 121.72 and 121.73. For each employee membership class and subclass, the actuarial study shall establish a uniform rate necessary to fund the benefit obligations under both Florida Retirement System retirement plans, by dividing the sum of total dollars required by the estimated gross compensation of members in both plans.

(2) Based on the uniform rates set forth in subsection (3), employers shall make monthly contributions to the Division of Retirement, which shall initially deposit the funds into the Florida Retirement System Contributions Clearing Trust Fund. A change in a contribution rate is effective the first day of the month for which a full month's employer contribution may be made on or after the beginning date of the change.

(3) Required employer retirement contribution rates for each membership class and subclass of the Florida Retirement System for both retirement plans are as follows. Rates effective July 1, 2002, reflect an offset to normal employer costs of \$1,237,000,000, resulting from recognition and usage of current available excess assets of the Florida Retirement System Trust Fund as determined pursuant to s. 121.031. Contribution rates that become effective July 1, 2003, reflect normal system costs.

Membership Class	Percentage of Gross Compensation, Effective July 1, 2002	Percentage of Gross Compensation, Effective July 1, 2003
Regular Class	4.50%	9.87%
Special Risk Class	14.75%	22.89%
Special Risk Administrative Support Class	5.30%	12.58%
Elected Officers' Class - Legislators, Governor, Lt. Governor, Cabinet Officers, State Attorneys, Public Defenders	8.15%	15.43%

Elected Officers' Class - County Elected Officers	10.60%	17.52%
Senior Management Class	4.80%	11.68%
DROP	8.00%	11.56%

121.72 Allocations to optional retirement program participant accounts; percentage amounts.—

(1) The allocations established in subsection (4) shall fund retirement benefits under the optional retirement program and shall be transferred monthly by the Division of Retirement from the Florida Retirement System Contributions Clearing Trust Fund to the third-party administrator for deposit in each participating employee's individual account based on the membership class of the participant.

(2) The allocations are stated as a percentage of each optional retirement program participant's gross compensation for the calendar month. A change in a contribution percentage is effective the first day of

the month for which a full month's employer contribution may be made on or after the beginning date of the change. Contribution percentages may be modified by general law.

(3) Employer and participant contributions to participant accounts shall be accounted for separately. Participant contributions may be made only if expressly authorized by law. Interest and investment earnings on contributions shall accrue on a tax-deferred basis until proceeds are distributed.

(4) Effective July 1, 2002, allocations from the Florida Retirement System Contributions Clearing Trust Fund to optional retirement program participant accounts shall be as follows:

Regular Class	9.00%
Special Risk Class	20.00%

Senior Management Service Class	10.95%

121.73 Allocations for optional retirement program participant disability coverage; percentage amounts.—

(1) The allocations established in subsection (3) shall be used to provide disability coverage for participants in the optional retirement program and shall be transferred monthly by the Division of Retirement from the Florida Retirement System Contributions Clearing Trust Fund to the disability account of the Florida Retirement System Trust Fund.

(2) The allocations are stated as a percentage of each optional retirement program participant's gross compensation for the calendar month. A change in a contribution percentage is effective the first day of the month for which a full month's employer contribution may be made on or after the beginning date of the change. Contribution percentages may be modified by general law.

(3) Effective July 1, 2002, allocations from the FRS Contribution Clearing Fund to provide disability coverage for participants in the optional retirement program, and to offset the costs of administering said coverage, shall be as follows:

Membership Class	Percentage of Gross Compensation
Regular Class	0.25%
Special Risk Class	1.33%
Special Risk Administrative Support Class	0.45%
Elected Officers' Class - Legislators, Governor, Lt. Governor, Cabinet Officers, State Attorneys, Public Defenders	0.41%
Elected Officers' Class - Justices, Judges	0.73%
Elected Officers' Class - County Elected Officers	0.41%
Senior Management Service Class	0.26%

121.74 Administrative and educational expenses.—Effective July 1, 2002, in addition to contributions required under s. 121.71, employers participating in the Florida Retirement System shall contribute an amount equal to 0.15 percent of the payroll reported for each class or subclass of Florida Retirement System membership, which amount shall be transferred by the Division of Retirement from the Florida Retirement System Contribution Clearing Trust Fund to the State Board of Administration's Administrative Trust Fund to offset the costs of administering the optional retirement program and the costs of

providing educational services to participants in the defined benefit program and the optional retirement program. Approval of the Trustees of the State Board of Administration is required prior to the expenditure of these funds. Payments for third-party administrative or educational expenses shall be made only pursuant to the terms of the approved contracts for such services.

121.75 Allocation for defined benefit program.—After making the transfers required pursuant to ss. 121.71, 121.72, 121.73, and 121.74, the monthly balance of funds in the Florida Retirement System Contributions Clearing Trust Fund shall be transferred to the Florida Retirement System Trust Fund to pay the costs of providing defined benefit program benefits and plan administrative costs under the defined benefit program.

121.76 Contributions for social security and for retiree health insurance subsidy.—Contributions required under this part shall be made or deducted, as may be appropriate, for each pay period and are in addition to employer and member contributions required for social security and the Retiree Health Insurance Subsidy Trust Fund as provided under parts I and II of this chapter.

121.77 Deductions from participant accounts.—The State Board of Administration may authorize the third-party administrator to deduct reasonable fees and apply appropriate charges to optional retirement program participant accounts. In no event shall administrative and educational expenses exceed the portion of employer contributions earmarked for such expenses under this part, except for reasonable administrative charges assessed against participant accounts of persons for whom no employer contributions are made during the calendar quarter. Investment management fees shall be deducted from participant accounts, pursuant to the terms of the contract between the provider and the board.

121.78 Payment and distribution of contributions.—

(1) Contributions made pursuant to this part shall be paid by the employer to the Division of Retirement by electronic funds transfer no later than the 5th working day of the month immediately following the month during which the payroll period ended. Accompanying payroll data must be transmitted to the Division concurrent with the contributions.

(2) The division, the State Board of Administration, and the third-party administrator, as applicable, shall ensure that the contributions are distributed to the appropriate trust funds or participant accounts in a timely manner.

(3)(a) Employer contributions and accompanying payroll data received after the 5th working day of the month shall be considered late. The employer shall be assessed by the Division a penalty of 1 percent of the contributions due for each calendar month or part thereof that the contributions or accompanying payroll data are late. Proceeds from the 1-percent assessment against contributions made on behalf of participants of the defined benefit program shall be deposited in the Florida Retirement System Trust Fund, and proceeds from the 1-percent assessment against contributions made on behalf of participants of the optional retirement program shall be transferred to the third party administrator for deposit into participant accounts, as provided in paragraph (b).

(b) If contributions made by an employer on behalf of participants of the optional retirement program or accompanying payroll data are not received within the calendar month they are due and if that delinquency results in market losses to participants, the employer shall reimburse each participant's account for market losses resulting from the late contributions. The third-party administrator, hired by the board pursuant to s. 121.4501(8), shall calculate the market losses for each affected participant. When contributions made on behalf of participants of the optional retirement program or accompanying payroll data are not received within the calendar month due, the employer shall also pay the cost of the third-party administrator's calculation and reconciliation adjustments resulting from the late contributions. The third-party administrator shall notify the employer of the results of the calculations

and the total amount due from the employer for such losses and the costs of calculation and reconciliation. The employer shall remit to the Division the amount due within 10 working days after the date of the penalty notice sent by the Division. The Division shall transfer said amount to the third-party administrator, who shall deposit proceeds from the 1-percent assessment and from individual market losses into participant accounts, as appropriate. The board is authorized to adopt rules to implement the provisions regarding late contributions, late submission of payroll data, the process for reimbursing participant accounts for resultant market losses, and the penalties charged to the employers.

(c) Delinquency fees may be waived by the division, with regard to defined benefit program contributions, and by the State Board of Administration, with regard to optional retirement program contributions, only when, in the opinion of the division or the board, as appropriate, exceptional circumstances beyond the employer's control prevented remittance by the prescribed due date notwithstanding the employer's good faith efforts to effect delivery. (b) Employers are responsible for notifying participants regarding maximum contribution levels permitted under the Internal Revenue Code. (15) STATEMENT OF FIDUCIARY STANDARDS AND RESPONSIBILITIES.—

(a) Investment of optional defined contribution retirement plan assets shall be made for the sole interest and exclusive purpose of providing benefits to plan participants and beneficiaries and defraying

The performance of the investment duties set forth in this paragraph shall comply with the fiduciary standards set forth in the Employee Retirement Income Security Act of 1974 at 29 U.S.C. s. 1104(a)(1)(A)-(C). In case of conflict with other provisions of law authorizing investments, the investment and fiduciary standards set forth in this subsection shall prevail.

(b) If a participant or beneficiary of the Public Employee Optional Retirement Program exercises control over the assets in his or her account, as determined by reference to regulations of the United States Department of Labor under s. 404(c) of the Employee Retirement Income Security Act of 1974 and all applicable laws governing the operation of the program, no program fiduciary shall be liable for any loss to a participant's or beneficiary's account which results from such participant's or beneficiary's exercise of control.

(c) Subparagraph (8)(b)4. and paragraph (15)(b) incorporate the federal law concept of participant control, established by regulations of the U.S. Department of Labor under section 404(c) of the Employee Retirement Income Security Act of 1974 (ERISA). The purpose of this paragraph is to assist employers and the State Board of Administration in maintaining compliance with section 404(c), while avoiding unnecessary costs and eroding participant benefits under the Public Employee Optional Retirement Program. Pursuant to 29 C.F.R. s. 2550.404c-1(b)(2)(i)(B)(1)(viii), the State Board of Administration or its designated agents shall deliver to participants of the Public Employee Optional Retirement Program a copy of the prospectus most recently provided to the plan, or shall provide such participants an opportunity to obtain this information, except that:

1. The requirement to deliver a prospectus shall be deemed to be satisfied by delivery of a fund profile that contains the information that would be included in a summary prospectus as described by Rule 498 under the Securities Act of 1933, 17 C.F.R. s. 230.498. When the transaction fees, expense information or other information provided by a mutual fund in the prospectus does not reflect terms negotiated by the State Board of Administration or its designated agents, the aforementioned requirement is deemed to be satisfied by delivery of a separate document described by Rule 498 substituting accurate information; and

2. Delivery shall be deemed to have been effected if delivery is through electronic means and the following standards are satisfied:

a. Electronically-delivered documents are prepared and provided consistent with style, format, and content requirements applicable to printed documents;

b. Each participant is provided timely and adequate notice of the documents that are to be delivered and their significance thereof; and of the participant's right to obtain a paper copy of such documents free of charge;

c.(I) Participants have adequate access to the electronic documents, at locations such as their worksites or public facilities, and have the ability to convert the documents to paper free of charge by the State Board of Administration, and the Board or its designated agents take appropriate and reasonable measures to ensure that the system for furnishing electronic documents results in actual receipt, or

(II) Participants have provided consent to receive information in electronic format, which consent may be revoked; and

d. The State Board of Administration, or its designated agent, actually provides paper copies of the documents free of charge, upon request.

Section 8. Section 11 of chapter 2001-235, Laws of Florida, is amended to read:

Section 11. It is the intent of the Legislature that the costs attributable to the additional cost-of-living increase for special risk retirees and Deferred Retirement Option Program participants as provided under section 2 shall be funded by recognition of excess actuarial assets, amortized over 30 years with the payments assumed to remain relatively stable when expressed as a percentage of payroll. For fiscal year 2001-2002, the payment shall be \$9.3 million. For fiscal year 2002-2003, the payment shall be \$15.1 ~~\$19~~ million, and, thereafter, payments shall increase by 5 percent per year. If insufficient funds are available to fund this additional cost through recognition of excess actuarial assets in fiscal year 2002-2003 and any year thereafter, and there remains an unfunded actuarial liability attributable to the one-time cost-of-living increase provided under section 2, the payroll contribution rate for the Special Risk Class of the Florida Retirement System shall be increased by .93 percent effective July 1 of that year, unless the Legislature provides an alternative funding mechanism before that date.

Section 9. Section 23 of chapter 2000-169, Laws of Florida, is hereby repealed.

Section 10. The contribution rates proposed in this act shall be in addition to all other changes to such contribution rates which may be enacted into law to take effect on July 1, 2002. The Division of Statutory Revision is directed to adjust the contribution rates set forth herein accordingly.

Section 11. The Legislature finds that a proper and legitimate state purpose is served when employees, officers, retirees of the state and its political subdivisions, and the dependents, survivors, and beneficiaries of such employees, officers, and retirees, are extended the basic protections afforded by governmental retirement systems that provide fair and adequate benefits and that are managed, administered, and funded in an actuarially sound manner, as required by Section 14, Article X of the State Constitution and part VII of chapter 112, Florida Statutes. Therefore, the Legislature hereby determines and declares that the provisions of this act fulfill an important state interest.

(2) PROTECTION OF MANATEES OR SEA COWS.—

(a) This subsection shall be known and may be cited as the “Florida Manatee Sanctuary Act.”

(b) The State of Florida is hereby declared to be a refuge and sanctuary for the manatee, the “Florida state marine mammal.” *The protections extended to and authorized on behalf of the manatee by this act are independent of, and therefore are not contingent upon, its status as a state or federal listed species.*

(c) Whenever the Fish and Wildlife Conservation Commission is satisfied that the interest of science will be subserved, and that the application for a permit to possess a manatee or sea cow (*Trichechus manatus*) is for a scientific or propagational purpose and should be granted, and after concurrence by the United States Department of the Interior, the commission may grant to any person making such application a special permit to possess a manatee or sea cow, which permit shall specify the exact number which shall be maintained in captivity.

(d) Except as may be authorized by the terms of a valid state permit issued pursuant to paragraph (c) or by the terms of a valid federal permit, it is unlawful for any person at any time, by any means, or in any manner intentionally or negligently to annoy, molest, harass, or disturb or attempt to molest, harass, or disturb any manatee; injure or harm or attempt to injure or harm any manatee; capture or collect or attempt to capture or collect any manatee; pursue, hunt, wound, or kill or attempt to pursue, hunt, wound, or kill any manatee; or possess, literally or constructively, any manatee or any part of any manatee.

(e) Any gun, net, trap, spear, harpoon, boat of any kind, aircraft, automobile of any kind, other motorized vehicle, chemical, explosive, electrical equipment, scuba or other subaquatic gear, or other instrument, device, or apparatus of any kind or description used in violation of any provision of paragraph (d) may be forfeited upon conviction. The foregoing provisions relating to seizure and forfeiture of vehicles, vessels, equipment, or supplies do not apply when such vehicles, vessels, equipment, or supplies are owned by, or titled in the name of, innocent parties; and such provisions shall not vitiate any valid lien, retain title contract, or chattel mortgage on such vehicles, vessels, equipment, or supplies if such lien, retain title contract, or chattel mortgage is property of public record at the time of the seizure.

(f)1. *Except for emergency rules adopted under s. 120.54, all proposed rules of the commission for which a notice of intended agency action is filed proposing to govern the speed and operation of motorboats for purposes of manatee protection shall be submitted to the counties in which the proposed rules will take effect for review by local rule review committees.*

2. *No less than 60 days prior to filing a notice of rule development in the Florida Administrative Weekly, as provided in s. 120.54(3)(a), the commission shall notify the counties for which a rule to regulate the speed and operation of motorboats for the protection of manatees is proposed. A county so notified shall establish a rule review committee or several counties may combine rule review committees.*

3. *The county commission of each county in which a rule to regulate the speed and operation of motorboats for the protection of manatees is proposed shall designate a rule review committee. The designated voting membership of the rule review committee must be comprised of waterway users, such as fishers, boaters, water skiers, other waterway users, as compared to the number of manatee and other environmental advocates. A county commission may designate an existing advisory group as the rule review committee. With regard to each committee, fifty percent of the voting members shall be manatee advocates and other environmental advocates, and fifty percent of the voting members shall be waterway users.*

4. *The county shall invite other state, federal, county, municipal, or local agency representatives to participate as nonvoting members of the local rule review committee.*

5. *The county shall provide logistical and administrative staff support to the local rule review committee and may request technical assistance from commission staff.*

6. *Each local rule review committee shall elect a chair and recording secretary from among its voting members.*

7. *Commission staff shall submit the proposed rule and supporting data used to develop the rule to the local rule review committees.*

8. *The local rule review committees shall have 60 days from the date of receipt of the proposed rule to submit a written report to commission members and staff. The local rule review committees may use supporting data supplied by the commission, as well as public testimony which may be collected by the committee, to develop the written report. The report may contain recommended changes to proposed manatee protection zones or speed zones, including a recommendation that no rule be adopted, if that is the decision of the committee.*

9. *Prior to filing a notice of proposed rulemaking in the Florida Administrative Weekly as provided in s. 120.54(3)(a), the commission staff shall provide a written response to the local rule review committee reports to the appropriate counties, to the commission members, and to the public upon request.*

10. *In conducting a review of the proposed manatee protection rule, the local rule review committees may address such factors as whether the best available scientific information supports the proposed rule, whether seasonal zones are warranted, and such other factors as may be necessary to balance manatee protection and public access to and use of the waters being regulated under the proposed rule.*

11. *The written reports submitted by the local rule review committees shall contain a majority opinion. If the majority opinion is not unanimous, a minority opinion shall also be included.*

12. *The members of the commission shall fully consider any timely submitted written report submitted by a local rule review committee prior to authorizing commission staff to move forward with proposed rulemaking and shall fully consider any timely submitted subsequent reports of the committee prior to adoption of a final rule. The written reports of the local rule review committees and the written responses of the commission staff shall be part of the rulemaking record and may be submitted as evidence regarding the committee's recommendations in any proceeding relating to a rule proposed or adopted pursuant to this subsection.*

13. *The commission is relieved of any obligations regarding the local rule review committee process created in this paragraph if a timely noticed county commission fails to timely designate the required rule review committee.*

For purposes of ensuring the physical safety of boaters in a sometimes turbulent area, the area from the easternmost edge of the authorized navigation project of the intracoastal waterway east through the Port Everglades Inlet is excluded from this regulatory zone.

7. In Citrus County: headwaters of the Crystal River, commonly referred to as King's Bay, and the Homosassa River.

11. In Collier County: within the Port of Islands, within section 9, township 52 south, range 28 east, and certain unsurveyed lands, all east-west canals and the north-south canals to the southerly extent of the intersecting east-west canals which lie southerly of the centerline of U.S. Highway 41.

12. In Manatee County: that portion of the Manatee River east of the west line of section 17, range 19 east, township 34 south; the Braden River south of the north line and east of the west line of section 29, range

13. In Miami-Dade County: those portions of Black Creek lying south and east of the water control dam, including all boat basins and connecting canals within 1 mile of the dam.

(h)(g) The Fish and Wildlife Conservation Commission shall adopt rules pursuant to chapter 120 regulating the operation and speed of motorboat traffic only where manatee sightings are frequent and *the best available scientific information, as well as other available, relevant, and reliable information, which may include but is not limited to, manatee surveys, observations, available studies of food sources, and water depths, supports the conclusion that manatees it can be generally assumed that they inhabit these areas on a regular or continuous basis* within that portion of the Indian River between the St. Lucie Inlet in Martin County and the Jupiter Inlet in Palm Beach County ~~and. In addition, the commission shall adopt rules pursuant to chapter 120 regulating the operation and speed of motorboat traffic only where manatee sightings are frequent and it can be generally assumed that they inhabit these areas on a regular or continuous basis~~ within the Loxahatchee River in Palm Beach and Martin Counties, including the north and southwest forks thereof. ~~A limited lane or corridor providing for reasonable motorboat speeds may be identified and designated within this area.~~

(i)(h) The commission shall adopt rules pursuant to chapter 120 regulating the operation and speed of motorboat traffic only where manatee sightings are frequent and *the best available scientific information, as well as other available, relevant, and reliable information, which may include but is not limited to, manatee surveys, observations, available studies of food sources, and water depths, supports the conclusion that manatees it can be generally assumed that they inhabit these areas on a regular or continuous basis* within the Withlacoochee River and its tributaries in Citrus and Levy Counties. The specific areas to be regulated include the Withlacoochee River and the U.S. 19 bridge westward to a line between U.S. Coast Guard markers number 33 and number 34 at the mouth of the river, including all side channels and coves along that portion of the river; Bennets' Creek from its beginning to its confluence with the Withlacoochee River; Bird's Creek from its beginning to its confluence with the Withlacoochee River; and the two dredged canal systems on the north side of the Withlacoochee River southwest of Yankeetown. ~~A limited lane or corridor providing for reasonable motorboat speeds may be identified and designated within this area.~~

(j)(i) If any new power plant is constructed or other source of warm water discharge is discovered within the state which attracts a concentration of manatees or sea cows, the Fish and Wildlife Conservation commission is directed to adopt rules pursuant to chapter 120 regulating the operation and speed of motorboat traffic within the area of such discharge. Such rules shall designate a zone which is sufficient in size, and which shall remain in effect for a sufficient period of time, to protect the manatees or sea cows.

(k)(j) It is the intent of the Legislature ~~through adoption of this paragraph~~ to allow the Fish and Wildlife Conservation Commission to post and regulate boat speeds only where *the best available scientific information, as well as other available, relevant, and reliable information, which may include but is not limited to, manatee surveys, observations, available studies of food sources, and water depth, supports the conclusion that manatees manatee sightings are frequent and it can be generally assumed that they inhabit these areas on a periodic regular or continuous basis.* It is not the intent of the Legislature to permit the commission to post and regulate boat speeds generally throughout the waters of the state ~~in the above-described inlets, bays, rivers, creeks,~~ thereby unduly interfering with the rights of fishers, boaters, and water skiers using the areas for recreational and commercial purposes. *The Legislature further intends that the commission may identify and designate limited lanes or corridors*

providing for reasonable motorboat speeds *within waters of the state whenever such lanes and corridors are consistent with manatee protection* ~~may be identified and designated within these areas.~~

(l)(~~h~~) The commission shall adopt rules pursuant to chapter 120 regulating the operation and speed of motorboat traffic all year around within Turkey Creek and its tributaries and within Manatee Cove in Brevard County. The specific areas to be regulated consist of:

1. A body of water which starts at Melbourne-Tillman Drainage District structure MS-1, section 35, township 28 south, range 37 east, running east to include all natural waters and tributaries of Turkey Creek, section 26, township 28 south, range 37 east, to the confluence of Turkey Creek and the Indian River, section 24, township 28 south, range 37 east, including all lagoon waters of the Indian River bordered on the west by Palm Bay Point, the north by Castaway Point, the east by the four immediate spoil islands, and the south by Cape Malabar, thence northward along the shoreline of the Indian River to Palm Bay Point.

2. A triangle-shaped body of water forming a cove (commonly referred to as Manatee Cove) on the east side of the Banana River, with northern boundaries beginning and running parallel to the east-west cement bulkhead located 870 feet south of SR 520 Relief Bridge in Cocoa Beach and with western boundaries running in line with the City of Cocoa Beach channel markers 121 and 127 and all waters east of these boundaries in section 34, township 24 south, range 37 east; the center coordinates of this cove are 28°20'14" north, 80°35'17" west.

(m)(~~h~~) The commission shall promulgate regulations pursuant to chapter 120 relating to the operation and speed of motor boat traffic in port waters with due regard to the safety requirements of such traffic and the navigational hazards related to the movement of commercial vessels.

(n)(~~h~~) The commission may designate by rule adopted pursuant to chapter 120 other portions of state waters where manatees are frequently sighted and *the best available scientific information, as well as other available, relevant, and reliable information, which may include but is not limited to, manatee surveys, observations, available studies of food sources, and water depths, supports the conclusion that it can be assumed that manatees inhabit such waters periodically or continuously.* Upon designation of such waters, the commission shall adopt rules pursuant to chapter 120 to regulate motorboat speed and operation which are necessary to protect manatees from harmful collisions with motorboats and from harassment. The commission may adopt rules pursuant to chapter 120 to protect manatee habitat, such as seagrass beds, within such waters from destruction by boats or other human activity. Such rules shall not protect noxious aquatic plants subject to control under s. 369.20.

(o)(~~h~~) The commission may designate, by rule adopted pursuant to chapter 120, limited areas as a safe haven for manatees to rest, feed, reproduce, give birth, or nurse undisturbed by human activity. Access by motor boat to private residences, boat houses, and boat docks through these areas by residents, and their authorized guests, who must cross one of these areas to have water access to their property is permitted when the motorboat is operated at idle speed, no wake.

(p)(~~h~~) Except in the marked navigation channel of the Florida Intracoastal Waterway as defined in s. 327.02 and the area within 100 feet of such channel, a local government may regulate, by ordinance, motorboat speed and operation on waters within its jurisdiction *where the best available scientific information, as well as other available, relevant, and reliable information, which may include but is not limited to, manatee surveys, observations, available studies of food sources, and water depths, supports the conclusion that manatees inhabit these areas on a regular basis where manatees are frequently sighted and can be generally assumed to inhabit periodically or continuously.* However, such an ordinance may not take effect until it has been reviewed and approved by the commission. If the commission and a local government disagree on the provisions of an ordinance, a local manatee protection committee must be formed to review the technical data of the commission and the United States Fish and Wildlife Service, and to

resolve conflicts regarding the ordinance. The manatee protection committee must be comprised of:

1. A representative of the commission;
2. A representative of the county;
3. A representative of the United States Fish and Wildlife Service;
4. A representative of a local marine-related business;
5. A representative of the Save the Manatee Club;
6. A local fisher;
7. An affected property owner; and
8. A representative of the Florida Marine Patrol.

If local and state regulations are established for the same area, the more restrictive regulation shall prevail.

(q)(~~h~~) The commission shall evaluate the need for use of fenders to prevent crushing of manatees between vessels (100' or larger) and bulkheads or wharves in counties where manatees have been crushed by such vessels. For areas in counties where evidence indicates that manatees have been crushed between vessels and bulkheads or wharves, the commission shall:

1. Adopt rules pursuant to chapter 120 requiring use of fenders for construction of future bulkheads or wharves; and

2. Implement a plan and time schedule to require retrofitting of existing bulkheads or wharves consistent with port bulkhead or wharf repair or replacement schedules.

The fenders shall provide sufficient standoff from the bulkhead or wharf under maximum operational compression to ensure that manatees cannot be crushed between the vessel and the bulkhead or wharf.

(r)(~~h~~) Any violation of a restricted area established by this subsection, or established by rule pursuant to chapter 120 or ordinance pursuant to this subsection, shall be considered a violation of the boating laws of this state and shall be charged on a uniform boating citation as provided in s. 327.74, except as otherwise provided in paragraph (s). Any person who refuses to post a bond or accept and sign a uniform boating citation shall, as provided in s. 327.73(3), be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(s)(~~h~~) Except as otherwise provided in this paragraph, any person violating the provisions of this subsection or any rule or ordinance adopted pursuant to this subsection shall be guilty of a misdemeanor, punishable as provided in s. 370.021(1)(a) or (b).

1. Any person operating a vessel in excess of a posted speed limit shall be guilty of a civil infraction, punishable as provided in s. 327.73, except as provided in subparagraph 2.

2. This paragraph does not apply to persons violating restrictions governing "No Entry" zones or "Motorboat Prohibited" zones, who, if convicted, shall be guilty of a misdemeanor, punishable as provided in s. 370.021(1)(a) or (b), or, if such violation demonstrates blatant or willful action, may be found guilty of harassment as described in paragraph (d).

(t) 1. *In order to protect manatees and manatee habitat, the counties identified in the Governor and Cabinet's October 1989 Policy Directive shall develop manatee protection plans consistent with commission criteria based upon "Schedule K" of the directive, and shall submit such protection plans for review and approval by the commission. Any manatee protection plans not submitted by July 1, 2004 and any plans not subsequently approved by the commission shall be addressed pursuant to subparagraph 2.*

2. *No later than January 1, 2005, the Fish and Wildlife Conservation Commission shall designate any county it has identified as a substantial risk county for manatee mortality as a county that must complete a*

manatee protection plan by July 1, 2006. The commission is authorized to adopt rules pursuant to s. 120.54 for identifying substantial risk counties and establishing criteria for approval of manatee protection plans for counties so identified. Manatee protection plans shall include the following elements at a minimum: education about manatees and manatee habitat; boater education; an assessment of the need for new or revised manatee protection speed zones; local law enforcement; and a boat facility siting plan to address expansion of existing and the development of new marinas, boat ramps, and other multislip boating facilities.

3. Counties required to adopt manatee protection plans under this paragraph shall incorporate the boating facility siting element of those protection plans within their respective comprehensive plans.

4. Counties that have already adopted approved manatee protection plans, or that adopt subsequently approved manatee protection plans by the effective date of this act, are in compliance with the provisions of this paragraph so long as they incorporate their approved Boat Facility Siting Plan into the appropriate element of their local Comprehensive Plan no later than July 1, 2003.

Section 17. Subsection (6) is added to section 372.072, Florida Statutes, to read:

372.072 Endangered and Threatened Species Act.—

(6) **MEASURABLE BIOLOGICAL GOALS.**—No later than February 15, 2003, the commission, working in conjunction with the United States Fish and Wildlife Service, shall develop measurable biological goals that define manatee recovery. These measurable biological goals shall be used by the commission in its development of management plans or work plans. In addition to other criteria, these measurable biological goals shall be used by the commission when evaluating existing and proposed protection rules, and in determining progress in achieving manatee recovery.

Section 18. Subsection (2) of section 327.41, Florida Statutes, is amended to read:

327.41 Uniform waterway regulatory markers.—

(2) Any county or municipality which has been granted a restricted area designation, pursuant to s. 327.46, for a portion of the Florida Intracoastal Waterway within its jurisdiction or which has adopted a restricted area by ordinance pursuant to s. 327.22, s. 327.60, or s. 370.12(2)(p) ~~s. 370.12(2)(e)~~, or any other governmental entity which has legally established a restricted area, may apply to the commission for permission to place regulatory markers within the restricted area.

Section 19. *It is the intent of the Legislature that the commission request the necessary funding and staffing through a general revenue budget request to ensure that manatees receive the maximum protection possible. The Legislature recognizes that strong manatee protection depends upon consistently achieving a high degree of compliance with existing and future rules. The commission shall conduct standardized studies to determine levels of public compliance with manatee protection rules, and shall use the results of the studies, together with other relevant information, to develop and implement strategic law enforcement initiatives and boater education plans. Drawing upon information obtained from the compliance studies and the implementation of enforcement initiatives together with boater education plans, the commission shall identify any impediments in consistently achieving high levels of compliance, and adjust their enforcement and boater education efforts accordingly.*

Section 20. *The Legislature intends that the provisions of this act may not be retroactively applied to manatee protection rules existing or in the process of being adopted on the effective date of this act unless the Fish and Wildlife Conservation Commission proposes to amend or revise such rules after this act takes effect. Proposed rules that are currently subject to an administrative challenge pending as of February 12, 2002, are not subject to the provisions of this act unless a court or administrative hearing officer finds such proposed rule to be invalid and all appeals have been exhausted. Once such rules become final, any*

revisions or amendments of such rules shall be conducted pursuant to the provisions of this act.

(Redesignate subsequent sections.)

And the title is amended as follows:

On page 3, line 20, after the semicolon

Section 16. Effective upon this act becoming a law, section 11.35, Florida Statutes, is created to read:

11.35 *Joint Legislative Committee on Tax Exemptions; membership; duties.*—

(1) The Joint Legislative Committee on Tax Exemptions is created as a joint standing committee of the Legislature composed of 12 members, 6 of whom are members of the Senate appointed by the President of the Senate and 6 of whom are members of the House of Representatives appointed by the Speaker of the House of Representatives. The terms of members are 2 years and run from one organization session of the Legislature to the following organization session. In each even-numbered year, the President of the Senate shall appoint a member of the Senate to

serve as chair for a term of 1 year; and, in each odd-numbered year, the Speaker of the House of Representatives shall appoint a member of the House of Representatives to serve as chair for a term of 1 year. A vacancy is to be filled for the unexpired portion of the term in the same manner as the original appointment.

(2) The committee shall conduct a periodic review of all exemptions from taxation under chapter 212, Florida Statutes, except those specified in section 212.25(3), Florida Statutes. The committee must complete the first of its reviews by December 1, 2004, and its initial review of all exemptions by December 1, 2009. For purposes of the review, the committee shall:

(a) Assign each exemption to a discrete category of exemptions, placing, to the extent practicable, similar and related exemptions within the same category. The committee shall identify discrete classes of transactions exempted by s. 212.25(2) and assign the exemption of each class to the appropriate category.

(b) Schedule, for each year, one or more of the categories to be reviewed before the following regular session of the Legislature. Each category must be reviewed once by December 1, 2009. By December 1, 2003, the committee shall prepare, and submit to the President of the Senate and the Speaker of the House of Representatives for introduction at the 2004 regular session of the Legislature, a proposed bill that amends the statutes to set the expiration date for each exemption 18 months after the year in which it is scheduled for review. The proposed bill shall set July 1, 2006, as the expiration date for those exemptions which are scheduled to be reviewed by December 1, 2004.

(c) Adopt standards and criteria that it will use for its review of exemptions and upon which it will base its recommendation to reauthorize an exemption. In developing these standards and criteria, the committee should consider the following principles of taxation:

1. *Equity.*—The Florida tax system should treat individuals equitably. It should impose similar tax burdens on people in similar circumstances and should minimize regressivity.

2. *Compliance.*—The Florida tax system should facilitate taxpayer compliance. It should be simple and easy to understand so as to minimize compliance costs and increase the visibility and awareness of the taxes being paid. Enforcement and collection of tax revenues should be done in a fair, consistent, professional, predictable, and cost-effective manner.

3. *Promotion of competition.*—The Florida tax system should be responsive to interstate and international competition in order to encourage savings and investment in plant, equipment, people, and technology.

4. *Neutrality.*—The Florida tax system should affect competitors uniformly and not become a tool for “social engineering.” It should minimize government involvement in investment decisions, making any such involvement explicit, and should minimize pyramiding.

5. *Stability.*—The Florida tax system should produce revenues in a stable and reliable manner which are sufficient to fund appropriate governmental functions and expenditures.

6. *Integration.*—The Florida tax system should balance the need for integration of federal, state, and local taxation.

7. *Public purpose.*—Any sales tax exemption should be based upon a determination that the exemption promotes an important state interest, including, but not limited to, economic development, job creation and retention, economic diversification, and community revitalization.

(3) By December 1 of each year, the committee shall submit to the President of the Senate and the Speaker of the House of Representatives a separate report for each category of exemptions reviewed during that year. Each report must contain the committee’s recommendations with respect to each exemption assigned to that category and include, for consideration at the next regular session of the Legislature, a proposed bill to reauthorize, for a period not to exceed 10 years, those exemptions that the committee recommends be reauthorized and to cleanse the statutes of those exemptions that the committee recommends be allowed

to expire. Each report must also include, for each exemption for which the committee makes no recommendation, a separate bill to reauthorize that exemption for a period not to exceed 10 years. Each proposed bill must provide that each reauthorized exemption expires on a specified date occurring no more than 10 years after the effective date of the bill and is to be reviewed pursuant to this section at least 18 months prior to its expiration.

Section 17. Effective upon this act becoming a law, section 212.25, Florida Statutes, is created to read:

212.25 Expiration and review of tax exemptions; status of transactions neither expressly taxable nor exempt.—

(1) Effective July 1, 2011, and on July 1 of every 10th year thereafter, each exemption from taxation under this chapter expires, except those specified in subsection (3) and those specifically set by law to expire on another date. Prior to its expiration, each such exemption shall be reviewed by the Joint Legislative Committee on Tax Exemptions in accordance with the law governing such reviews.

(2) Until July 1, 2011, any sale of goods or services that is neither expressly taxable nor expressly exempt from taxation under this chapter is exempt from such taxation, and the exemptions provided by this subsection are subject to review under s. 11.35. Effective July 1, 2011, any sale of goods or services that is neither expressly taxable nor expressly exempt from taxation under this chapter is subject to tax at the same rate as the general tax rate prescribed by this chapter for the retail sale of items of tangible personal property.

So the bill passed and was immediately certified to the Senate.

On motion by Rep. Goodlette, the House moved to the consideration of—

Resolutions

HR 9125—A resolution honoring philanthropist Kenneth Curtis, of LaBelle.

WHEREAS, growing up in a mining town in upper Michigan where people worked hard and luxuries were scarce, Kenneth Curtis turned down a scholarship from the University of Michigan in 1922 and went to work digging sewer ditches to enable his mother, widowed when Kenneth was 12, to give up her job in a corset factory, and

WHEREAS, all too familiar with circumstances that sometimes force individuals to choose between an education and work, Kenneth Curtis was recently honored for having afforded an opportunity for a broader array of career options to 1,000 teens in a rural community where most people are farmers or ranchers and job opportunities are limited, and

WHEREAS, for more than a decade, through the Isabella Curtis Scholarship program set up as a tribute to his late wife, 96-year-old Kenneth Curtis has paid Edison Community College tuition, book fees, and a \$700 annual travel stipend on behalf of any LaBelle High School graduate with a “C” average or above who desired an education beyond the secondary level, and an endowed scholarship fund guarantees that the program will continue after his death, and

WHEREAS, Kenneth Curtis is a man of simple tastes who has stated that he hasn’t bought anything new in dress clothing in 20 years and that his most extravagant past indulgence was smoking a cigar at a burlesque show, until, in 1997, he “got the bug” for a Rolls-Royce and paid \$52,000 for the 1958 midnight blue classic with red interior, from which he derived immense pleasure when he drove it to go fishing, and

WHEREAS, the stir created in LaBelle in 1997 by the arrival of the Silver Cloud was revived recently when Kenneth Curtis donated the vintage Rolls to Hope Hospice in Fort Myers, stipulating only that it be used in some way as a fundraiser for the organization that provides comfort for terminally ill patients and their grieving families, NOW, THEREFORE,

Be It Resolved by the House of Representatives of the State of Florida:

That the House of Representatives pauses in its deliberations to honor Kenneth Curtis, a man whose generosity and compassion have brought opportunity, hope, and comfort to hundreds of Florida residents.

BE IT FURTHER RESOLVED that a copy of this resolution be presented to Kenneth Curtis as a tangible token of the sentiments expressed herein.

Be It Resolved by the Legislature of the State of Florida:

Section 1. Official census for apportionment; definitions.—

(a) “Block” means the smallest geographic unit for which population was ascertained in taking the 2000 census.

(b) “Block group” means the combination of blocks within a single tract or block numbering area the numbers of which begin with the same digit.

(c) “Tract” means the combination of blocks within a county which is delineated as a tract by local committee according to Census Bureau guidelines.

(d) “Block numbering area” or “BNA” means the combination of blocks within a county which are not included in a tract.

Notwithstanding the provisions of s. 493.6117, all moneys collected pursuant to this section shall not revert to the General Revenue Fund; however, this shall not abrogate the requirement for payment of the service charge imposed pursuant to chapter 215.

(14) All funds received by the sheriff pursuant to the provisions of this section shall be deposited into the general revenue fund of the county and shall be budgeted to the sheriff.

(15) The Legislature finds as a matter of public policy and fact that it is necessary to provide statewide uniform standards for issuing licenses to carry concealed weapons and firearms for self-defense and finds it necessary to occupy the field of regulation of the bearing of concealed weapons or firearms for self-defense to ensure that no honest, law-abiding person who qualifies under the provisions of this section is subjectively or arbitrarily denied his or her rights. The Department of Agriculture and Consumer Services State shall implement and administer the provisions of this section. The Legislature does not delegate to the Department of Agriculture and Consumer Services State the authority to regulate or restrict the issuing of licenses provided for in this section, beyond those provisions contained in this section. Subjective or arbitrary actions or rules which encumber the issuing process by placing burdens on the applicant beyond those sworn statements and specified documents detailed in this section or which create restrictions beyond those specified in this section are in conflict with the intent of this section and are prohibited. This section shall be liberally construed to carry out the constitutional right to bear arms for self-defense. This section is supplemental and additional to existing rights to bear arms, and nothing in this section shall impair or diminish such rights.

(16) The Department of Agriculture and Consumer Services State shall maintain statistical information on the number of licenses issued, revoked, suspended, and denied.

Section 70. Paragraph (a) of subsection (6) of section 163.3177, Florida Statutes, is amended to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements:

(a) A future land use plan element designating proposed future general distribution, location, and extent of the uses of land for residential uses, commercial uses, industry, agriculture, recreation, conservation, education, public buildings and grounds, other public facilities, and other categories of the public and private uses of land. ~~Each~~ The future land use category plan shall be defined in terms of uses included, and shall include standards to be followed in the control and distribution of population densities and building and structure intensities. The proposed distribution, location, and extent of the various categories of land use shall be shown on a land use map or map series which shall be supplemented by goals, policies, and measurable objectives. ~~Each land use category shall be defined in terms of the types of uses included and specific standards for the density or intensity of use.~~ The future land use plan shall be based upon surveys, studies, and data regarding the area, including the amount of land required to accommodate anticipated growth; the projected population of the area; the character of undeveloped land; the availability of public services; the need for redevelopment, including the renewal of blighted areas and the elimination of nonconforming uses which are inconsistent with the character of the community; and, in rural communities, the need for job creation, capital investment, and economic development that will strengthen and diversify the community's economy. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this act. In addition, for rural communities, the amount of land designated for future planned industrial use shall be based upon surveys and studies that reflect the need for job creation, capital investment, and the necessity to strengthen and diversify the local economies, and shall not be limited solely by the projected population of the rural community. The future land use plan of a county may also designate areas for possible future municipal incorporation. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. The future land use element must clearly identify the land use categories in which public schools are an allowable use. When delineating the land use categories in which public schools are an allowable use, a local government shall include in the categories sufficient land proximate to residential development to meet the projected needs for schools in coordination with public school boards and may establish differing criteria for schools of different type or size. Each local government shall include lands contiguous to existing school sites, to the maximum extent possible, within the land use categories in which public schools are an allowable use. All comprehensive plans must comply with the school siting requirements of this paragraph no later than October 1, 1999. The failure by a local government to comply with these school siting requirements by October 1, 1999, will result in the prohibition of the local government's ability to amend the local comprehensive plan, except for plan amendments described in s. 163.3187(1)(b), until the school siting requirements are met. An amendment proposed by a local government for purposes of identifying the land use categories in which public schools are an allowable use is exempt from the limitation on the frequency of plan amendments contained in s. 163.3187. The future land use element shall include criteria which encourage the location of schools proximate to urban residential areas to the extent possible and shall require that the local government seek to collocate public facilities, such as parks, libraries, and community centers, with schools to the extent possible. For schools serving predominantly rural counties, defined as a county with a population of 100,000 or fewer, an agricultural land use category shall be eligible for the location of public school facilities if the local comprehensive plan contains school siting criteria and the location is consistent with such criteria.

Section 71. *There is appropriated to the Department of Agriculture and Consumer Services from the General Inspection Trust Fund of the Division of Agricultural Environmental Services of the Department of Agriculture and Consumer Services, \$10,000 to carry out the provisions of this act relating to the Pest Control Enforcement Advisory Council.*

Section 72. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2002.

Bonds, notes, and other obligations issued by the entity are issued on behalf of the public agencies that are members of the entity.

2. Any entity created under this section may also issue bond anticipation notes in connection with the authorization, issuance, and sale of bonds. The bonds may be issued as serial bonds or as term bonds or both. Any entity may issue capital appreciation bonds or variable rate bonds. Any bonds, notes, or other obligations must be authorized by resolution of the governing body of the entity and bear the date or dates; mature at the time or times, not exceeding 40 years from their respective dates; bear interest at the rate or rates; be payable at the time or times; be in the denomination; be in the form; carry the registration privileges; be executed in the manner; be payable from the sources and in the medium or payment and at the place; and be subject to the terms of redemption, including redemption prior to maturity, as the resolution may provide. If any officer whose signature, or a facsimile of whose signature, appears on any bonds, notes, or other obligations ceases to be an officer before the delivery of the bonds, notes, or other obligations, the signature or facsimile is valid and sufficient for all purposes as if he or she had remained in office until the delivery. The bonds, notes, or other obligations may be sold at public or private sale for such price as the governing body of the entity shall determine. Pending preparation of the definitive bonds, the entity may issue interim certificates, which shall

be exchanged for the definitive bonds. The bonds may be secured by a form of credit enhancement, if any, as the entity deems appropriate. The bonds may be secured by an indenture of trust or trust agreement. In addition, the governing body of the legal entity may delegate, to an officer, official, or agent of the legal entity as the governing body of the legal entity may select, the power to determine the time; manner of sale, public or private; maturities; rate of interest, which may be fixed or may vary at the time and in accordance with a specified formula or method of determination; and other terms and conditions as may be deemed appropriate by the officer, official, or agent so designated by the governing body of the legal entity. However, the amount and maturity of the bonds, notes, or other obligations and the interest rate of the bonds, notes, or other obligations must be within the limits prescribed by the governing body of the legal entity and its resolution delegating to an officer, official, or agent the power to authorize the issuance and sale of the bonds, notes, or other obligations.

3. Bonds, notes, or other obligations issued under subparagraph 1. may be validated as provided in chapter 75. The complaint in any action to validate the bonds, notes, or other obligations must be filed only in the Circuit Court for Leon County. The notice required to be published by s. 75.06 must be published in Leon County and in each county that is a member of the entity issuing the bonds, notes, or other obligations, or in which a member of the entity is located, and the complaint and order of the circuit court must be served only on the State Attorney of the Second Judicial Circuit and on the state attorney of each circuit in each county that is a member of the entity issuing the bonds, notes, or other obligations or in which a member of the entity is located. Section 75.04(2) does not apply to a complaint for validation brought by the legal entity.

4. The accomplishment of the authorized purposes of a legal entity created under this paragraph is in all respects for the benefit of the people of the state, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions. Since the legal entity will perform essential governmental functions in accomplishing its purposes, the legal entity is not required to pay any taxes or assessments of any kind whatsoever upon any property acquired or used by it for such purposes or upon any revenues at any time received by it. The bonds, notes, and other obligations of an entity, their transfer and the income therefrom, including any profits made on the sale thereof, are at all times free from taxation of any kind by the state or by any political subdivision or other agency or instrumentality thereof. The exemption granted in this subparagraph is not applicable to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations.

Section 1. Subsection (1) of section 163.3174, Florida Statutes, is amended to read:

163.3174 Local planning agency.—

(1) The governing body of each local government, individually or in combination as provided in s. 163.3171, shall designate and by ordinance establish a "local planning agency," unless the agency is otherwise established by law. *Notwithstanding any special act to the contrary, all local planning agencies or equivalent agencies that first review rezoning and comprehensive plan amendments in each municipality and county shall include a representative of the school district appointed by the school board as a nonvoting member of the local planning agency or equivalent agency to attend those meetings at which the agency considers comprehensive plan amendments and rezonings that would, if approved, increase residential density on the property that*

is the subject of the application. However, this subsection does not prevent the governing body of the local government from granting voting status to the school board member. The governing body may designate itself as the local planning agency pursuant to this subsection *with the addition of a nonvoting school board representative.* The governing body shall notify the state land planning agency of the establishment of its local planning agency. All local planning agencies shall provide opportunities for involvement by ~~district school boards and~~ applicable community college boards, which may be accomplished by formal representation, membership on technical advisory committees, or other appropriate means. The local planning agency shall prepare the comprehensive plan or plan amendment after hearings to be held after public notice and shall make recommendations to the governing body regarding the adoption or amendment of the plan. The agency may be a local planning commission, the planning department of the local government, or other instrumentality, including a countywide planning entity established by special act or a council of local government officials created pursuant to s. 163.02, provided the composition of the council is fairly representative of all the governing bodies in the county or planning area; however:

(a) If a joint planning entity is in existence on the effective date of this act which authorizes the governing bodies to adopt and enforce a land use plan effective throughout the joint planning area, that entity shall be the agency for those local governments until such time as the authority of the joint planning entity is modified by law.

(b) In the case of chartered counties, the planning responsibility between the county and the several municipalities therein shall be as stipulated in the charter.

Section 2. Subsection (4) and paragraphs (a), (c), (d), and (h) of subsection (6) of section 163.3177, Florida Statutes, are amended to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(4)(a) Coordination of the local comprehensive plan with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region; *with the appropriate water management district's regional water supply plans approved pursuant to s. 373.0361;* with adopted rules pertaining to designated areas of critical state concern; and with the state comprehensive plan shall be a major objective of the local comprehensive planning process. To that end, in the preparation of a comprehensive plan or element thereof, and in the comprehensive plan or element as adopted, the governing body shall include a specific policy statement indicating the relationship of the proposed development of the area to the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region and to the state comprehensive plan, as the case may require and as such adopted plans or plans in preparation may exist.

(b) When all or a portion of the land in a local government jurisdiction is or becomes part of a designated area of critical state concern, the local government shall clearly identify those portions of the local comprehensive plan that shall be applicable to the critical area and shall indicate the relationship of the proposed development of the area to the rules for the area of critical state concern.

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements:

(a) A future land use plan element designating proposed future general distribution, location, and extent of the uses of land for residential uses, commercial uses, industry, agriculture, recreation, conservation, education, public buildings and grounds, other public facilities, and other categories of the public and private uses of land. *Each The future land use category must be defined in terms of uses included and must plan-shall include standards to be followed in the control and distribution of population densities and building and structure intensities. The proposed distribution, location, and extent of the various categories of land use shall be shown on a land use map or map series which shall be supplemented by goals, policies, and*

measurable objectives. ~~Each land use category shall be defined in terms of the types of uses included and specific standards for the density or intensity of use.~~ The future land use plan shall be based upon surveys, studies, and data regarding the area, including the amount of land required to accommodate anticipated growth; the projected population of the area; the character of undeveloped land; the availability of public services; the need for redevelopment, including the renewal of blighted areas and the elimination of nonconforming uses which are inconsistent with the character of the community; and, in rural communities, the need for job creation, capital investment, and economic development that will strengthen and diversify the community's economy. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this act. In addition, for rural communities, the amount of land designated for future planned industrial use shall be based upon surveys and studies that reflect the need for job creation, capital investment, and the necessity to strengthen and diversify the local economies, and shall not be limited solely by the projected population of the rural community. The future land use plan of a county may also designate areas for possible future municipal incorporation. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. The future land use element must clearly identify the land use categories in which public schools are an allowable use. When delineating the land use categories in which public schools are an allowable use, a local government shall include in the categories sufficient land proximate to residential development to meet the projected needs for schools in coordination with public school boards and may establish differing criteria for schools of different type or size. Each local government shall include lands contiguous to existing school sites, to the maximum extent possible, within the land use categories in which public schools are an allowable use. All comprehensive plans must comply with the school siting requirements of this paragraph no later than October 1, 1999. The failure by a local government to comply with these school siting requirements by October 1, 1999, will result in the prohibition of the local government's ability to amend the local comprehensive plan, except for plan amendments described in s. 163.3187(1)(b), until the school siting requirements are met. ~~Amendments An amendment proposed by a local government for purposes of identifying the land use categories in which public schools are an allowable use or for adopting or amending the school-siting maps pursuant to s. 163.31776(3) are is exempt from the limitation on the frequency of plan amendments contained in s. 163.3187. The future land use element shall include criteria that which encourage the location of schools proximate to urban residential areas to the extent possible and shall require that the local government seek to collocate public facilities, such as parks, libraries, and community centers, with schools to the extent possible and to encourage the use of elementary schools as focal points for neighborhoods. For schools serving predominantly rural counties, defined as a county with a population of 100,000 or fewer, an agricultural land use category shall be eligible for the location of public school facilities if the local comprehensive plan contains school siting criteria and the location is consistent with such criteria.~~

(c) A general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element correlated to principles and guidelines for future land use, indicating ways to provide for future potable water, drainage, sanitary sewer, solid waste, and aquifer recharge protection requirements for the area. The element may be a detailed engineering plan including a topographic map depicting areas of prime groundwater recharge. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs. The element shall also include a topographic map depicting any areas adopted by a regional water management district as prime groundwater recharge areas for the Floridan or Biscayne aquifers, pursuant to s. 373.0395. These areas shall be given special consideration when the local government is engaged in zoning or considering future land use for said designated areas. For areas served by septic tanks, soil surveys shall be provided which indicate the suitability of soils for septic tanks. *By January 1,*

2005, or the Evaluation and Appraisal Report adoption deadline established for the local government pursuant to s. 163.3191(a), whichever date occurs first, the element must consider the appropriate water management district's regional water supply plan approved pursuant to s. 373.0361. The element must include a workplan, covering at least a 10-year planning period, for building water supply facilities that are identified in the element as necessary to serve existing and new development and for which the local government is responsible.

(d) A conservation element for the conservation, use, and protection of natural resources in the area, including air, water, water recharge areas, wetlands, waterwells, estuarine marshes, soils, beaches, shores, flood plains, rivers, bays, lakes, harbors, forests, fisheries and wildlife, marine habitat, minerals, and other natural and environmental resources. Local governments shall assess their current, as well as projected, water needs and sources for *at least* a 10-year period, *considering the appropriate regional water supply plan approved pursuant to s. 373.0361, or, in the absence of an approved regional water supply plan, the district water management plan approved pursuant to s. 373.036(2).* This information shall be submitted to the appropriate agencies. The land use map or map series contained in the future land use element shall generally identify and depict the following:

1. Existing and planned waterwells and cones of influence where applicable.
2. Beaches and shores, including estuarine systems.
3. Rivers, bays, lakes, flood plains, and harbors.
4. Wetlands.
5. Minerals and soils.

The land uses identified on such maps shall be consistent with applicable state law and rules.

(h)1. An intergovernmental coordination element showing relationships and stating principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing services but not having regulatory authority over the use of land, with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region, ~~and with the state comprehensive plan and with the applicable regional water supply plan approved pursuant to s. 373.0361,~~ as the case may require and as such adopted plans or plans in preparation may exist. This element of the local comprehensive plan shall demonstrate consideration of the particular effects of the local plan, when adopted, upon the development of adjacent municipalities, the county, adjacent counties, or the region, or upon the state comprehensive plan, as the case may require.

a. The intergovernmental coordination element shall provide for procedures to identify and implement joint planning areas, especially for the purpose of annexation, municipal incorporation, and joint infrastructure service areas.

b. The intergovernmental coordination element shall provide for recognition of campus master plans prepared pursuant to s. 240.155.

c. The intergovernmental coordination element may provide for a voluntary dispute resolution process as established pursuant to s. 186.509 for bringing to closure in a timely manner intergovernmental disputes. A local government may develop and use an alternative local dispute resolution process for this purpose.

2. The intergovernmental coordination element shall further state principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing facilities and services but not having regulatory authority over the use of land. In addition, the intergovernmental coordination element shall describe joint processes for collaborative planning and decisionmaking on population projections and public school siting, the location and extension of public facilities subject to concurrency, and siting facilities with countywide significance, including locally unwanted land uses

whose nature and identity are established in an agreement. Within 1 year of adopting their intergovernmental coordination elements, each county, all the municipalities within that county, the district school board, and any unit of local government service providers in that county shall establish by interlocal or other formal agreement executed by all affected entities, the joint processes described in this subparagraph consistent with their adopted intergovernmental coordination elements.

3. To foster coordination between special districts and local general-purpose governments as local general-purpose governments implement local comprehensive plans, each independent special district must submit a public facilities report to the appropriate local government as required by s. 189.415.

4.a. *Local governments adopting a public educational facilities element pursuant to s. 163.31776 must execute an interlocal agreement with the district school board, the county, and nonexempt municipalities, as defined by s. 163.31776(1), which includes the items listed in s. 163.31777(2). The local government shall amend the intergovernmental coordination element to provide that coordination between the local government and school board is pursuant to the agreement and shall state the obligations of the local government under the agreement.*

b. *Plan amendments that comply with this subparagraph are exempt from the provisions of s. 163.3187(1).*

5. The state land planning agency shall establish a schedule for phased completion and transmittal of plan amendments to implement subparagraphs 1., 2., and 3. from all jurisdictions so as to accomplish their adoption by December 31, 1999. A local government may complete and transmit its plan amendments to carry out these provisions prior to the scheduled date established by the state land planning agency. The plan amendments are exempt from the provisions of s. 163.3187(1).

6. *By January 1, 2004, any county having a population greater than 100,000, and the municipalities and special districts within that county, shall submit a report to the Department of Community Affairs which:*

a. *Identifies all existing or proposed interlocal service-delivery agreements regarding the following: education; sanitary sewer; public safety; solid waste; drainage; potable water; parks and recreation; and transportation facilities.*

b. *Identifies any deficits or duplication in the provision of services within its jurisdiction, whether capital or operational. Upon request, the Department of Community Affairs shall provide technical assistance to the local governments in identifying deficits or duplication.*

7. *Within 6 months after submission of the report, the Department of Community Affairs shall, through the appropriate regional planning council, coordinate a meeting of all local governments within the regional planning area to discuss the reports and potential strategies to remedy any identified deficiencies or duplications.*

8. *Each local government shall update its intergovernmental coordination element based upon the findings in the report submitted pursuant to subparagraph 6. The report may be used as supporting data and analysis for the intergovernmental coordination element.*

9. *By February 1, 2003, representatives of municipalities, counties, and special districts shall provide to the Legislature recommended statutory changes for annexation, including any changes that address the delivery of local government services in areas planned for annexation.*

Section 3. *Section 163.31775, Florida Statutes, is repealed.*

Section 4. *Section 163.31776, Florida Statutes, is created to read:*

163.31776 Public educational facilities element.—

(1) A county, in conjunction with the municipalities within the county, may adopt an optional public educational facilities element in cooperation with the applicable school district. In order to enact an optional public educational facilities element, the county and each municipality, unless the municipality is exempt as defined in this subsection, must adopt a consistent public educational facilities element

and enter the interlocal agreement pursuant to ss. 163.3177(6)(h)4. and 163.31777(2). A municipality is exempt if it has no established need for a new school facility and it meets the following criteria:

(a) The municipality has no public schools located within its boundaries; and

(b) The district school board's 5-year facilities work program and the long-term 10-year work program, as provided in s. 235.185, demonstrate that no new school facility is needed in the municipality. In addition, the district school board must verify in writing that no new school facility will be needed in the municipality within the 5-year and 10-year timeframes.

(2) The public educational facilities element must be based on data and analysis, including the interlocal agreement defined by ss. 163.3177(6)(h)4. and 163.31777(2), and on the educational facilities plan required by s. 235.185. Each local government public educational facilities element within a county must be consistent with the other elements and must address:

(a) The need for, strategies for, and commitments to addressing improvements to infrastructure, safety, and community conditions in areas proximate to existing public schools.

(b) The need for and strategies for providing adequate infrastructure necessary to support proposed schools, including potable water, wastewater, drainage, solid waste, transportation, and means by which to assure safe access to schools, including sidewalks, bicycle paths, turn lanes, and signalization.

(c) Colocation of other public facilities, such as parks, libraries, and community centers, in proximity to public schools.

(d) Location of schools proximate to residential areas and to complement patterns of development, including using elementary schools as focal points for neighborhoods.

(e) Use of public schools to serve as emergency shelters.

(f) Consideration of the existing and planned capacity of public schools when reviewing comprehensive plan amendments and rezonings that are likely to increase residential development and that are reasonably expected to have an impact on the demand for public school facilities, with the review to be based on uniform, level-of-service standards, availability standards for public schools, and the financially feasible 5-year district facilities work program adopted by the school board pursuant to s. 235.185.

(g) A uniform methodology for determining school capacity consistent with the interlocal agreement entered pursuant to ss. 163.3177(6)(h)4. and 163.31777(2).

(3) The future land-use map series must incorporate maps that are the result of a collaborative process for identifying school sites in the educational facilities plan adopted by the school board pursuant to s. 235.185 and must show the locations of existing public schools and the general locations of improvements to existing schools or new schools anticipated over the 5-year, 10-year, and 20-year time periods, or such maps must constitute data and analysis in support of the future land-use map series. Maps indicating general locations of future schools or school improvements should not prescribe a land use on a particular parcel of land.

(4) The process for adopting a public educational facilities element is as provided in s. 163.3184. The state land planning agency shall submit a copy of the proposed public school facilities element pursuant to the procedures outlined in s. 163.3184(4) to the Office of Educational Facilities and SMART Schools Clearinghouse of the Commissioner of Education for review and comment.

(5) Plan amendments to adopt a public educational facilities element are exempt from the provisions of s. 163.3187(1).

Section 5. *Section 163.31777, Florida Statutes, is created to read:*

163.31777 Public schools interlocal agreement.—

(1)(a) The county and municipalities located within the geographic area of a school district shall enter into an interlocal agreement with the district school board which jointly establishes the specific ways in which the plans and processes of the district school board and the local governments are to be coordinated. The interlocal agreements shall be submitted to the state land planning agency and the Office of Educational Facilities and the SMART Schools Clearinghouse in accordance with a schedule published by the state land planning agency.

(b) The schedule must establish staggered due dates for submission of interlocal agreements that are executed by both the local government and the district school board, commencing on March 1, 2003, and concluding by December 1, 2004, and must set the same date for all governmental entities within a school district. However, if the county where the school district is located contains more than 20 municipalities, the state land planning agency may establish staggered due dates for the submission of interlocal agreements by these municipalities. The schedule must begin with those areas where both the number of districtwide capital-outlay full-time-equivalent students equals 80 percent or more of the current year's school capacity and the projected 5-year student growth is 1,000 or greater, or where the projected 5-year student growth rate is 10 percent or greater.

(c) If the student population has declined over the 5-year period preceding the due date for submittal of an interlocal agreement by the local government and the district school board, the local government and the district school board may petition the state land planning agency for a waiver of one or more requirements of subsection (2). The waiver must be granted if the procedures called for in subsection (2) are unnecessary because of the school district's declining school age population, considering the district's 5-year facilities work program prepared pursuant to s. 235.185. The state land planning agency may modify or revoke the waiver upon a finding that the conditions upon which the waiver was granted no longer exist. The district school board and local governments must submit an interlocal agreement within 1 year after notification by the state land planning agency that the conditions for a waiver no longer exist.

(d) Interlocal agreements between local governments and district school boards adopted pursuant to s. 163.3177 before the effective date of this section must be updated and executed pursuant to the requirements of this section, if necessary. Amendments to interlocal agreements adopted pursuant to this section must be submitted to the state land planning agency within 30 days after execution by the parties for review consistent with this section. Local governments and the district school board in each school district are encouraged to adopt a single interlocal agreement to which all join as parties. The state land planning agency shall assemble and make available model interlocal agreements meeting the requirements of this section and notify local governments and, jointly with the Department of Education, the district school boards of the requirements of this section, the dates for compliance, and the sanctions for noncompliance. The state land planning agency shall be available to informally review proposed interlocal agreements. If the state land planning agency has not received a proposed interlocal agreement for informal review, the state land planning agency shall, at least 60 days before the deadline for submission of the executed agreement, renotify the local government and the district school board of the upcoming deadline and the potential for sanctions.

(2) At a minimum, the interlocal agreement must address the following issues:

(a) A process by which each local government and the district school board agree and base their plans on consistent projections of the amount, type, and distribution of population growth and student enrollment. The geographic distribution of jurisdiction-wide growth forecasts is a major objective of the process.

(b) A process to coordinate and share information relating to existing and planned public school facilities, including school renovations and closures, and local government plans for development and redevelopment.

(c) Participation by affected local governments with the district school board in the process of evaluating potential school closures, significant renovations to existing schools, and new school site selection before land acquisition. Local governments shall advise the district school board as to the consistency of the proposed closure, renovation, or new site with the local comprehensive plan, including appropriate circumstances and criteria under which a district school board may request an amendment to the comprehensive plan for school siting.

(d) A process for determining the need for and timing of on-site and off-site improvements to support new, proposed expansion, or redevelopment of existing schools. The process must address identification of the party or parties responsible for the improvements.

(e) A process for the school board to inform the local government regarding school capacity. The capacity reporting must be consistent with laws and rules relating to measurement of school facility capacity and must also identify how the district school board will meet the public school demand based on the facilities work program adopted pursuant to s. 235.185.

(f) Participation of the local governments in the preparation of the annual update to the district school board's 5-year district facilities work program and educational plant survey prepared pursuant to s. 235.185.

(g) A process for determining where and how joint use of either school board or local government facilities can be shared for mutual benefit and efficiency.

(h) A procedure for the resolution of disputes between the district school board and local governments, which may include the dispute-resolution processes contained in chapters 164 and 186.

(i) An oversight process, including an opportunity for public participation, for the implementation of the interlocal agreement.

A signatory to the interlocal agreement may elect not to include a provision meeting the requirements of paragraph (e); however, such a decision may be made only after a public hearing on such election, which may include the public hearing in which a district school board or a local government adopts the interlocal agreement. An interlocal agreement entered into pursuant to this section must be consistent with the adopted comprehensive plan and land development regulations of any local government that is a signatory.

(3)(a) The Office of Educational Facilities and SMART Schools Clearinghouse shall submit any comments or concerns regarding the executed interlocal agreement to the state land planning agency within 30 days after receipt of the executed interlocal agreement. The state land planning agency shall review the executed interlocal agreement to determine whether it is consistent with the requirements of subsection (2), the adopted local government comprehensive plan, and other requirements of law. Within 60 days after receipt of an executed interlocal agreement, the state land planning agency shall publish a notice of intent in the *Florida Administrative Weekly* and shall post a copy of the notice on the agency's Internet site. The notice of intent must state whether the interlocal agreement is consistent or inconsistent with the requirements of subsection (2) and this subsection, as appropriate.

(b) The state land planning agency's notice is subject to challenge under chapter 120; however, an affected person, as defined in 163.3184(1)(a), has standing to initiate the administrative proceeding, and this proceeding is the sole means available to challenge the consistency of an interlocal agreement required by this section with the criteria contained in subsection (2) and this subsection. In order to have standing, each person must have submitted oral or written comments, recommendations, or objections to the local government or the school board before the adoption of the interlocal agreement by the school board and local government. The district school board and local governments are parties to any such proceeding. In this proceeding, when the state land planning agency finds the interlocal agreement to be consistent with the criteria in subsection (2) and this subsection, the interlocal agreement shall be determined to be consistent with subsection (2) and this subsection if the local government's and school board's determination of consistency is fairly debatable. When the state planning agency finds the

interlocal agreement to be inconsistent with the requirements of subsection (2) and this subsection, the local government's and school board's determination of consistency shall be sustained unless it is shown by a preponderance of the evidence that the interlocal agreement is inconsistent.

(c) If the state land planning agency enters a final order that finds that the interlocal agreement is inconsistent with the requirements of subsection (2) or this subsection, it shall forward it to the Administration Commission, which may impose sanctions against the local government pursuant to s. 163.3184(11) and may impose sanctions against the district school board by directing the Department of Education to withhold from the district school board an equivalent amount of funds for school construction available pursuant to ss. 235.187, 235.216, 235.2195, and 235.42.

(4) If an executed interlocal agreement is not timely submitted to the state land planning agency for review, the state land planning agency shall, within 15 working days after the deadline for submittal, issue to the local government and the district school board a Notice to Show Cause why sanctions should not be imposed for failure to submit an executed interlocal agreement by the deadline established by the agency. The agency shall forward the notice and the responses to the Administration Commission, which may enter a final order citing the failure to comply and imposing sanctions against the local government and district school board by directing the appropriate agencies to withhold at least 5 percent of state funds pursuant to s. 163.3184(11) and by directing the Department of Education to withhold from the district school board at least 5 percent of funds for school construction available pursuant to ss. 235.187, 235.216, 235.2195, 235.42.

(5) Any local government transmitting a public school element to implement school concurrency pursuant to the requirements of s. 163.3180 before the effective date of this section is not required to amend the element or any interlocal agreement to conform with the provisions of this section if the element is adopted prior to or within 1 year after the effective date of this section and remains in effect.

(6) Except as provided in subsection (7), municipalities having no established need for a new school facility and meeting the following criteria are exempt from the requirements of subsections (1), (2), and (3):

(a) The municipality has no public schools located within its boundaries.

(b) The district school board's 5-year facilities work program and the long-term 10-year and 20-year work programs, as provided in s. 235.185, demonstrate that no new school facility is needed in the municipality. In addition, the district school board must verify in writing that no new school facility will be needed in the municipality within the 5-year and 10-year timeframes.

(7) At the time of the evaluation and appraisal report, each exempt municipality shall assess the extent to which it continues to meet the criteria for exemption under subsection (6). If the municipality continues to meet these criteria and the district school board verifies in writing that no new school facilities will be needed within the 5-year and 10-year timeframes, the municipality shall continue to be exempt from the interlocal-agreement requirement. Each municipality exempt under subsection (6) must comply with the provisions of this section within 1 year after the district school board proposes, in its 5-year district facilities work program, a new school within the municipality's jurisdiction.

Section 6. Subsection (4) of section 163.3180, Florida Statutes, is amended to read:

163.3180 Concurrency.—

(4)(a) The concurrency requirement as implemented in local comprehensive plans applies to state and other public facilities and development to the same extent that it applies to all other facilities and development, as provided by law.

(b) The concurrency requirement as implemented in local comprehensive plans does not apply to public transit facilities. For the

purposes of this paragraph, public transit facilities include transit stations and terminals, transit station parking, park-and-ride lots, intermodal public transit connection or transfer facilities, and fixed bus, guideway, and rail stations. As used in this paragraph, the terms “terminals” and “transit facilities” do not include airports or seaports or commercial or residential development constructed in conjunction with a public transit facility.

(c) The concurrency requirement, except as it relates to transportation facilities, as implemented in local government comprehensive plans may be waived by a local government for urban infill and redevelopment areas designated pursuant to s. 163.2517 if such a waiver does not endanger public health or safety as defined by the local government in its local government comprehensive plan. The waiver shall be adopted as a plan amendment pursuant to the process set forth in s. 163.3187(3)(a). A local government may grant a concurrency exception pursuant to subsection (5) for transportation facilities located within these urban infill and redevelopment areas.

Section 7. Subsections (1), (3), (4), (6), (7), (8), and (15) and paragraph (d) of subsection (16) of section 163.3184, Florida Statutes, are amended to read:

163.3184 Process for adoption of comprehensive plan or plan amendment.—

(1) DEFINITIONS.—As used in this section, *the term:*

(a) “Affected person” includes the affected local government; persons owning property, residing, or owning or operating a business within the boundaries of the local government whose plan is the subject of the review; *owners of real property abutting real property that is the subject of a proposed change to a future land-use map;* and adjoining local governments that can demonstrate that the plan or plan amendment will produce substantial impacts on the increased need for publicly funded infrastructure or substantial impacts on areas designated for protection or special treatment within their jurisdiction. Each person, other than an adjoining local government, in order to qualify under this definition, shall also have submitted oral or written comments, recommendations, or objections to the local government during the period of time beginning with the transmittal hearing for the plan or plan amendment and ending with the adoption of the plan or plan amendment.

(b) “In compliance” means consistent with the requirements of ss. 163.3177, 163.31776, *when a local government adopts an educational facilities element,* 163.3178, 163.3180, 163.3191, and 163.3245, with the state comprehensive plan, with the appropriate strategic regional policy plan, and with chapter 9J-5, Florida Administrative Code, where such rule is not inconsistent with this part and with the principles for guiding development in designated areas of critical state concern.

(3) LOCAL GOVERNMENT TRANSMITTAL OF PROPOSED PLAN OR AMENDMENT.—

(a) Each local governing body shall transmit the complete proposed comprehensive plan or plan amendment to the state land planning agency, the appropriate regional planning council and water management district, the Department of Environmental Protection, *the Department of State,* and the Department of Transportation, *and, in the case of municipal plans, to the appropriate county, and, in the case of county plans, to the Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services,* immediately following a public hearing pursuant to subsection (15) as specified in the state land planning agency's procedural rules. The local governing body shall also transmit a copy of the complete proposed comprehensive plan or plan amendment to any other unit of local government or government agency in the state that has filed a written request with the governing body for the plan or plan amendment. *The local government may request a review by the state land planning agency pursuant to subsection (6) at the time of the transmittal of an amendment.*

(b) A local governing body shall not transmit portions of a plan or plan amendment unless it has previously provided to all state agencies designated by the state land planning agency a complete copy of its

adopted comprehensive plan pursuant to subsection (7) and as specified in the agency's procedural rules. In the case of comprehensive plan amendments, the local governing body shall transmit to the state land planning agency, the appropriate regional planning council and water management district, the Department of Environmental Protection, the Department of State, and the Department of Transportation, and, in the case of municipal plans, to the appropriate county and, in the case of county plans, to the Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services the materials specified in the state land planning agency's procedural rules and, in cases in which the plan amendment is a result of an evaluation and appraisal report adopted pursuant to s. 163.3191, a copy of the evaluation and appraisal report. Local governing bodies shall consolidate all proposed plan amendments into a single submission for each of the two plan amendment adoption dates during the calendar year pursuant to s. 163.3187.

(c) A local government may adopt a proposed plan amendment previously transmitted pursuant to this subsection, unless review is requested or otherwise initiated pursuant to subsection (6).

(d) In cases in which a local government transmits multiple individual amendments that can be clearly and legally separated and distinguished for the purpose of determining whether to review the proposed amendment, and the state land planning agency elects to review several or a portion of the amendments and the local government chooses to immediately adopt the remaining amendments not reviewed, the amendments immediately adopted and any reviewed amendments that the local government subsequently adopts together constitute one amendment cycle in accordance with s. 163.3187(1).

(4) ~~INTERGOVERNMENTAL REVIEW.—If review of a proposed comprehensive plan amendment is requested or otherwise initiated pursuant to subsection (6), the state land planning agency within 5 working days of determining that such a review will be conducted shall transmit a copy of the proposed plan amendment to various government agencies, as appropriate, for response or comment, including, but not limited to, the Department of Environmental Protection, the Department of Transportation, the water management district, and the regional planning council, and, in the case of municipal plans, to the county land planning agency. The~~ These governmental agencies specified in paragraph (3)(a) shall provide comments to the state land planning agency within 30 days after receipt by the state land planning agency of the complete proposed plan amendment. If the plan or plan amendment includes or relates to the public school facilities element pursuant to s. 163.31776, the state land planning agency shall submit a copy to the Office of Educational Facilities of the Commissioner of Education for review and comment. The appropriate regional planning council shall also provide its written comments to the state land planning agency within 30 days after receipt by the state land planning agency of the complete proposed plan amendment and shall specify any objections, recommendations for modifications, and comments of any other regional agencies to which the regional planning council may have referred the proposed plan amendment. Written comments submitted by the public within 30 days after notice of transmittal by the local government of the proposed plan amendment will be considered as if submitted by governmental agencies. All written agency and public comments must be made part of the file maintained under subsection (2).

(6) STATE LAND PLANNING AGENCY REVIEW.—

(a) The state land planning agency shall review a proposed plan amendment upon request of a regional planning council, affected person, or local government transmitting the plan amendment. ~~The request from the regional planning council or affected person must be if the request is received within 30 days after transmittal of the proposed plan amendment pursuant to subsection (3). The agency shall issue a report of its objections, recommendations, and comments regarding the proposed plan amendment.~~ A regional planning council or affected person requesting a review shall do so by submitting a written request to the agency with a notice of the request to the local government and any other person who has requested notice.

(b) The state land planning agency may review any proposed plan amendment regardless of whether a request for review has been made, if the agency gives notice to the local government, and any other person who has requested notice, of its intention to conduct such a review within 35 30 days after receipt of transmittal of the complete proposed plan amendment pursuant to subsection (3).

(c) The state land planning agency shall establish by rule a schedule for receipt of comments from the various government agencies, as well as written public comments, pursuant to subsection (4). ~~If the state land planning agency elects to review the amendment or the agency is required to review the amendment as specified in paragraph (a), the agency shall issue a report giving its objections, recommendations, and comments regarding the proposed amendment within 60 days after receipt of the complete proposed amendment by the state land planning agency. The state land planning agency shall have 30 days to review comments from the various government agencies along with a local government's comprehensive plan or plan amendment. During that period, the state land planning agency shall transmit in writing its comments to the local government along with any objections and any recommendations for modifications.~~ When a federal, state, or regional agency has implemented a permitting program, the state land planning agency shall not require a local government to duplicate or exceed that permitting program in its comprehensive plan or to implement such a permitting program in its land development regulations. Nothing contained herein shall prohibit the state land planning agency in conducting its review of local plans or plan amendments from making objections, recommendations, and comments or making compliance determinations regarding densities and intensities consistent with the provisions of this part. In preparing its comments, the state land planning agency shall only base its considerations on written, and not oral, comments, from any source.

(d) The state land planning agency review shall identify all written communications with the agency regarding the proposed plan amendment. If the state land planning agency does not issue such a review, it shall identify in writing to the local government all written communications received 30 days after transmittal. The written identification must include a list of all documents received or generated by the agency, which list must be of sufficient specificity to enable the documents to be identified and copies requested, if desired, and the name of the person to be contacted to request copies of any identified document. The list of documents must be made a part of the public records of the state land planning agency.

(7) LOCAL GOVERNMENT REVIEW OF COMMENTS; ADOPTION OF PLAN OR AMENDMENTS AND TRANSMITTAL.—

(a) The local government shall review the written comments submitted to it by the state land planning agency, and any other person, agency, or government. Any comments, recommendations, or objections and any reply to them shall be public documents, a part of the permanent record in the matter, and admissible in any proceeding in which the comprehensive plan or plan amendment may be at issue. The local government, upon receipt of written comments from the state land planning agency, shall have 120 days to adopt or adopt with changes the proposed comprehensive plan or s. 163.3191 plan amendments. In the case of comprehensive plan amendments other than those proposed pursuant to s. 163.3191, the local government shall have 60 days to adopt the amendment, adopt the amendment with changes, or determine that it will not adopt the amendment. The adoption of the proposed plan or plan amendment or the determination not to adopt a plan amendment, other than a plan amendment proposed pursuant to s. 163.3191, shall be made in the course of a public hearing pursuant to subsection (15). The local government shall transmit the complete adopted comprehensive plan or adopted plan amendment, including the names and addresses of person compiled pursuant to paragraph (15)(c), to the state land planning agency as specified in the agency's procedural rules within 10 working days after adoption. The local governing body shall also transmit a copy of the adopted comprehensive plan or plan amendment to the regional planning agency and to any other unit of local government or governmental agency in the state that has filed a written request with the governing body for a copy of the plan or plan amendment.

(b) *If the adopted plan amendment is unchanged from the proposed plan amendment transmitted pursuant to subsection (3) and an affected person as defined in paragraph (1)(a) did not raise any objection, the state land planning agency did not review the proposed plan amendment, and the state land planning agency did not raise any objections during its review pursuant to subsection (6), the local government may state in the transmittal letter that the plan amendment is unchanged and was not the subject of objections.*

(8) NOTICE OF INTENT.—

(a) *If the transmittal letter correctly states that the plan amendment is unchanged and was not the subject of review or objections pursuant to paragraph (7)(b), the state land planning agency has 20 days after receipt of the transmittal letter within which to issue a notice of intent that the plan amendment is in compliance.*

(b)(a) Except as provided in paragraph (a) or in s. 163.3187(3), the state land planning agency, upon receipt of a local government's complete adopted comprehensive plan or plan amendment, shall have 45 days for review and to determine if the plan or plan amendment is in compliance with this act, unless the amendment is the result of a compliance agreement entered into under subsection (16), in which case the time period for review and determination shall be 30 days. If review was not conducted under subsection (6), the agency's determination must be based upon the plan amendment as adopted. If review was conducted under subsection (6), the agency's determination of compliance must be based only upon one or both of the following:

1. The state land planning agency's written comments to the local government pursuant to subsection (6); or

2. Any changes made by the local government to the comprehensive plan or plan amendment as adopted.

(c)(b)1. ~~During the time period provided for in this subsection, the state land planning agency shall issue, through a senior administrator or the secretary, as specified in the agency's procedural rules, a notice of intent to find that the plan or plan amendment is in compliance or not in compliance. A notice of intent shall be issued by publication in the manner provided by this paragraph and by mailing a copy to the local government and to persons who request notice. The required advertisement shall be no less than 2 columns wide by 10 inches long, and the headline in the advertisement shall be in a type no smaller than 12 point. The advertisement shall not be placed in that portion of the newspaper where legal notices and classified advertisements appear. The advertisement shall be published in a newspaper which meets the size and circulation requirements set forth in paragraph (15)(e) and which has been designated in writing by the affected local government at the time of transmittal of the amendment. Publication by the state land planning agency of a notice of intent in the newspaper designated by the local government shall be prima facie evidence of compliance with the publication requirements of this section.~~

2. ~~For fiscal year 2001-2002 only, the provisions of this subparagraph shall supersede the provisions of subparagraph 1. During the time period provided for in this subsection, the state land planning agency shall issue, through a senior administrator or the secretary, as specified in the agency's procedural rules, a notice of intent to find that the plan or plan amendment is in compliance or not in compliance. A notice of intent shall be issued by publication in the manner provided by this paragraph and by mailing a copy to the local government. The advertisement shall be placed in that portion of the newspaper where legal notices appear. The advertisement shall be published in a newspaper that meets the size and circulation requirements set forth in paragraph (15)(e) (15)(e) and that has been designated in writing by the affected local government at the time of transmittal of the amendment. Publication by the state land planning agency of a notice of intent in the newspaper designated by the local government shall be prima facie evidence of compliance with the publication requirements of this section. The state land planning agency shall post a copy of the notice of intent on the agency's Internet site. The agency shall, no later than the date the notice of intent is transmitted to the newspaper, send by regular mail a courtesy informational statement to persons who provide~~

their names and addresses to the local government at the transmittal hearing or at the adoption hearing where the local government has provided the names and addresses of such persons to the department at the time of transmittal of the adopted amendment. The informational statements shall include the name of the newspaper in which the notice of intent will appear, the approximate date of publication, the ordinance number of the plan or plan amendment, and a statement that affected persons have 21 days after the actual date of publication of the notice to file a petition. ~~This subparagraph expires July 1, 2002.~~

2. *A local government that has an Internet site shall post a copy of the state land planning agency's notice of intent on the site within 5 days after receipt of the mailed copy of the agency's notice of intent.*

(15) PUBLIC HEARINGS.—

(a) The procedure for transmittal of a complete proposed comprehensive plan or plan amendment pursuant to subsection (3) and for adoption of a comprehensive plan or plan amendment pursuant to subsection (7) shall be by affirmative vote of not less than a majority of the members of the governing body present at the hearing. The adoption of a comprehensive plan or plan amendment shall be by ordinance. For the purposes of transmitting or adopting a comprehensive plan or plan amendment, the notice requirements in chapters 125 and 166 are superseded by this subsection, except as provided in this part.

(b) The local governing body shall hold at least two advertised public hearings on the proposed comprehensive plan or plan amendment as follows:

1. The first public hearing shall be held at the transmittal stage pursuant to subsection (3). It shall be held on a weekday at least 7 days after the day that the first advertisement is published.

2. The second public hearing shall be held at the adoption stage pursuant to subsection (7). It shall be held on a weekday at least 5 days after the day that the second advertisement is published.

(c) *The local government shall provide a sign-in form at the transmittal hearing and at the adoption hearing for persons to provide their names and mailing addresses. The sign-in form must advise that any person providing the requested information will receive a courtesy informational statement concerning publications of the state land planning agency's notice of intent. The local government shall add to the sign-in form the name and address of any person who submits written comments concerning the proposed plan or plan amendment during the time period between the commencement of the transmittal hearing and the end of the adoption hearing. It is the responsibility of the person completing the form or providing written comments to accurately, completely, and legibly provide all information needed in order to receive the courtesy informational statement.*

(d) *The agency shall provide a model sign-in form for providing the list to the agency which may be used by the local government to satisfy the requirements of this subsection.*

(e)(e) If the proposed comprehensive plan or plan amendment changes the actual list of permitted, conditional, or prohibited uses within a future land use category or changes the actual future land use map designation of a parcel or parcels of land, the required advertisements shall be in the format prescribed by s. 125.66(4)(b)2. for a county or by s. 166.041(3)(c)2.b. for a municipality.

(16) COMPLIANCE AGREEMENTS.—

(d) A local government may adopt a plan amendment pursuant to a compliance agreement in accordance with the requirements of paragraph (15)(a). The plan amendment shall be exempt from the requirements of subsections (2)-(7). The local government shall hold a single adoption public hearing pursuant to the requirements of subparagraph (15)(b)2. and paragraph (15)(e)(e). Within 10 working days after adoption of a plan amendment, the local government shall transmit the amendment to the state land planning agency as specified in the agency's procedural rules, and shall submit one copy to the regional planning agency and to any other unit of local government or

government agency in the state that has filed a written request with the governing body for a copy of the plan amendment, and one copy to any party to the proceeding under ss. 120.569 and 120.57 granted intervenor status.

Section 8. Paragraph (c) is amended and paragraph (k) is added to subsection (1) of section 163.3187, Florida Statutes, to read:

163.3187 Amendment of adopted comprehensive plan.—

(1) Amendments to comprehensive plans adopted pursuant to this part may be made not more than two times during any calendar year, except:

(c) Any local government comprehensive plan amendments directly related to proposed small scale development activities may be approved without regard to statutory limits on the frequency of consideration of amendments to the local comprehensive plan. A small scale development amendment may be adopted only under the following conditions:

1. The proposed amendment involves a use of 10 acres or fewer and:

a. The cumulative annual effect of the acreage for all small scale development amendments adopted by the local government shall not exceed:

(I) A maximum of 120 acres in a local government that contains areas specifically designated in the local comprehensive plan for urban infill, urban redevelopment, or downtown revitalization as defined in s. 163.3164, urban infill and redevelopment areas designated under s. 163.2517, transportation concurrency exception areas approved pursuant to s. 163.3180(5), or regional activity centers and urban central business districts approved pursuant to s. 380.06(2)(e); however, amendments under this paragraph may be applied to no more than 60 acres annually of property outside the designated areas listed in this sub-sub-subparagraph.

(II) A maximum of 80 acres in a local government that does not contain any of the designated areas set forth in sub-sub-subparagraph (I).

(III) A maximum of 120 acres in a county established pursuant to s. 9, Art. VIII of the State Constitution.

b. The proposed amendment does not involve the same property granted a change within the prior 12 months.

c. The proposed amendment does not involve the same owner's property within 200 feet of property granted a change within the prior 12 months.

d. The proposed amendment does not involve a text change to the goals, policies, and objectives of the local government's comprehensive plan, but only proposes a land use change to the future land use map for a site-specific small scale development activity.

e. The property that is the subject of the proposed amendment is not located within an area of critical state concern, unless the project subject to the proposed amendment involves the construction of affordable housing units meeting the criteria of s. 420.0004(3), and is located within an area of critical state concern designated by s. 380.0552 or by the Administration Commission pursuant to s. 380.05(1). Such amendment is not subject to the density limitations of sub-subparagraph f., and shall be reviewed by the state land planning agency for consistency with the principles for guiding development applicable to the area of critical state concern where the amendment is located and shall not become effective until a final order is issued under s. 380.05(6).

f. If the proposed amendment involves a residential land use, the residential land use has a density of 10 units or less per acre, except that this limitation does not apply to small scale amendments described in sub-sub-subparagraph a.(I) that are designated in the local comprehensive plan for urban infill, urban redevelopment, or downtown revitalization as defined in s. 163.3164, urban infill and redevelopment

areas designated under s. 163.2517, transportation concurrency exception areas approved pursuant to s. 163.3180(5), or regional activity centers and urban central business districts approved pursuant to s. 380.06(2)(e).

2.a. A local government that proposes to consider a plan amendment pursuant to this paragraph is not required to comply with the procedures and public notice requirements of s. 163.3184(15)(c) for such plan amendments if the local government complies with the provisions in s. 125.66(4)(a) for a county or in s. 166.041(3)(c) for a municipality. If a request for a plan amendment under this paragraph is initiated by other than the local government, public notice is required.

b. The local government shall send copies of the notice and amendment to the state land planning agency, the regional planning council, and any other person or entity requesting a copy. This information shall also include a statement identifying any property subject to the amendment that is located within a coastal high hazard area as identified in the local comprehensive plan.

3. Small scale development amendments adopted pursuant to this paragraph require only one public hearing before the governing board, which shall be an adoption hearing as described in s. 163.3184(7), and are not subject to the requirements of s. 163.3184(3)-(6) unless the local government elects to have them subject to those requirements.

(k) A comprehensive plan amendment to adopt a public educational facilities element pursuant to s. 163.31776 and future land-use-map amendments for school siting may be approved notwithstanding statutory limits on the frequency of adopting plan amendments.

Section 9. Paragraph (k) of subsection (2) of section 163.3191, Florida Statutes, is amended and paragraphs (l) and (m) are added to that subsection to read:

163.3191 Evaluation and appraisal of comprehensive plan.—

(2) The report shall present an evaluation and assessment of the comprehensive plan and shall contain appropriate statements to update the comprehensive plan, including, but not limited to, words, maps, illustrations, or other media, related to:

(k) The coordination of the comprehensive plan with existing public schools and those identified in the applicable *educational 5-year school district facilities plan work program* adopted pursuant to s. 235.185. The assessment shall address, where relevant, the success or failure of the coordination of the future land use map and associated planned residential development with public schools and their capacities, as well as the joint decisionmaking processes engaged in by the local government and the school board in regard to establishing appropriate population projections and the planning and siting of public school facilities. If the issues are not relevant, the local government shall demonstrate that they are not relevant.

(l) The evaluation must consider the appropriate water management district's regional water supply plan approved pursuant to s. 373.0361. The potable water element must be revised to include a work plan, covering at least a 10-year planning period, for building any water supply facilities that are identified in the element as necessary to serve existing and new development and for which the local government is responsible.

(m) If any of the jurisdiction of the local government is located within the coastal high-hazard area, an evaluation of whether any past reduction in land use density impairs the property rights of current residents when redevelopment occurs, including, but not limited to, redevelopment following a natural disaster. The property rights of current residents shall be balanced with public safety considerations. The local government must identify strategies to address redevelopment feasibility and the property rights of affected residents. These strategies may include the authorization of redevelopment up to the actual built density in existence on the property prior to the natural disaster or redevelopment.

Section 10. Section 163.3215, Florida Statutes, is amended to read:

163.3215 Standing to enforce local comprehensive plans through development orders.—

(1) Subsections (3) and (4) provide the exclusive methods for an aggrieved or adversely affected party to appeal and challenge the consistency of a development order with a comprehensive plan adopted under this part. The local government that issues the development order is to be named as a respondent in all proceedings under this section. Subsection (3) shall not apply to development orders for which a local government has established a process consistent with the requirements of subsection (4). A local government may decide which types of development orders will proceed under subsection (4). Subsection (3) shall apply to all other development orders that are not subject to subsection (4).

(2) As used in this section, the term “aggrieved or adversely affected party” means any person or local government that will suffer an adverse effect to an interest protected or furthered by the local government comprehensive plan, including interests related to health and safety, police and fire protection service systems, densities or intensities of development, transportation facilities, health care facilities, equipment or services, and environmental or natural resources. The alleged adverse interest may be shared in common with other members of the community at large but must exceed in degree the general interest in community good shared by all persons. The term includes the owner, developer, or applicant for a development order.

(3)(4) Any aggrieved or adversely affected party may maintain a *de novo* an action for declaratory, injunctive, or other relief against any local government to challenge any decision of such local government granting or denying an application for, or to prevent such local government from taking any action on, a development order, as defined in s. 163.3164, which materially alters the use or density or intensity of use on a particular piece of property which that is not consistent with the comprehensive plan adopted under this part. The *de novo* action must be filed no later than 30 days following rendition of a development order or other written decision, or when all local administrative appeals, if any, are exhausted, whichever occurs later.

(2) “Aggrieved or adversely affected party” means any person or local government which will suffer an adverse effect to an interest protected or furthered by the local government comprehensive plan, including interests related to health and safety, police and fire protection service systems, densities or intensities of development, transportation facilities, health care facilities, equipment or services, or environmental or natural resources. The alleged adverse interest may be shared in common with other members of the community at large, but shall exceed in degree the general interest in community good shared by all persons.

(3)(a) No suit may be maintained under this section challenging the approval or denial of a zoning, rezoning, planned unit development, variance, special exception, conditional use, or other development order granted prior to October 1, 1985, or applied for prior to July 1, 1985.

(b) Suit under this section shall be the sole action available to challenge the consistency of a development order with a comprehensive plan adopted under this part.

(4) If a local government elects to adopt or has adopted an ordinance establishing, at a minimum, the requirements listed in this subsection, the sole method by which an aggrieved and adversely affected party may challenge any decision of local government granting or denying an application for a development order, as defined in s. 163.3164, which materially alters the use or density or intensity of use on a particular piece of property, on the basis that it is not consistent with the comprehensive plan adopted under this part, is by an appeal filed by a petition for writ of certiorari filed in circuit court no later than 30 days following rendition of a development order or other written decision of the local government, or when all local administrative appeals, if any, are exhausted, whichever occurs later. An action for injunctive or other relief may be joined with the petition for certiorari. Principles of judicial or administrative *res judicata* and collateral estoppel apply to these proceedings. Minimum components of the local process are as follows:

(a) The local process must make provision for notice of an application for a development order that materially alters the use or density or intensity of use on a particular piece of property, including notice by publication or mailed notice consistent with the provisions of s. 166.041(3)(c)2.b. and c. and s. 125.66(4)(b)2. and 3., and must require prominent posting at the job site. The notice must be given within 10 days after the filing of an application for development order; however, notice under this subsection is not required for an application for a building permit or any other official action of local government which does not materially alter the use or density or intensity of use on a particular piece of property. The notice must clearly delineate that an aggrieved or adversely affected person has the right to request a quasi-judicial hearing before the local government for which the application is made, must explain the conditions precedent to the appeal of any development order ultimately rendered upon the application, and must specify the location where written procedures can be obtained that describe the process, including how to initiate the quasi-judicial process, the timeframes for initiating the process, and the location of the hearing. The process may include an opportunity for an alternative dispute resolution.

(b) The local process must provide a clear point of entry consisting of a written preliminary decision, at a time and in a manner to be established in the local ordinance, with the time to request a quasi-judicial hearing running from the issuance of the written preliminary decision; the local government, however, is not bound by the preliminary decision. A party may request a hearing to challenge or support a preliminary decision.

(c) The local process must provide an opportunity for participation in the process by an aggrieved or adversely affected party, allowing a reasonable time for the party to prepare and present a case for the quasi-judicial hearing.

(d) The local process must provide, at a minimum, an opportunity for the disclosure of witnesses and exhibits prior to hearing and an opportunity for the depositions of witnesses to be taken.

(e) The local process may not require that a party be represented by an attorney in order to participate in a hearing.

(f) The local process must provide for a quasi-judicial hearing before an impartial special master who is an attorney who has at least 5 years' experience and who shall, at the conclusion of the hearing, recommend written findings of fact and conclusions of law. The special master shall have the power to swear witnesses and take their testimony under oath, to issue subpoenas and other orders regarding the conduct of the proceedings, and to compel entry upon the land. The standard of review applied by the special master in determining whether a proposed development order is consistent with the comprehensive plan shall be strict scrutiny in accordance with Florida law.

(g) At the quasi-judicial hearing, all parties must have the opportunity to respond, to present evidence and argument on all issues involved which are related to the development order, and to conduct cross-examination and submit rebuttal evidence. Public testimony must be allowed.

(h) The local process must provide for a duly noticed public hearing before the local government at which public testimony is allowed. At the quasi-judicial hearing, the local government is bound by the special master's findings of fact unless the findings of fact are not supported by competent substantial evidence. The governing body may modify the conclusions of law if it finds that the special master's application or interpretation of law is erroneous. The governing body may make reasonable legal interpretations of its comprehensive plan and land development regulations without regard to whether the special master's interpretation is labeled as a finding of fact or a conclusion of law. The local government's final decision must be reduced to writing, including the findings of fact and conclusions of law, and is not considered rendered or final until officially date-stamped by the city or county clerk.

(i) An *ex parte* communication relating to the merits of the matter under review may not be made to the special master. An *ex parte* communication relating to the merits of the matter under review may not

be made to the governing body after a time to be established by the local ordinance, which time must be no later than receipt of the special master's recommended order by the governing body.

(j) At the option of the local government, the process may require actions to challenge the consistency of a development order with land development regulations to be brought in the same proceeding.

~~(4) As a condition precedent to the institution of an action pursuant to this section, the complaining party shall first file a verified complaint with the local government whose actions are complained of setting forth the facts upon which the complaint is based and the relief sought by the complaining party. The verified complaint shall be filed no later than 30 days after the alleged inconsistent action has been taken. The local government receiving the complaint shall respond within 30 days after receipt of the complaint. Thereafter, the complaining party may institute the action authorized in this section. However, the action shall be instituted no later than 30 days after the expiration of the 30-day period which the local government has to take appropriate action. Failure to comply with this subsection shall not bar an action for a temporary restraining order to prevent immediate and irreparable harm from the actions complained of.~~

(5) Venue in any cases brought under this section shall lie in the county or counties where the actions or inactions giving rise to the cause of action are alleged to have occurred.

(6) The signature of an attorney or party constitutes a certificate that he or she has read the pleading, motion, or other paper and that, to the best of his or her knowledge, information, and belief formed after reasonable inquiry, it is not interposed for any improper purpose, such as to harass or to cause unnecessary delay or for economic advantage, competitive reasons or frivolous purposes or needless increase in the cost of litigation. If a pleading, motion, or other paper is signed in violation of these requirements, the court, upon motion or its own initiative, shall impose upon the person who signed it, a represented party, or both, an appropriate sanction, which may include an order to pay to the other party or parties the amount of reasonable expenses incurred because of the filing of the pleading, motion, or other paper, including a reasonable attorney's fee.

~~(7) In any proceeding action under subsection (3) or subsection (4) this section, no settlement shall be entered into by the local government unless the terms of the settlement have been the subject of a public hearing after notice as required by this part.~~

~~(8) In any proceeding suit under subsection (3) or subsection (4) this section, the Department of Legal Affairs may intervene to represent the interests of the state.~~

~~(9) Neither subsection (3) nor subsection (4) relieves the local government of its obligations to hold public hearings as required by law.~~

Section 11. Section 163.3246, Florida Statutes, is created to read:

163.3246 Local government comprehensive planning certification program.—

(1) There is created the Local Government Comprehensive Planning Certification Program to be administered by the Department of Community Affairs. The purpose of the program is to create a certification process for local governments who identify a geographic area for certification within which they commit to directing growth and who, because of a demonstrated record of effectively adopting, implementing, and enforcing its comprehensive plan, the level of technical planning experience exhibited by the local government, and a commitment to implement exemplary planning practices, require less state and regional oversight of the comprehensive plan amendment process. The purpose of the certification area is to designate areas that are contiguous, compact, and appropriate for urban growth and development within a 10-year planning timeframe. Municipalities and counties are encouraged to jointly establish the certification area, and subsequently enter into joint certification agreement with the department.

(2) In order to be eligible for certification under the program, the local government must:

(a) Demonstrate a record of effectively adopting, implementing, and enforcing its comprehensive plan;

(b) Demonstrate technical, financial, and administrative expertise to implement the provisions of this part without state oversight;

(c) Obtain comments from the state and regional review agencies regarding the appropriateness of the proposed certification;

(d) Hold at least one public hearing soliciting public input concerning the local government's proposal for certification; and

(e) Demonstrate that it has adopted programs in its local comprehensive plan and land development regulations which:

1. Promote infill development and redevelopment, including prioritized and timely permitting processes in which applications for local development permits within the certification area are acted upon expeditiously for proposed development that is consistent with the local comprehensive plan.

2. Promote the development of housing for low-income and very-low-income households or specialized housing to assist elderly and disabled persons to remain at home or in independent living arrangements.

3. Achieve effective intergovernmental coordination and address the extrajurisdictional effects of development within the certified area.

4. Promote economic diversity and growth while encouraging the retention of rural character, where rural areas exist, and the protection and restoration of the environment.

5. Provide and maintain public urban and rural open space and recreational opportunities.

6. Manage transportation and land uses to support public transit and promote opportunities for pedestrian and nonmotorized transportation.

7. Use design principles to foster individual community identity, create a sense of place, and promote pedestrian-oriented safe neighborhoods and town centers.

8. Redevelop blighted areas.

9. Adopt a local mitigation strategy and have programs to improve disaster preparedness and the ability to protect lives and property, especially in coastal high-hazard areas.

10. Encourage clustered, mixed-use development that incorporates greenspace and residential development within walking distance of commercial development.

11. Encourage urban infill at appropriate densities and intensities and separate urban and rural uses and discourage urban sprawl while preserving public open space and planning for buffer-type land uses and rural development consistent with their respective character along and outside the certification area.

12. Assure protection of key natural areas and agricultural lands that are identified using state and local inventories of natural areas. Key natural areas include, but are not limited to:

a. Wildlife corridors.

b. Lands with high native biological diversity, important areas for threatened and endangered species, species of special concern, migratory bird habitat, and intact natural communities.

c. Significant surface waters and springs, aquatic preserves, wetlands, and outstanding Florida waters.

d. Water resources suitable for preservation of natural systems and for water resource development.

e. Representative and rare native Florida natural systems.

13. *Ensure the cost-efficient provision of public infrastructure and services.*

(3) *Portions of local governments located within areas of critical state concern cannot be included in a certification area.*

(4) *A local government or group of local governments seeking certification of all or part of a jurisdiction or jurisdictions must submit an application to the department which demonstrates that the area sought to be certified meets the criteria of subsections (2) and (5). The application shall include copies of the applicable local government comprehensive plan, land development regulations, interlocal agreements, and other relevant information supporting the eligibility criteria for designation. Upon receipt of a complete application, the department must provide the local government with an initial response to the application within 90 days after receipt of the application.*

(5) *If the local government meets the eligibility criteria of subsection (2), the department shall certify all or part of a local government by written agreement, which shall be considered final agency action subject to challenge under s. 120.569. The agreement must include the following components:*

(a) *The basis for certification.*

(b) *The boundary of the certification area, which encompasses areas that are contiguous, compact, appropriate for urban growth and development, and in which public infrastructure is existing or planned within a 10-year planning timeframe. The certification area is required to include sufficient land to accommodate projected population growth, housing demand, including choice in housing types and affordability, job growth and employment, appropriate densities and intensities of use to be achieved in new development and redevelopment, existing or planned infrastructure, including transportation and central water and sewer facilities. The certification area must be adopted as part of the local government's comprehensive plan.*

(c) *A demonstration that the capital-improvements plan governing the certified area is updated annually.*

(d) *A visioning plan or a schedule for the development of a visioning plan.*

(e) *A description of baseline conditions related to the evaluation criteria in paragraph (g) in the certified area.*

(f) *A work program setting forth specific planning strategies and projects that will be undertaken to achieve improvement in the baseline conditions as measured by the criteria identified in paragraph (g).*

(g) *Criteria to evaluate the effectiveness of the certification process in achieving the community-development goals for the certification area including:*

1. *Measuring the compactness of growth, expressed as the ratio between population growth and land consumed;*

2. *Increasing residential density and intensities of use;*

3. *Measuring and reducing vehicle miles traveled and increasing the interconnectedness of the street system, pedestrian access, and mass transit;*

4. *Measuring the balance between the location of jobs and housing;*

5. *Improving the housing mix within the certification area, including the provision of mixed-use neighborhoods, affordable housing, and the creation of an affordable housing program if such a program is not already in place;*

6. *Promoting mixed-use developments as an alternative to single-purpose centers;*

7. *Promoting clustered development having dedicated open space;*

8. *Linking commercial, educational, and recreational uses directly to residential growth;*

9. *Reducing per capita water and energy consumption;*

10. *Prioritizing environmental features to be protected and adopting measures or programs to protect identified features;*

11. *Reducing hurricane shelter deficits and evacuation times and implementing the adopted mitigation strategies; and*

12. *Improving coordination between the local government and school board.*

(h) *A commitment to change any land development regulations that restrict compact development and adopt alternative design codes that encourage desirable densities and intensities of use and patterns of compact development identified in the agreement.*

(i) *A plan for increasing public participation in comprehensive planning and land use decision making which includes outreach to neighborhood and civic associations through community planning initiatives.*

(j) *A demonstration that the intergovernmental coordination element of the local government's comprehensive plan includes joint processes for coordination between the school board and local government pursuant to s. 163.3177(6)(h)2. and other requirements of law.*

(k) *A method of addressing the extrajurisdictional effects of development within the certified area which is integrated by amendment into the intergovernmental coordination element of the local government comprehensive plan.*

(l) *A requirement for the annual reporting to the department of plan amendments adopted during the year, and the progress of the local government in meeting the terms and conditions of the certification agreement. Prior to the deadline for the annual report, the local government must hold a public hearing soliciting public input on the progress of the local government in satisfying the terms of the certification agreement.*

(m) *An expiration date that is no later than 10 years after execution of the agreement.*

(6) *The department may enter up to eight new certification agreements each fiscal year. The department shall adopt procedural rules governing the application and review of local government requests for certification. Such procedural rules may establish a phased schedule for review of local government requests for certification.*

(7) *The department shall revoke the local government's certification if it determines that the local government is not substantially complying with the terms of the agreement.*

(8) *An affected person, as defined by s. 163.3184(1)(a), may petition for administrative hearing alleging that a local government is not substantially complying with the terms of the agreement, using the procedures and timeframes for notice and conditions precedent described in s. 163.3213. Such a petition must be filed within 30 days after the annual public hearing required by paragraph (5)(l).*

(9)(a) *Upon certification all comprehensive plan amendments associated with the area certified must be adopted and reviewed in the manner described in ss. 163.3184(1), (2), (7), (14), (15), and (16) and 163.3187, such that state and regional agency review is eliminated. The department may not issue any objections, recommendations, and comments report on proposed plan amendments or a notice of intent on adopted plan amendments; however, affected persons, as defined by s. 163.3184(1)(a), may file a petition for administrative review pursuant to the requirements of s. 163.3187(3)(a) to challenge the compliance of an adopted plan amendment.*

(b) *Plan amendments that change the boundaries of the certification area; propose a rural land stewardship area pursuant to s. 163.3177(11)(d); propose an optional sector plan pursuant to s. 163.3245; propose a school facilities element; update a comprehensive plan based on an evaluation and appraisal report; impact lands outside the certification boundary; implement new statutory requirements that*

require specific comprehensive plan amendments; or increase hurricane evacuation times or the need for shelter capacity on lands within the coastal high hazard area shall be reviewed pursuant to ss. 163.3184 and 163.3187.

(10) A local government's certification shall be reviewed by the local government and the department as part of the evaluation and appraisal process pursuant to s. 163.3191. Within 1 year after the deadline for the local government to update its comprehensive plan based on the evaluation and appraisal report, the department shall renew or revoke the certification. The local government's failure to adopt a timely evaluation and appraisal report, failure to adopt an evaluation and appraisal report found to be sufficient, or failure to timely adopt amendments based on an evaluation and appraisal report found to be in compliance by the department shall be cause for revoking the certification agreement. The department's decision to renew or revoke shall be considered agency action subject to challenge under s. 120.569.

(11) The department shall, by July 1 of each odd-numbered year, submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report listing certified local governments, evaluating the effectiveness of the certification, and including any recommendations for legislative actions.

(12) The Office of Program Policy Analysis and Government Accountability shall prepare a report evaluating the certification program, which shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 1, 2007.

Section 12. Paragraph (c) of subsection (2) and subsection (3) of section 186.504, Florida Statutes, are amended to read:

186.504 Regional planning councils; creation; membership.—

(2) Membership on the regional planning council shall be as follows:

(c) Representatives appointed by the Governor from the geographic area covered by the regional planning council, *including an elected school board member from the geographic area covered by the regional planning council, to be nominated by the Florida School Board Association.*

(3) Not less than two-thirds of the representatives serving as voting members on the governing bodies of such regional planning councils shall be elected officials of local general-purpose governments chosen by the cities and counties of the region, provided each county shall have at least one vote. The remaining one-third of the voting members on the governing board shall be appointed by the Governor, *to include one elected school board member,* subject to confirmation by the Senate, and shall reside in the region. No two appointees of the Governor shall have their places of residence in the same county until each county within the region is represented by a Governor's appointee to the governing board. Nothing contained in this section shall deny to local governing bodies or the Governor the option of appointing either locally elected officials or lay citizens provided at least two-thirds of the governing body of the regional planning council is composed of locally elected officials.

Section 13. Paragraphs (a) and (d) of subsection (2) and subsection (6) of section 212.055, Florida Statutes, are amended to read:

212.055 Discretionary sales surtaxes; legislative intent; authorization and use of proceeds.—It is the legislative intent that any authorization for imposition of a discretionary sales surtax shall be published in the Florida Statutes as a subsection of this section, irrespective of the duration of the levy. Each enactment shall specify the types of counties authorized to levy; the rate or rates which may be imposed; the maximum length of time the surtax may be imposed, if any; the procedure which must be followed to secure voter approval, if required; the purpose for which the proceeds may be expended; and such other requirements as the Legislature may provide. Taxable transactions and administrative procedures shall be as provided in s. 212.054.

(2) LOCAL GOVERNMENT INFRASTRUCTURE SURTAX.—

(a)1. The governing authority in each county may levy a discretionary sales surtax of 0.5 percent or 1 percent. The levy of the surtax shall be pursuant to ordinance enacted by a *two-thirds vote majority* of the members of the county governing authority *or pursuant to ordinance enacted by a majority of the members of the county governing authority* and approved by a majority of the electors of the county voting in a referendum on the surtax. If the governing bodies of the municipalities representing a majority of the county's population adopt uniform resolutions establishing the rate of the surtax and calling for a referendum on the surtax, the levy of the surtax shall be placed on the ballot and shall take effect if approved by a majority of the electors of the county voting in the referendum on the surtax.

2. If the surtax was levied pursuant to a referendum held before July 1, 1993, the surtax may not be levied beyond the time established in the ordinance, or, if the ordinance did not limit the period of the levy, the surtax may not be levied for more than 15 years. The levy of such surtax may be extended only by approval of a majority of the electors of the county voting in a referendum on the surtax *or pursuant to ordinance enacted by a two-thirds vote of the members of the county governing authority.*

(d)1. The proceeds of the surtax authorized by this subsection *and approved by referendum* and any interest accrued thereto shall be expended by the school district or within the county and municipalities within the county, or, in the case of a negotiated joint county agreement, within another county, to finance, plan, and construct infrastructure and to acquire land for public recreation or conservation or protection of natural resources and to finance the closure of county-owned or municipally owned solid waste landfills that are already closed or are required to close by order of the Department of Environmental Protection. Any use of such proceeds or interest for purposes of landfill closure prior to July 1, 1993, is ratified. Neither the proceeds nor any interest accrued thereto shall be used for operational expenses of any infrastructure, except that any county with a population of less than 75,000 that is required to close a landfill by order of the Department of Environmental Protection may use the proceeds or any interest accrued thereto for long-term maintenance costs associated with landfill closure. Counties, as defined in s. 125.011(1), and charter counties may, in addition, use the proceeds and any interest accrued thereto to retire or service indebtedness incurred for bonds issued prior to July 1, 1987, for infrastructure purposes, and for bonds subsequently issued to refund such bonds. Any use of such proceeds or interest for purposes of retiring or servicing indebtedness incurred for such refunding bonds prior to July 1, 1999, is ratified.

2. *The proceeds of the surtax where the surtax is levied by a two-thirds vote of the governing body of the county and any interest accrued thereto shall be expended by the school district or within the county and municipalities within the county for infrastructure located within the urban service area that is identified in the local government comprehensive plan of the county or municipality and is identified in that local government's capital improvements element adopted pursuant to s. 163.3177(3) or that is identified in the school district's educational facilities plan adopted pursuant to s. 235.185.*

3.2- For the purposes of this paragraph, "infrastructure" means:

a. Any fixed capital expenditure or fixed capital outlay associated with the construction, reconstruction, or improvement of public facilities which have a life expectancy of 5 or more years and any land acquisition, land improvement, design, and engineering costs related thereto.

b. A fire department vehicle, an emergency medical service vehicle, a sheriff's office vehicle, a police department vehicle, or any other vehicle, and such equipment necessary to outfit the vehicle for its official use or equipment that has a life expectancy of at least 5 years.

4.3- Notwithstanding any other provision of this subsection, a discretionary sales surtax imposed or extended after the effective date of this act may provide for an amount not to exceed 15 percent of the local option sales surtax proceeds to be allocated for deposit to a trust fund within the county's accounts created for the purpose of funding economic development projects of a general public purpose targeted to

improve local economies, including the funding of operational costs and incentives related to such economic development. *If applicable*, the ballot statement must indicate the intention to make an allocation under the authority of this subparagraph.

(6) SCHOOL CAPITAL OUTLAY SURTAX.—

(a) The school board in each county may levy, pursuant to resolution conditioned to take effect only upon approval by a majority vote of the electors of the county voting in a referendum, a discretionary sales surtax at a rate that may not exceed 0.5 percent.

(b) The resolution shall include a statement that provides a brief and general description of the school capital outlay projects to be funded by the surtax. If applicable, the resolution must state that the district school board has been recognized by the State Board of Education as having a Florida Frugal Schools Program. The statement shall conform to the requirements of s. 101.161 and shall be placed on the ballot by the governing body of the county. The following question shall be placed on the ballot:

... FOR THE	... CENTS TAX
... AGAINST THE	... CENTS TAX

(c) *As an alternative method of levying the discretionary sales surtax, the district school board may levy, pursuant to resolution adopted by a two-thirds vote of the members of the school board, a discretionary sales surtax at a rate not to exceed 0.5 percent when the following conditions are met:*

1. *The district school board and local governments in the county where the school district is located have adopted the interlocal agreement and public educational facilities element required by s. 163.31776;*

2. *The district school board has adopted a district educational facilities plan pursuant to s. 235.185; and*

3. *The district's use of surtax proceeds for new construction must not exceed the cost-per-student criteria established for the SIT Program in s. 235.216(2).*

(d)(e) The resolution providing for the imposition of the surtax shall set forth a plan for use of the surtax proceeds for fixed capital expenditures or fixed capital costs associated with the construction, reconstruction, or improvement of school facilities and campuses which have a useful life expectancy of 5 or more years, and any land acquisition, land improvement, design, and engineering costs related thereto. Additionally, the plan shall include the costs of retrofitting and providing for technology implementation, including hardware and software, for the various sites within the school district. Surtax revenues may be used for the purpose of servicing bond indebtedness to finance projects authorized by this subsection, and any interest accrued thereto may be held in trust to finance such projects. Neither the proceeds of the surtax nor any interest accrued thereto shall be used for operational expenses. If the district school board has been recognized by the State Board of Education as having a Florida Frugal Schools Program, the district's plan for use of the surtax proceeds must be consistent with this subsection and with uses assured under the Florida Frugal Schools Program.

(e)(d) Any school board imposing the surtax shall implement a freeze on noncapital local school property taxes, at the millage rate imposed in the year prior to the implementation of the surtax, for a period of at least 3 years from the date of imposition of the surtax. This provision shall not apply to existing debt service or required state taxes.

(f)(e) Surtax revenues collected by the Department of Revenue pursuant to this subsection shall be distributed to the school board imposing the surtax in accordance with law.

Section 14. Section 235.002, Florida Statutes, is amended to read:

235.002 Intent.—

(1) The intent of the Legislature is to:

~~(a) To provide each student in the public education system the availability of an educational environment appropriate to his or her educational needs which is substantially equal to that available to any similar student, notwithstanding geographic differences and varying local economic factors, and to provide facilities for the Florida School for the Deaf and the Blind and other educational institutions and agencies as may be defined by law.~~

~~(a)(b) To~~ Encourage the use of innovative designs, construction techniques, and financing mechanisms in building educational facilities for the ~~purposes~~ purpose of reducing costs to the taxpayer, creating a more satisfactory educational environment, and reducing the amount of time necessary for design and construction to fill unmet needs, and ~~permitting the on-site and off-site improvements required by law.~~

~~(b)(e) To~~ Provide a systematic mechanism whereby educational facilities construction plans can meet the current and projected needs of the public education system population as quickly as possible by building uniform, sound educational environments and to provide a sound base for planning for educational facilities needs.

~~(c)(d) To~~ Provide proper legislative support for as wide a range of fiscally sound financing methodologies as possible for the delivery of educational facilities and, where appropriate, for their construction, operation, and maintenance.

(d) Establish a systematic process of sharing information between school boards and local governments on the growth and development trends in their communities in order to forecast future enrollment and school needs.

(e) Establish a systematic process by which school boards and local governments can cooperatively plan for the provision of educational facilities to meet the current and projected needs of the public education system, including the needs placed on the public education system as a result of growth and development decisions by local governments.

(f) Establish a systematic process by which local governments and school boards can cooperatively identify and meet the infrastructure needs of public schools.

(2) The Legislature finds and declares that:

(a) *Public schools are a linchpin to the vitality of our communities and play a significant role in the thousands of individual housing decisions that result in community growth trends.*

~~(b)(a)~~ Growth and development issues transcend the boundaries and responsibilities of individual units of government, and often no single unit of government can plan or implement policies to deal with these issues without affecting other units of government.

~~(c)(b)~~ The effective and efficient provision of public educational facilities and services ~~enhances is essential to preserving and enhancing~~ the quality of life of the people of this state.

(d)(e) The provision of educational facilities often impacts community infrastructure and services. Assuring coordinated and cooperative provision of such facilities and associated infrastructure and services is in the best interest of the state.

Section 15. Notwithstanding subsection (7) of section 3 of chapter 2000-321, Laws of Florida, section 235.15, Florida Statutes, shall not stand repealed on January 7, 2003, as scheduled by that act, but that section is reenacted and amended to read:

235.15 Educational plant survey; localized need assessment; PECO project funding.—

(1) At least every 5 years, each board, ~~including the Board of Regents~~, shall arrange for an educational plant survey, to aid in formulating plans for housing the educational program and student population, faculty, administrators, staff, and auxiliary and ancillary services of the district or campus, including consideration of the local comprehensive plan. The ~~Office Division~~ of Workforce and Economic Development shall document the need for additional career and adult

education programs and the continuation of existing programs before facility construction or renovation related to career or adult education may be included in the educational plant survey of a school district or community college that delivers career or adult education programs. Information used by the *Office Division of Workforce and Economic Development* to establish facility needs must include, but need not be limited to, labor market data, needs analysis, and information submitted by the school district or community college.

(a) Survey preparation and required data.—Each survey shall be conducted by the board or an agency employed by the board. Surveys shall be reviewed and approved by the board, and a file copy shall be submitted to the *Office of Educational Facilities and SMART Schools Clearinghouse within the Office of the Commissioner of Education*. The survey report shall include at least an inventory of existing educational and ancillary plants, *including safe access facilities*; recommendations for existing educational and ancillary plants; recommendations for new educational or ancillary plants, including the general location of each in coordination with the land use plan and *safe access facilities*; campus master plan update and detail for community colleges; the utilization of school plants based on an extended school day or year-round operation; and such other information as may be required by the rules of the *Florida State Board of Education*. This report may be amended, if conditions warrant, at the request of the board or commissioner.

(b) Required need assessment criteria for district, community college, *college* and state university plant surveys.—~~Each Educational plant surveys survey completed after December 31, 1997, must use uniform data sources and criteria specified in this paragraph. Each educational plant survey completed after June 30, 1995, and before January 1, 1998, must be revised, if necessary, to comply with this paragraph.~~ Each revised educational plant survey and each new educational plant survey supersedes previous surveys.

1. *The school district's survey must be submitted as a part of the district educational facilities plan defined in s. 235.185.* ~~Each school district's educational plant survey must reflect the capacity of existing satisfactory facilities as reported in the Florida Inventory of School Houses. Projections of facility space needs may not exceed the norm space and occupant design criteria established by the State Requirements for Educational Facilities. Existing and projected capital outlay full-time equivalent student enrollment must be consistent with data prepared by the department and must include all enrollment used in the calculation of the distribution formula in s. 235.435(3). All satisfactory relocatable classrooms, including those owned, lease-purchased, or leased by the school district, shall be included in the school district inventory of gross capacity of facilities and must be counted at actual student capacity for purposes of the inventory. For future needs determination, student capacity shall not be assigned to any relocatable classroom that is scheduled for elimination or replacement with a permanent educational facility in the adopted 5-year educational plant survey and in the district facilities work program adopted under s. 235.185. Those relocatables clearly identified and scheduled for replacement in a school board adopted financially feasible 5-year district facilities work program shall be counted at zero capacity at the time the work program is adopted and approved by the school board. However, if the district facilities work program is changed or altered and the relocatables are not replaced as scheduled in the work program, they must then be reentered into the system for counting at actual capacity. Relocatables may not be perpetually added to the work program and continually extended for purposes of circumventing the intent of this section. All remaining relocatable classrooms, including those owned, lease-purchased, or leased by the school district, shall be counted at actual student capacity. The educational plant survey shall identify the number of relocatable student stations scheduled for replacement during the 5-year survey period and the total dollar amount needed for that replacement. All district educational plant surveys revised after July 1, 1998, shall include information on leased space used for conducting the district's instructional program, in accordance with the recommendations of the department's report authorized in s. 235.056. A definition of satisfactory relocatable classrooms shall be established by rule of the department.~~

2. Each survey of a special facility, joint-use facility, or cooperative vocational education facility must be based on capital outlay full-time equivalent student enrollment data prepared by the department for school districts, *community colleges, colleges and universities by the Division of Community Colleges for community colleges, and by the Board of Regents for state universities.* A survey of space needs of a joint-use facility shall be based upon the respective space needs of the school districts, community colleges, *colleges* and universities, as appropriate. Projections of a school district's facility space needs may not exceed the norm space and occupant design criteria established by the State Requirements for Educational Facilities.

3. Each community college's survey must reflect the capacity of existing facilities as specified in the inventory maintained by the Division of Community Colleges. Projections of facility space needs must comply with standards for determining space needs as specified by rule of the *Florida State Board of Education*. The 5-year projection of capital outlay student enrollment must be consistent with the annual report of capital outlay full-time student enrollment prepared by the Division of Community Colleges.

4. Each *college and* state university's survey must reflect the capacity of existing facilities as specified in the inventory maintained and validated by the *Division of Colleges and Universities Board of Regents*. Projections of facility space needs must be consistent with standards for determining space needs approved by the *Division of Colleges and Universities Board of Regents*. The projected capital outlay full-time equivalent student enrollment must be consistent with the 5-year planned enrollment cycle for the State University System approved by the *Division of Colleges and Universities Board of Regents*.

5. ~~The district educational facilities plan educational plant survey of a school district and the educational plant survey of a~~ community college, or college or state university may include space needs that deviate from approved standards for determining space needs if the deviation is justified by the district or institution and approved by the department ~~or the Board of Regents, as appropriate, as necessary for the delivery of an approved educational program.~~

(c) Review and validation.—*The Office of Educational Facilities and SMART Schools Clearinghouse department* shall review and validate the surveys of school districts, and community colleges, and *colleges and universities*, and any amendments thereto for compliance with the requirements of this chapter and, ~~when required by the State Constitution,~~ shall recommend those in compliance for approval by the *Florida State Board of Education*.

(2) Only the superintendent, ~~or the college president, or the university president~~ shall certify to the *Office of Educational Facilities and SMART Schools Clearinghouse department* a project's compliance with the requirements for expenditure of PECO funds prior to release of funds.

(a) Upon request for release of PECO funds for planning purposes, certification must be made to the *Office of Educational Facilities and SMART Schools Clearinghouse department* that the need for and location of the facility are in compliance with the board-approved survey recommendations, and that the project meets the definition of a PECO project and the limiting criteria for expenditures of PECO funding, and *that the plan is consistent with the local government comprehensive plan.*

(b) Upon request for release of construction funds, certification must be made to the *Office of Educational Facilities and SMART Schools Clearinghouse department* that the need and location of the facility are in compliance with the board-approved survey recommendations, that the project meets the definition of a PECO project and the limiting criteria for expenditures of PECO funding, and that the construction documents meet the requirements of the *Florida State Uniform Building Code for Educational Facilities Construction* or other applicable codes as authorized in this chapter.

Section 16. Subsection (3) of section 235.175, Florida Statutes, is amended to read:

235.175 SMART schools; Classrooms First; legislative purpose.—

(3) SCHOOL DISTRICT *EDUCATIONAL FACILITIES PLAN WORK PROGRAMS*.—It is the purpose of the Legislature to create s. 235.185, requiring each school district annually to adopt an *educational facilities plan that provides an integrated long-range facilities plan, including the survey of projected needs and the a district facilities 5-year work program*. The purpose of the *educational facilities plan district facilities work program* is to keep the school board, local governments, and the public fully informed as to whether the district is using sound policies and practices that meet the essential needs of students and that warrant public confidence in district operations. The *educational facilities plan district facilities work program* will be monitored by the Office of Educational Facilities and SMART Schools Clearinghouse, which will also apply performance standards pursuant to s. 235.218.

Section 17. Section 235.18, Florida Statutes, is amended to read:

235.18 Annual capital outlay budget.—Each board, ~~including the Board of Regents~~, shall, each year, adopt a capital outlay budget for the ensuing year in order that the capital outlay needs of the board for the entire year may be well understood by the public. This capital outlay budget shall be a part of the annual budget and shall be based upon and in harmony with the ~~board's capital outlay plan educational plant and ancillary facilities plan~~. This budget shall designate the proposed capital outlay expenditures by project for the year from all fund sources. The board may not expend any funds on any project not included in the budget, as amended. Each district school board must prepare its tentative district *education facilities plan facilities work program* as required by s. 235.185 before adopting the capital outlay budget.

Section 18. Section 235.185, Florida Statutes, is amended to read:

235.185 School district *educational facilities plan work program*; definitions; preparation, adoption, and amendment; long-term work programs.—

(1) DEFINITIONS.—As used in this section, the term:

(a) “Adopted educational facilities plan” means the comprehensive planning document that is adopted annually by the district school board as provided in subsection (2) and that contains the educational plant survey.

(a) ~~“Adopted district facilities work program” means the 5-year work program adopted by the district school board as provided in subsection (3).~~

(b) ~~“Tentative District facilities work program” means the 5-year listing of capital outlay projects adopted by the district school board as provided in subparagraph (2)(a)2. and paragraph (2)(b) as part of the district educational facilities plan, which is required in order to:~~

1. ~~To~~ Properly maintain the educational plant and ancillary facilities of the district.

2. ~~To~~ Provide an adequate number of satisfactory student stations for the projected student enrollment of the district in K-12 programs in accordance with the goal in s. 235.062.

(c) “Tentative educational facilities plan” means the comprehensive planning document prepared annually by the district school board and submitted to the Office of Educational Facilities and SMART Schools Clearinghouse and the affected general-purpose local governments.

(2) PREPARATION OF TENTATIVE DISTRICT *EDUCATIONAL FACILITIES PLAN WORK PROGRAM*.—

(a) Annually, prior to the adoption of the district school budget, each school board shall prepare a tentative district *educational facilities plan that includes long-range planning for facilities needs over 5-year, 10-year, and 20-year periods*. The plan must be developed in coordination with the general-purpose local governments and be consistent with the local government comprehensive plans. The school board's plan for provision of new schools must meet the needs of all growing communities in the district, ranging from small rural communities to large urban cities. The plan must include ~~work program that includes:~~

1. *Projected student populations apportioned geographically at the local level. The projections must be based on information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136, where available, as modified by the district based on development data and agreement with the local governments and the Office of Educational Facilities and SMART Schools Clearinghouse. The projections must be apportioned geographically with assistance from the local governments using local development trend data and the school district student enrollment data.*

2. *An inventory of existing school facilities. Any anticipated expansions or closures of existing school sites over the 5-year, 10-year, and 20-year periods must be identified. The inventory must include an assessment of areas proximate to existing schools and identification of the need for improvements to infrastructure, safety, including safe access routes, and conditions in the community. The plan must also provide a listing of major repairs and renovation projects anticipated over the period of the plan.*

3. *Projections of facilities space needs, which may not exceed the norm space and occupant design criteria established in the State Requirements for Educational Facilities.*

4. *Information on leased, loaned, and donated space and relocatables used for conducting the district's instructional programs.*

5. *The general location of public schools proposed to be constructed over the 5-year, 10-year, and 20-year time periods, including a listing of the proposed schools' site acreage needs and anticipated capacity and maps showing the general locations. The school board's identification of general locations of future school sites must be based on the school siting requirements of s. 163.3177(6)(a) and policies in the comprehensive plan which provide guidance for appropriate locations for school sites.*

6. *The identification of options deemed reasonable and approved by the school board which reduce the need for additional permanent student stations. Such options may include, but need not be limited to:*

- a. *Acceptable capacity;*
- b. *Redistricting;*
- c. *Busing;*
- d. *Year-round schools;*
- e. *Charter schools;*
- f. *Magnet schools; and*
- g. *Public-private partnerships.*

7. *The criteria and method, jointly determined by the local government and the school board, for determining the impact of proposed development to public school capacity.*

(b) *The plan must also include a financially feasible district facilities work program for a 5-year period. The work program must include:*

1. *A schedule of major repair and renovation projects necessary to maintain the educational facilities ~~plant~~ and ancillary facilities of the district.*

2. *A schedule of capital outlay projects necessary to ensure the availability of satisfactory student stations for the projected student enrollment in K-12 programs. This schedule shall consider:*

a. *The locations, capacities, and planned utilization rates of current educational facilities of the district. The capacity of existing satisfactory facilities, as reported in the Florida Inventory of School Houses must be compared to the capital outlay full-time-equivalent student enrollment as determined by the department, including all enrollment used in the calculation of the distribution formula in s. 235.435(3).*

b. *The proposed locations of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. The provisions of ss.*

235.19 and 235.193(12), (13), and (14) must be addressed for new facilities planned within the first 3 years of the work plan, as appropriate.

c. Plans for the use and location of relocatable facilities, leased facilities, and charter school facilities.

d. Plans for multitrack scheduling, grade level organization, block scheduling, or other alternatives that reduce the need for additional permanent student stations.

e. Information concerning average class size and utilization rate by grade level within the district ~~which that~~ will result if the tentative district facilities work program is fully implemented. ~~The average shall not include exceptional student education classes or prekindergarten classes.~~

f. The number and percentage of district students planned to be educated in relocatable facilities during each year of the tentative district facilities work program. *For determining future needs, student capacity may not be assigned to any relocatable classroom that is scheduled for elimination or replacement with a permanent educational facility in the current year of the adopted district educational facilities plan and in the district facilities work program adopted under this section. Those relocatable classrooms clearly identified and scheduled for replacement in a school-board-adopted, financially feasible, 5-year district facilities work program shall be counted at zero capacity at the time the work program is adopted and approved by the school board. However, if the district facilities work program is changed and the relocatable classrooms are not replaced as scheduled in the work program, the classrooms must be reentered into the system and be counted at actual capacity. Relocatable classrooms may not be perpetually added to the work program or continually extended for purposes of circumventing this section. All relocatable classrooms not identified and scheduled for replacement, including those owned, lease-purchased, or leased by the school district, must be counted at actual student capacity. The district educational facilities plan must identify the number of relocatable student stations scheduled for replacement during the 5-year survey period and the total dollar amount needed for that replacement.*

g. Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

h. *Projects for which capital outlay and debt service funds accruing under s. 9(d), Art. XII of the State Constitution are to be used shall be identified separately in priority order on a project priority list within the district facilities work program.*

3. The projected cost for each project identified in the ~~tentative~~ district facilities work program. For proposed projects for new student stations, a schedule shall be prepared comparing the planned cost and square footage for each new student station, by elementary, middle, and high school levels, to the low, average, and high cost of facilities constructed throughout the state during the most recent fiscal year for which data is available from the Department of Education.

4. A schedule of estimated capital outlay revenues from each currently approved source which is estimated to be available for expenditure on the projects included in the ~~tentative~~ district facilities work program.

5. A schedule indicating which projects included in the ~~tentative~~ district facilities work program will be funded from current revenues projected in subparagraph 4.

6. A schedule of options for the generation of additional revenues by the district for expenditure on projects identified in the ~~tentative~~ district facilities work program which are not funded under subparagraph 5. Additional anticipated revenues may include effort index grants, SIT Program awards, and Classrooms First funds.

~~(c)(b)~~ To the extent available, the tentative district educational facilities ~~plan work program~~ shall be based on information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136.

~~(d)(e)~~ Provision shall be made for public comment concerning the tentative district educational facilities ~~plan work program~~.

(e) The district school board shall coordinate with each affected local government to ensure consistency between the tentative district educational facilities plan and the local government comprehensive plans of the affected local governments during the development of the tentative district educational facilities plan.

(f) Commencing on October 1, 2002, and not less than once every 5 years thereafter, the district school board shall contract with a qualified, independent third party to conduct a financial management and performance audit of the educational planning and construction activities of the district. An audit conducted by the Office of Program Policy Analysis and Government Accountability and the Auditor General pursuant to s. 230.23025 satisfies this requirement.

(3) SUBMITTAL OF TENTATIVE DISTRICT EDUCATIONAL FACILITIES PLAN TO LOCAL GOVERNMENT.—The district school board shall submit a copy of its tentative district educational facilities plan to all affected local governments prior to adoption by the board. The affected local governments shall review the tentative district educational facilities plan and comment to the district school board on the consistency of the plan with the local comprehensive plan, whether a comprehensive plan amendment will be necessary for any proposed educational facility, and whether the local government supports a necessary comprehensive plan amendment. If the local government does not support a comprehensive plan amendment for a proposed educational facility, the matter shall be resolved pursuant to the interlocal agreement when required by ss. 163.3177(6)(h), 163.31777, and 235.193(2). The process for the submittal and review shall be detailed in the interlocal agreement when required pursuant to ss. 163.3177(6)(h), 163.31777, and 235.193(2).

(4)(3) ADOPTED DISTRICT EDUCATIONAL FACILITIES PLAN WORK PROGRAM.—Annually, the district school board shall consider and adopt the tentative district educational facilities ~~plan work program~~ completed pursuant to subsection (2). Upon giving proper public notice to the public and local governments and opportunity for public comment, the district school board may amend the ~~plan program~~ to revise the priority of projects, to add or delete projects, to reflect the impact of change orders, or to reflect the approval of new revenue sources which may become available. The adopted district educational facilities ~~plan work program~~ shall:

(a) Be a complete, balanced, and financially feasible capital outlay financial plan for the district.

(b) Set forth the proposed commitments and planned expenditures of the district to address the educational facilities needs of its students and to adequately provide for the maintenance of the educational plant and ancillary facilities, including safe access ways from neighborhoods to schools.

(5)(4) EXECUTION OF ADOPTED DISTRICT EDUCATIONAL FACILITIES PLAN WORK PROGRAM.—The first year of the adopted district educational facilities ~~plan work program~~ shall constitute the capital outlay budget required in s. 235.18. The adopted district educational facilities ~~plan work program~~ shall include the information required in subparagraphs (2)(b)1., 2., and 3. ~~(2)(a)1., 2., and 3., based upon projects actually funded in the plan program.~~

(5) 10 YEAR AND 20 YEAR WORK PROGRAMS.—~~In addition to the adopted district facilities work program covering the 5-year work program, the district school board shall adopt annually a 10-year and a 20-year work program which include the information set forth in subsection (2), but based upon enrollment projections and facility needs for the 10-year and 20-year periods. It is recognized that the projections in the 10-year and 20-year timeframes are tentative and should be used only for general planning purposes.~~

Section 19. Section 235.1851, Florida Statutes, is created to read:

235.1851 Educational facilities benefit districts.—

(1) *It is the intent of the Legislature to encourage and authorize public cooperation among district school boards, affected local general purpose governments, and benefited private interests in order to implement financing for timely construction and maintenance of school facilities, including facilities identified in individual district facilities work programs or proposed by charter schools. It is the further intent of the Legislature to provide efficient alternative mechanisms and incentives to allow for sharing costs of educational facilities necessary to accommodate new growth and development among public agencies, including district school boards, affected local general purpose governments, and benefited private development interests.*

(2) *The Legislature hereby authorizes the creation of educational facilities benefit districts pursuant to interlocal cooperation agreements between a district school board and all local general purpose governments within whose jurisdiction a district is located. The purpose of educational facilities benefit districts is to assist in financing the construction and maintenance of educational facilities.*

(3)(a) *An educational facilities benefit district may be created pursuant to this act and chapters 125, 163, 166, and 189. An educational facilities benefit district charter may be created by a county or municipality by entering into an interlocal agreement, as authorized by s. 163.01, with the district school board and any local general purpose government within whose jurisdiction a portion of the district is located and adoption of an ordinance that includes all provisions contained within s. 189.4041. The creating entity shall be the local general purpose government within whose boundaries a majority of the educational facilities benefit district's lands are located.*

(b) *Creation of any educational facilities benefit district shall be conditioned upon the consent of the district school board, all local general purpose governments within whose jurisdiction any portion of the educational facilities benefit district is located, and all landowners within the district. The membership of the governing board of any educational facilities benefit district shall include representation of the district school board, each cooperating local general purpose government, and the landowners within the district. In the case of an educational facilities benefit district's decision to create a charter school, the board of directors of the charter school may constitute the members of the governing board for the educational facilities benefit district.*

(4) *The educational facilities benefit district shall have, and its governing board may exercise, the following powers:*

(a) *To finance and construct educational facilities within the district's boundaries.*

(b) *To sue and be sued in the name of the district; to adopt and use a seal and authorize the use of a facsimile thereof; to acquire, by purchase, gift, devise, or otherwise, and to dispose of real and personal property or any estate therein; and to make and execute contracts and other instruments necessary or convenient to the exercise of its powers.*

(c) *To contract for the services of consultants to perform planning, engineering, legal, or other appropriate services of a professional nature. Such contracts shall be subject to the public bidding or competitive negotiations required of local general purpose governments.*

(d) *To borrow money and accept gifts; to apply for unused grants or loans of money or other property from the United States, the state, a unit of local government, or any person for any district purposes and enter into agreements required in connection therewith; and to hold, use, and dispose of such moneys or property for any district purposes in accordance with the terms of the gift, grant, loan, or agreement relating thereto.*

(e) *To adopt resolutions and policies prescribing the powers, duties, and functions of the officers of the district, the conduct of the business of the district, and the maintenance of records and documents of the district.*

(f) *To maintain an office at such place or places as it may designate within the district or within the boundaries of the local general purpose government that created the district.*

(g) *To lease as lessor or lessee to or from any person, firm, corporation, association, or body, public or private, any projects of the type that the district is authorized to undertake and facilities or property of any nature for use of the district to carry out any of the purposes authorized by this act.*

(h) *To borrow money and issue bonds, certificates, warrants, notes, or other evidence of indebtedness pursuant to this act for periods not longer than 30 years, provided such bonds, certificates, warrants, notes, or other indebtedness shall only be guaranteed by non-ad valorem assessments legally imposed by the district and other available sources of funds provided in this act and shall not pledge the full faith and credit of any local general purpose government or the district school board.*

(i) *To cooperate with or contract with other governmental agencies as may be necessary, convenient, incidental, or proper in connection with any of the powers, duties, or purposes authorized by this act and to accept funding from local and state agencies as provided in this act.*

(j) *To levy, impose, collect, and enforce non-ad valorem assessments, as defined by s. 197.3632(1)(d), pursuant to this act, chapters 125 and 166, and ss. 197.3631, 197.3632, and 197.3635.*

(k) *To exercise all powers necessary, convenient, incidental, or proper in connection with any of the powers, duties, or purposes authorized by this act.*

(5) *As an alternative to the creation of an educational facilities benefit district, the Legislature hereby recognizes and encourages the consideration of community development district creation pursuant to chapter 190 as a viable alternative for financing the construction and maintenance of educational facilities as described in this act. Community development districts are granted the authority to determine, order, levy, impose, collect, and enforce non-ad valorem assessments for such purposes pursuant to this act and chapters 170, 190, and 197. This authority is in addition to any authority granted community development districts under chapter 190. Community development districts are therefore deemed eligible for the financial enhancements available to educational facilities benefit districts providing for financing the construction and maintenance of educational facilities pursuant to s. 235.1852. In order to receive such financial enhancements, a community development district must enter into an interlocal agreement with the district school board and affected local general purpose governments that specifies the obligations of all parties to the agreement. Nothing in this act or in any interlocal agreement entered into pursuant to this act requires any change in the method of election of a board of supervisors of a community development district provided in chapter 190.*

Section 20. Section 235.1852, Florida Statutes, is created to read:

235.1852 *Local funding for educational facilities benefit districts or community development districts.—Upon confirmation by a district school board of the commitment of revenues by an educational facilities benefit district or community development district necessary to construct and maintain an educational facility contained within an individual district facilities work program or proposed by an approved charter school or a charter school applicant, the following funds shall be provided to the educational facilities benefit district or community development district annually, beginning with the next fiscal year after confirmation until the district's financial obligations are completed:*

(1) *All educational facilities impact fee revenue collected for new development within the educational facilities benefit district or community development district. Funds provided under this subsection shall be used to fund the construction and capital maintenance costs of educational facilities.*

(2) *For construction and capital maintenance costs not covered by the funds provided under subsection (1), an annual amount contributed by the district school board equal to one-half of the remaining costs of construction and capital maintenance of the educational facility. Any construction costs above the cost-per-student criteria established for the SIT Program in s. 235.216(2) shall be funded exclusively by the educational facilities benefit district or the community development*

district. Funds contributed by a district school board shall not be used to fund operational costs.

Educational facilities funded pursuant to this act may be constructed on land that is owned by any person after the district school board has acquired from the owner of the land a long-term lease for the use of this land for a period of not less than 40 years or the life expectancy of the permanent facilities constructed thereon, whichever is longer. All interlocal agreements entered into pursuant to this act shall provide for ownership of educational facilities funded pursuant to this act to revert to the district school board if such facilities cease to be used for public educational purposes prior to 40 years after construction or prior to the end of the life expectancy of the educational facilities, whichever is longer.

Section 21. Section 235.1853, Florida Statutes, is created to read:

235.1853 Educational facilities benefit district or community development district facility utilization.—The student population of all facilities funded pursuant to this act shall, to the greatest extent possible, reflect the racial, ethnic, and socioeconomic balance of the school district pursuant to state and federal law. However, to the extent allowable pursuant to state and federal law, the interlocal agreement providing for the establishment of the educational facilities benefit district or the interlocal agreement between the community development district and the district school board and affected local general purpose governments may provide for the district school board to establish school attendance zones that allow students residing within a reasonable distance of facilities financed through the interlocal agreement to attend such facilities.

Section 22. Section 235.188, Florida Statutes, is amended to read:

235.188 Full bonding required to participate in programs.—Any district with unused bonding capacity in its Capital Outlay and Debt Service Trust Fund allocation that certifies in its district educational facilities plan ~~work program~~ that it will not be able to meet all of its need for new student stations within existing revenues must fully bond its Capital Outlay and Debt Service Trust Fund allocation before it may participate in Classrooms First, the School Infrastructure Thrift (SIT) Program, or the Effort Index Grants Program.

Section 23. Section 235.19, Florida Statutes, is amended to read:

235.19 Site planning and selection.—

(1) Before acquiring property for sites, each board shall determine the location of proposed educational centers or campuses for the board. In making this determination, the board shall consider existing and anticipated site needs and the most economical and practicable locations of sites. The board shall coordinate with the long-range or comprehensive plans of local, regional, and state governmental agencies to assure the consistency ~~compatibility~~ of such plans with site planning. Boards are encouraged to locate district educational facilities schools proximate to urban residential areas to the extent possible, and shall seek to collocate district educational facilities schools with other public facilities, such as parks, libraries, and community centers, to the extent possible, and to encourage using elementary schools as focal points for neighborhoods.

(2) Each new site selected must be adequate in size to meet the educational needs of the students to be served on that site by the original educational facility or future expansions of the facility through renovation or the addition of relocatables. ~~The Commissioner of Education shall prescribe by rule recommended sizes for new sites according to categories of students to be housed and other appropriate factors determined by the commissioner. Less than recommended site sizes are allowed if the board, by a two-thirds majority, recommends such a site and finds that it can provide an appropriate and equitable educational program on the site.~~

(3) Sites recommended for purchase, or purchased, in accordance with chapter 230 or chapter 240 must meet standards prescribed therein and such supplementary standards as the commissioner prescribes to promote the educational interests of the students. Each site must be well drained and suitable for outdoor educational purposes

as appropriate for the educational program or collocated with facilities to serve this purpose. As provided in s. 333.03, the site must not be located within any path of flight approach of any airport. Insofar as is practicable, the site must not adjoin a right-of-way of any railroad or through highway and must not be adjacent to any factory or other property from which noise, odors, or other disturbances, or at which conditions, would be likely to interfere with the educational program. To the extent practicable, sites must be chosen which will provide safe access from neighborhoods to schools.

(4) It shall be the responsibility of the board to provide adequate notice to appropriate municipal, county, regional, and state governmental agencies for requested traffic control and safety devices so they can be installed and operating prior to the first day of classes or to satisfy itself that every reasonable effort has been made in sufficient time to secure the installation and operation of such necessary devices prior to the first day of classes. It shall also be the responsibility of the board to review annually traffic control and safety device needs and to request all necessary changes indicated by such review.

(5) Each board may request county and municipal governments to construct and maintain sidewalks and bicycle trails within a 2-mile radius of each educational facility within the jurisdiction of the local government. When a board discovers or is aware of an existing hazard on or near a public sidewalk, street, or highway within a 2-mile radius of a school site and the hazard endangers the life or threatens the health or safety of students who walk, ride bicycles, or are transported regularly between their homes and the school in which they are enrolled, the board shall, within 24 hours after discovering or becoming aware of the hazard, excluding Saturdays, Sundays, and legal holidays, report such hazard to the governmental entity within the jurisdiction of which the hazard is located. Within 5 days after receiving notification by the board, excluding Saturdays, Sundays, and legal holidays, the governmental entity shall investigate the hazardous condition and either correct it or provide such precautions as are practicable to safeguard students until the hazard can be permanently corrected. However, if the governmental entity that has jurisdiction determines upon investigation that it is impracticable to correct the hazard, or if the entity determines that the reported condition does not endanger the life or threaten the health or safety of students, the entity shall, within 5 days after notification by the board, excluding Saturdays, Sundays, and legal holidays, inform the board in writing of its reasons for not correcting the condition. The governmental entity, to the extent allowed by law, shall indemnify the board from any liability with respect to accidents or injuries, if any, arising out of the hazardous condition.

(6) If the school board and local government have entered into an interlocal agreement pursuant to s. 235.193(2) and either s. 163.3177(6)(h)4. or s. 163.31777 or have developed a process to ensure consistency between the local government comprehensive plan and the school district educational facilities plan, site planning and selection must be consistent with the interlocal agreements and the plans.

Section 24. Section 235.193, Florida Statutes, is amended to read:

235.193 Coordination of planning with local governing bodies.—

(1) It is the policy of this state to require the coordination of planning between boards and local governing bodies to ensure that plans for the construction and opening of public educational facilities are facilitated and coordinated in time and place with plans for residential development, concurrently with other necessary services. Such planning shall include the integration of the educational facilities plan ~~plant~~ survey and applicable policies and procedures of a board with the local comprehensive plan and land development regulations of local governments governing bodies. The planning must include the consideration of allowing students to attend the school located nearest their homes when a new housing development is constructed near a county boundary and it is more feasible to transport the students a short distance to an existing facility in an adjacent county than to construct a new facility or transport students longer distances in their county of residence. The planning must also consider the effects of the location of public education facilities, including the feasibility of keeping central city facilities viable, in order to encourage central city redevelopment

and the efficient use of infrastructure and to discourage uncontrolled urban sprawl. In addition, all parties to the planning process must consult with state and local road departments to assist in implementing the Safe Paths to Schools program administered by the Department of Transportation.

(2)(a) The school board, county, and nonexempt municipalities located within the geographic area of a school district shall enter into an interlocal agreement that jointly establishes the specific ways in which the plans and processes of the district school board and the local governments are to be coordinated. The interlocal agreements shall be submitted to the state land planning agency and the Office of Educational Facilities and the SMART Schools Clearinghouse in accordance with a schedule published by the state land planning agency.

(b) The schedule must establish staggered due dates for submission of interlocal agreements that are executed by both the local government and district school board, commencing on March 1, 2003, and concluding by December 1, 2004, and must set the same date for all governmental entities within a school district. However, if the county where the school district is located contains more than 20 municipalities, the state land planning agency may establish staggered due dates for the submission of interlocal agreements by these municipalities. The schedule must begin with those areas where both the number of districtwide capital-outlay full-time-equivalent students equals 80 percent or more of the current year's school capacity and the projected 5-year student growth rate is 1,000 or greater, or where the projected 5-year student growth rate is 10 percent or greater.

(c) If the student population has declined over the 5-year period preceding the due date for submittal of an interlocal agreement by the local government and the district school board, the local government and district school board may petition the state land planning agency for a waiver of one or more of the requirements of subsection (3). The waiver must be granted if the procedures called for in subsection (3) are unnecessary because of the school district's declining school age population, considering the district's 5-year work program prepared pursuant to s. 235.185. The state land planning agency may modify or revoke the waiver upon a finding that the conditions upon which the waiver was granted no longer exist. The district school board and local governments must submit an interlocal agreement within 1 year after notification by the state land planning agency that the conditions for a waiver no longer exist.

(d) Interlocal agreements between local governments and district school boards adopted pursuant to s. 163.3177 before the effective date of subsections (2)-(9) must be updated and executed pursuant to the requirements of subsections (2)-(9), if necessary. Amendments to interlocal agreements adopted pursuant to subsections (2)-(9) must be submitted to the state land planning agency within 30 days after execution by the parties for review consistent with subsections (3) and (4). Local governments and the district school board in each school district are encouraged to adopt a single interlocal agreement in which all join as parties. The state land planning agency shall assemble and make available model interlocal agreements meeting the requirements of subsections (2)-(9) and shall notify local governments and, jointly with the Department of Education, the district school boards of the requirements of subsections (2)-(9), the dates for compliance, and the sanctions for noncompliance. The state land planning agency shall be available to informally review proposed interlocal agreements. If the state land planning agency has not received a proposed interlocal agreement for informal review, the state land planning agency shall, at least 60 days before the deadline for submission of the executed agreement, renotify the local government and the district school board of the upcoming deadline and the potential for sanctions.

(3) At a minimum, the interlocal agreement must address the following issues:

(a) A process by which each local government and the district school board agree and base their plans on consistent projections of the amount, type, and distribution of population growth and student enrollment. The geographic distribution of jurisdiction-wide growth forecasts is a major objective of the process.

(b) A process to coordinate and share information relating to existing and planned public school facilities, including school renovations and closures, and local government plans for development and redevelopment.

(c) Participation by affected local governments with the district school board in the process of evaluating potential school closures, significant renovations to existing schools, and new school site selection before land acquisition. Local governments shall advise the district school board as to the consistency of the proposed closure, renovation, or new site with the local comprehensive plan, including appropriate circumstances and criteria under which a district school board may request an amendment to the comprehensive plan for school siting.

(d) A process for determining the need for and timing of on-site and off-site improvements to support new construction, proposed expansion, or redevelopment of existing schools. The process shall address identification of the party or parties responsible for the improvements.

(e) A process for the school board to inform the local government regarding school capacity. The capacity reporting must be consistent with laws and rules regarding measurement of school facility capacity and must also identify how the district school board will meet the public school demand based on the facilities work program adopted pursuant to s. 235.185.

(f) Participation of the local governments in the preparation of the annual update to the school board's 5-year district facilities work program and educational plant survey prepared pursuant to s. 235.185.

(g) A process for determining where and how joint use of either school board or local government facilities can be shared for mutual benefit and efficiency.

(h) A procedure for the resolution of disputes between the district school board and local governments, which may include the dispute-resolution processes contained in chapters 164 and 186.

(i) An oversight process, including an opportunity for public participation, for the implementation of the interlocal agreement.

A signatory to the interlocal agreement may elect not to include a provision meeting the requirements of paragraph (e); however, such a decision may be made only after a public hearing on such election, which may include the public hearing in which a district school board or a local government adopts the interlocal agreement. An interlocal agreement entered into pursuant to this section must be consistent with the adopted comprehensive plan and land development regulations of any local government that is a signatory.

(4)(a) The Office of Educational Facilities and SMART Schools Clearinghouse shall submit any comments or concerns regarding the executed interlocal agreement to the state land planning agency within 30 days after receipt of the executed interlocal agreement. The state land planning agency shall review the executed interlocal agreement to determine whether it is consistent with the requirements of subsection (3), the adopted local government comprehensive plan, and other requirements of law. Within 60 days after receipt of an executed interlocal agreement, the state land planning agency shall publish a notice of intent in the Florida Administrative Weekly and shall post a copy of the notice on the agency's Internet site. The notice of intent must state that the interlocal agreement is consistent or inconsistent with the requirements of subsection (3) and this subsection as appropriate.

(b) The state land planning agency's notice is subject to challenge under chapter 120; however, an affected person, as defined in s. 163.3184(1)(a), has standing to initiate the administrative proceeding and this proceeding is the sole means available to challenge the consistency of an interlocal agreement required by this section with the criteria contained in subsection (3) and this subsection. In order to have standing, each person must have submitted oral or written comments, recommendations, or objections to the local government or the school board before the adoption of the interlocal agreement by the district school board and local government. The district school board and local governments are parties to any such proceeding. In this proceeding, when

the state land planning agency finds the interlocal agreement to be consistent with the criteria in subsection (3) and this subsection, the interlocal agreement must be determined to be consistent with subsection (3) and this subsection if the local government's and school board's determination of consistency is fairly debatable. When the state land planning agency finds the interlocal agreement to be inconsistent with the requirements of subsection (3) and this subsection, the local government's and school board's determination of consistency shall be sustained unless it is shown by a preponderance of the evidence that the interlocal agreement is inconsistent.

(c) If the state land planning agency enters a final order that finds that the interlocal agreement is inconsistent with the requirements of subsection (3) or this subsection, the state land planning agency shall forward it to the Administration Commission, which may impose sanctions against the local government pursuant to s. 163.3184(11) and may impose sanctions against the district school board by directing the Department of Education to withhold an equivalent amount of funds for school construction available pursuant to ss. 235.187, 235.216, 235.2195, and 235.42.

(5) If an executed interlocal agreement is not timely submitted to the state land planning agency for review, the state land planning agency shall, within 15 working days after the deadline for submittal, issue to the local government and the district school board a Notice to Show Cause why sanctions should not be imposed for failure to submit an executed interlocal agreement by the deadline established by the agency. The agency shall forward the notice and the responses to the Administration Commission, which may enter a final order citing the failure to comply and imposing sanctions against the local government and district school board by directing the appropriate agencies to withhold at least 5 percent of state funds pursuant to s. 163.3184(11) and by directing the Department of Education to withhold from the district school board at least 5 percent of funds for school construction available pursuant to ss. 235.187, 235.216, 235.2195, and 235.42.

(6) Any local government transmitting a public school element to implement school concurrency pursuant to the requirements of s. 163.3180 before the effective date of this section is not required to amend the element or any interlocal agreement to conform with the provisions of subsections (2)-(8) if the element is adopted prior to or within 1 year after the effective date of subsections (2)-(8) and remains in effect.

(7) Except as provided in subsection (8), municipalities having no established need for a new facility and meeting the following criteria are exempt from the requirements of subsections (2), (3) and (4):

(a) The municipality has no public schools located within its boundaries.

(b) The district school board's 5-year facilities work program and the long-term 10-year and 20-year work programs, as provided in s. 235.185, demonstrate that no new school facility is needed in the municipality. In addition, the district school board must verify in writing that no new school facility will be needed in the municipality within the 5-year and 10-year timeframes.

(8) At the time of the evaluation and appraisal report, each exempt municipality shall assess the extent to which it continues to meet the criteria for exemption under subsection (7). If the municipality continues to meet these criteria and the district school board verifies in writing that no new school facilities will be needed within the 5-year and 10-year timeframes, the municipality shall continue to be exempt from the interlocal-agreement requirement. Each municipality exempt under subsection (7) must comply with the provisions of subsections (2)-(8) within 1 year after the district school board proposes, in its 5-year district facilities work program, a new school within the municipality's jurisdiction.

(9)(2) A school board and the local governing body must share and coordinate information related to existing and planned public school facilities; proposals for development, redevelopment, or additional development; and infrastructure required to support the public school facilities, concurrent with proposed development. A school board shall

use information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136 Department of Education enrollment projections when preparing the 5-year district educational facilities plan work program pursuant to s. 235.185, as modified and agreed to by the local governments, when provided by interlocal agreement, and the Office of Educational Facilities and SMART Schools Clearinghouse, in and a school board shall affirmatively demonstrate in the educational facilities report consideration of local governments' population projections, to ensure that the district educational facilities plan 5-year work program not only reflects enrollment projections but also considers applicable municipal and county growth and development projections. The projections must be apportioned geographically with assistance from the local governments using local government trend data and the school district student enrollment data. A school board is precluded from siting a new school in a jurisdiction where the school board has failed to provide the annual educational facilities plan report for the prior year required pursuant to s. 235.185 s. 235.194 unless the failure is corrected.

(10)(3) The location of public educational facilities shall be consistent with the comprehensive plan of the appropriate local governing body developed under part II of chapter 163 and consistent with the plan's implementing land development regulations, to the extent that the regulations are not in conflict with or the subject regulated is not specifically addressed by this chapter or the State Uniform Building Code, unless mutually agreed by the local government and the board.

(11)(4) To improve coordination relative to potential educational facility sites, a board shall provide written notice to the local government that has regulatory authority over the use of the land consistent with an interlocal agreement entered pursuant to subsections (2)-(8) at least 60 days prior to acquiring or leasing property that may be used for a new public educational facility. The local government, upon receipt of this notice, shall notify the board within 45 days if the site proposed for acquisition or lease is consistent with the land use categories and policies of the local government's comprehensive plan. This preliminary notice does not constitute the local government's determination of consistency pursuant to subsection (12) (5).

(12)(5) As early in the design phase as feasible and consistent with an interlocal agreement entered pursuant to subsections (2)-(8), but no later than 90 days before commencing construction, the district school board shall in writing request a determination of consistency with the local government's comprehensive plan, but at least before commencing construction of a new public educational facility. The local governing body that regulates the use of land shall determine, in writing within 45 90 days after receiving the necessary information and a school board's request for a determination, whether a proposed public educational facility is consistent with the local comprehensive plan and consistent with local land development regulations, to the extent that the regulations are not in conflict with or the subject regulated is not specifically addressed by this chapter or the State Uniform Building Code, unless mutually agreed. If the determination is affirmative, school construction may commence proceed and further local government approvals are not required, except as provided in this section. Failure of the local governing body to make a determination in writing within 90 days after a school board's request for a determination of consistency shall be considered an approval of the school board's application.

(13)(6) A local governing body may not deny the site applicant based on adequacy of the site plan as it relates solely to the needs of the school. If the site is consistent with the comprehensive plan's future land use policies and categories in which public schools are identified as allowable uses, the local government may not deny the application but it may impose reasonable development standards and conditions in accordance with s. 235.34(1) and consider the site plan and its adequacy as it relates to environmental concerns, health, safety and welfare, and effects on adjacent property. Standards and conditions may not be imposed which conflict with those established in this chapter or the Florida State Uniform Building Code, unless mutually agreed and consistent with the interlocal agreement required by subsections (2)-(8).

(14)(7) This section does not prohibit a local governing body and district school board from agreeing and establishing an alternative process for reviewing a proposed educational facility and site plan, and offsite impacts, pursuant to an interlocal agreement adopted in accordance with subsections (2)-(8).

(15)(8) Existing schools shall be considered consistent with the applicable local government comprehensive plan adopted under part II of chapter 163. ~~The collocation of a new proposed public educational facility with an existing public educational facility, or the expansion of an existing public educational facility is not inconsistent with the local comprehensive plan, if the site is consistent with the comprehensive plan's future land use policies and categories in which public schools are identified as allowable uses, and levels of service adopted by the local government for any facilities affected by the proposed location for the new facility are maintained.~~ If a board submits an application to expand an existing school site, the local governing body may impose reasonable development standards and conditions on the expansion only, and in a manner consistent with s. 235.34(1). Standards and conditions may not be imposed which conflict with those established in this chapter or the *Florida State Uniform Building Code*, unless mutually agreed upon. Local government review or approval is not required for:

- (a) The placement of temporary or portable classroom facilities; or
- (b) Proposed renovation or construction on existing school sites, with the exception of construction that changes the primary use of a facility, includes stadiums, or results in a greater than 5 percent increase in student capacity, or as mutually agreed upon, pursuant to an interlocal agreement adopted in accordance with subsections (2)-(8).

Section 25. *Section 235.194, Florida Statutes, is repealed.*

Section 26. *Section 235.218, Florida Statutes, is amended to read:*

235.218 School district *educational facilities plan work-program* performance and productivity standards; development; measurement; application.—

(1) The *Office of Educational Facilities and SMART Schools Clearinghouse* shall develop and adopt measures for evaluating the performance and productivity of school district *educational facilities plans work-programs*. The measures may be both quantitative and qualitative and must, to the maximum extent practical, assess those factors that are within the districts' control. The measures must, at a minimum, assess performance in the following areas:

- (a) Frugal production of high-quality projects.
 - (b) Efficient finance and administration.
 - (c) Optimal school and classroom size and utilization rate.
 - (d) Safety.
 - (e) Core facility space needs and cost-effective capacity improvements that consider demographic projections.
 - (f) Level of district local effort.
- (2) The *office clearinghouse* shall establish annual performance objectives and standards that can be used to evaluate district performance and productivity.

(3) The *office clearinghouse* shall conduct ongoing evaluations of district educational facilities program performance and productivity, using the measures adopted under this section. If, using these measures, the *office clearinghouse* finds that a district failed to perform satisfactorily, the *office clearinghouse* must recommend to the district school board actions to be taken to improve the district's performance.

Section 27. Paragraph (c) of subsection (2) of section 235.2197, Florida Statutes, is amended to read:

235.2197 Florida Frugal Schools Program.—

(2) The "Florida Frugal Schools Program" is created to recognize publicly each district school board that agrees to build frugal yet

functional educational facilities and that implements "best financial management practices" when planning, constructing, and operating educational facilities. The *Florida State Board of Education* shall recognize a district school board as having a Florida Frugal Schools Program if the district requests recognition and satisfies two or more of the following criteria:

(c) The district school board submits a plan to the Commissioner of Education certifying how the revenues generated by the levy of the capital outlay sales surtax authorized by s. 212.055(6) will be spent. The plan must include at least the following assurances about the use of the proceeds of the surtax and any accrued interest:

1. The district school board will use the surtax and accrued interest only for the fixed capital outlay purposes identified by s. 212.055(6)(d) which will reduce school overcrowding that has been validated by the Department of Education, or for the repayment of bonded indebtedness related to such capital outlay purposes.
2. The district school board will not spend the surtax or accrued interest to pay for operational expenses or for the construction, renovation, or remodeling of any administrative building or any other ancillary facility that is not directly related to the instruction, feeding, or transportation of students enrolled in the public schools.
3. The district school board's use of the surtax and accrued interest will be consistent with the best financial management practices identified and approved under s. 230.23025.
4. The district school board will apply the educational facilities contracting and construction techniques authorized by s. 235.211 or other construction management techniques to reduce the cost of educational facilities.

5. The district school board will discontinue the surtax levy when the district has provided the survey-recommended educational facilities that were determined to be necessary to relieve school overcrowding; when the district has satisfied any bonded indebtedness incurred for such educational facilities; or when the district's other sources of capital outlay funds are sufficient to provide such educational facilities, whichever occurs first.

6. The district school board will use any excess surtax collections or accrued interest to reduce the discretionary outlay millage levied under s. 236.25(2).

Section 28. *Section 235.321, Florida Statutes, is amended to read:*

235.321 Changes in construction requirements after award of contract.—The board may, at its option and by written policy duly adopted and entered in its official minutes, authorize the superintendent or president or other designated individual to approve change orders in the name of the board for preestablished amounts. Approvals shall be for the purpose of expediting the work in progress and shall be reported to the board and entered in its official minutes. For accountability, the school district shall monitor and report the impact of change orders on its district *educational facilities plan work-program* pursuant to s. 235.185.

Section 29. Paragraph (d) of subsection (5) of section 236.25, Florida Statutes, is amended to read:

236.25 District school tax.—

(5)

(d) Notwithstanding any other provision of this subsection, if through its adopted *educational facilities plan work-program* a district has clearly identified the need for an ancillary plant, has provided opportunity for public input as to the relative value of the ancillary plant versus an educational plant, and has obtained public approval, the district may use revenue generated by the millage levy authorized by subsection (2) for the *acquisition*, construction, renovation, remodeling, maintenance, or repair of an ancillary plant.

A district that violates these expenditure restrictions shall have an equal dollar reduction in funds appropriated to the district under s.

236.081 in the fiscal year following the audit citation. The expenditure restrictions do not apply to any school district that certifies to the Commissioner of Education that all of the district's instructional space needs for the next 5 years can be met from capital outlay sources that the district reasonably expects to receive during the next 5 years or from alternative scheduling or construction, leasing, rezoning, or technological methodologies that exhibit sound management.

Section 30. Subsection (3) of section 380.04, Florida Statutes, is amended to read:

380.04 Definition of development.—

(3) The following operations or uses shall not be taken for the purpose of this chapter to involve “development” as defined in this section:

(a) Work by a highway or road agency or railroad company for the maintenance or improvement of a road or railroad track, if the work is carried out on land within the boundaries of the right-of-way.

(b) Work by any utility and other persons engaged in the distribution or transmission of *electricity*, gas, or water, for the purpose of inspecting, repairing, renewing, or constructing on established rights-of-way any sewers, mains, pipes, cables, utility tunnels, power lines, towers, poles, tracks, or the like.

(c) Work for the maintenance, renewal, improvement, or alteration of any structure, if the work affects only the interior or the color of the structure or the decoration of the exterior of the structure.

(d) The use of any structure or land devoted to dwelling uses for any purpose customarily incidental to enjoyment of the dwelling.

(e) The use of any land for the purpose of growing plants, crops, trees, and other agricultural or forestry products; raising livestock; or for other agricultural purposes.

(f) A change in use of land or structure from a use within a class specified in an ordinance or rule to another use in the same class.

(g) A change in the ownership or form of ownership of any parcel or structure.

(h) The creation or termination of rights of access, riparian rights, easements, covenants concerning development of land, or other rights in land.

Section 31. Paragraph (d) of subsection (2), paragraph (b) of subsection (4), paragraph (a) of subsection (8), subsection (12), paragraph (c) of subsection (15), subsection (18), and paragraphs (b), (e), and (f) of subsection (19) of section 380.06, Florida Statutes, are amended, and paragraphs (i) and (j) are added to subsection (24) of that section, to read:

380.06 Developments of regional impact.—

(2) STATEWIDE GUIDELINES AND STANDARDS.—

(d) The guidelines and standards shall be applied as follows:

1. Fixed thresholds.—

a. A development that is at or below ~~100~~ 80 percent of all numerical thresholds in the guidelines and standards shall not be required to undergo development-of-regional-impact review.

b. A development that is at or above 120 percent of any numerical threshold shall be required to undergo development-of-regional-impact review.

c. Projects certified under s. 403.973 which create at least 100 jobs and meet the criteria of the Office of Tourism, Trade, and Economic Development as to their impact on an area's economy, employment, and prevailing wage and skill levels that are at or below 100 percent of the numerical thresholds for industrial plants, industrial parks, distribution, warehousing or wholesaling facilities, office development or multiuse projects other than residential, as described in s.

380.0651(3)(c), (d), and (i), are not required to undergo development-of-regional-impact review.

2. Rebuttable *presumption* ~~presumptions~~.—

~~a.—It shall be presumed that a development that is between 80 and 100 percent of a numerical threshold shall not be required to undergo development-of-regional-impact review.~~

b. It shall be presumed that a development that is at 100 percent or between 100 and 120 percent of a numerical threshold shall be required to undergo development-of-regional-impact review.

(4) BINDING LETTER.—

(b) Unless a developer waives the requirements of this paragraph by agreeing to undergo development-of-regional-impact review pursuant to this section, the state land planning agency or local government with jurisdiction over the land on which a development is proposed may require a developer to obtain a binding letter if:

1. the development is at a presumptive numerical threshold or up to 20 percent above a numerical threshold in the guidelines and standards; ~~or~~

~~2.—The development is between a presumptive numerical threshold and 20 percent below the numerical threshold and the local government or the state land planning agency is in doubt as to whether the character or magnitude of the development at the proposed location creates a likelihood that the development will have a substantial effect on the health, safety, or welfare of citizens of more than one county.~~

(8) PRELIMINARY DEVELOPMENT AGREEMENTS.—

(a) A developer may enter into a written preliminary development agreement with the state land planning agency to allow a developer to proceed with a limited amount of the total proposed development, subject to all other governmental approvals and solely at the developer's own risk, prior to issuance of a final development order. All owners of the land in the total proposed development shall join the developer as parties to the agreement. Each agreement shall include and be subject to the following conditions:

1. The developer shall comply with the preapplication conference requirements pursuant to subsection (7) within 45 days after the execution of the agreement.

2. The developer shall file an application for development approval for the total proposed development within 3 months after execution of the agreement, unless the state land planning agency agrees to a different time for good cause shown. Failure to timely file an application and to otherwise diligently proceed in good faith to obtain a final development order shall constitute a breach of the preliminary development agreement.

3. The agreement shall include maps and legal descriptions of both the preliminary development area and the total proposed development area and shall specifically describe the preliminary development in terms of magnitude and location. The area approved for preliminary development must be included in the application for development approval and shall be subject to the terms and conditions of the final development order.

4. The preliminary development shall be limited to lands that the state land planning agency agrees are suitable for development and shall only be allowed in areas where adequate public infrastructure exists to accommodate the preliminary development, when such development will utilize public infrastructure. The developer must also demonstrate that the preliminary development will not result in material adverse impacts to existing resources or existing or planned facilities.

5. The preliminary development agreement may allow development which is:

a. Less than or equal to ~~100~~ 80 percent of any applicable threshold if the developer demonstrates that such development is consistent with subparagraph 4.; or

b. Less than 120 percent of any applicable threshold if the developer demonstrates that such development is part of a proposed downtown development of regional impact specified in subsection (22) or part of any areawide development of regional impact specified in subsection (25) and that the development is consistent with subparagraph 4.

6. The developer and owners of the land may not claim vested rights, or assert equitable estoppel, arising from the agreement or any expenditures or actions taken in reliance on the agreement to continue with the total proposed development beyond the preliminary development. The agreement shall not entitle the developer to a final development order approving the total proposed development or to particular conditions in a final development order.

7. The agreement shall not prohibit the regional planning agency from reviewing or commenting on any regional issue that the regional agency determines should be included in the regional agency's report on the application for development approval.

8. The agreement shall include a disclosure by the developer and all the owners of the land in the total proposed development of all land or development within 5 miles of the total proposed development in which they have an interest and shall describe such interest.

9. In the event of a breach of the agreement or failure to comply with any condition of the agreement, or if the agreement was based on materially inaccurate information, the state land planning agency may terminate the agreement or file suit to enforce the agreement as provided in this section and s. 380.11, including a suit to enjoin all development.

10. A notice of the preliminary development agreement shall be recorded by the developer in accordance with s. 28.222 with the clerk of the circuit court for each county in which land covered by the terms of the agreement is located. The notice shall include a legal description of the land covered by the agreement and shall state the parties to the agreement, the date of adoption of the agreement and any subsequent amendments, the location where the agreement may be examined, and that the agreement constitutes a land development regulation applicable to portions of the land covered by the agreement. The provisions of the agreement shall inure to the benefit of and be binding upon successors and assigns of the parties in the agreement.

11. Except for those agreements which authorize preliminary development for substantial deviations pursuant to subsection (19), a developer who no longer wishes to pursue a development of regional impact may propose to abandon any preliminary development agreement executed after January 1, 1985, including those pursuant to s. 380.032(3), provided at the time of abandonment:

a. A final development order under this section has been rendered that approves all of the development actually constructed; or

b. The amount of development is less than ~~100~~ 80 percent of all numerical thresholds of the guidelines and standards, and the state land planning agency determines in writing that the development to date is in compliance with all applicable local regulations and the terms and conditions of the preliminary development agreement and otherwise adequately mitigates for the impacts of the development to date.

In either event, when a developer proposes to abandon said agreement, the developer shall give written notice and state that he or she is no longer proposing a development of regional impact and provide adequate documentation that he or she has met the criteria for abandonment of the agreement to the state land planning agency. Within 30 days of receipt of adequate documentation of such notice, the state land planning agency shall make its determination as to whether or not the developer meets the criteria for abandonment. Once the state land planning agency determines that the developer meets the criteria for abandonment, the state land planning agency shall issue a notice of abandonment which shall be recorded by the developer in accordance with s. 28.222 with the clerk of the circuit court for each county in which land covered by the terms of the agreement is located.

(12) REGIONAL REPORTS.—

(a) Within 50 days after receipt of the notice of public hearing required in paragraph (11)(c), the regional planning agency, if one has been designated for the area including the local government, shall prepare and submit to the local government a report and recommendations on the regional impact of the proposed development. In preparing its report and recommendations, the regional planning agency shall identify regional issues based upon the following review criteria and make recommendations to the local government on these regional issues, specifically considering whether, and the extent to which:

1. The development will have a favorable or unfavorable impact on state or regional resources or facilities identified in the applicable state or regional plans. For the purposes of this subsection, "applicable state plan" means the state comprehensive plan. For the purposes of this subsection, "applicable regional plan" means an adopted comprehensive regional policy plan until the adoption of a strategic regional policy plan pursuant to s. 186.508, and thereafter means an adopted strategic regional policy plan.

2. The development will significantly impact adjacent jurisdictions. At the request of the appropriate local government, regional planning agencies may also review and comment upon issues that affect only the requesting local government.

3. As one of the issues considered in the review in subparagraphs 1. and 2., the development will favorably or adversely affect the ability of people to find adequate housing reasonably accessible to their places of employment. The determination should take into account information on factors that are relevant to the availability of reasonably accessible adequate housing. Adequate housing means housing that is available for occupancy and that is not substandard.

(b) At the request of the regional planning agency, other appropriate agencies shall review the proposed development and shall prepare reports and recommendations on issues that are clearly within the jurisdiction of those agencies. Such agency reports shall become part of the regional planning agency report; however, the regional planning agency may attach dissenting views. When water management district and Department of Environmental Protection permits have been issued pursuant to chapter 373 or chapter 403, the regional planning council may comment on the regional implications of the permits but may not offer conflicting recommendations.

(c) The regional planning agency shall afford the developer or any substantially affected party reasonable opportunity to present evidence to the regional planning agency head relating to the proposed regional agency report and recommendations.

(d) When the location of a proposed development involves land within the boundaries of multiple regional planning councils, the state land planning agency shall designate a lead regional planning council. The lead regional planning council shall prepare the regional report.

(15) LOCAL GOVERNMENT DEVELOPMENT ORDER.—

(c) The development order shall include findings of fact and conclusions of law consistent with subsections (13) and (14). The development order:

1. Shall specify the monitoring procedures and the local official responsible for assuring compliance by the developer with the development order.

2. Shall establish compliance dates for the development order, including a deadline for commencing physical development and for compliance with conditions of approval or phasing requirements, and shall include a termination date that reasonably reflects the time required to complete the development.

3. Shall establish a date until which the local government agrees that the approved development of regional impact shall not be subject to downzoning, unit density reduction, or intensity reduction, unless the local government can demonstrate that substantial changes in the

conditions underlying the approval of the development order have occurred or the development order was based on substantially inaccurate information provided by the developer or that the change is clearly established by local government to be essential to the public health, safety, or welfare.

4. Shall specify the requirements for the *biennial annual* report designated under subsection (18), including the date of submission, parties to whom the report is submitted, and contents of the report, based upon the rules adopted by the state land planning agency. Such rules shall specify the scope of any additional local requirements that may be necessary for the report.

5. May specify the types of changes to the development which shall require submission for a substantial deviation determination under subsection (19).

6. Shall include a legal description of the property.

(18) **BIENNIAL ANNUAL REPORTS.**—The developer shall submit a *biennial an annual* report on the development of regional impact to the local government, the regional planning agency, the state land planning agency, and all affected permit agencies *in alternate years* on the date specified in the development order, *unless the development order by its terms requires more frequent monitoring*. If the *annual* report is not received, the regional planning agency or the state land planning agency shall notify the local government. If the local government does not receive the *annual* report or receives notification that the regional planning agency or the state land planning agency has not received the report, the local government shall request in writing that the developer submit the report within 30 days. The failure to submit the report after 30 days shall result in the temporary suspension of the development order by the local government. *If no additional development pursuant to the development order has occurred since the submission of the previous report, then a letter from the developer stating that no development has occurred shall satisfy the requirement for a report. Development orders that require annual reports may be amended to require biennial reports at the option of the local government.*

(19) **SUBSTANTIAL DEVIATIONS.**—

(b) Any proposed change to a previously approved development of regional impact or development order condition which, either individually or cumulatively with other changes, exceeds any of the following criteria shall constitute a substantial deviation and shall cause the development to be subject to further development-of-regional-impact review without the necessity for a finding of same by the local government:

1. An increase in the number of parking spaces at an attraction or recreational facility by 5 percent or 300 spaces, whichever is greater, or an increase in the number of spectators that may be accommodated at such a facility by 5 percent or 1,000 spectators, whichever is greater.

2. A new runway, a new terminal facility, a 25-percent lengthening of an existing runway, or a 25-percent increase in the number of gates of an existing terminal, but only if the increase adds at least three additional gates. However, if an airport is located in two counties, a 10-percent lengthening of an existing runway or a 20-percent increase in the number of gates of an existing terminal is the applicable criteria.

3. An increase in the number of hospital beds by 5 percent or 60 beds, whichever is greater.

4. An increase in industrial development area by 5 percent or 32 acres, whichever is greater.

5. An increase in the average annual acreage mined by 5 percent or 10 acres, whichever is greater, or an increase in the average daily water consumption by a mining operation by 5 percent or 300,000 gallons, whichever is greater. An increase in the size of the mine by 5 percent or 750 acres, whichever is less.

6. An increase in land area for office development by 5 percent ~~or 6 acres, whichever is greater,~~ or an increase of gross floor area of office

development by 5 percent or 60,000 gross square feet, whichever is greater.

7. An increase in the storage capacity for chemical or petroleum storage facilities by 5 percent, 20,000 barrels, or 7 million pounds, whichever is greater.

8. An increase of development at a waterport of wet storage for 20 watercraft, dry storage for 30 watercraft, or wet/dry storage for 60 watercraft in an area identified in the state marina siting plan as an appropriate site for additional waterport development or a 5-percent increase in watercraft storage capacity, whichever is greater.

9. An increase in the number of dwelling units by 5 percent or 50 dwelling units, whichever is greater.

10. An increase in commercial development by ~~6 acres of land area or by~~ 50,000 square feet of gross floor area, or of parking spaces provided for customers for 300 cars or a 5-percent increase of *either any* of these, whichever is greater.

11. An increase in hotel or motel facility units by 5 percent or 75 units, whichever is greater.

12. An increase in a recreational vehicle park area by 5 percent or 100 vehicle spaces, whichever is less.

13. A decrease in the area set aside for open space of 5 percent or 20 acres, whichever is less.

14. A proposed increase to an approved multiuse development of regional impact where the sum of the increases of each land use as a percentage of the applicable substantial deviation criteria is equal to or exceeds 100 percent. The percentage of any decrease in the amount of open space shall be treated as an increase for purposes of determining when 100 percent has been reached or exceeded.

15. A 15-percent increase in the number of external vehicle trips generated by the development above that which was projected during the original development-of-regional-impact review.

16. Any change which would result in development of any area which was specifically set aside in the application for development approval or in the development order for preservation or special protection of endangered or threatened plants or animals designated as endangered, threatened, or species of special concern and their habitat, primary dunes, or archaeological and historical sites designated as significant by the Division of Historical Resources of the Department of State. The further refinement of such areas by survey shall be considered under sub-subparagraph (e)5.b.

The substantial deviation numerical standards in subparagraphs 4., 6., 10., 14., excluding residential uses, and 15., are increased by 100 percent for a project certified under s. 403.973 which creates jobs and meets criteria established by the Office of Tourism, Trade, and Economic Development as to its impact on an area's economy, employment, and prevailing wage and skill levels. The substantial deviation numerical standards in subparagraphs 4., 6., 9., 10., 11., and 14. are increased by 50 percent for a project located wholly within an urban infill and redevelopment area designated on the applicable adopted local comprehensive plan future land use map and not located within the coastal high hazard area.

(e)1. ~~A proposed change which, either individually or, if there were previous changes, cumulatively with those changes, is equal to or exceeds 40 percent of any numerical criterion in subparagraphs (b)1.-15., but which does not exceed such criterion, shall be presumed not to create a substantial deviation subject to further development-of-regional-impact review. The presumption may be rebutted by clear and convincing evidence at the public hearing held by the local government pursuant to subparagraph (f)5.~~

2. Except for a development order rendered pursuant to subsection (22) or subsection (25), a proposed change to a development order that individually or cumulatively with any previous change is less than 40 percent of any numerical criterion contained in subparagraphs (b)1.-15.

and does not exceed any other criterion, or that involves an extension of the buildout date of a development, or any phase thereof, of less than 5 years is not subject to the public hearing requirements of subparagraph (f)3., and is not subject to a determination pursuant to subparagraph (f)5. Notice of the proposed change shall be made to the regional planning council and the state land planning agency. Such notice shall include a description of previous individual changes made to the development, including changes previously approved by the local government, and shall include appropriate amendments to the development order.

2. The following changes, individually or cumulatively with any previous changes, are not substantial deviations:

a. Changes in the name of the project, developer, owner, or monitoring official.

b. Changes to a setback that do not affect noise buffers, environmental protection or mitigation areas, or archaeological or historical resources.

c. Changes to minimum lot sizes.

d. Changes in the configuration of internal roads that do not affect external access points.

e. Changes to the building design or orientation that stay approximately within the approved area designated for such building and parking lot, and which do not affect historical buildings designated as significant by the Division of Historical Resources of the Department of State.

f. Changes to increase the acreage in the development, provided that no development is proposed on the acreage to be added.

g. Changes to eliminate an approved land use, provided that there are no additional regional impacts.

h. Changes required to conform to permits approved by any federal, state, or regional permitting agency, provided that these changes do not create additional regional impacts.

i. *Any renovation or redevelopment of development within a previously approved development of regional impact which does not change land use or increase density or intensity of use.*

~~(j)1.~~ Any other change which the state land planning agency agrees in writing is similar in nature, impact, or character to the changes enumerated in sub-subparagraphs *a.-i.* ~~a.-h.~~ and which does not create the likelihood of any additional regional impact.

This subsection does not require a development order amendment for any change listed in sub-subparagraphs *a.-j.* ~~a.-i.~~ unless such issue is addressed either in the existing development order or in the application for development approval, but, in the case of the application, only if, and in the manner in which, the application is incorporated in the development order.

3. Except for the change authorized by sub-subparagraph 2.f., any addition of land not previously reviewed or any change not specified in paragraph (b) or paragraph (c) shall be presumed to create a substantial deviation. This presumption may be rebutted by clear and convincing evidence.

4. Any submittal of a proposed change to a previously approved development shall include a description of individual changes previously made to the development, including changes previously approved by the local government. The local government shall consider the previous and current proposed changes in deciding whether such changes cumulatively constitute a substantial deviation requiring further development-of-regional-impact review.

5. The following changes to an approved development of regional impact shall be presumed to create a substantial deviation. Such presumption may be rebutted by clear and convincing evidence.

a. A change proposed for 15 percent or more of the acreage to a land use not previously approved in the development order. Changes of less than 15 percent shall be presumed not to create a substantial deviation.

b. Except for the types of uses listed in subparagraph (b)16., any change which would result in the development of any area which was specifically set aside in the application for development approval or in the development order for preservation, buffers, or special protection, including habitat for plant and animal species, archaeological and historical sites, dunes, and other special areas.

c. Notwithstanding any provision of paragraph (b) to the contrary, a proposed change consisting of simultaneous increases and decreases of at least two of the uses within an authorized multiuse development of regional impact which was originally approved with three or more uses specified in s. 380.0651(3)(c), (d), (f), and (g) and residential use.

(f)1. The state land planning agency shall establish by rule standard forms for submittal of proposed changes to a previously approved development of regional impact which may require further development-of-regional-impact review. At a minimum, the standard form shall require the developer to provide the precise language that the developer proposes to delete or add as an amendment to the development order.

2. The developer shall submit, simultaneously, to the local government, the regional planning agency, and the state land planning agency the request for approval of a proposed change.

3. No sooner than 30 days but no later than 45 days after submittal by the developer to the local government, the state land planning agency, and the appropriate regional planning agency, the local government shall give 15 days' notice and schedule a public hearing to consider the change that the developer asserts does not create a substantial deviation. This public hearing shall be held within 90 days after submittal of the proposed changes, unless that time is extended by the developer.

4. The appropriate regional planning agency or the state land planning agency shall review the proposed change and, no later than 45 days after submittal by the developer of the proposed change, unless that time is extended by the developer, and prior to the public hearing at which the proposed change is to be considered, shall advise the local government in writing whether it objects to the proposed change, shall specify the reasons for its objection, if any, and shall provide a copy to the developer. ~~A change which is subject to the substantial deviation criteria specified in sub-subparagraph (e)5.c. shall not be subject to this requirement.~~

5. At the public hearing, the local government shall determine whether the proposed change requires further development-of-regional-impact review. The provisions of paragraphs (a) and (e), the thresholds set forth in paragraph (b), and the presumptions set forth in paragraphs (c) and (d) and ~~subparagraph (e)3. subparagraphs (e)1. and 3.~~ shall be applicable in determining whether further development-of-regional-impact review is required.

6. If the local government determines that the proposed change does not require further development-of-regional-impact review and is otherwise approved, or if the proposed change is not subject to a hearing and determination pursuant to subparagraphs 3. and 5. and is otherwise approved, the local government shall issue an amendment to the development order incorporating the approved change and conditions of approval relating to the change. The decision of the local government to approve, with or without conditions, or to deny the proposed change that the developer asserts does not require further review shall be subject to the appeal provisions of s. 380.07. However, the state land planning agency may not appeal the local government decision if it did not comply with subparagraph 4. The state land planning agency may not appeal a change to a development order made pursuant to *subparagraph (e)1. or subparagraph (e)2.* for developments of regional impact approved after January 1, 1980, unless the change would result in a significant impact to a regionally significant archaeological, historical, or natural resource not previously identified in the original development-of-regional-impact review.

(24) STATUTORY EXEMPTIONS.—

(i) *Any proposed facility for the storage of any petroleum product or any expansion of an existing facility is exempt from the provisions of this section, if the facility is consistent with a local comprehensive plan that is in compliance with s. 163.3177 or is consistent with a comprehensive port master plan that is in compliance with s. 163.3178.*

(j) *Any renovation or redevelopment within the same land parcel which does not change land use or increase density or intensity of use.*

Section 32. Paragraphs (d) and (f) of subsection (3) of section 380.0651, Florida Statutes, are amended to read:

380.0651 Statewide guidelines and standards.—

(3) The following statewide guidelines and standards shall be applied in the manner described in s. 380.06(2) to determine whether the following developments shall be required to undergo development-of-regional-impact review:

(d) Office development.—Any proposed office building or park operated under common ownership, development plan, or management that:

1. Encompasses 300,000 or more square feet of gross floor area; or
2. ~~Has a total site size of 30 or more acres; or~~

3. Encompasses more than 600,000 square feet of gross floor area in a county with a population greater than 500,000 and only in a geographic area specifically designated as highly suitable for increased threshold intensity in the approved local comprehensive plan and in the strategic regional policy plan.

(f) Retail and service development.—Any proposed retail, service, or wholesale business establishment or group of establishments which deals primarily with the general public onsite, operated under one common property ownership, development plan, or management that:

1. Encompasses more than 400,000 square feet of gross area; or
2. ~~Occupies more than 40 acres of land; or~~
3. Provides parking spaces for more than 2,500 cars.

Section 33. (1) *Nothing contained in this act abridges or modifies any vested or other right or any duty or obligation pursuant to any development order or agreement that is applicable to a development of regional impact on the effective date of this act. A development that has received a development-of-regional-impact development order pursuant to section 380.06, Florida Statutes, but is no longer required to undergo development-of-regional-impact review by operation of this act, shall be governed by the following procedures:*

(a) *The development shall continue to be governed by the development-of-regional-impact development order and may be completed in reliance upon and pursuant to the development order. The development-of-regional-impact development order may be enforced by the local government as provided by sections 380.06(17) and 380.11, Florida Statutes.*

(b) *If requested by the developer or landowner, the development-of-regional-impact development order may be abandoned pursuant to the process in s. 380.06(26).*

(2) *A development with an application for development approval pending, and determined sufficient pursuant to section 380.06(10), Florida Statutes, on the effective date of this act, or a notification of proposed change pending on the effective date of this act, may elect to continue such review pursuant to section 380.06, Florida Statutes. At the conclusion of the pending review, including any appeals pursuant to section 380.07, Florida Statutes, the resulting development order shall be governed by the provisions of subsection (1).*

Section 34. Subsection (6) is added to s. 163.3194, Florida Statutes, to read:

163.3194 Legal status of comprehensive plan.—

(1)(a) After a comprehensive plan, or element or portion thereof, has been adopted in conformity with this act, all development undertaken by, and all actions taken in regard to development orders by, governmental agencies in regard to land covered by such plan or element shall be consistent with such plan or element as adopted.

(b) All land development regulations enacted or amended shall be consistent with the adopted comprehensive plan, or element or portion thereof, and any land development regulations existing at the time of adoption which are not consistent with the adopted comprehensive plan, or element or portion thereof, shall be amended so as to be consistent. If a local government allows an existing land development regulation which is inconsistent with the most recently adopted comprehensive plan, or element or portion thereof, to remain in effect, the local government shall adopt a schedule for bringing the land development regulation into conformity with the provisions of the most recently adopted comprehensive plan, or element or portion thereof. During the interim period when the provisions of the most recently adopted comprehensive plan, or element or portion thereof, and the land development regulations are inconsistent, the provisions of the most recently adopted comprehensive plan, or element or portion thereof, shall govern any action taken in regard to an application for a development order.

(2) After a comprehensive plan for the area, or element or portion thereof, is adopted by the governing body, no land development regulation, land development code, or amendment thereto shall be adopted by the governing body until such regulation, code, or amendment has been referred either to the local planning agency or to a separate land development regulation commission created pursuant to local ordinance, or to both, for review and recommendation as to the relationship of such proposal to the adopted comprehensive plan, or element or portion thereof. Said recommendation shall be made within a reasonable time, but no later than within 2 months after the time of reference. If a recommendation is not made within the time provided, then the governing body may act on the adoption.

(3)(a) A development order or land development regulation shall be consistent with the comprehensive plan if the land uses, densities or intensities, and other aspects of development permitted by such order or regulation are compatible with and further the objectives, policies, land uses, and densities or intensities in the comprehensive plan and if it meets all other criteria enumerated by the local government.

(b) A development approved or undertaken by a local government shall be consistent with the comprehensive plan if the land uses, densities or intensities, capacity or size, timing, and other aspects of the development are compatible with and further the objectives, policies, land uses, and densities or intensities in the comprehensive plan and if it meets all other criteria enumerated by the local government.

(4)(a) A court, in reviewing local governmental action or development regulations under this act, may consider, among other things, the reasonableness of the comprehensive plan, or element or elements thereof, relating to the issue justiciably raised or the appropriateness and completeness of the comprehensive plan, or element or elements thereof, in relation to the governmental action or development regulation under consideration. The court may consider the relationship of the comprehensive plan, or element or elements thereof, to the governmental action taken or the development regulation involved in litigation, but private property shall not be taken without due process of law and the payment of just compensation.

(b) It is the intent of this act that the comprehensive plan set general guidelines and principles concerning its purposes and contents and that this act shall be construed broadly to accomplish its stated purposes and objectives.

(5) The tax-exempt status of lands classified as agricultural under s. 193.461 shall not be affected by any comprehensive plan adopted under this act as long as the land meets the criteria set forth in s. 193.461.

(6) *If a proposed solid waste management facility is permitted by the Department of Environmental Protection to receive materials from the construction or demolition of a road or other transportation facility, a local government may not deny an application for a development approval for a requested land use that would accommodate such a facility, provided the local government previously approved a land use classification change to a local comprehensive plan or approved a rezoning to a category allowing such land use on the parcel, and the requested land use was disclosed during the previous comprehensive plan or rezoning hearing as being an express purpose of the land use changes.*

Section 35. *It is the intent of the Legislature that section 5 or section 24 of this act shall not affect the outcome of any litigation pending on the effective date of this act, including any future appeals. It is the further intent of the Legislature that section 5 or section 24 of this act do not serve as legal authority support of any party to such litigation or any appeal thereof.*

Section 36. *It is the intent of the Legislature that section 10 of this act shall not affect the outcome of Pinecrest Lakes, Inc. v. Schidel, 795 So.2d 191 (Fla. 4th DCA 2001), rehearing denied, 802 So.2d 486.*

Section 37. *The Legislature finds that the integration of the growth management system and the planning of public educational facilities is a matter of great public importance.*

Section 38. Section 403.064, Florida Statutes, is amended to read:

403.064 Reuse of reclaimed water.—

(1) The encouragement and promotion of water conservation, and reuse of reclaimed water, as defined by the department, are state objectives and are considered to be in the public interest. *The Legislature finds that the reuse of reclaimed water is a critical component of meeting the state's existing and future water supply needs while sustaining natural systems.* The Legislature further finds that for those wastewater treatment plants permitted and operated under an approved reuse program by the department, the reclaimed water shall be considered environmentally acceptable and not a threat to public health and safety.

(2) All applicants for permits to construct or operate a domestic wastewater treatment facility located within, serving a population located within, or discharging within a water resource caution area shall prepare a reuse feasibility study as part of their application for the permit. Reuse feasibility studies shall be prepared in accordance with department guidelines adopted by rule and shall include, but are not limited to:

- (a) Evaluation of monetary costs and benefits for several levels and types of reuse.
- (b) Evaluation of water savings if reuse is implemented.
- (c) Evaluation of rates and fees necessary to implement reuse.
- (d) Evaluation of environmental and water resource benefits associated with reuse.
- (e) Evaluation of economic, environmental, and technical constraints.
- (f) A schedule for implementation of reuse. The schedule shall consider phased implementation.

(3) *The permit applicant shall prepare a plan of study for the reuse feasibility study consistent with the reuse feasibility study guidelines adopted by department rule. The plan of study shall include detailed descriptions of applicable treatment and water supply alternatives to be evaluated and the methods of analysis to be used. The plan of study shall be submitted to the department for review and approval.*

(4)(3) The study required under subsection (2) shall be performed by the applicant, and, *if the study shows that the reuse is feasible, the applicant must give significant consideration to its implementation the*

~~applicant's determination of feasibility is final~~ if the study complies with the requirements of ~~subsections~~ ~~subsection~~ (2) and (3).

(5)(4) A reuse feasibility study is not required if:

(a) The domestic wastewater treatment facility has an existing or proposed permitted or design capacity less than 0.1 million gallons per day; or

(b) The permitted reuse capacity equals or exceeds the total permitted capacity of the domestic wastewater treatment facility.

(6)(5) A reuse feasibility study prepared under subsection (2) satisfies a water management district requirement to conduct a reuse feasibility study imposed on a local government or utility that has responsibility for wastewater management.

(7)(6) Local governments may allow the use of reclaimed water for inside activities, including, but not limited to, toilet flushing, fire protection, and decorative water features, as well as for outdoor uses, provided the reclaimed water is from domestic wastewater treatment facilities which are permitted, constructed, and operated in accordance with department rules.

(8)(7) Permits issued by the department for domestic wastewater treatment facilities shall be consistent with requirements for reuse included in applicable consumptive use permits issued by the water management district, if such requirements are consistent with department rules governing reuse of reclaimed water. This subsection applies only to domestic wastewater treatment facilities which are located within, or serve a population located within, or discharge within water resource caution areas and are owned, operated, or controlled by a local government or utility which has responsibility for water supply and wastewater management.

(9)(8) Local governments may and are encouraged to implement programs for the reuse of reclaimed water. Nothing in this chapter shall be construed to prohibit or preempt such local reuse programs.

(10)(9) A local government that implements a reuse program under this section shall be allowed to allocate the costs in a reasonable manner.

(11)(10) Pursuant to chapter 367, the Florida Public Service Commission shall allow entities under its jurisdiction which conduct studies or implement reuse projects, including, but not limited to, any study required by subsection (2) or facilities used for reliability purposes for a reclaimed water reuse system, to recover the full, prudently incurred cost of such studies and facilities through their rate structure.

(12)(11) In issuing consumptive use permits, the permitting agency shall consider the local reuse program.

(13)(12) A local government shall require a developer, as a condition for obtaining a development order, to comply with the local reuse program.

(14)(13) ~~If, After conducting a feasibility study under subsection (2), an applicant determines that reuse of reclaimed water is feasible,~~ domestic wastewater treatment facilities that dispose of effluent by Class I deep well injection, as defined in 40 C.F.R. part 144.6(a), must implement reuse ~~according to the schedule for implementation contained in the study conducted under subsection (2), to the degree that reuse is determined feasible, based upon the applicant's reuse feasibility study.~~ Applicable permits issued by the department shall be consistent with the requirements of this subsection.

(a) This subsection does not limit the use of a Class I deep well injection facility as backup for a reclaimed water reuse system.

(b) This subsection applies only to domestic wastewater treatment facilities located within, serving a population located within, or discharging within a water resource caution area.

(15)(14) ~~If, After conducting a feasibility study under subsection (2), an applicant determines that reuse of reclaimed water is feasible,~~ domestic wastewater treatment facilities that dispose of effluent by

surface water discharges or by land application methods must implement reuse ~~according to the schedule for implementation contained in the study conducted under subsection (2)~~, to the degree that reuse is ~~determined~~ feasible, *based upon the applicant's reuse feasibility study*. This subsection does not apply to surface water discharges or land application systems which are currently categorized as reuse under department rules. Applicable permits issued by the department shall be consistent with the requirements of this subsection.

(a) This subsection does not limit the use of a surface water discharge or land application facility as backup for a reclaimed water reuse system.

(b) This subsection applies only to domestic wastewater treatment facilities located within, serving a population located within, or discharging within a water resource caution area.

Section 39. *In order to aid in the development of a better understanding of the unique surface and groundwater resources of this state, the water management districts shall develop an information program designed to provide information concerning existing hydrologic conditions of major surface and groundwater sources in this state and suggestions for good conservation practices within those areas. The program shall be developed by December 31, 2002. Beginning January 1, 2003, and on a regular basis no less than every 6 months thereafter, the information developed pursuant to this section shall be distributed to every member of the Florida Senate and the Florida House of Representatives and to local print and broadcast news organizations. Each water management district shall be responsible for the distribution of this information within its established geographic area.*

Section 40. Paragraph (b) of subsection (3) of section 403.1835, Florida Statutes, is amended to read:

403.1835 Water pollution control financial assistance.—

(3) The department may provide financial assistance through any program authorized under s. 603 of the Federal Water Pollution Control Act (Clean Water Act), Pub. L. No. 92-500, as amended, including, but not limited to, making grants and loans, providing loan guarantees, purchasing loan insurance or other credit enhancements, and buying or refinancing local debt. This financial assistance must be administered in accordance with this section and applicable federal authorities. The department shall administer all programs operated from funds secured through the activities of the Florida Water Pollution Control Financing Corporation under s. 403.1837, to fulfill the purposes of this section.

(b) The department may make or request the corporation to make loans, grants, and deposits to other entities eligible to participate in the financial assistance programs authorized under the Federal Water Pollution Control Act, or as a result of other federal action, which entities may pledge any revenue available to them to repay any funds borrowed. *Notwithstanding s. 18.10, the department may make deposits to financial institutions which earn less than the prevailing rate for United States Treasury securities with corresponding maturities for the purpose of enabling those financial institutions to make below-market interest rate loans to entities qualified to receive loans under this section and the rules of the department.*

Section 41. Subsection (11) of section 367.022, Florida Statutes, is amended to read:

367.022 Exemptions.—The following are not subject to regulation by the commission as a utility nor are they subject to the provisions of this chapter, except as expressly provided:

(11) Any person providing only nonpotable water for irrigation or fireflow purposes in a geographic area where potable water service is available from a governmentally or privately owned utility or a private well.

Section 42. Subsection (2) of section 373.1961, Florida Statutes, is amended to read:

373.1961 Water production.—

(2) The Legislature finds that, due to a combination of factors, vastly increased demands have been placed on natural supplies of fresh water, and that, absent increased development of alternative water supplies, such demands may increase in the future. The Legislature also finds that potential exists in the state for the production of significant quantities of alternative water supplies, including reclaimed water, and that water production includes the development of alternative water supplies, including reclaimed water, for appropriate uses. It is the intent of the Legislature that utilities develop reclaimed water systems, where reclaimed water is the most appropriate alternative water supply option, to deliver reclaimed water to as many users as possible through the most cost-effective means, and to construct reclaimed water system infrastructure to their owned or operated properties and facilities where they have reclamation capability. It is also the intent of the Legislature that the water management districts which levy ad valorem taxes for water management purposes should share a percentage of those tax revenues with water providers and users, including local governments, water, wastewater, and reuse utilities, municipal, industrial, and agricultural water users, and other public and private water users, to be used to supplement other funding sources in the development of alternative water supplies. The Legislature finds that public moneys or services provided to private entities for such uses constitute public purposes which are in the public interest. In order to further the development and use of alternative water supply systems, including reclaimed water systems, the Legislature provides the following:

(a) The governing boards of the water management districts where water resource caution areas have been designated shall include in their annual budgets an amount for the development of alternative water supply systems, including reclaimed water systems, pursuant to the requirements of this subsection. Beginning in 1996, such amounts shall be made available to water providers and users no later than December 31 of each year, through grants, matching grants, revolving loans, or the use of district lands or facilities pursuant to the requirements of this subsection and guidelines established by the districts.

(b) It is the intent of the Legislature that for each reclaimed water utility, or any other utility, which receives funds pursuant to this subsection, the appropriate rate-setting authorities should develop rate structures for all water, wastewater, and reclaimed water and other alternative water supply utilities in the service area of the funded utility, which accomplish the following:

1. Provide meaningful progress toward the development and implementation of alternative water supply systems, including reclaimed water systems;

2. Promote the conservation of fresh water withdrawn from natural systems;

3. Provide for an appropriate distribution of costs for all water, wastewater, and alternative water supply utilities, including reclaimed water utilities, among all of the users of those utilities; and

4. Prohibit rate discrimination within classes of utility users.

(c) In order to be eligible for funding pursuant to this subsection, a project must be consistent with a local government comprehensive plan and the governing body of the local government must require all appropriate new facilities within the project's service area to connect to and use the project's alternative water supplies. The appropriate local government must provide written notification to the appropriate district that the proposed project is consistent with the local government comprehensive plan.

(d) Any and all revenues disbursed pursuant to this subsection shall be applied only for the payment of capital or infrastructure costs for the construction of alternative water supply systems that provide alternative water supplies ~~for uses within one or more water resource caution areas~~.

(e) By January 1 of each year, the governing boards shall make available written guidelines for the disbursement of revenues pursuant to this subsection. Such guidelines shall include at minimum:

1. An application process and a deadline for filing applications annually.

2. A process for determining project eligibility pursuant to the requirements of paragraphs (c) and (d).

3. A process and criteria for funding projects pursuant to this subsection that cross district boundaries or that serve more than one district.

(f) The governing board of each water management district shall establish an alternative water supplies grants advisory committee to recommend to the governing board projects for funding pursuant to this subsection. The advisory committee members shall include, but not be limited to, one or more representatives of county, municipal, and investor-owned private utilities, and may include, but not be limited to, representatives of agricultural interests and environmental interests. Each committee member shall represent his or her interest group as a whole and shall not represent any specific entity. The committee shall apply the guidelines and project eligibility criteria established by the governing board in reviewing proposed projects. After one or more hearings to solicit public input on eligible projects, the committee shall rank the eligible projects and shall submit them to the governing board for final funding approval. The advisory committee may submit to the governing board more projects than the available grant money would fund.

(g) All revenues made available annually pursuant to this subsection must be *encumbered* ~~disbursed~~ annually by the governing board if it approves projects sufficient to expend the available revenues. *Funds must be disbursed within 36 months after encumbrance.*

(h) For purposes of this subsection, alternative water supplies are supplies of water that have been reclaimed after one or more public supply, municipal, industrial, commercial, or agricultural uses, or are supplies of stormwater, or brackish or salt water, that have been treated in accordance with applicable rules and standards sufficient to supply the intended use.

(i) This subsection shall not be subject to the rulemaking requirements of chapter 120.

(j) By January 30 of each year, each water management district shall submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which accounts for the disbursement of all budgeted amounts pursuant to this subsection. Such report shall describe all projects funded and shall account separately for moneys provided through grants, matching grants, revolving loans, and the use of district lands or facilities.

(k) The Florida Public Service Commission shall allow entities under its jurisdiction constructing alternative water supply facilities, including but not limited to aquifer storage and recovery wells, to recover the full, prudently incurred cost of such facilities through their rate structure. Every component of an alternative water supply facility constructed by an investor-owned utility shall be recovered in current rates.

Section 43. *Section 373.498 and subsection (3) of section 403.804, Florida Statutes, are repealed.*

Section 44. Paragraph (c) of subsection (3) of section 373.4595, Florida Statutes, is amended to read:

373.4595 Lake Okeechobee Protection Program.—

(3) LAKE OKEECHOBEE PROTECTION PROGRAM.—A protection program for Lake Okeechobee that achieves phosphorus load reductions for Lake Okeechobee shall be immediately implemented as specified in this subsection. The program shall address the reduction of phosphorus loading to the lake from both internal and external sources. Phosphorus load reductions shall be achieved through a phased program of implementation. Initial implementation actions shall be technology-based, based upon a consideration of both the availability of appropriate technology and the cost of such technology, and shall include phosphorus reduction measures at both the source and the

regional level. The initial phase of phosphorus load reductions shall be based upon the district's Technical Publication 81-2 and the district's WOD program, with subsequent phases of phosphorus load reductions based upon the total maximum daily loads established in accordance with s. 403.067. In the development and administration of the Lake Okeechobee Protection Program, the coordinating agencies shall maximize opportunities provided by federal cost-sharing programs and opportunities for partnerships with the private sector.

(c) Lake Okeechobee Watershed Phosphorus Control Program.—The Lake Okeechobee Watershed Phosphorus Control Program is designed to be a multifaceted approach to reducing phosphorus loads by improving the management of phosphorus sources within the Lake Okeechobee watershed through continued implementation of existing regulations and best management practices, development and implementation of improved best management practices, improvement and restoration of the hydrologic function of natural and managed systems, and utilization of alternative technologies for nutrient reduction. The coordinating agencies shall facilitate the application of federal programs that offer opportunities for water quality treatment, including preservation, restoration, or creation of wetlands on agricultural lands.

1. Agricultural nonpoint source best management practices, developed in accordance with s. 403.067 and designed to achieve the objectives of the Lake Okeechobee Protection Program, shall be implemented on an expedited basis. By March 1, 2001, the coordinating agencies shall develop an interagency agreement pursuant to ss. 373.046 and 373.406(5) that assures the development of best management practices that complement existing regulatory programs and specifies how those best management practices are implemented and verified. The interagency agreement shall address measures to be taken by the coordinating agencies during any best management practice reevaluation performed pursuant to sub-subparagraph d. The department shall use best professional judgment in making the initial determination of best management practice effectiveness.

a. As provided in s. 403.067(7)(d), by October 1, 2000, the Department of Agriculture and Consumer Services, in consultation with the department, the district, and affected parties, shall initiate rule development for interim measures, best management practices, conservation plans, nutrient management plans, or other measures necessary for Lake Okeechobee phosphorus load reduction. The rule shall include thresholds for requiring conservation and nutrient management plans and criteria for the contents of such plans. Development of agricultural nonpoint source best management practices shall initially focus on those priority basins listed in subparagraph (b)1. The Department of Agriculture and Consumer Services, in consultation with the department, the district, and affected parties, shall conduct an ongoing program for improvement of existing and development of new interim measures or best management practices for the purpose of adoption of such practices by rule.

b. Where agricultural nonpoint source best management practices or interim measures have been adopted by rule of the Department of Agriculture and Consumer Services, the owner or operator of an agricultural nonpoint source addressed by such rule shall either implement interim measures or best management practices or demonstrate compliance with the district's WOD program by conducting monitoring prescribed by the department or the district. Owners or operators of agricultural nonpoint sources who implement interim measures or best management practices adopted by rule of the Department of Agriculture and Consumer Services shall be subject to the provisions of s. 403.067(7). The Department of Agriculture and Consumer Services, in cooperation with the department and the district, shall provide technical and financial assistance for implementation of agricultural best management practices, subject to the availability of funds.

c. The district or department shall conduct monitoring at representative sites to verify the effectiveness of agricultural nonpoint source best management practices.

d. Where water quality problems are detected for agricultural nonpoint sources despite the appropriate implementation of adopted best management practices, the Department of Agriculture and Consumer Services, in consultation with the other coordinating agencies and affected parties, shall institute a reevaluation of the best management practices and make appropriate changes to the rule adopting best management practices.

2. Nonagricultural nonpoint source best management practices, developed in accordance with s. 403.067 and designed to achieve the objectives of the Lake Okeechobee Protection Program, shall be implemented on an expedited basis. By March 1, 2001, the department and the district shall develop an interagency agreement pursuant to ss. 373.046 and 373.406(5) that assures the development of best management practices that complement existing regulatory programs and specifies how those best management practices are implemented and verified. The interagency agreement shall address measures to be taken by the department and the district during any best management practice reevaluation performed pursuant to sub-subparagraph d.

a. The department and the district are directed to work with the University of Florida's Institute of Food and Agricultural Sciences to develop appropriate nutrient application rates for all nonagricultural soil amendments in the watershed. As provided in s. 403.067(7)(c), by January 1, 2001, the department, in consultation with the district and affected parties, shall develop interim measures, best management practices, or other measures necessary for Lake Okeechobee phosphorus load reduction. Development of nonagricultural nonpoint source best management practices shall initially focus on those priority basins listed in subparagraph (b)1. The department, the district, and affected parties shall conduct an ongoing program for improvement of existing and development of new interim measures or best management practices. The district shall adopt technology-based standards under the district's WOD program for nonagricultural nonpoint sources of phosphorus.

b. Where nonagricultural nonpoint source best management practices or interim measures have been developed by the department and adopted by the district, the owner or operator of a nonagricultural nonpoint source shall implement interim measures or best management practices and be subject to the provisions of s. 403.067(7). The department and district shall provide technical and financial assistance for implementation of nonagricultural nonpoint source best management practices, subject to the availability of funds.

c. The district or the department shall conduct monitoring at representative sites to verify the effectiveness of nonagricultural nonpoint source best management practices.

d. Where water quality problems are detected for nonagricultural nonpoint sources despite the appropriate implementation of adopted best management practices, the department and the district shall institute a reevaluation of the best management practices.

3. The provisions of subparagraphs 1. and 2. shall not preclude the department or the district from requiring compliance with water quality standards or with current best management practices requirements set forth in any applicable regulatory program authorized by law for the purpose of protecting water quality. Additionally, subparagraphs 1. and 2. are applicable only to the extent that they do not conflict with any rules promulgated by the department that are necessary to maintain a federally delegated or approved program.

4. Projects which reduce the phosphorus load originating from domestic wastewater systems within the Lake Okeechobee watershed shall be given funding priority in the department's revolving loan program under s. 403.1835. The department shall coordinate and provide assistance to those local governments seeking financial assistance for such priority projects.

5. *Projects that make use of private lands to reduce nutrient loadings or concentrations within a basin by one or more of the following methods: restoring the natural hydrology of the basin, restoring wildlife habitat or impacted wetlands, reducing peak flows after storm events, increasing aquifer recharge, or protecting range and timberland from conversion to*

development, are eligible for grants available under this section from the coordinating agencies. For projects of otherwise equal priority, special funding priority will be given to those projects that make best use of the methods outlined above that involve public-private partnerships or that obtain federal match money. Preference ranking above the special funding priority will be given to projects located in a rural area of critical economic concern designated by the Governor. Grant applications may be submitted by any person, and eligible projects may include, but are not limited to, the purchase of conservation and flowage easements, hydrologic restoration of wetlands, creating treatment wetlands, development of a management plan for natural resources, and financial support to implement a management plan.

6.5-a. The department shall require all entities disposing of domestic wastewater residuals within the Lake Okeechobee watershed *and the remaining areas of Okeechobee, Glades, and Hendry Counties* to develop and submit to the department ~~by July 1, 2001~~, an agricultural use plan that limits applications based upon phosphorus loading. *By July 1, 2005*, phosphorus concentrations ~~loading~~ originating from these application sites shall not exceed the limits established in the district's WOD program.

b. Private and government-owned utilities within Monroe, Dade, Broward, Palm Beach, Martin, St. Lucie, Indian River, Okeechobee, Highlands, Hendry, and Glades counties that dispose of wastewater residual sludge from utility operations and septic removal by land spreading in the Lake Okeechobee watershed may use a line item on local sewer rates to cover wastewater residual treatment and disposal if such disposal and treatment is done by approved alternative treatment methodology at a facility located within the areas designated by the Governor as rural areas of critical economic concern pursuant to s. 288.0656. This additional line item is an environmental protection disposal fee above the present sewer rate and shall not be considered a part of the present sewer rate to customers, notwithstanding provisions to the contrary in chapter 367. The fee shall be established by the county commission or its designated assignee in the county in which the alternative method treatment facility is located. The fee shall be calculated to be no higher than that necessary to recover the facility's prudent cost of providing the service. Upon request by an affected county commission, the Florida Public Service Commission will provide assistance in establishing the fee. Further, for utilities and utility authorities that use the additional line item environmental protection disposal fee, such fee shall not be considered a rate increase under the rules of the Public Service Commission and shall be exempt from such rules. Utilities using the provisions of this section may immediately include in their sewer invoicing the new environmental protection disposal fee. Proceeds from this environmental protection disposal fee shall be used for treatment and disposal of wastewater residuals, including any treatment technology that helps reduce the volume of residuals that require final disposal, but such proceeds shall not be used for transportation or shipment costs for disposal or any costs relating to the land application of residuals in the Lake Okeechobee watershed.

c. No less frequently than once every 3 years, the Florida Public Service Commission or the county commission through the services of an independent auditor shall perform a financial audit of all facilities receiving compensation from an environmental protection disposal fee. The Florida Public Service Commission or the county commission through the services of an independent auditor shall also perform an audit of the methodology used in establishing the environmental protection disposal fee. The Florida Public Service Commission or the county commission shall, within 120 days after completion of an audit, file the audit report with the President of the Senate and the Speaker of the House of Representatives and shall provide copies to the county commissions of the counties set forth in sub-subparagraph b. The books and records of any facilities receiving compensation from an environmental protection disposal fee shall be open to the Florida Public Service Commission and the Auditor General for review upon request.

7. *The Department of Health shall require all entities disposing of septage within the Lake Okeechobee watershed and the remaining areas of Okeechobee, Glades, and Hendry Counties to develop and submit to that agency, by July 1, 2003, an agricultural use plan that limits*

applications based upon phosphorus loading. By July 1, 2005, phosphorus concentrations originating from these application sites shall not exceed the limits established in the district's WOD program.

8.6. ~~By July 1, 2001,~~ The Department of Agriculture and Consumer Services shall initiate rulemaking requiring entities within the Lake Okeechobee watershed *and the remaining areas of Okeechobee, Glades, and Hendry Counties* which land-apply animal manure to develop conservation or nutrient management plans that limit application, based upon phosphorus loading. Such rules may include criteria and thresholds for the requirement to develop a conservation or nutrient management plan, requirements for plan approval, and recordkeeping requirements.

9.7. Prior to authorizing a discharge into works of the district, the district shall require responsible parties to demonstrate that proposed changes in land use will not result in increased phosphorus loading over that of existing land uses.

10.8. The district, the department, or the Department of Agriculture and Consumer Services, as appropriate, shall implement those alternative nutrient reduction technologies determined to be feasible pursuant to subparagraph (d)6.

Section 45. *Notwithstanding any provisions in section 290.0055, Florida Statutes, regarding the size of an enterprise zone, a county as defined in section 125.011(1), Florida Statutes, may apply to the Office of Tourism, Trade, and Economic Development before October 1, 2002, to amend the boundary lines of its existing enterprise zone in order to add an area not exceeding 4 square miles. The area proposed for addition to the enterprise zone under this section must be contiguous to a portion of the existing enterprise zone and must be part of a revitalization area that has been targeted for assistance by the county or by a municipality within the county. The area proposed for addition to the enterprise zone also must contain a high concentration of individuals who have immigrated*

to this state from Haiti. insert:

Section 9. Subsection (1) of section 373.114, Florida Statutes, is amended to read:

373.114 Land and Water Adjudicatory Commission; review of district rules and orders; department review of district rules.—

(1) Except as provided in subsection (2), the Governor and Cabinet, sitting as the Land and Water Adjudicatory Commission, have the exclusive authority to review any order or rule of a water management district, other than a rule relating to an internal procedure of the district *or a final order resulting from an evidentiary hearing held under s. 120.569 or s. 120.57 or a rule that has been adopted after issuance of a final order resulting from an evidentiary hearing held under s. 120.56*, to ensure consistency with the provisions and purposes of this chapter. Subsequent to the legislative ratification of the delineation methodology pursuant to s. 373.421(1), this subsection also shall apply to an order of the department, or a local government exercising delegated authority, pursuant to ss. 373.403-373.443, except an order pertaining to activities or operations subject to conceptual plan approval pursuant to chapter 378 *or a final order resulting from an evidentiary hearing held under s. 120.569 or s. 120.57*.

(a) Such review may be initiated by the department or by a party to the proceeding below by filing a request for review with the Land and Water Adjudicatory Commission and serving a copy on the department and on any person named in the rule or order within 20 days after adoption of the rule or the rendering of the order. For the purposes of this section, the term “party” means any affected person who submitted oral or written testimony, sworn or unsworn, of a substantive nature which stated with particularity objections to or support for the rule or order that are cognizable within the scope of the provisions and purposes of this chapter, ~~or any person who participated as a party in a proceeding instituted pursuant to chapter 120.~~ In order for the commission to accept a request for review initiated by a party below, with regard to a specific order, ~~three~~ *four* members of the commission must determine on the basis of the record below that the activity authorized by the order would substantially affect natural resources of statewide or regional significance. Review of an order may also be accepted if ~~three~~ *four* members of the commission determine that the order raises issues of policy, statutory interpretation, or rule interpretation that have regional or statewide significance from the standpoint of agency precedent. The party requesting the commission to review an order must allege with particularity, and the commission must find, that:

1. The order is in conflict with statutory requirements; or
2. The order is in conflict with the requirements of a duly adopted rule.

(b) Review by the Land and Water Adjudicatory Commission is appellate in nature and shall be based solely on the record below *unless the commission determines that a remand for a formal evidentiary proceeding is necessary to develop additional findings of fact.* If there is ~~was~~ no evidentiary administrative proceeding *resulting from a remand or referral for findings of fact by the commission, then below*, the facts contained in the proposed agency action or proposed water management district action, including any technical staff report, shall be deemed undisputed. The matter shall be heard by the commission not more than 60 days after receipt of the request for review, unless waived by the parties; *provided, however, such time limit shall be tolled by a referral or remand pursuant to this paragraph. The commission may refer a*

request for review to the Division of Administrative Hearings for the production of findings of fact, limited to those needed to render the decision requested, to supplement the record, if a majority of the commission determines that supplementary findings of fact are essential to determine the consistency of a rule or order with the provisions and purposes of this chapter. Alternatively, the commission may remand the matter to the agency below for additional findings of fact, limited to those needed to render the decision requested, to supplement the record, if a majority of the commission determines that supplementary findings of fact are essential to determine the consistency of a rule or order with the provisions and purposes of this chapter. Such proceedings must be conducted and the findings transmitted to the commission within 90 days of the remand or referral.

(c) If the Land and Water Adjudicatory Commission determines that a rule of a water management district is not consistent with the provisions and purposes of this chapter, it may require the water management district to initiate rulemaking proceedings to amend or repeal the rule. If the commission determines that an order is not consistent with the provisions and purposes of this chapter, the commission may rescind or modify the order or remand the proceeding for further action consistent with the order of the Land and Water Adjudicatory Commission only if the commission determines that the activity authorized by the order would substantially affect natural resources of statewide or regional significance. In the case of an order which does not itself substantially affect natural resources of statewide or regional significance, but which raises issues of policy that have regional or statewide significance from the standpoint of agency precedent, the commission may direct the district to initiate rulemaking to amend its rules to assure that future actions are consistent with the provisions and purposes of this chapter without modifying the order.

(d) In a review under this section of a construction permit issued pursuant to a conceptual permit under part IV, which conceptual permit is issued after July 1, 1993, a party to the review may not raise an issue which was or could have been raised in a review of the conceptual permit under this section.

(e) A request for review under this section shall not be a precondition to the seeking of judicial review pursuant to s. 120.68 or the seeking of an administrative determination of rule validity pursuant to s. 120.56.

(f) The Florida Land and Water Adjudicatory Commission may adopt rules to set forth its procedures for reviewing an order or rule of a water management district consistent with the provisions of this section.

(g) For the purpose of this section, it shall be presumed that activity authorized by an order will not affect resources of statewide or regional significance if the proposed activity:

1. Occupies an area less than 10 acres in size, and
2. Does not create impervious surfaces greater than 2 acres in size, and
3. Is not located within 550 feet of the shoreline of a named body of water designated as Outstanding Florida Waters, and
4. Does not adversely affect threatened or endangered species.

This paragraph shall not operate to hold that any activity that exceeds these limits is presumed to affect resources of statewide or regional significance. The determination of whether an activity will substantially affect resources of statewide or regional significance shall be made on a case-by-case basis, based upon facts contained in the record below.

Section 10. Subsection (5) of section 403.412, Florida Statutes, is amended, present subsection (6) is renumbered as subsection (8), and new subsections (6) and (7) are added to said section to read:

403.412 Environmental Protection Act.—

(5) In any administrative, licensing, or other proceedings authorized by law for the protection of the air, water, or other natural resources of the state from pollution, impairment, or destruction, the Department of

Legal Affairs, a political subdivision or municipality of the state, or a citizen of the state shall have standing to intervene as a party on the filing of a verified pleading asserting that the activity, conduct, or product to be licensed or permitted has or will have the effect of impairing, polluting, or otherwise injuring the air, water, or other natural resources of the state. As used in this section and as it relates to citizens, the term "intervene" means to join an ongoing s. 120.569 or s. 120.57 proceeding; this section does not authorize a citizen to institute, initiate, petition for, or request a proceeding under s. 120.569 or s. 120.57. Nothing herein limits or prohibits a citizen whose substantial interests will be determined or affected by a proposed agency action from initiating a formal administrative proceeding under s. 120.569 or s. 120.57. A citizen's substantial interests will be considered to be determined or affected if the party demonstrates it may suffer an injury in fact which is of sufficient immediacy and is of the type and nature intended to be protected by this chapter. No demonstration of special injury different in kind from the general public at large is required. A sufficient demonstration of a substantial interest may be made by a petitioner who establishes that the proposed activity, conduct, or product to be licensed or permitted affects the petitioner's use or enjoyment of air, water, or natural resources protected by this chapter.

(6) Any Florida corporation not for profit which has at least 25 current members residing within the county where the activity is proposed, and which was formed for the purpose of the protection of the environment, fish and wildlife resources, and protection of air and water quality, may initiate a hearing pursuant to s. 120.569 or s. 120.57, provided that the Florida corporation not for profit was formed at least one year prior to the date of the filing of the application for a permit, license, or authorization that is the subject of the notice of proposed agency action.

(7) In a matter pertaining to a federally delegated or approved program, a citizen of the state may initiate an administrative proceeding under this subsection if the citizen meets the standing requirements for judicial review of a case or controversy pursuant to Article III of the United States Constitution.

(Redesignate subsequent sections.)

Motion

On motion by Rep. Cantens, the rules were waived and the following remarks were ordered spread upon the *Journal*.

Statement of Legislative Intent on HB 813

It is the intent of myself as a sponsor of part of this legislation that it shall have the following effects with regard to citizen standing to initiate requests for formal administrative proceedings with regard to environmental permits.

1. With regard to individual citizens who are natural persons, all standing requirements to demonstrate substantial interest will be satisfied if the petitioner demonstrates that the proposed activity of the environmental permit will affect that person's use or enjoyment of air, water, or natural resources. In other words, if that person fishes in the water body to be altered by a permit, watches birds there, or undertakes similar activity that will be changed by the fact a permit is granted, they will have standing.

2. With regard to Florida not-for-profit organizations—corporations formed to promote protection of the environment, fish and wildlife resources, or air and water quality, those organizations shall have automatic standing to initiate a formal proceeding under Chapter 120, provided that they have 25 current members in the county where the activity is proposed, and further provided that the organization was formed at least a year prior to the time a particular permit application was filed with an agency.

Nothing in this legislation alters the current statutes regarding the award of attorney's fees or costs in any way.

Rep. Johnson moved the previous question on the bill, which was agreed to.

The question recurred on the passage of HB 813. The vote was:

334.30 ~~Public-private~~ **Private** transportation facilities.—The Legislature hereby finds and declares that there is a public need for rapid construction of safe and efficient transportation facilities for the purpose of travel within the state, and that it is in the public's interest to provide for *public-private partnership agreements to effectuate the construction of additional safe, convenient, and economical transportation facilities.*

(1) The department may receive or solicit proposals and, ~~with legislative approval by a separate bill for each facility,~~ enter into agreements with private entities, or consortia thereof, for the building, operation, ownership, or financing of transportation facilities. *The department is authorized to adopt rules to implement this section and shall by rule establish an application fee for the submission of proposals under this section. The fee must be sufficient to pay the costs of evaluating the proposals. The department may engage the services of private consultants to assist in the evaluation. Before seeking legislative approval, the department must determine that the proposed project:*

(a) Is in the public's best interest.;

(b) Would not require state funds to be used unless there is an overriding state interest; *however, the department may use state resources for a transportation facility project that is on the State Highway System or that provides for increased mobility on the state's transportation system. and*

(c) Would have adequate safeguards in place to ensure that no additional costs or service disruptions would be realized by the traveling public and citizens of the state in the event of default or cancellation of the agreement by the department.

The department shall ensure that all reasonable costs to the state related to transportation facilities that are not part of the State Highway System are borne by the public-private entity. The department shall also ensure that all reasonable costs to the state, and substantially affected local governments, and utilities, related to the private transportation facility, are borne by the public-private private entity for transportation facilities that are owned by private entities.

(2) The use of funds from the State Transportation Trust Fund is limited to advancing projects already programmed in the adopted 5-year work program or to no more than a statewide total of \$25 million in capital costs for all projects not programmed in the adopted 5-year work program.

(3) The department may request proposals for public-private transportation projects or, if the department receives an unsolicited proposal, shall publish a notice within 30 days in the Florida Administrative Weekly and a newspaper of general circulation at least once a week for 2 weeks, stating that the department has received the proposal and will accept, for 60 days after the initial date of publication, other proposals for the same project purpose. A copy of the notice must be mailed to each local government in the affected area. After the public notification period has expired, the department shall then rank the proposals in order of preference. In ranking the proposals, the department may consider, but is not limited to considering, professional qualifications, general business terms, innovative engineering or cost-reduction terms, finance plans, and the need for state funds to deliver the proposal. The department shall negotiate with the top-ranked proposer in good faith, and if the department is not satisfied with the results of said negotiations, the department may, at its sole discretion, terminate

negotiations with said proposer. If these negotiations are unsuccessful, the department may go to the second and lower-ranked firms in order using this same procedure. If only one proposal is received, the department may negotiate in good faith, and if the department is not satisfied with the results of said negotiations, the department may, at its sole discretion, terminate negotiations with the said proposers. Notwithstanding any other provision of this subsection, the department may, at its sole discretion, reject all proposals at any point in the process up to completion of a contract with the proposer.

(4) The department shall not commit funds in excess of the limitation in subsection (2) without specific project approval by the Legislature.

(5)(2) Agreements entered into pursuant to this section may authorize the private entity to impose tolls or fares for the use of the facility. However, the amount and use of toll or fare revenues may be regulated by the department to avoid unreasonable costs to users of the facility.

(6)(3) Each ~~private~~ transportation facility constructed pursuant to this section shall comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; department rules, policies, procedures, and standards for transportation facilities; and any other conditions which the department determines to be in the public's best interest.

(7)(4) The department may exercise any power possessed by it, including eminent domain, with respect to the development and construction of state transportation projects to facilitate the development and construction of transportation projects pursuant to this section. *For public-private facilities located on the State Highway System, the department may pay all or part of the cost of operating and maintaining the facility. For facilities not located on the State Highway System, the department may provide services to the private entity and-* ~~agreements for maintenance, law enforcement, and other services entered into pursuant to this section~~ shall provide for full reimbursement for services rendered.

(8)(5) Except as herein provided, the provisions of this section are not intended to amend existing laws by granting additional powers to, or further restricting, local governmental entities from regulating and entering into cooperative arrangements with the private sector for the planning, construction, and operation of transportation facilities.

(9) *The department shall have the authority to create or assist in the creation of tax-exempt, public-purpose Internal Revenue Service Ruling 63-20 corporations as provided for under the Internal Revenue Code. Any bonds issued by the 63-20 corporation shall be payable solely from and secured by a lien upon and pledge of the revenues received by the 63-20 corporation. Internal Revenue Service Ruling 63-20 corporations may receive State Transportation Trust Fund grants and loans from the department. The department shall be empowered to enter into public-private partnership agreements with Internal Revenue Service Ruling 63-20 corporations for projects under this section but shall not agree to*

expend any funds not appropriated for this purpose. The provisions of s. 339.135(6) shall apply to such agreements.

(10) The department may lend funds from the Toll Facilities Revolving Trust Fund, as outlined in s. 338.251, to Internal Revenue Service Ruling 63-20 corporations that construct projects containing toll facilities approved under this section. To be eligible, the Internal Revenue Service Ruling 63-20 corporation must meet the provisions of s. 338.251 and must either provide an indication from a nationally recognized rating agency that the senior bonds of the 63-20 corporation will be investment grade or must provide credit support, such as a letter of credit or other means acceptable to the department, to ensure that the loans will be fully repaid as required by law. The state's liability for debt of a facility shall be limited to the amount approved for that specific facility in the department's 5-year work program adopted pursuant to s. 339.135.

(11)(6) Notwithstanding s. 341.327, a fixed-guideway transportation system authorized by the department to be wholly or partially within the department's right-of-way pursuant to a lease granted under s. 337.251 may operate at any safe speed.

In advance of the passage of such resolution, the office may also accept an official letter from an authorized local economic development agency that endorses the proposed target industry project and pledges that sources of local financial support for such project exist. For the purposes of making pledges of local financial support under this subsection, the authorized local economic development agency shall be officially designated by the passage of a one-time resolution by the local governing authority.

10. Any additional information requested by the office.

(d) The office shall forward its written findings and evaluation concerning each application meeting the requirements of paragraph (b) to the director within 45 calendar days after receipt of a complete application. The office shall notify each target industry business when its application is complete, and of the time when the 45-day period begins. In its written report to the director, the office shall specifically address each of the factors specified in paragraph (c) and shall make a specific assessment with respect to the minimum requirements established in paragraph (b). The office shall include in its report projections of the tax refunds the business would be eligible to receive ~~refund claim that will be sought by the target industry business~~ in each fiscal year based on the creation and maintenance of the net new Florida jobs specified in subparagraph (a)4. ~~as of December 31 of the preceding state fiscal year information submitted in the application.~~

(4) TAX REFUND AGREEMENT.—

(a) Each qualified target industry business must enter into a written agreement with the office which specifies, at a minimum:

1. The total number of full-time equivalent jobs in this state that will be dedicated to the project, the average wage of those jobs, the definitions that will apply for measuring the achievement of these terms during the pendency of the agreement, and a time schedule or plan for when such jobs will be in place and active in this state. ~~This information must be the same as the information contained in the application submitted by the business under subsection (3).~~

The director may not enter into a written agreement with a qualified target industry business if the local financial support resolution is not passed by the local governing authority within 90 days after he or she has issued the letter of certification under subsection (3).

(b) Compliance with the terms and conditions of the agreement is a condition precedent for the receipt of a tax refund each year. The failure to comply with the terms and conditions of the tax refund agreement results in the loss of eligibility for receipt of all tax refunds previously authorized under this section and the revocation by the director of the certification of the business entity as a qualified target industry business, *unless the business is eligible to receive and elects to accept a prorated refund under paragraph (5)(d) or the office grants the business an economic-stimulus exemption.*

1. A qualified target industry business may submit, in writing, a request to the office for an economic-stimulus exemption. The request must provide quantitative evidence demonstrating how negative

2. Upon receipt of a request under subparagraph 1., the director shall have 45 days to notify the requesting business, in writing, if its exemption has been granted or denied. In determining if an exemption should be granted, the director shall consider the extent to which negative economic conditions in the requesting business's industry have prevented the business from complying with the terms and conditions of its tax refund agreement.

3. As a condition for receiving a prorated refund under paragraph (5)(d) or an economic-stimulus exemption under this paragraph, a qualified target industry business must agree to renegotiate its tax refund agreement with the office to, at a minimum, ensure that the terms of the agreement comply with current law and office procedures governing application for and award of tax refunds. Upon approving the award of a prorated refund or granting an economic-stimulus exemption, the office shall renegotiate the tax refund agreement with the business as required by this subparagraph. When amending the agreement of a business receiving an economic-stimulus exemption, the office may extend the duration of the agreement for a period not to exceed 1 year.

4. A qualified target industry business may submit a request for an economic-stimulus exemption to the office in lieu of any tax refund claim scheduled to be submitted after June 30, 2001, but before July 1, 2003.

5. A qualified target industry business that receives an economic-stimulus exemption may not receive a tax refund for the period covered by the exemption.

(c) The agreement must be signed by the director and by an authorized officer of the qualified target industry business within 120 days after the issuance of the letter of certification under subsection (3), but not before passage and receipt of the resolution of local financial support. *The office may grant an extension of this period at the written request of the qualified target industry business.*

(b) The claim for refund by the qualified target industry business must include a copy of all receipts pertaining to the payment of taxes for which the refund is sought and data related to achievement of each performance item specified in the tax refund agreement. The amount requested as a tax refund may not exceed the amount specified for the relevant ~~that~~ fiscal year in that agreement.

If the local financial support provided is less than 20 percent of the approved tax refund, the tax refund must be reduced. In no event may the tax refund exceed an amount that is equal to 5 times the amount of the local financial support received. Further, funding from local sources includes any tax abatement granted to that business under s. 196.1995 or the appraised market value of municipal or county land conveyed or provided at a discount to that business. The amount of any tax refund for such business approved under this section must be reduced by the amount of any such tax abatement granted or the value of the land granted; and the limitations in subsection (2) and paragraph (3)(f) must be reduced by the amount of any such tax abatement or the value of the land granted. A report listing all sources of the local financial support shall be provided to the office when such support is paid to the account.

(d) A prorated tax refund, less a 5-percent penalty, shall be approved for a qualified target industry business provided all other applicable

requirements have been satisfied and the business proves to the satisfaction of the director that it has achieved at least 80 percent of its projected employment *and that the average wage paid by the business is at least 90 percent of the average wage specified in the tax refund agreement, but in no case less than 115 percent of the average private-sector wage in the area available at the time of certification, or 150 percent or 200 percent of the average private-sector wage if the business requested the additional per-job tax refund authorized in paragraph (2)(b) for wages above those levels. The prorated tax refund shall be calculated by multiplying the tax refund amount for which the qualified target industry business would have been eligible, if all applicable requirements had been satisfied, by the percentage of the average employment specified in the tax refund agreement which was achieved, and by the percentage of the average wages specified in the tax refund agreement which was achieved.*

(e) The director, with such assistance as may be required from the office, the Department of Revenue, or the *Agency for Workforce Innovation* ~~Department of Labor and Employment Security~~, shall, by June 30 following the scheduled date for submission of the tax-refund claim, specify by written ~~final~~ order the approval or disapproval of the tax refund claim and, if approved, the amount of the tax refund that is authorized to be paid to ~~for~~ the qualified target industry business for the fiscal year ~~within 30 days after the date that the claim for the annual tax refund is received by the office. The office may grant an extension of this date on the request of the qualified target industry business for the purpose of filing additional information in support of the claim.~~

(f) The total amount of tax refund claims approved by the director under this section in any fiscal year must not exceed the amount authorized under s. 288.095(3).

(g) *This section does not create a presumption that a tax refund claim will be approved and paid.*

(h)(g) Upon approval of the tax refund under paragraphs (c), (d), and (e), the Comptroller shall issue a warrant for the amount specified in the ~~written final~~ order. If the ~~written final~~ order is appealed, the Comptroller may not issue a warrant for a refund to the qualified target industry business until the conclusion of all appeals of that order.

In its written report to the director, the office shall specifically address each of the factors specified in paragraph (f), and shall make a specific assessment with respect to the minimum requirements established in paragraph (e). The office shall include in its report projections of the tax *refunds the applicant would be eligible to receive* ~~refund claims that will be sought by the applicant~~ in each fiscal year based on the *creation and maintenance of the net new Florida jobs specified in subparagraphs (b)6., (c)6., or (d)7. as of December 31 of the preceding state fiscal year* ~~information submitted in the application~~.

(h) Within 30 days after receipt of the office's findings and evaluation, the director shall *issue a letter of certification which* ~~enter a final order that~~ either approves or disapproves an application. The decision must be in writing and provide the justifications for either approval or disapproval. If appropriate, the director shall enter into a written agreement with the qualified applicant pursuant to subsection (4).

(i) The director may not *certify* ~~enter any final order that certifies~~ any applicant as a qualified applicant when the value of tax refunds to be included in that *letter of certification* ~~final order~~ exceeds the available amount of authority to *certify new businesses* ~~enter final orders~~ as determined in s. 288.095(3). A *letter of certification* ~~final order~~ that approves an application must specify the maximum amount of a tax refund that is to be available to the contractor *for* ~~in~~ each fiscal year and the total amount of tax refunds for all fiscal years.

(j) This section does not create a presumption that an applicant should receive any tax refunds under this section.

(4) QUALIFIED DEFENSE CONTRACTOR TAX REFUND AGREEMENT.—

(a) A qualified applicant shall enter into a written agreement with the office containing, but not limited to, the following:

1. The total number of full-time equivalent jobs in this state that are or will be dedicated to the qualified applicant's project, the average wage of such jobs, the definitions that will apply for measuring the achievement of these terms during the pendency of the agreement, and a time schedule or plan for when such jobs will be in place and active in this state. ~~This information must be the same as the information contained in the application submitted by the contractor pursuant to subsection (3).~~

2. The maximum amount of a refund that the qualified applicant is eligible to receive *for* ~~in~~ each fiscal year, *based on the job creation or retention and maintenance schedule specified in subparagraph 1.*

3. An agreement with the office allowing the office to review and verify the financial and personnel records of the qualified applicant to

ascertain whether the qualified applicant is complying with the requirements of this section.

4. The date *by* ~~after~~ which, in each fiscal year, the qualified applicant may file *a* ~~an annual~~ claim pursuant to subsection (5) *to be considered to receive a tax refund in the following fiscal year.*

5. That local financial support shall be annually available and will be paid to the Economic Development Trust Fund.

(b) Compliance with the terms and conditions of the agreement is a condition precedent for receipt of tax refunds each year. The failure to comply with the terms and conditions of the agreement shall result in the loss of eligibility for receipt of all tax refunds previously authorized pursuant to this section, and the revocation of the certification as a qualified applicant by the director, *unless the qualified applicant is eligible to receive and elects to accept a prorated refund under paragraph (5)(g) or the office grants the qualified applicant an economic-stimulus exemption.*

1. *A qualified applicant may submit, in writing, a request to the office for an economic-stimulus exemption. The request must provide quantitative evidence demonstrating how negative economic conditions in the qualified applicant's industry have prevented the qualified applicant from complying with the terms and conditions of its tax refund agreement.*

2. *Upon receipt of a request under subparagraph 1., the director shall have 45 days to notify the requesting qualified applicant, in writing, if its exemption has been granted or denied. In determining if an exemption should be granted, the director shall consider the extent to which negative economic conditions in the requesting qualified applicant's industry have prevented the qualified applicant from complying with the terms and conditions of its tax refund agreement.*

3. *As a condition for receiving a prorated refund under paragraph (5)(g) or an economic-stimulus exemption under this paragraph, a qualified applicant must agree to renegotiate its tax refund agreement with the office to, at a minimum, ensure that the terms of the agreement comply with current law and office procedures governing application for and award of tax refunds. Upon approving the award of a prorated refund or granting an economic-stimulus exemption, the office shall renegotiate the tax refund agreement with the qualified applicant as required by this subparagraph. When amending the agreement of a qualified applicant receiving an economic-stimulus exemption, the office may extend the duration of the agreement for a period not to exceed 1 year.*

4. *A qualified applicant may submit a request for an economic-stimulus exemption to the office in lieu of any tax refund claim scheduled to be submitted after June 30, 2001, but before July 1, 2003.*

5. *A qualified applicant that receives an economic-stimulus exemption may not receive a tax refund for the period covered by the exemption.*

(c) The agreement shall be signed by the director and the authorized officer of the qualified applicant.

(d) The agreement must contain the following legend, clearly printed on its face in bold type of not less than 10 points:

"This agreement is neither a general obligation of the State of Florida, nor is it backed by the full faith and credit of the State of Florida. Payment of tax refunds are conditioned on and subject to specific annual appropriations by the Florida Legislature of funds sufficient to pay amounts authorized in s. 288.1045, Florida Statutes."

(5) ANNUAL CLAIM FOR REFUND FROM A QUALIFIED DEFENSE CONTRACTOR.—

(a) *To be eligible to claim any scheduled tax refund*, qualified applicants who have entered into a written agreement with the office pursuant to subsection (4) and who have entered into a valid new Department of Defense contract, commenced the consolidation of a

Department of Defense contract, commenced the conversion of defense production jobs to nondefense production jobs, or ~~who have entered into a valid contract for reuse of a defense-related facility must may apply by January 31 of~~ ~~once~~ each fiscal year to the office for tax refunds scheduled to be paid from the appropriation for the fiscal year that begins on July 1 following the January 31 claims-submission date. The office may, upon written request, grant a 30-day extension of the filing date. The application ~~must be made on or after the date contained in the agreement entered into pursuant to subsection (4) and~~ must include a notarized signature of an officer of the applicant.

(b) The claim for refund by the qualified applicant must include a copy of all receipts pertaining to the payment of taxes for which a refund is sought, and data related to achieving each performance item contained in the tax refund agreement pursuant to subsection (4). The amount requested as a tax refund may not exceed the amount for the relevant fiscal year in the written agreement entered pursuant to subsection (4).

(c) A tax refund may not be approved for any qualified applicant unless local financial support has been paid to the Economic Development Trust Fund ~~for in that refund fiscal year~~. If the local financial support is less than 20 percent of the approved tax refund, the tax refund shall be reduced. The tax refund paid may not exceed 5 times the local financial support received. Funding from local sources includes tax abatement under s. 196.1995 provided to a qualified applicant. The amount of any tax refund for an applicant approved under this section shall be reduced by the amount of any such tax abatement, and the limitations in subsection (2) and paragraph (3)(h) shall be reduced by the amount of any such tax abatement. A report listing all sources of the local financial support shall be provided to the office when such support is paid to the Economic Development Trust Fund.

(d) The director, with assistance from the office, the Department of Revenue, and the ~~Agency for Workforce Innovation Department of Labor and Employment Security~~, shall, ~~by June 30 following the scheduled date for submitting the tax-refund claim, specify by written order the approval or disapproval of the tax refund claim and, if approved, determine the amount of the tax refund that is authorized to be paid to for the qualified applicant for the fiscal year in a written final order within 30 days after the date the claim for the annual tax refund is received by the office. The office may grant an extension of this date upon the request of the qualified applicant for the purpose of filing additional information in support of the claim.~~

(e) The total amount of tax refunds approved by the director under this section in any fiscal year may not exceed the amount appropriated to the Economic Development Trust Fund for such purposes for the fiscal year. If the Legislature does not appropriate an amount sufficient to satisfy projections by the office for tax refunds in a fiscal year, the director shall, not later than July 15 of such year, determine the proportion of each refund claim which shall be paid by dividing the amount appropriated for tax refunds for the fiscal year by the projected total amount of refund claims for the fiscal year. The amount of each claim for a tax refund shall be multiplied by the resulting quotient. If, after the payment of all such refund claims, funds remain in the Economic Development Trust Fund for tax refunds, the director shall recalculate the proportion for each refund claim and adjust the amount of each claim accordingly.

(f) Upon approval of the tax refund pursuant to paragraphs (c) and (d), the Comptroller shall issue a warrant for the amount included in the ~~written final order~~. In the event of any appeal of the ~~written final order~~, the Comptroller may not issue a warrant for a refund to the qualified applicant until the conclusion of all appeals of the ~~written final order~~.

(g) A prorated tax refund, less a 5 percent penalty, shall be approved for a qualified applicant provided all other applicable requirements have been satisfied and the applicant proves to the satisfaction of the director that it has achieved at least 80 percent of its projected employment ~~and that the average wage paid by the qualified applicant is at least 90 percent of the average wage specified in the tax refund agreement, but in no case less than 115 percent of the average private-sector wage in the area available at the time of certification. The prorated tax refund shall~~

~~be calculated by multiplying the tax refund amount for which the qualified applicant would have been eligible, if all applicable requirements had been satisfied, by the percentage of the average employment specified in the tax refund agreement which was achieved, and by the percentage of the average wages specified in the tax refund agreement which was achieved.~~

(h) ~~This section does not create a presumption that a tax refund claim will be approved and paid.~~

(6) ADMINISTRATION.—

(a) The office may adopt rules pursuant to chapter 120 for the administration of this section.

(b) The office may verify information provided in any claim submitted for tax credits under this section with regard to employment and wage levels or the payment of the taxes with the appropriate agency or authority including the Department of Revenue, the ~~Agency for Workforce Innovation Department of Labor and Employment Security~~, or any local government or authority.

The report must indicate whether the moneys appropriated by the Legislature to the qualified applicant tax refund program were expended in a prudent, fiducially sound manner.

For the purposes of making pledges of local financial support under this subsection, the authorized local economic development agency shall be officially designated by the passage of a one-time resolution by the local governing authority.

(d) The office shall forward its written findings and evaluation concerning each application meeting the requirements of paragraph (b) to the director within 45 calendar days after receipt of a complete application. (b) Compliance with the terms and conditions of the agreement is a condition precedent for the receipt of a tax refund each year. The failure to comply with the terms and conditions of the tax refund agreement results in the loss of eligibility for receipt of all tax refunds previously authorized under this section and the revocation by the director of the certification of the business entity as a qualified target industry business, *unless the business is eligible to receive and elects to accept a prorated refund under paragraph (5)(d) or the office grants the business an economic-stimulus exemption.*

1. A qualified target industry business may submit, in writing, a request to the office for an economic-stimulus exemption. In no event may the tax refund exceed an amount that is equal to 5 times the amount of the local financial support received. Further, funding from local sources includes any tax abatement granted to that business under s. 196.1995 or the appraised market value of municipal or county land conveyed or provided at a discount to that business. The amount of any tax refund for such business approved under this section must be reduced by the amount of any such tax abatement granted or the value of the land granted; and the limitations in subsection (2) and paragraph (3)(f) must be reduced by the amount of any such tax abatement or the value of the land granted. A report listing all sources of the local financial support shall be provided to the office when such support is paid to the account.

The office may grant an extension of this date on the request of the qualified target industry business for the purpose of filing additional information in support of the claim.

(f) The total amount of tax refund claims approved by the director under this section in any fiscal year must not exceed the amount authorized under s. 288.095(3).

Remarks from March 12 Relating to Recognition Ceremonies for the Speaker, Speaker pro tempore, Majority Leader, and Democratic Leader

Recognition Ceremony for Speaker, Speaker pro tempore, and Majority Leader

On motion by Rep. Dockery, the rules were waived and the regular order of business was suspended for recognition ceremonies.

The Speaker appointed Rep. Maygarden to assume the duties of the Chair during the ceremonies.

REPRESENTATIVE MAYGARDEN IN THE CHAIR

On motion by Rep. Melvin, the privilege of the floor was granted to the Speaker's family.

On motion by Rep. Rubio, Reps. Andrews, Ball, Crow, Lacasa, Lynn, Trovillion, and Wallace were appointed to escort the Speaker and his family to the well.

The Chair: For what purpose does Representative Murman rise?

Rep. Murman: Thank you, Mr. Speaker. For permission to approach the well.

The Chair: You're welcome to approach the well. You're recognized, Representative Murman.

Rep. Murman: Thank you, Mr. Speaker. This is a very happy and emotional day for all of us. Speaker Feeney, Ellen, Tommy and Sean, Members, and invited guests, I was actually second choice to come before you today for this special occasion to honor our Speaker, Speaker Tom Feeney. Representative Frankel apparently leapt at the chance to say a few words when she heard that we would be doing an unveiling and hanging of the Speaker. [laughter] Then she found out it was only his portrait. [laughter] Then, of course, if anything ever happened to you, Mr. Speaker, then I would take your place, and then she would have to deal with me.

Mr. Speaker, I want to personally thank you today; it's truly been an honor and a privilege, as the first Republican woman, to serve with you as your Speaker pro tempore. The number of women you have serving in leadership roles exemplifies your confidence and commitment to the women in this process, and you are to be commended for that. [applause]

You are our 82nd Speaker of the Florida House of Representatives, the sixth Republican Speaker since Statehood in 1845, the third Republican in the past 100 years. Tom Feeney's distinguished service to the State of Florida in this House is to be applauded for such an outstanding and excellent job that he has done. So, with that, I'd like to take us on a journey through your days as Speaker.

Since taking the helm and the oath as our Speaker on November 21, 2000, Tom Feeney has steered us through much. And he has always stayed focused, principled, true, and on course with the goals he laid out on that day: improving Lifelong Learning, creating Smarter Government, encouraging Competitive Commerce, providing Ready Infrastructure, promoting Healthy Communities. Now when I first started, we just called them Healthcare, Crime, Environment;—and I guess like many, wondered where these fancy names were going to take us. But I think, as we all saw, as the days and months unfolded, that you laid the framework for taking our state into the 21st century. And as our captain, Tom Feeney was able to meet, if not exceed, those goals by using a map of principles as his guide, set down by his predecessors, Speaker Dan Webster, Speaker John Thrasher—less government, lower taxes, personal responsibility, individual freedom, and stronger families—and we all, thanks to you, have those hanging up on our walls.

Who else would you have to steer this ship during the calm and, at times, the storms that we have faced than that of our Speaker, Tom Feeney? We have encountered much since he was sworn in. And Tom Feeney has weathered it—he is rock-hard, clear-eyed; he is steady and sure. In our pre-session briefings, as we sit down with many of our team and Representative Frankel and others, he is always ready with the right quip, though with serious purpose for the day's calendar, to lighten a dark moment and give us all around him assurance that we would get through the day's work. His Irish blood is always strong and apparent, and, yes, even stubborn, at times.

All eyes throughout the United States, if not the world, were on Florida and on Tom Feeney when we convened in December of 2000 for a great and historically important special session to provide for the appointment of electors for President and Vice President of the United States. Speaker Feeney saw to it that we were an example of representative government at its best, all the while preserving decorum in the Florida House of Representatives. His constitutional knowledge made him stand tall among his peers and fellow Members in this House.

When that special session was behind us, Speaker Feeney commanded our ship into the 2001 Regular Session, the most challenging budget year we had faced in a very, very long time. But Tom Feeney pressed on full-steam ahead, and with his leadership we protected Florida's most vulnerable—our children, elderly; we had nursing home reform and tax cuts for working families.

Margaret Thatcher, former British Prime Minister, said, I believe that it is fortitude or courage that we have most needed and often, I fear, most lacked. Thanks to our Speaker, the term political courage is never contradiction but a principle. He was often urged to make U-turns on policies like tax cuts, but he would say, you can turn if you want to, but I am not turning. From there he charted a course for sound free-market policies and less taxes. And for the rest of his term, we have turned to him for convictions, insight, and most of all, his leadership.

Speaker Feeney next led us into safe harbor during one of America's darkest moments. And when tragedy struck the United States on 9/11, we all know where we were: we were in committee meetings, we were in this House, in this Chamber, some of us. And I saw a side of Tom Feeney that many of us did not know existed. We all know the energetic full-speed-ahead Tom Feeney, but this man was awesome; he remained calm and comforting, like the Rock of Gibraltar, or, for his Irish blood, the Blarney Stone. The ramifications of that horrific attack were felt far and wide, including here in our great state of Florida. But if those evildoers thought that they could drive us into a tailspin, they were wrong about America, and they sure were wrong about this state.

Speaker Feeney took the special session's helm calmly; he worked with this Membership to guide us through the dangerous waters of budget reductions. It was not easy and it was not fun. But this House united and produced a non-partisan team product which, as best as possible, protected the most needy. Speaker Feeney led that effort. When President Bush visited St. Petersburg recently, he wept for the victims and the fallen soldiers. He said never before has our country been stronger. Mr. Speaker, Florida is stronger now because of you. [applause]

Tom Feeney continues to lead us in our current session on the best course possible, as we work with our colleagues across the hall on the constitutional requirement that we must address every 10 years—reapportioning our political districts in the state. In the end of our current journey, I am confident that the people of Florida will be well served under Speaker Feeney's leadership. I'm not sure if it was divine intervention or some fateful intersection of events that brought our leaders, Tom Feeney, President John McKay, and Governor Jeb Bush together on the stage at the precise moment when principles were imperiled, but we are glad that it happened.

I will miss you very much; we will miss you—all of us will. We will be forever grateful for you. I wish today I could give you more than just words and a painting to show our appreciation but, from our hearts, want you to know that your beliefs that our state is a great place for our children and families will never be lost. And for that, Mr. Speaker, we all thank you very, very much. [applause]

I would like to take this opportunity now to recognize the distinguished artist who was commissioned to do Tom Feeney's portrait. Florida artist Edward Jonas' classical approach in both artistic technique has brought not only a demand for his work but made him an advocate for change in art education programs. Ed got his start as an artist when he began accepting portrait commissions at the age of 15 in his hometown of Cocoa. He completed his Associate of Arts Degree at Brevard Community College and a Bachelor of Fine Arts from Florida State University. Recently, Ed has undertaken several sculpture projects. This past January saw the unveiling of his bronze statue of Francis Wayles Eppes, grandson of Thomas Jefferson, and founder of both Florida State University and the University of Florida.

Mr. Speaker, I would like to ask that Representative Lacasa, Representative Wallace, to join me now to unveil the Speaker's portrait. It's too late to veto, Mr. Speaker. [applause]

Speaker's Portrait Unveiled

The Chair: Members, I know there are some of you who would like to have a few moments on the floor in recognition of Speaker Feeney, and I'd be happy to recognize you at this time if you would like to speak.

Representative Baxley, you're recognized.

Rep. Baxley: Thank you, Mr. Speaker. I remember the first time I met Tom Feeney—he was tromping all over this state with Jeb Bush, carrying a new message—and my first experiences walking through a factory and listening to factory workers and what they thought about Florida government and what they thought about their future. I remembering walking through a courthouse and talking to workers, government workers, about what they thought about Florida and what they thought about their future. And Tom Feeney was listening and he was taking a lot of heat. He was the target for a lot of criticism, and I saw the character of a man that I could follow. I was honored as some Members came to me, some colleagues came to me and said, don't you want to be a part of this? And I knew I could be a part of something that had people with the character of Tom Feeney. Tom, I thank you for taking us down a road that I could have never dreamed that we would see such historic moments. I thank you for being the man of character and discipline and strength that you are. And I thank Ellen for loving you and keeping you where you are. God bless you. [applause]

The Chair: Representative Brummer, you're recognized.

Rep. Brummer: Thank you, Mr. Speaker. I'd rather tell you something that someone else said about Speaker Feeney than something that I think about Speaker Feeney. At a Federalist Society meeting here in Tallahassee a couple of years ago, a man named Clint Bolick—and those of you who don't know who Clint Bolick is, Clint Bolick is the word in litigation on school choice programs. Clint Bolick said about Speaker Feeney, he said, in Florida when it comes to school choice, before Bush/Brogan there was Bush/Feeney, and before Bush/Feeney there was just Feeney. Mr. Speaker, thank you very much for your leadership. [applause]

The Chair: Representative Smith, you're recognized.

Rep. Smith: Thank you, Mr. Speaker. I think that the best thing I can say about Speaker Feeney is that he allows me to speak on the floor of the House. Not knowing what I'm going to say, or which way I'm going to come from, or how long am I going to complain about something, Speaker Feeney never hesitates to call on me on the floor. Just a quick conversation we had after the Three Strikes debate, in which I questioned every bill and debated against every bill and took about two hours of your time—when I spoke with Speaker Feeney afterwards and I said, thank you for allowing me to speak and I apologize for taking so long; and he said one thing to me, he said, you were speaking from your heart. You weren't speaking because some lobbyist asked you to do it or because you were getting campaign contributions. You were speaking from your heart, so I was proud to call on you every single time. As long as you are arguing from your heart in something that you believe in. Even though he felt different and he felt the opposite, he said, as long as you are speaking from your heart and speaking for something that

you believe in, take all the time you want on this House floor. And, Tom, I thank you for that and I respect you for that. [applause]

The Chair: Thank you, Representative Smith.

Representative Cusack, you're recognized.

Rep. Cusack: Thank you. To you my friend, Tom Feeney, thank you for the times that you have permitted me to speak. Thank you for sharing Deltona with me. Thank you for mentioning my bills in both of your State of the State addresses. [laughter] Thank you for being an open and honest man. I wish you well. Hopefully, our paths will cross again, but you go forth and do the work of the people, trusting in Him who sent you. Thank you for your friendship. Thank you for an opportunity to serve with you. I wish you well, you and your family. God Bless. [applause]

The Chair: Representative Gelber, you're recognized.

Rep. Gelber: Thank you, Mr. Speaker. I hope this wasn't scripted because I may be in trouble. My first words to Speaker Feeney were, may I approach the well? And in retrospect, I'm not so sure I appreciated the answer you gave me. [laughter] But the truth is, while there are many disagreements we may have, I think that there's far too many demagogues out there and not enough people who care and have a sense of their own ideologies and their own values. And while we may disagree on some of those ideologies, I think the fact that there are people out there who are passionate and are honest about their commitments and their ideologies is something that should be greatly respected. And I don't think that I've ever thought, in all the times that I've sat and listened to you, and all the times people back home ask me who you are, which happens quite a bit, that I ever doubted the sincerity of your convictions or the honesty of your intentions. And I don't know that there's a greater thing that you can say about somebody. So I thank you for being our leader here, all of us, and we're lucky to have somebody who has those qualities, and I appreciate it. [applause]

The Chair: Representative Barreiro, you're recognized.

Rep. Barreiro: Thank you, Mr. Speaker. Well, Mr. Speaker, for me, when I first met you, through my brother, actually, and you came and helped me a little bit in Key Biscayne. I greatly appreciate that and more importantly, I truly appreciate the opportunity to allow me to follow my dream of chairing the committee that I do here. But more importantly, Mr. Speaker, one of the things that when I talk about you is the character, and you truly find character in people in time of adversity, and you have shown your character. You are a historian; you are a person who really, truly believes that the person who seeks that position is no greater than the position itself, and that I'll always take with me when I leave these Chambers. And thank you for your friendship, but thank you for everything that you've done as a captain of our ship, guiding us through some really tough storms. We've come out of it and through your leadership we're all better people, and the state of Florida has a great leader, and the state of Florida is much better. Thank you.

The Chair: Thank you. Representative Richardson, you're recognized.

Rep. Richardson: Thank you, Mr. Speaker. You know, Mr. Speaker, Members, I have been around the political process for a long time. Of course, just been elected to the Legislature, but served in the Chiles Administration, and heard a lot of the stories that were talked about today, about the basement offices and parking spaces in the part of the garage that flooded for freshmen Republicans, and not having bills passed, and so that's what I expected when I came to the Legislature being a part of the minority party. I thought that we would get the worst offices and the worst parking spaces, and probably not so good committee assignments, and was pleasantly surprised when I got an office suite on the 10th floor with a beautiful view over downtown Tallahassee and a halfway decent parking space and very good committee assignments, I thought. And I thought that spoke well of our leader and the respect he gave us, even though we were in the minority party. And that, contrary to the view I had of him, like I said, having been with the Chiles Administration and all the things that I had heard

about him before getting to know him personally, it certainly changed my view tremendously. And I want to thank you for that, Mr. Speaker, in giving us that opportunity. The one thing I would say is that you have always let us know where you're coming from. You've told us what your principles were, the kind of things that you stood for, and even though in many instances, we, or I personally, might not have agreed with you, on some issues, we did agree on some. It was always with mutual respect and understanding that we both stood on principles. So I appreciate that of you as well that we always knew where you were coming from on an issue and what your position was based on. It has been an interesting experience these last two years as a freshman and being a part of this freshman class and the many things that we have been through. But you've always been a rock solid leader, and we certainly appreciate you for that. And God bless you and your family, and best of luck in all that you do in the future. Thank you, Mr. Speaker.

The Chair: Representative Sobel, you're recognized.

Rep. Sobel: Thank you. Mr. Speaker, it's been truly fun to work with you. You are a great guy, and you told me at the beginning that we would disagree on social issues, and you were right. You were right, but there are many things that we have agreed on. I want to thank you for appointing many of the people in the back row to special committees, to vice chairmanships, to Appropriations, and for allowing us to be part of the process. As you have heard from my colleagues, you allowed us to have many, many open debates and extended time. It's a great honor to serve with you, and I hope that our future leaders will follow your example. I also want to thank you for dancing with Lois Frankel. [laughter] You are truly a good sport. [laughter] He did that at the Speaker's and President's dinner. Again, thank you very much for your leadership, your kindness, your sense of humor, and your ability to work with all the Members of this House.

The Chair: Speaking of fun, Representative Slosberg.

Rep. Slosberg: Thank you, Mr. Speaker. Well, my wife and I were out having a drink, and we bumped into Speaker. So, we were passing a—

The Chair: Representative Slosberg.

Rep. Slosberg: —conversation around. So anyway we were passing conversation around, and I said to her, hey, do you think he'd let us have the wedding at the House? So we were talking about this all week, and finally after a week, she says, go ask him. Well, popped into his office, and, Speaker, could we have the wedding at the House? Speaker did not think for one second. He said, absolutely, Irv. You think you can have it here? We're going to have a great wedding here. I'll do what's necessary to make this a great wedding. Well, he did what's necessary. He opened the board, and he ruled the nine people who voted against out of order. Speaker, thank you.

The Chair: Representative Harrell.

Rep. Harrell: Thank you, Mr. Speaker. On behalf of the 63 new freshmen who entered this Chamber for the first time last October, I really think we all want to thank you for the guidance, the leadership, and especially the training that you've provided for us. The James Madison Institute training was superb. And I think without your leadership and without pulling that together we, as 63 new freshmen, would have been lost souls in this Chamber. You helped us learn the process. You helped us learn the important things and issues that we would face, and most importantly, you provided the leadership in a very critical time for this country. I truly believe that had it not been for your leadership and for the training that you provided us as freshmen, we would have had chaos in this country when we would not have had a President of this United States, and I thank you for that.

The Chair: Representative McGriff, you are recognized.

Rep. McGriff: Thank you, Mr. Speaker. I think there's one thing that stands out that I'd like to say that this whole House appreciates. First of all, coming from an academic community, you appointed me to great committees and I appreciate that. But I think a strength that you have—and I think every Member of this House says the same thing—is

that we kind of go through the motions; you had the motion up there and you helped all of us go through the process. You did not cut us off. You allowed us to be ourselves and allowed us to speak. And I think all of us say thank you very much because that really stands for the quality of person that you are. To your wonderful wife, the support that we need from our spouses and how we love our kids, may a hedge of protection always be around you and your future be bright. [applause]

The Chair: Representative Wilson, you are recognized.

Rep. Wilson: Thank you, Mr. Speaker. When the Speaker became Speaker, I became chairman of the Black Caucus. And I want to thank you for all of the cooperation and support you gave to us during that tumultuous year. It wasn't easy and we had some very, very serious issues and you supported us. I remember when I called you and I said, Mr. Speaker, we're going into Perry, Florida because we have a problem. And you said to me, Frederica, go. And if I were going to be here this weekend, I would go with you. You said, I would go with you to help you fight for the people. You encouraged us to go over. The FDLE, you said, call them up. Tell them I said to escort you so that you can get everything correct. And I want you to know that I have been speaking with Representative Kendrick, and we all know that so many improvements have taken place in the city of Perry because of our intervention and because of your support. We had other issues with the Confederate flag. We had other issues and issues and you never once said, Black Caucus, do not come and see me again. I know we took up lots of your time and I really appreciate your assigning me to Vice Chair of the Lifelong Learning Council, even though I had to sit next to Mr. Melvin and debate with him each time. [laughter] I appreciate it. I'm a good old teacher at heart and I spent two years in this House of Representatives and I did not get the opportunity to serve on an education committee, so I felt like Brer Rabbit in the briar patch when you appointed me to that committee. I appreciate your family for supporting you. I met a little tyke in the lounge back there, and I said, who is this cutie pie? And your wife said, that's little Tom Feeney. So, thank you so much for all of your support. The Black Caucus will always be indebted to you. Thanks. [applause]

The Chair: Representative Greenstein, you are recognized.

Rep. Greenstein: Thank you, Mr. Speaker. You know, it's kind of interesting sitting in the back row and trying to say goodbye to you. But it's not really that hard to say goodbye. But it is kind of hard to know that you have family that still lives in my district even with your redistricting map, so I can't be that hard on you. But you once sent me a picture and you wrote on the picture. It said, why I should call on anybody in the back row? Remind me why I should call on anybody on the back row. And you know, I kind of chuckled at it. And that's one of the things people don't realize—that you have a deep sense of humor that really separates you from the Speakers I knew in the past. You knew you had the votes to win on the issue; you let us talk, and that was impressive. A lot of other times we were taught who was right and who was wrong. You allowed us to have that expression. That's different and that's a unique way. I want to thank you for letting me have that opportunity to share that. But, Members, I want to tell you the cute thing about this man is not just his family who lives in my district—is that one of the great moments is after a bike ride, one of the great social director's bike rides when we went down to Posey's, the Speaker was sitting there, and he was having oysters with us. And the unique thing about that day—there was no Democrats, no Republicans. We actually just sat as friends. And that's one of the things that's good about this. Hopefully, what he showed me that day was we can fight all we want on the floor but the day it ends, let's move on to the next battle together or separate, but let's work together. And I thank you for giving me that experience of just meeting and sitting and talking with you. Your friendship will last a long time. Will I agree on everything you do? You know, probably not. But I have a wife who's probably watching on television saying, I don't agree on everything you do right now, talking about me. [laughter] And that's the good part about this country. I look forward to seeing you in other offices, hopefully, no longer in the state but up in Washington. [laughter] You know, just move up and just look forward to that. And with that, Ellen, I just want to thank you. I found out right now with my wife and our new baby, this is a real battle that

goes on between public life and private life. And for what you did for the last four to six years to get to this point, I applaud you for letting us—for sharing him with us. Thank you. [applause]

The Chair: Representative Diaz-Balart, I believe you wanted to say something.

Rep. Diaz-Balart: Thank you very much, Mr. Speaker.

Speaker Feeney, you have shown us in these last two years a different level, a new level of what devotion is. You really have. And love—I mean devotion and love that really kind of exudes from your pores: love to your family, which is ever present; love to the people of this great state and the people that you have done so much for, Mr. Speaker; love to this great institution. Loved and instructed us on what the Constitution really means—that living, breathing document which is more than just something that you read once and put on a shelf. That's what I thought it was; that's what a lot of us thought it was. Your incredible love for freedom. Mr. Speaker, you have, with your courage that we have heard about today, with your devotion to principle, with your wit and incredible sense of humor, and always with humility, Mr. Speaker, you have truly honored your family, have honored the people of this state, have honored the Constitution. And, Mr. Speaker, you have honored this House like probably no other Speaker has ever done. Thank you, Mr. Speaker. [applause]

The Chair: Mr. Speaker, I'd be remiss if I didn't add just a couple of words.

You and I have been together on this floor for a very long time. And you know that one of my favorite books is the book *The Conscience of a Conservative* written by Barry Goldwater back in the early 1960s. And for those of you who are historical buffs, it was a time in our history when conservatives were trying to define themselves. There was talk of progressive conservatives and talk of conservatives that were economic conservatives, but social liberals. And there was a big discussion and debate about what conservatism meant. And in his book, Barry Goldwater said that he made no apologies for his brand of conservatism. And he said that, "... the American Conservative, there is no difficulty in identifying the day's overriding political challenge: it is to *preserve and extend freedom*. As he surveys the various attitudes and institutions and laws that currently prevail in America," there are many questions and many questions will occur to him or to her. But, "the Conservative's first concern will always be: *Are we maximizing freedom?*" Mr. Speaker, I've noted over the years that we've served together that you have endeavored, both by instinct and by intellect, to preserve and extend freedom whenever and wherever possible. And if for no other reason, you will be held in the highest of regard forever by this House, for that duty. And we join all your friends here in saluting you and saying thanks for your leadership. [applause]

The Chair: Representative Fasano, for what purpose do you rise?

Rep. Fasano: Mr. Speaker, to approach the well, please.

The Chair: Well you're certainly recognized and welcomed to approach the well.

And while we do that, there's going to be a little logistical change. So just bear with us here for a moment in your place, if you will. [The Speaker's portrait was installed by staff of the Sergeant at Arms.] My, how quickly things change. [laughter] [applause]

Members, just for your edification, Speaker Webster's portrait was also done by Ed Jonas. And beginning with Speaker Peter Rudy Wallace, going all the way around, those are Democrats—and I think we've got them on the run, Speaker. [laughter] For what purpose does Representative Byrd rise?

Rep. Byrd: To make a motion.

The Chair: You're recognized.

Rep. Byrd: I move that the rules be waived and the privilege of the floor be granted to some special delegates representing Ireland. I further move that a committee of four be appointed to escort the special delegates to the Chamber.

The Chair: Representative Byrd moves that the rules be waived and the privilege of the floor be granted to some special delegates representing Ireland and that a committee of four be appointed to escort the guests to the Chamber. If you favor the motion, signify by saying Yea; if you're opposed, Nay. The motion is agreed to, and the Chair appoints Representatives Flanagan, Mack, Ryan, and Seiler to escort the special guests to the Chamber. [The Committee escorts guests.] Just bear with us, Members. [The guests perform traditional Irish music and dance.]

Representative Flanagan, you're recognized.

Rep. Flanagan: First of all, that was an awesome performance and I would like for all of you to be introduced to the McLroy family. They are John, Patti, Katie, along with David Jones and the Irish Step Dancers, and thank them for their performance here today. [applause] It's great to be Irish, isn't it? [laughter] It is.

Mr. Speaker, on behalf of the entire Florida House of Representatives, it is my special privilege to present to you an Irish national flag from the Consulate General of Ireland. We hope you will fly it proudly in the Feeney home. Mr. Speaker, this flag is but a small symbol of our appreciation for your service as our colleague, as our leader, and as our friend. [applause]

The Chair: Representative Fasano, you're recognized.

Rep. Fasano: Thank you, Mr. Speaker. You know, I don't know if you know it, not too long ago—some of you knew—know that Tom Feeney had a bit of a heart problem and he had to go into the hospital. And I don't know if you know it, but you probably truly do know how loyal his staff is to him throughout this entire Capitol. Second to none: loyalty. As Mr. Goldwater spoke so eloquently in his book as well, loyalty is second to none among staff. And Speaker Feeney, of course, had to go into the hospital and he was concerned of what was wrong with his heart, but no one knew. Of course, the rumor throughout the Capitol was that he was going to have to have a heart transplant. You know how rumors spread so rapidly throughout this great Capitol. [laughter] Well let me tell you, they do. [laughter] So he was in his hospital bed, a place where they support CON's [certificates of need]. [laughter] He was in the hospital bed and he heard this faint chant, Feeney, Feeney, Feeney and he went out to the window and he opens up the window and he walks out on the balcony and there are all of the house staffers chanting Feeney. And then he starts to hear, take my heart, take my heart. He's overwhelmed, overwhelmed. The staffers came all the way down to Oviedo to chant for him to show their loyalty and to yell to him, to take their heart. He wasn't sure whether he was going to have to have a heart transplant or not. And what he said was, I can't choose one of you; instead, what I will do is I will drop a feather and where that feather lands is the heart that I will take. And the feather started to float down and the chant was Feeney, take my heart. [puff] [laughter] Take my heart. [puff] [laughter]

Seriously, Members, Mr. Speaker, I've had the honor and privilege and pleasure of knowing Tom Feeney for many years. To have served with him in this great institution has been the pinnacle of my own legislative career. Even more important to me than the leadership he has demonstrated and the role model he has been for me, I am proud to call him my friend, my very dear friend. Speaker Tom Feeney has dedicated his legislative career to advancing the need for personal responsibility and reducing the intrusion of government in our daily lives. He has worked tirelessly to improve Florida's public schools, reform Florida's welfare system and fought hard to protect Floridians through tough measures against criminals. In essence, Speaker Tom Feeney has always strived to make Florida a better place for all its citizens and, in doing so, I believe, and I know that each and every one of you believe, he has embodied the words of Ronald Reagan spoken during that great President's first inaugural address. Ronald Reagan said, "... it is not my intention to do away with government. It is, rather, to make it work—work with us, not over us; to stand by our side, not ride on our back. Government can and must provide opportunity, not smother it; foster productivity, not stifle it."

The five principles for legislation that Speaker Tom Feeney distributed to all Members before the 2001 Session, and again before

this session, have brought to life in Florida the philosophy of President Reagan once again. Less government, lower taxes, personal responsibility, individual responsibility, stronger families have become the pillars of good government in Florida. And Tom Feeney has held firm to those principles, just as he said he would when he became Speaker. And as Speaker Feeney says, good government is good politics, regardless—as Representative Greenstein said—regardless of party affiliations. As we look back on Speaker Feeney’s administration, it’s hard not to be moved by the immense issues that have collectively faced this legislative body. From the historic importance in global implications of the 2000 presidential election, today’s current legislative agenda filled with three constitutionally required tasks, Speaker Feeney has not been timid in tackling the important issues of our time. Many times, Speaker Feeney has said that the Florida House is not afraid to tackle tough issues. We have proven that over and over again. And I propose that it is Speaker Feeney’s fearless courage to do what is principally right, regardless of its repercussions, that permeate throughout this body. We must remember that it is the rate of the leader that sets the pace of the pack. Speaker Feeney has taken the words of President Abraham Lincoln as spoken in 1860 to heart, “Let us have faith that right makes might, and in that faith, let us, to the end, dare to do our duty as we understand it.”

Mr. Speaker, there were so many eloquent speeches today. Never before since I’ve been a freshman Member have I heard from both sides of the aisle such gratitude and respect for a great leader like Tom Feeney. The Members got together, Mr. Speaker, and with some few dollars to be able to give you a gift today, and I know you have spoken about it often and want to do some traveling. As you know, Speaker Feeney’s a great—enjoys to travel, and he did that of course during the many years, making sure that we here are in the House today, in fact. So what we have done is put a little token of our appreciation together and, Mr. and Mrs. Feeney, we’d like to send you to Ireland. [applause]

The Chair: Representative Ryan.

Great words by Representative “O’Fasano.” [laughter]

Representative Ryan, you’re recognized.

Rep. Ryan: Top o’ the afternoon to you, Mr. Speaker, Ellen, and Tommy. When I came up here this afternoon, I thought, you know, there’s a lot of arm twisting that goes on around here. But to raise that money for that trip to Ireland, no arm twisting was needed because the loyalty that you have among the Members of this House, on both sides of the aisle, is really unprecedented. And it’s a mark of your leadership and the courage and the qualities that you have embodied over these last two years.

Mr. Speaker, there is a long feud in Ireland between the Catholics and the Protestants. And in recent months and in recent years, we’ve seen some peace on the horizon. Now we’re hoping, with two short weeks to go, that you can work your magic and find some peace between the House and the Senate, and we’ll get a budget out, and we won’t have an extra session. [laughter] [applause]

Mr. Speaker, on behalf of the Members of the Florida House of Representatives, it’s my privilege to read to you a letter from the Irish Ambassador, Mr. Sean O’Huiginn. And the letter reads:

Dear Mr. Speaker,

It was with great pleasure that I learned that your colleagues in the Florida Legislature have decided to recognise your outstanding record of public service and your great love for your Irish heritage by organising a holiday in Ireland for you and Mrs. Feeney and your sons Tommy and Sean.

I am writing to express my congratulations and warmest good wishes on this well-deserved honour. I hope you and your family will have a truly memorable sojourn in the land of your forebears. I would ask that you contact me before your departure, so that I can express my good wishes in person and give any advice and assistance that I can to make your trip a success.

Beannacht Dé ar an obair agus go n-éirí an bothar libh in hEirinn—which is how we say in Irish, “God bless the work, and may the road rise up to greet you on your journey to Ireland.” [applause]

The Chair: Representative Seiler.

Rep. Seiler: Thank you, Mr. Speaker.

Members, many of you heard Dan Gelber get up and mention that he had to describe what kind of person Tom Feeney was back at home in Dade County. Well, Members, I’m from Broward County. [laughter] Now, I’ve got to tell you, that’s a difficult task.

But I have to tell you this. I find it very easy to describe the type of Speaker that Tom Feeney has become. I find it very easy to describe the type of man that Tom Feeney is. Tom Feeney, first and foremost, is just a genuinely good guy. Those of you here know what I’m talking about. He’s a good guy. He’s the type of guy, I guess I can say on the House Floor, you’d like to get a beer with. He’s the type of guy you like to hang out with. Secondly, Tom Feeney has been, and will continue to be, a man of principle. Now his principles and my principles haven’t always overlapped. But he is truly a man of principle, and I respect him immensely for it, as I know many of you do. As those of us in the back row, those of us in the middle and the front, all know that whether or not our principles are the same as Tom’s, we’ve always respected his principles and always appreciated the fact that he’s stuck to his principles.

I have truly enjoyed working with him. I’ve enjoyed serving with him. And I’ve learned a lot from him, because he’s been a tremendous Speaker of the House. He’s been the only Speaker that I’ve known, but from what I’ve heard over the years, I doubt few Speakers have ever risen to the level that he’s risen.

Mr. Speaker, on behalf of all of the Members of the Florida House of Representatives, it is my honor to present to you a package of Irish tourism books and maps sent to us by the Irish Consulate’s tourism office in New York. It appears that they really want you and your family to come visit them, but I’m going to tell you that it doesn’t stop there. Because on my way over here today—these are the books and maps that we’re going to give you—on the way over here today, the Minority Office decided to get together and we’ve included some books and maps for Belfast, Northern Ireland, in there for you. [laughter] And then when the word spread that you were going over to Belfast, Northern Ireland, we got a call from the Senate, and the Senate said they offered to extend your stay at a hotel called The Maze in Northern Ireland. [laughter] Now, I’m not quite sure what that is, never heard of—I’ve heard of the Belfast Hilton but not the Belfast Maze. Also, I wanted to just warn your family that, while in Belfast, I don’t think I’d mention too much that I’m a Republican. [laughter] Because a Republican in Northern Ireland is not appreciated as much as a Republican is in the United States. [laughter] So I would warn Ellen and the kids to don’t go around bragging in Belfast that dad’s a staunch Republican. [laughter]

But in any event, Mr. Speaker, we appreciate your service, and as a fellow colleague, I want to thank you. And on behalf of all the Members of the House, we want to thank you. [applause]

The Chair: Representative Mack, you’re recognized.

Rep. Mack: Thank you.

Mr. Speaker, I am, too, from Broward County, and I can assure you that the people from my district certainly understand who Tom Feeney is.

But today I am given the honor to present a gift to Mrs. Feeney—Ellen, and it certainly is an honor for me. We’ve had many people talk today about how important their spouses are to them in this process. And so it’s with great honor that I am able to present to you a gift on behalf of the Members of the Florida House of Representatives to you, Ellen—the symbol of our appreciation for your service as First Lady. Members—[applause upon presentation of gift] Members, this is a collectors’ edition signed by the artist of the “Rock of Cashel,” from the

Waterford Crystal *Romance of Ireland* Collection. So we hope when you go to Ireland that there will be lots of romance on your trip as well. [laughter] But thank you very much. [applause]

The Chair: Members, at this time I'm going to ask the Clerk if he will now read a special proclamation by the membership. Mr. Clerk, you're recognized.

The Clerk read the following proclamation:

Proclamation of the Membership

"IN IRELAND THE INEVITABLE NEVER HAPPENS AND THE UNEXPECTED CONSTANTLY OCCURS."

Presented with thanks and admiration by the
Members of the House of Representatives
March 12, 2002

The Chair: Members, join me in a standing affirmation. [standing ovation]

Speaker Feeney, you are certainly recognized and welcome to approach the well for some remarks.

Speaker Feeney: Thank you. Representative Fasano just warned me that at 3:00 his Council's time starts, and I was admonished that I'd better be done by then. I'll tell you how great it is to have been Tom Feeney the last 11 years. I started in the back row and it has been a help. I think that Larry Crow mentioned that this is the last Republican class that, as a class, will have served in both the minority and the majority. But I've been graced all my life. I've got great parents, Mom and Dad, my sisters, two of my sisters are here, one's busy chasing Sean around. I've got a niece, Jennifer, here. I've been given great luck and great health. I've been married to a wonderful woman. Ellen has put up with all of my uniqueness that some of you delight in and some of you become challenged by. Well, Ellen lives with it 24 hours a day. And I've got two healthy, rambunctious boys—who nobody will confuse Sean as anybody other than Tom Feeney's child. His stubbornness and independence and energy, I think, give him away.

I'll tell you that in my legislative career I've been blessed with a terrific staff. Cheryl Moore joined me 11 years ago and has really helped me get through some of the challenges, whether I was in the minority party or the Speaker's Office. I have a great team in the Speaker's Office today, as really, Mike Fasano, as your joke indicated, at least at the

start, incredibly loyal people. And they're loyal to principles, but they have also been loyal to me, and I'm grateful. I don't want to miss anybody, but I see, from starting at the front door, Carol and Iragene do a terrific job; Marie who works in the office and does a terrific job; Carissa who's joined my team lately; Shannon who's back home in Oviedo watching the shop while we concern ourselves with the challenges for 16½ million people; Barbara, our intern; we've got Bridgette and Paul and Kim; and everybody on our staff. I think I mentioned Marie and Jacqueline, and the many others that work in and around the Speaker's Office just do a terrific job. You are only as good as your staff, whether you're a committee chairman or minority member or the Speaker of the Florida House. You can never be better than your staff.

Right now we're looked at as the most incredibly well organized House in a long time, maybe in anybody's memory. That doesn't happen by accident. It happens because you've got a great team. I've got to thank my constituents, and it takes a little longer than for some of you because I've served in 11 seemingly short years, three different sets of them. I've served in District 37, I've served in District 33, and I've served in District 35 over the last 11 years. And I want to thank them for the opportunities they have given me to represent their interests as I've best discerned them.

And then, finally, I want to thank all the Members of the House. Let me mention the rest of the staff, not just in the Speaker's Office. John Phelps, you do a terrific job, and I am telling you that we are terribly proud of what you've taught all of us about parliamentary procedure. I will tell you that Sergeant Sumner does a terrific job during, really, the biggest security challenges we've ever faced as a Capitol and as a Florida House. Even before the September 11th attacks, the death threats that Lois Frankel and myself and others received were handled. Many of you didn't even know about the challenges, but our Sergeant's staff is not just there for our comfort and convenience, although they do a great job at that. They've risen to historic challenges as a team. And all the staff that works on our various committees and councils, and all the staff that work for the 119 Members of the House, we know that they sacrifice too. And they don't get the limelight, and they don't get the awards, often, that we get. They don't get the acclamation, and sometimes they have to put up with us, 120 people with egos and independent streaks and with agendas. It is not easy in working for a Florida legislator on every day. So remember to thank your team, who has done for you and makes you as good as you are.

And finally, I want to thank the Membership of the Florida House. I'm very excited about serving with 63 freshmen. I've said, on the first day I addressed you, in this class are future governors, congressmen and women, U.S. Senators, in all likelihood either a President or Vice President of the United States. And I don't know who she will be. But I'll tell you I was proud to be a part of your training from day one.

The last two years has been about governing, but not just the 10 days, Gayle, that we spent with the JMI. Every day has been a learning experience in preparing the leadership team of tomorrow. We're hearing some good-byes from some of our great established leaders, but just like Steve Spurrier used to lose, and Bobby Bowden loses, and Larry Coker loses great All-American senior quarterbacks and tight ends and running backs and defensive leaders on an annual basis, they are able to replenish. And, actually, it is a great process.

We are now under term limits, and while others across the country have bemoaned the chaos and anarchy that has occurred in their Chambers as a result of term limits, you haven't seen that in the Florida House of Representatives. This has been the smoothest, most well-run, most well-organized process that I've ever seen in the 11 years of legislating here or observing parliaments around the world and legislatures and Congress across the country. And I'm proud of all of you; I'm proud to serve with each and every last one of you. You're prepared for the challenge. If the last day we legislate in my career is March 22nd, and I hope it is, but if it's the last day, the team following us, they are more than ready, Jerry Melvin. We're ready to go. We're ready to turn over the ship and we're ready because you're ready to take the reins. And that, perhaps, is my proudest achievement.

Johnnie Byrd, you're going to have a great team. I know that Representative Wiles and many other leaders intend to come back; it's not like you'll be without any experience. In fact, five sessions all together that we've served in together have been a great experience for all of us, and you're really experienced and capable well beyond your years here in the House.

I'll leave you with a couple of thoughts about the approach we've taken in the Florida House the last two years. And I don't want to talk about all the great achievements we've had: you know the crime rate is down, taxes are down, academic achievement is up. We can debate about the day-to-day issues that drive creating specifics of policy, but all 120 Members have the same goals—we just have different road maps about how to get from point A to point Z. And that's the fun part of the legislative process, deciphering how we're going to merge 120 different maps to the ultimate goal line together. And that's the great part of legislating that we can all be part of.

But in terms of the fascinating two years we've had, I will share with you that we had challenges from the first day we came into session. We knew that the world was upon us. But regardless of what the specific challenge was, I approach things through a certain prism. When we had a constitutional crisis during the electoral issue, we did something that shocked folks—we got out the Constitution and we read it. Article II, Clause 1, to start with, and while we may have differed, Representative Gelber, on exactly what that meant, given the circumstances, I think, regardless of whether it's the Democratic Speaker in the future or a Republican Speaker, I hope they sit down when they have a constitutional challenge and say, let's get out the Constitution and read it. And then we looked at precedent. I'm neither a constitutional law expert—I guarantee you I'm not—nor am I a historian, but I love the Constitution and I love the history of the United States, and really the whole world. And so we looked at *Hayes v. Tilden* election, the last time a close race on a national level was decided.

When we got into the dilemma with Judge Smith, remember he issued an order last April, whereby he instructed me and a committee, led by Fred Stummer, not to meet and not to discuss an issue. And we got out our Constitution, given the fact that a court had ordered us as a legislature not to legislate. And regardless of whether you agreed with our analysis, step one was to figure out what the separation of powers that the framers' design would mean in this circumstance. And then we looked at history. We didn't have any history in the United States because we had never had a judge order a legislature not to meet and discuss issues. But we had about a 500-year-old case where King Charles threatened to arrest five members of Parliament who he disagreed with. They escaped the King's soldiers, remember, by jumping into the Thames River, and because of that incident, where the Speaker of the Parliament went down to see King Charles and said, when we are a Parliament, essentially, I represent not the King but the people's Parliament. And that was the historical precedent that we applied after we reviewed the Constitution.

September 11th is the day after I had dinner with the President of the United States, in Naples. That night we had an interesting conversation about politics, about policy. He was reading a book called *April 1865*, the month that could have changed and, really, ultimately destroyed American history. Remember Grant was surrendered to by Lee, but shortly after that Lincoln was assassinated. The question was, what does the Republic do now, if anything? Are we going to be a Republic? A fascinating book. But the President was most animated September 10th, when he was quoting baseball statistics from the 1960 San Francisco Giants, talking about Willie Mays and Willie McCovey and others. I don't know if he has had too many dinners since then, but I remember the challenges that came after September 11th.

The special session, the first special session on the budget, Representative Lacasa, you'll remember the Senate sent us a spending program and they sent us a tax increase. Well, we couldn't accept the tax increase, but we could probably live with the spending program. The Senate was saying they weren't going to negotiate one dime's worth of difference. And so we said, OK, if that's the best we can do, we'll take the Senate proposal. Some people said that was a horrible thing to do; you

have to go to conference. And we said, well wait a minute, conferences are about resolving differences; if you don't have any differences, Mario, you don't have any conference. And so we made a few folks upset. We ended up getting back in a second special session, and we were much closer to a starting point that would allow us to have a successful second special session. But that wasn't unprecedented or illegal. If you don't have differences to conference about, you just don't have conference.

And finally, recently, we had something none of us have ever been through—perhaps Jerry Melvin, but certainly nobody else—because it hasn't been done in Florida in over 25 years. But both the Florida House and the Florida Senate have done it. You'll remember we had a proposal came from the Senate. It was a genuine proposal with significant and something important that I had obligated our House to deal with. We didn't have a bill in front of us. No Member of the House had filed a bill; no committee had filed a bill. I had Members chomping at the bits, once they had studied the proposal, to register their opinion on the proposal. I had Members insisting on the opportunity to vote on the proposal. So we did something that was, perhaps, unusual in modern day: we created a Committee of the Whole, and anybody that wanted to be a Member of the committee was allowed to register their vote. Some people suggested that the Committee of the Whole was unprecedented. In fact, the *Mason's Manual* refers to the Committee of the Whole in parliamentary processes. It has actually been used for some 250 years. In 1829—the Clerk did some research—one of the first territorial councils for the state of Florida, 1829 before we were a state, refers in Rule Number 26 to the process of the Committee of the Whole. So we do read our Constitution when there are constitutional challenges.

I do love history and using the knowledge. I was talking to one of the pages in the back; one of the things I like to ask the young people after I ask them where they're from and what grade they're in is what their favorite subject is. And the young lady told me history, and I told her, you know what? Studying history and reading about history, I think, has made me a better and certainly a more creative Speaker than I would have been without that.

Having said that, I will leave you with this: we've got some exciting times ahead of us, but I love the Florida House. I love serving with each one of you. Representative Cusack, and all of you in the minority party, I'll tell you that one of the things that I've been most appreciative about is that everybody is part of the process. If you want to engage in the process and be heard, it doesn't mean you'll get your way; the majority process still works for the most part in a representative body. But having said that, for two years the House has taken up some of the most historic and challenging issues, and the way we've debated, the level of the debate, the level of intellect—referring to the *Federalist Papers*, referring to Lord Atkin, referring to some of the other great things that's occurred during our debates—and the respect you've shown one another and me, but most importantly, this institution is something for which I will be forever grateful to each and every one of you.

I'm very, very grateful that you help me uphold the honor and the integrity of the Florida House of Representatives. And we pass it on to good hands: Johnnie Byrd. So congratulations and thank you for the whole day. [applause]

The Chair: Representative Fasano, for an announcement.

Rep. Fasano: I'd like to introduce Patti McIlroy who will come and sing a song for us. Patti.

Patti McIlroy: I'd like to sing a very special song for a very special man, the beautiful "Londonderry Air."

Oh Danny boy, the pipes, the pipes are calling
From glen to glen, and down the mountain side
The summer's gone, and all the flowers are dying
'Tis you, 'tis you must go and I must bide.
But come ye back when the summer's in the meadow
Or when the valley's hushed and white with snow
'Tis I'll be here in sunshine or in shadow
Oh Tommy boy, oh Tommy boy, they love you so.

[applause] [Bagpipes played to applause]

The Chair: Representative Bowen, for what purpose?

Rep. Bowen: For a motion, Mr. Speaker.

The Chair: You are recognized.

Rep. Bowen: I move that Speaker pro tempore, Representative Murman, and Majority Leader Jerry Maygarden be invited to approach the well.

The Chair: Before the motion is taken, Representative Jerry Melvin, as Dean of the House, is appointed to assume the duties of the Chair.

REPRESENTATIVE MELVIN IN THE CHAIR

The Chair: You've heard the motion. All in favor, signify by saying Yea; opposed, No. The Yeas have it. Representative Maygarden and Representative Murman, approach the well. Mr. Speaker, you're recognized.

Speaker Feeney: Thank you very much. It takes a lot of great members to build a great team and just two of them that I want to honor right now and then talk about two others in a minute. Representative Jerry Maygarden has been part of the process for 11 years. If you want to talk about not just a utility player, now that it's spring training, but an all-star at all nine positions when called on. I forget who the last ball player to play all nine positions was, but there have been one or two. And I'll tell you, whether Jerry's leading the healthcare issues or Utilities & Telecommunications Committee, or whether he's dealing with university issues, or whether he's leading the majority—and when you've got 77 hungry mouths to feed, it's not as easy as it looks, is it, Leader Maygarden? But he's been a loyal Republican Goldwaterite before being a Goldwaterite was cool in much of America. Senator Goldwater paved the pathway for a lot of us that believe in less government, Johnnie Byrd, and wasn't always thanked by the mainstream media for all of his efforts. But he made Ronald Reagan possible, and he probably made Jerry Maygarden and Tom Feeney possible. Jerry, you've been a great leader, a great friend of the House, and I just want to, on behalf of the entire House, give you a small token. And that is that, on behalf of the membership, we will be making a contribution to the Jerry L. Maygarden Distinguished Lecture Series at the University of West Florida. I know that's near and dear to you. Thank you, Leader. [applause] By the way, I think it's safe to say that anybody interested in helping the lecture series, whether you're a Member or not, can see Janice Gilley in the Majority Office, and they'll get you the information about how you can participate.

Secondly, Sandy Murman is the second, or the first Republican woman ever to be Speaker pro tem. And she did so at some reluctance because her passion is in things like health care and taking care of the problems of the needy. And she's wanted to be assured she would be able to play a big role in those issues near and dear to her heart, and mine as well. And once I gave her those assurances, she was happy to take and do double duty, as some of us have done over the years. And she's done a tremendous job.

I was reminded that it'll just be another 73 years, Allen, if you can come back, we'll have as many Republican Speakers hanging on the walls as we do Democrats. So I'll meet you back here in about 73 years. We have had just three Republican Speakers since the end of Reconstruction, but the first Republican woman ever to be Speaker pro tem, and she does a great job for her district. But she, like a lot of the people that rise through the ranks from their early years, is now concerned about people from Pensacola to Key West. And she does a great job leading all of us, and I have so much confidence in her. Sandy, thank you, and I love you. [applause]

For Sandy, the Members have provided an "Abraham Lincoln Memorial Vase" from the Waterford Crystal *America's Heritage* Collection. Sandy.

Because it's not my script, Mr. Speaker, you'll have to guide me through it. I just got handed the script.

The Chair: I think it says y'all leave the well. [laughter] All of you.

Speaker Feeney: Am I part of you all or not? [laughter]

The Chair: For what purpose does Representative Kosmas arise?

Rep. Kosmas: Thank you, Mr. Speaker. To make a motion that a committee of five be appointed to escort Representative Frankel and Representative Wiles to the well.

The Chair: Representative Kosmas moves that a committee of five be appointed to escort Representative Frankel and Representative Wiles to the well. If you favor the motion, say Aye; all opposed No. The Ayes have it. The motion's agreed to and the Chair appoints Representatives Betancourt, Gannon, Heyman, Joyner, and Wilson to escort Representative Frankel and Representative Wiles to the well.

[The Committee escorted Reps. Frankel and Wiles to the well.]

The Chair: As usual, Ms. Frankel led it rather than being escorted. [laughter]

Speaker Feeney: It's a little scary for me with Lois Frankel controlling the well and Jerry Melvin controlling the podium. [laughter]

The Chair: You're in good hands.

Speaker Feeney: We were well organized until about five minutes ago.

But I will tell you that Lois Frankel has been a pleasure to work with. She is a dear friend of the Florida House. And I think that, as Representative Seiler said, that the greatest thing I can pay is tribute to a colleague, whether we agree on issues or not, is if they're doing the right things, in their mind, for the right reasons. And Lois comes with a passion for the things that she believes in; she cares as deeply about the future of Florida as anybody in the front row. And she has been a great leader, and she's been a passionate advocate for the things that she believes.

I will never forget watching the Lois and Mike show in the aftermath [laughter] of the November election and how great it was to see two—I used to tease Congressman Deutsch, who came during some of those proceedings, actually during the special session we had. And Peter came up to the microphone, and we were chatting, and one of the things I asked him, if he wasn't really jealous of the TV time that Lois was getting on national TV? I think he was, Lois, but you did a great job, as you always do, advocating for the things that you believe in. And the Members of the House loved working with you. You've been a great leader of the minority party. I think you understand the importance that a minority party plays in a democratic process and that you have obligations. You are great patriots, but when there are differences of philosophy, you're prepared, sometimes at a moment's notice, to advocate for the things that you believe and on behalf of people that don't control a majority necessarily on every issue. And I want to first give Representative Frankel—and then I'll turn over the well to both you and Representative Wiles—but I want to first give you, on behalf of the Members of the House, an Irish Waterford Crystal desk clock. And we hope this will keep you on time for your future endeavors. [laughter] [applause]

I told Lois I wasn't going to dance with her today, but we'll hopefully get that chance again.

And finally, Representative Wiles, I know that you've been a great leader: your easygoing demeanor and your willingness to reach out to colleagues across the aisle, across the many diverse parts of our state; your willingness to talk, both privately and publicly, in a very respectful way has helped keep decorum during the two Feeney years in the Florida House. And I think it will serve you well if things turn out like many expect—if you are partnering with Speaker Byrd. I know you'd like to see it a little bit different arrangement, but regardless of what specific role you have, you have been a Member that everybody in the Florida House, everybody that cares about this House, including the

many former Leaders and Speakers I've talked to, you've been a Member that has brought honor and integrity and have helped this be a distinguished place where people of different ideas, great men and women, can debate about great philosophies.

So on behalf of the Members of the Florida House, we have an Irish Waterford Capitol dome that we hope that you'll keep and treasure. [applause]

Rep. Wiles: I drew the short straw for the first words. Let me keep it very brief.

This day, I think, is certainly about honoring a few of us that stand in the front of the room. But in doing so, I think you're really honoring this great institution because we wouldn't be here today if it weren't for all of you and for many others back home.

In honoring the institution, we are remembering our state and all of the priorities that it stands for. Certainly, it's important that we remember that we have a great, big, diverse state that we call Florida and that everyone in this Chamber has an opportunity for positive input into the process. And we also should remember that we all work best when we all work together.

Thank you for the small honor today and thank you for the opportunity to be with you. [applause]

Rep. Frankel: Thank you.

First, I want to start by thanking my Democratic Caucus for the beautiful roses that they have given me today, and to say that, the way the votes are going, it may be the highlight of my session. [laughter] Thank you very much.

And I guess, Mr. Speaker, you're not going to be taking me to Ireland with you. No? [laughter]

Speaker Feeney: Yeah, but yours is a one-way ticket. [laughter]

Rep. Frankel: It's all right. I get to say my farewell next week, and I'm looking forward to that return trip to Brooklyn. We're waiting for that ticket.

And my very good friends, Sally Heyman, Annie Betancourt, who I started with my second time around, escorted me up. And I just want to say a special thanks to them for their years of service, and how really it's just been terrific to be your friend for so many years. Thank you so much for all that you've done for us.

Well, Mr. Speaker, before I say my words of friendship to you, I want to say a few remarks, I think, on behalf of my Caucus and to my Caucus. First of all, we have a very small but dedicated, hard-working staff down on the third floor, and hopefully they're watching this proceeding on television. And they work very, very hard, along with my legislative assistant, Vicky Lambert, who's down there. And I will tell you, it's something when you survive the Frankel boot camp. And in fact, my son has often said, you know, the Marines is easy, Mom.

I also want to thank my leadership team. You see Doug Wiles is up here. I really could not ask for really a better counterpart for me, because when I'm having my usual—being my usual excited self, Doug Wiles is a very calming force. And Suzanne Kosmas, who has been our Caucus Chair; and Eleanor Sobel, the Vice Chair; my terrific floor leaders, Chris Smith and Bob Henriquez are Whips. Dan Gelber, Lorraine Ausley, and—who do we have up here—yes, Frank Peterman, Arthenia Joyner, and of course, my very, very good friend, Frederica Wilson, who has also shared my apartment or house with me for a number of years now and really has taught me a lot.

Well, to my Caucus I want to say this. We really started out, I think, like the rest of us, with the whole world watching us. And the Democratic Caucus is really mostly first-term Members. And I will tell you this, for those of you in the front who've never really been in the back, I will tell you it is not easy to be constantly on the end of losing votes. It's tiring, sometimes it's demoralizing, but I will tell you this, it is necessary. Mr. Speaker, I've learned from—you know, you've gotten

me a little erudite, so I have a few quotes here. [laughter] "A minority is powerless while it conforms to the majority; it is not even a minority then; but it is irresistible when it clogs by [its] whole weight." Henry David Thoreau. I'm not really sure what that means, but I thought it sounded pretty good. [laughter] I don't know. [laughter]

Now, most of you have never been to a Democratic Caucus meeting, thankfully, but really it's a sight to be seen. It's quite chaotic, and we're not—we don't agree on a lot of things, and you know a lot of people criticize us in the back because sometimes we don't seem to agree on things, but to me that's the best part of democracy. And I will tell you this, that when we are together, we really mean it.

And now to you, Mr. Speaker. I will admit that when I first met you, which was what, maybe ten years ago or so? Eleven? I did not envision you to be Speaker. [laughter]

Speaker Feeney: Neither did I. [laughter]

Rep. Frankel: I guess, I don't know if the shock's worn off yet. But I'm going to say this, you know, begrudgingly, but very sincerely, that I have great admiration for your intellect and your political acumen and even your dance steps. Not bad. And, Ellen, if you're still here, I want to thank you for sharing your husband with me, and to say with great affection, you can have him back. [laughter] [applause]

Now another quote for you, Mr. Speaker, from someone you admire. "In republics, the great danger is, that the majority may not sufficiently respect the rights of the minority." That was said by your friend James Madison. Mr. Speaker, there have been some bumps in the road, but I will tell you this, we appreciate those moments of respect. We've had some terrific debates and I will tell you that all our minds have been stretched in this Chamber and expanded. I want to say on a personal note that I have enjoyed getting to know your family, and your father is also a very good dancer. [laughter] I might as well embarrass the whole family today. But I really want to thank you for your personal cordialness and friendship, and I hope that you and I have at least demonstrated that politicians can get along without going along. And I just want to thank you for what's been a very wild ride, Mr. Speaker. [laughter] [applause]

Speaker Feeney: Thank you, I appreciate that. [applause]

The Chair: Mr. Speaker, you're recognized.

Speaker Feeney: Well, thank you. I've got three minutes so we can get to Representative Fasano's Council Calendar. Members, first, I want to thank you for the trip to Ireland. I heard that some of the Members of the Florida Senate kicked in, but they only wanted to buy a one-way ticket. I'm grateful you're hopefully going to get the family the whole way on the round-trip, and I really am looking forward to it. It's something I've wanted to do for many years and not had an opportunity to do.

I want to thank all of you. And I wanted to give you something that you might remember your two exciting years by. So on your desk is a bound copy, with your name on it, of the *Federalist Papers*. And inside—I hope it's OK—I've, I think, drafted a little note to most, if not all, of you because I'm really grateful for the chance that I got to serve with you. And if nothing else, the *Federalist Papers*—you know the Founders weren't perfect. All they did was to create the nearest thing to a perfect set of rules for the governance of a free people that has ever been created. And not all of the collective wisdom of humankind emanates each day from your local editorial board. Sometimes the wisdom of the ancestors is very, very important. And I think the guide that you have in the Constitution is a wonderful one. And this is sort of the instruction book written by Hamilton, Jay, and Madison. You've got to understand the rule book. And I hope that you'll use it, and I hope that you'll remember this. Because I think it was best put, the importance of our Constitution, as I go back to work here, by Daniel Webster, I think the only man to serve as U.S. Senator from two separate states, when he said, "Miracles do not cluster. Hold on to the Constitution of the United States of America and the republic for which it stands. What has happened once in 6,000 years may never happen again. Hold on to your

Constitution, for if the American Constitution shall fail, there will be anarchy throughout the world." I believe that.

Thank you very much for this great honor today. Thank you. [applause]

This information shall also include a statement identifying any property subject to the amendment that is located within a coastal high hazard area as identified in the local comprehensive plan.

Communications

The Governor advised that he had filed in the Office of the Secretary of State the following bills which he approved:

March 27—HB 1993

April 4—CS/HB 715

The Honorable Katherine Harris
Secretary of State

April 4, 2002

Dear Secretary Harris:

I hereby transmit to you with my signature Committee Substitute for House Bill 715, an act relating to transportation.

Committee Substitute for House Bill 715, among other issues, provides a mechanism for the removal of billboards in Florida's counties and cities. Over the last 20 years, local communities have launched road beautification programs intended to remove what many consider to be the blight of billboards in our communities. Under this bill, localities may still continue with that process. The issue the bill seeks to address, however, is how localities are to compensate billboard owners for damages that result in the takings of these billboards. The bill also seeks to balance two fundamental governing principles - that we should whenever possible allow local governments to govern their own affairs, and that Floridians should be protected in their private property from government takings.

In this particular bill, these principles appear to compete. Local communities seeking to remove billboards have employed a compensation policy called amortization. Under this policy, billboard owners would be allowed to keep their billboards intact for a predetermined period of time, established by the locality, in order to recoup as much of their investment as possible. Upon expiration of this time period, localities could then force the removal of the billboards without paying compensation to the billboard owners. Localities believe this is an appropriate means for compensation. On the other hand, billboard owners see forced removal of their property much like the forced removal of a business or a home. The takings of a business or a home would trigger a different compensation mechanism known as "just compensation"—localities would have to pay the fair market value of the property taken, rather than waiting for a period of time and then taking the property without compensation. Hence, the issue: Localities seek to utilize amortization in order to remove billboards without having to expend taxpayer dollars, while billboard owners desire to be paid fair market value for the takings of their property.

This issue is especially difficult since I am a firm believer in both local control and property rights. I also believe that CS/House Bill 715, while not perfect, strikes an adequate balance between important principles.

First, this bill seeks to avoid the thorny issue of compensation altogether by first promoting the relocation of billboards. Unlike earlier legislative amendments on this issue, this legislation provides for a negotiation and arbitration process designed to encourage relocation of a billboard as a first remedy. In fact, many billboard owners would prefer to have their billboards relocated. This is evidenced by the fact that already many agreements between billboard owners and localities are settled by relocation. In CS/House Bill 715, billboard owners and localities are encouraged to negotiate for relocation. If those negotiations fail, a process for non-binding arbitration is established. Only if arbitration fails to yield a satisfactory resolution does the requirement for just compensation take effect.

Second, this bill does not prohibit localities from passing ordinances banning all future billboards going forward. Rather it deals only with existing billboards and how they should be removed. It also still permits amortization as a negotiation tool for communities. There is nothing in this bill that prevents communities from offering a longer amortization in lieu of just compensation—in fact, some commentaries on this subject suggest amortization is a more lucrative form of compensation for billboard owners. If that is the case, an individual billboard owner may still agree to an amortization period in place of fair market value, if he or she finds that will be a more appropriate form of compensation.

Third, the legislation specifically recognizes by exemption existing billboard agreements between billboard owners and localities, as well as communities with amortization periods completed that are in litigation with billboard owners as of January 1, 2001. These two exceptions alone would exempt a good many communities, including some of Florida's largest counties and cities, from the impact of this bill.

Fourth, the requirement for just compensation for billboard removal in this country is the rule, not the exception. Already, the State of Florida pays just compensation when it seeks to remove billboards. In 39 other states, the law provides for just compensation. In addition, the bill is consistent with the federal government policy that provides just compensation for the removal of billboards on all federal-aid highways.

Fifth, the bill would treat billboard owners and billboard tenants as we treat other property owners and other business tenants. Instead of suggesting that a billboard is property that is less deserving of protection against government takings, this bill would level the playing field, treating billboards as we would treat a leased or owned restaurant or a gas station that is removed by government to advance a public purpose. There is no priority interest given to billboard owners; there is no change in eminent domain law.

Sixth, the payment of just compensation by counties and cities is not necessarily prohibitive. In editorials around the state opposing this legislation, it is often remarked that paying just compensation will bankrupt cities or force them to abandon their beautification programs. While the cost of removing billboards may be hard to quantify, the Florida Department of Transportation's (DOT) own experience in billboard removal has been fairly reasonable. For example, in a random survey by DOT of its eminent domain proceedings with billboards, it found that in only seven cases of the 33 proceedings surveyed, billboard owners were compensated at an amount greater than \$100,000 for signs located in heavy urban areas and along major interstates. About half of the eminent domain settlements resulted in compensation of less than \$50,000.

Finally, the bill is the product of a two-year negotiation process. When this issue arose a number of years ago, I asked my office to initiate discussions between both the billboard owners and local governments. While these meetings failed to yield consensus, it did have the effect of moderating the initial legislative proposals—proposals that did not include exemptions, clarification that the bill applies only to "lawfully erected" signs, and an arbitration process designed to encourage relocation. Nevertheless, the version of the proposal now under consideration did go through ten committee hearings over the last two years, was debated five times before the full House and five times before the full Senate, and has passed the Legislature not once, but twice.

Some opponents of this legislation suggest that the bill is unfair because billboards for tax purposes are valued as tangible personal property, and

that may be less than the valuation of the billboard for eminent domain purposes. Although this issue is irrelevant to the bill since property tax appraisals cannot by law be considered in eminent domain proceedings, it is important to point out that property appraisers in valuing a billboard may consider cost, market and income approaches. In reality, however, our research has found that many counties rely solely on cost at their discretion. The Legislature in its wisdom recognized the need to review valuation of signs by calling on the Office of Program Policy Analysis and Government Accountability (OPPAGA) to study the value of offsite signs in relation to the valuation of other commercial properties for ad valorem tax purposes, including a comparison of tax valuations from other states.

In sum, CS/House Bill 715 protects the rights of property owners while still allowing local governments the latitude to remove or relocate billboards. Under the bill, localities can still use their home rule power to remove a billboard. If they choose, localities may now remove billboards immediately, without having to wait for years. Or, they may offer relocation or amortization as a settlement. Their existing agreements with billboard owners are still honored. It allows for the continuation of court cases in progress before January 1, 2001, and it preserves all existing and future ordinances not in conflict with the just compensation provisions of the law.

CS/House Bill 715 also stands for something in which I strongly believe. As a conservative, it is my opinion that we must always be wary of the government taking or regulating away the use of property, tangible or real, whether direct or indirect. It should not be something taken lightly, and it should not be something made too easy. The taking, whether direct or indirect, of private property is serious business. It should require extraordinary effort on the part of government to effectuate. Imagine a government that could amortize your home or your business as a means of taking your property? Such a failure of the checks and balances of government power would be pernicious. Similarly, we, as a people, do not deserve the further diminishment of our rights by marginalizing how government compensates us when it does actually utilize its extraordinary power to take property.

For these reasons, and due to the bill's attempt to balance the rights of cities and counties with the rights of property owners, I hereby approve CS/House Bill 715.

Sincerely,
JEB BUSH

The Honorable Katherine Harris
Secretary of State

April 11, 2002

Dear Secretary Harris:

I hereby transmit to you, with my signature, Council Substitute for House Bill 261. CS/HB 261 is a compilation of the Department of Transportation's legislative proposals, as well as other transportation-related issues. Most of these issues passed last year in HB 1053, which I subsequently vetoed largely for reasons unrelated to the merits of any individual component of the bill.

There are many sound reasons to sign this bill. I had previously committed to substantially eliminate the permanent disabled parking permit fee. This bill reduces the fee from \$15.00 per permit to \$1.50. Using 1999-2000 statistics, this worthy measure will save approximately 800,000 disabled individuals over \$10.8 million in permit fees over a 4-year period.

The bill also addresses the operation of the Department's Motor Carrier Compliance Office. Since the recent terrorist attacks, Motor Carrier Compliance officers have participated in additional duties relating to the security of our transportation system. Provisions of this bill clarify the officers' authority to conduct safety inspections of vehicles and drivers and update statutes to reflect required federal safety regulations. Without such an update, the state risks the loss of federal funds.

In an effort to continue the State's economic stimulus efforts addressed in Special Session B, SB 24B, the bill also extends through the current five-year work program the Department's authority to combine right-of-way services with the design and construction phases of a project. The bill also allows the use of an innovative and unique personal mobility device - the Segway - on areas and walkways utilized by pedestrians. In addition, many provisions in this bill enable both the Department of Transportation and the Department of Highway Safety and Motor Vehicles to operate more efficiently in their day-to-day operations. Further, this bill contains provisions not included in the Department's package, but widely supported by the construction industry, seaports, airports, the consulting community and other transportation providers.

Yet another key component of the bill converts the Department's Turnpike District to the Florida Turnpike Enterprise and enables it to operate in a more business-like manner and to maximize the financial leveraging capability of the State's largest revenue-producing asset for the benefit of statewide transportation. There are significant safeguards and controls over the Enterprise that ensure the Turnpike will continue to be a responsible builder of much-needed, locally supported, economically feasible and environmentally sound transportation projects for all of Florida's citizens, visitors, and businesses.

Much ado has been made about this portion of the bill. The main argument seems to be that the bill will allow Turnpike tolls in one part of the state to subsidize projects in another. This argument withers upon close and honest scrutiny, for present law already allows such a "subsidy," and the bill contains adequate safeguards against unnecessary road-building and against, especially for South Florida drivers, diversion of toll revenues.

To understand the shortcomings of the argument, one must understand the present system. In 1990, the Legislature passed a "5/15" financial feasibility test (requiring 50% of bond service on any project to be paid from project revenues in 5 years, and 100% in 15 years). It applies only to Turnpike projects, and does not apply to other expressway or bridge authorities. This is a "project test" (where financial feasibility is ultimately determined by looking solely at the proposed project revenues); the alternative is a "system test" or "pledge," a more expansive and liberal test under which system-wide revenues can be leveraged on a specific project. The system test examines the potential project's impact on the ratio of total system revenues to total system debt. Before 1990, the Turnpike used a system pledge. This bill does not return to a pure pre-1990 system pledge; instead, it simply changes the "5/15" test to a "12/22" test (50% of bond service to be paid in 12 years, and 100% in 22 years).

It is common practice today in the toll industry to perform a system pledge every time a bond sale is proposed. The bond rating agencies have indicated that a system pledge is appropriate and consistent with the rest of the toll industry nationwide. The expressway authorities in Florida and turnpikes around the country use this system pledge. According to DOT, no other state's turnpike system uses a project test. By expanding the project test, this bill moves the Turnpike closer to a system test, but by retaining a project test, the bill ensures that Florida law remains even more conservative than the industry norm. This is a reasonable compromise at this time.

What makes the subsidization argument against the bill especially deceptive is that—as with all deceptive arguments—there is a seed of truth in it. It is, of course, true that the bill would allow tolls in one part of the state to partly subsidize a new project in another part for as long as 22 years. *But Florida law currently allows the same for as long as 15 years.* The bill merely changes the "subsidization" window from 15 to 22 years. Nothing more. This is simply not the radical departure the bill's critics have made it out to be.

A perfect example of the need to move closer to a system test is the Homestead Extension in south Miami-Dade County. The Homestead Extension was opened in 1974 and built under the pre-1990 system pledge, not a project test. Backed by a system pledge of revenues, the Homestead Extension would not have passed either the present "5/15" test or this bill's "12/22" test. Yet it is a strong example of a good project that no one reasonably questions now. Similarly, the western leg of the

Beeline Expressway in Orlando, built by the Turnpike in the 1970s, also would have failed the "5/15" project test.

Thus, for a limited period of time, all patrons of the Turnpike system statewide subsidized the revenue bonds used to fund the Homestead Extension and the western leg of the Beeline Expressway. As every other state has realized, a system pledge is an acknowledgement that as good new projects are built, they will eventually spin off surplus revenue that can be bonded to build other needed projects. A system approach to building transportation infrastructure has been used successfully around the nation, as well as on non-Turnpike roads in Florida. Moving a little closer to a system pledge by expanding the project test is sound transportation policy. In fact, the bill that passed with overwhelming support (but much less ado) last year was even more expansive, for it did away with the project test altogether and switched back to the pre-1990 system pledge.

Perhaps the most glaring omission in the counter-argument is that the bill leaves intact protections for South Florida toll-payers. The bill's opponents worked hard to paint a doom-and-gloom scenario for South Florida, without ever once, to my office's knowledge, acknowledging that Miami-Dade, Broward, and Palm Beach counties would remain protected by Fla. Stat. sec. 338.231(4), which the bill *does not change*. Under this "South Florida equity" statute, the percentage of statewide work program expenditures spent on South Florida projects must be at least 90% of the percentage of statewide tolls, collected in South Florida. In other words, if South Florida tolls are X% of statewide tolls, South Florida projects must be at least .9(X)% of statewide projects. Presently, the South Florida revenue percentage is 49.1% (that is, South Florida revenues are 49.1% of statewide revenues). Under the statute, this means that at least 44.19% (.9 x 49.1) of statewide work program dollars must be spent in South Florida. South Florida work program expenditures are actually 53.6% of the statewide work program, so the current percentage far exceeds the statutory minimum. In fact, the latest numbers show \$261 million beyond that required in the statutory formula for South Florida between FY99 - FY07. South Florida drivers, the heaviest users of the Turnpike system, will remain protected by this formula.

Moreover, all drivers statewide will remain protected by other provisions of law. The bill does not change in any way the existing needs analysis that DOT is required to perform before building any road. This is an elaborate system of coordination on the local level through the local Metropolitan Planning Organizations and county/city governments. Under this bill, the transportation need of any Turnpike expansion project will continue to be determined independently through the development of the five-year work program and the normal transportation planning process.

Similarly, the bill does not exempt the Turnpike Enterprise from growth management regulations. Since the Enterprise would still be part of DOT, it must abide by all environmental and growth management regulations to which DOT adheres. Finally, while another part of this bill allows expressway authorities to issue their own bonds, the Turnpike Enterprise is not exempt and would continue using the State Division of Bond Finance and Cabinet to review and issue bonds. One of the 5 top-rated Turnpikes in the nation today, the Florida Turnpike's rating by the bond agencies has been upgraded several times over the last 12 years, from an A rating to an AA rating today.

All this is not to say that I fully support every provision within this bill. I am troubled by several provisions related to high-speed rail, including the expansion of the powers of the High Speed Rail Authority. Expanding its powers at this time continues to place the cart before the horse, for current powers allow the Authority to gather sufficient information to determine the complete taxpayer obligation that high-speed rail may create for the state. I have consistently expressed skepticism that high-speed rail is feasible without extremely burdensome commitments of taxpayer money, yet the Legislature is apparently willing to expand the Authority's powers before a valid and reliable determination of these commitments is made.

Even more troublesome, however, is that the bill provides tax-exempt status not only to the high-speed rail infrastructure itself, but also to

any “associated development” which is defined to include such things as “parking facilities, retail establishments, restaurants, hotels, offices, or other commercial, civic, residential, or support facilities, and may also include property necessary to protect or preserve the rail station area by reducing urban blight or traffic congestion or property necessary to accomplish any of the purposes set forth in this subsection which are reasonably anticipated or necessary.”

Such a broad tax exemption appears to sweep literally anything connected to high-speed rail, no matter how remote, within its reach. This would place even greater financial burdens on the backs of the state’s residents and businesses.

Given the pace of high-speed rail, however, there is ample time to fix this provision. But rest assured that this provision must be fixed. I am sufficiently troubled by it that, should the voters of Florida decide to keep me in office this fall, I pledge to veto every dollar of high-speed rail money in next year’s budget unless this ominous tax exemption is removed next regular session.

On balance, however, Council Substitute for House Bill 261 is sound legislation deserving of my signature. Last year, I vetoed HB 1053 because it was a mammoth piece of legislation commonly referred to as a “train.” Although I remain concerned about the legislative practice of logrolling, CS/HB 261 is not only shorter than last year’s bill, but, more importantly, is comprised almost entirely of provisions that at least received legislative committee approval, unlike last year’s bill. For this reason, and the other reasons set forth herein, I hereby sign it.

Sincerely,
JEB BUSH

The Honorable Katherine Harris
Secretary of State

May 15, 2002

Dear Secretary Harris:

I hereby transmit to you, with my signature, House Bill 813, a measure that once again demonstrates the commitment of the State of Florida and her citizens to protect and restore the Everglades ecological system.

Creating the Everglades restoration bonding program provides a funding source for the estimated \$100 million per year state share of the costs to implement the Everglades restoration plan. The bill authorizes the Department of Environmental Protection to request up to \$100 million a year in loans, pending Legislative approval. This gives the department and the principal implementing agency, the South Florida Water Management District, another valuable tool to enhance their ability to compete on a more efficient and timely basis to acquire the lands needed for restoration in a booming South Florida real estate market.

There is a great deal of misinformation circulating about an amendment which was placed on this bill, which makes changes to the standing requirements in Section 403.412, Florida Statutes. Contrary to the false interpretation otherwise, the bill simply will not prevent many citizens or organizations from filing third-party challenges to agency actions.

There are presently two avenues into the courts on these challenges. Far and away the most important avenue is Chapter 120, the Administrative Procedure Act. To gain standing to enter court under the APA, organizations and individual citizens need only prove that their substantial interests will be affected by the challenged agency action.

Almost all challenges to agency action take place under the APA. By way of example, the Department of Environmental Protection (DEP) reports that of the 26,082 permit applications received in 2001, only 208 (.8%) were challenged after being denied or granted by DEP. Of the 208 permits challenged, only 96 were challenged by third parties (.36%). Of the 96 cases challenged by third parties, 92 proceeded under the APA.

Only the remaining 4 (.00015% of all permit applications) relied solely on the second avenue to establish standing, section 403.412. It is this avenue, and this avenue only, that the bill closes. The bill specifically provides that individuals and associations whose substantial interests are affected by an agency action will continue to be able to challenge those actions under the APA. Thus, had this bill been in effect in 2001, only 4 out of 208 DEP permit challenges would have been precluded.

In short, the controversial amendment does nothing more than prevent individuals whose substantial interests are not affected at all from filing a challenge, as might be the case, for example, when a Key West resident with absolutely no connection to North Florida tries to challenge permitted activity in Pensacola.

And even as the amendment closes one very limited judicial avenue (for those whose interests are not affected), it guarantees an automatic avenue for certain organizations. In addition to continuing the “substantial interests” method for establishing standing, the bill expressly states that environmental associations meeting certain requirements related to their size, length of existence, and purpose are now entitled to automatic standing. But one should not lose sight of the fact that even those organizations not meeting the new automatic standing requirements can *still* file challenges the old-fashioned way, by demonstrating that their substantial interests will be affected.

In light of the bill’s minimal impact on judicial standing, and the overwhelming environmental benefits of Everglades funding, a good number of longstanding, highly regarded environmental organizations stand in strong support of my signature on HB 813. These groups include the Florida Audubon Society, 1000 Friends of Florida, the Florida Wildlife Federation, the Trust for Public Lands, the Nature Conservancy, the Everglades Foundation, and the World Wildlife Fund. Floridians can rest secure knowing that the passionate support of these organizations is a strong barometer of the importance of this legislation to our invaluable environment.

To ensure that the effects of the bill are truly minimal, I am directing DEP Secretary David Struhs to review the impact of the new law over the next year on citizens' and corporations' ability to challenge DEP and water management district permitting decisions and recommend necessary changes. The Secretary's review and recommendation will ensure that no unintended consequences are created by this bill.

Nonetheless, the minimal effects of these changes are far outweighed by the benefits of the Everglades funding provisions contained in the bill. For the reasons set forth above, I hereby sign House Bill 813.

Sincerely,
JEB BUSH

May 30, 2002

Dear Secretary Harris:

I hereby transmit to you, with my signature, Council Substitute for House Bill 1307, entitled:

An act relating to Building Code Development.

There are many sound reasons to sign this bill. Council Substitute for House Bill 1307 contains numerous provisions to streamline application of building code issues. Florida should be proud of its achievement to develop and implement a uniform building code. The code went into effect on March 1st of this year. The bill provides a process for nonbinding decisions, expedites hearings, and provides higher standards for local amendments to the code. Further, it authorizes the option for a building owner to use private providers to conduct plan reviews and building inspections. The bill also contains provisions passed in Senate Bill 990 regarding the privatization of elevator inspections. On the whole, the provisions in this bill are aimed at facilitating the application of the new code.

However, a provision was added, which has raised great concern among persons with disabilities. Under current law, when renovations occur to an existing building, the building must meet Florida accessibility requirements. This requirement, at times, creates a disincentive to renovation and reuse due to disproportionate costs of the accessibility requirements. This bill would modify current law to provide a brightline test to determine economic hardship in the granting of waivers regarding vertical accessibility in existing buildings. As Florida's cities age, it is important to promote the continued use and rehabilitation of buildings to maintain an active community and vibrant economy. However, the people who live in our communities are key to making this happen. Florida has made great strides to address the needs of our residents and visitors with disabilities. While we must address the issues of renovating buildings and providing access to all, we should strike an appropriate balance.

A review of waivers granted indicates that this bill does not significantly alter current practice. In some cases applicants were required to comply with conditions over time. However, there is no provision for the enforcement of these conditions. Further, other waivers were granted with conditions not related to cost. The standards under the new law have not changed for these types of cases.

I have heard from many individuals who have expressed concerns with the application of this new provision. Florida's specific accessibility requirements still require access to all levels above and below ground,

exceeding the federal vertical accessibility requirements, which are limited to primary function areas. I wish to state my position that the Accessibility Advisory Council and the Florida Building Commission should apply these provisions with great scrutiny and with an aim toward ensuring accessibility for all our residents and visitors.

A good example of how this provision can be applied, while still ensuring access is provided, occurred at the May 2002 meetings of the Accessibility Advisory Council and the Florida Building Commission. An applicant submitted a request for a waiver regarding vertical access. The building was being converted from apartments to a non-profit charter school. The project costs were estimated at \$305,000, with the elevator costs estimated at between \$133,000 and \$148,000. The Council identified an alternative and less costly means to provide this access. The applicant agreed to provide vertical accessibility to the second floor through the Limited Use Limited Application Elevator.

I believe this balance is achievable, and my administration will see it accomplished. The bill calls for the Florida Building Commission to develop recommendations with input from the disabled and development communities concerning the rehabilitation and use of existing structures. I encourage them to look at this issue and recommend any changes that they feel are appropriate to achieve the sensible middle ground between the industry's input and the need for accessibility in the renovation of our buildings.

In the final analysis, however, Council Substitute for House Bill 1307 is sound legislation deserving of my signature. For this reason, and the other reasons set forth herein, I hereby sign it.

Sincerely,
JEB BUSH

Dear Secretary Harris:

I hereby transmit to you without my signature House Bill 449, an act relating to the Parrish Fire Control District, Manatee County.

Local bills present challenges different from general laws that apply to all Florida citizens. Local bills embody diverse issues with special application to defined geographic areas or citizen groups. Given this, I have developed criteria by which to evaluate these bills that generally provide citizens impacted by revisions to the authority of a district, local government or commission, should be provided an opportunity for input by way of a referendum.

House Bill 449 increases the maximum amount of special assessments and impact fees the Parrish Fire Control District can levy on the residents and contractors in the district. While the district presented a compelling budgetary need for increasing its special assessments and impact fees, it did not seek input from the citizens who would be significantly and adversely impacted.

I recognize the delicate balance between obtaining the resources to provide taxpayers vital public services such as fire control and the process by which the authority is achieved. In spite of the fact the Parrish Fire Control District did not seek input in the form of a referendum, I will allow this bill to become law so as not to compromise protection of the public that resides in this district.

Sincerely,
JEB BUSH

May 1—HB 959

The Honorable Katherine Harris
Secretary of State

April 29, 2002

Dear Secretary Harris:

I hereby transmit to you without my signature House Bill 959, an act relating to the cities of South Daytona and Port Orange in Volusia County.

This local bill annexes six enclaves into the City of South Daytona and another four enclaves into the City of Port Orange, both of which are in Volusia County. The objectives of the bill are certainly worthwhile. The level of public services in the affected enclaves has suffered significantly because of the isolation of these areas. The annexations effected by this bill will substantially remedy that situation.

Given the diverse nature of issues addressed in local bills, I have developed standard criteria by which to evaluate these bills. The criteria generally provide that citizens impacted by a boundary change of a municipality should be provided an opportunity for expressing their views by referendum. Annexation into a city can involve major changes in the regulatory and taxation powers to which residents and property owners will be subject. Consequently, voter approval of such changes is of the highest importance. Contrary to this policy, though, the annexations proposed in House Bill 959 are not contingent upon formal approval of voters and property owners.

If not for the combined effect of several extenuating and compelling considerations, I would have vetoed the bill because of the lack of a referendum requirement. First, the governing boards of all three affected local governments and the legislative delegation were unanimous in their support for this bill. This unanimity reflects the importance that the cities and Volusia County place on finding a solution to the service delivery problems in the affected enclaves, in the interests of public safety and welfare. Second, the cities of Port Orange and South Daytona undertook extensive public outreach and education to inform the affected residents and businesses of the proposal. This outreach revealed substantial and broad support for annexation among property owners and residents. Third, if not for the quirk in current law defining an enclave as an area surrounded by a *single* municipality for purposes of the expedited annexation of small enclaves (s. 171.046, Florida Statutes), then six of the enclaves affected by this bill could have been annexed through an interlocal agreement, without referendum approval. The spirit of current general law, if not the letter, is consistent with annexation of the smaller enclaves in question without voter approval. Finally, all of the contacts I have received from the community have expressed strong support for the bill.

I believe that an exception to my local bill policy is warranted in this case. The public benefits of annexation of the enclaves in question outweigh the negative aspects of the absence of a referendum, given the extenuating considerations discussed above.

Sincerely,
JEB BUSH
Governor

The Honorable Katherine Harris
Secretary of State

May 28, 2002

Dear Secretary Harris:

I hereby transmit to you without my signature Committee Substitute for House Bill 385, an act relating to insurance.

Generally, Committee Substitute for House Bill 385 would create an extension of a tax exemption for minority owned property and casualty insurance companies. Under current law there is an exemption from state insurance premium taxes, municipal premium taxes, and regular assessments (but not emergency assessments) levied by the Residential Property and Casualty Joint Underwriting Association (JUA) and the Florida Windstorm Underwriting Association (FWUA), for residential

property insurance policies issued by minority-owned property and casualty insurers licensed after May 1, 1998. Insurers qualifying under this section are eligible for exemptions for up to 5 years from the date of receiving a certificate of authority. All exemptions under this section terminate on July 1, 2003. To date, only one company has been identified as qualifying and taking advantage of this tax exempt status.

Committee Substitute for House Bill 385 extends the maximum time period for this exemption, from 5 years to 10 years from the date an insurer's certificate of authority is issued. The bill also changes the repeal of this exemption from July 1, 2003 to December 31, 2010. This extends the tax exemption for the one qualifying company for up to a total of 10 years. The bill further limits the tax exemption to those minority insurers that were initially issued a certificate of authority in this state as an authorized insurer before January 1, 2002, thus prohibiting any new companies from qualifying for the tax exemption. This narrow window of opportunity should be reviewed during the next Session to determine the costs and tangible benefits that are derived from the current provisions and any potential changes.

There are numerous other important provisions, based on sound public policy, in this bill regarding bonding and financial lines of credit for the current Residential Property and Casualty Joint Underwriting Association (JUA) and Florida Windstorm Underwriting Association (FWUA), and the new Citizens Property Insurance Corporation.

On balance, the sound policies outweigh those provisions that raise concerns, and therefore, I transmit to you Committee Substitute for House Bill 385 without my signature.

Sincerely,
JEB BUSH
Governor

Explanation of Vote for Sequence Number 1307

I would like to go on record as supporting sections 1-7 of this bill, which will provide a dedicated funding source for the restoration of the Florida Everglades. I voted for this bill in its original form when it initially passed the House on March 12th, 2002.

However, the bill was amended and in its present form, this legislation had the potential to be extremely harmful. Sections 8 and 9 of the bill make it harder for citizens to challenge environmental decisions made by government agencies. This bill take away the right of the citizens to petition their government when a bad decision is made. For this reason, I decided to vote against the amended version of the bill.

*Rep. Joyce Cusack
District 26*

Explanation of Vote for Sequence Number 1024

I voted against this bill because it will allow carriers to rate groups of two different from groups of one. That will have the effect of sole proprietors paying much higher rates- up to 150% more than the groups of 2-50. For approximately 50,000 sole proprietors this means monthly premiums potential increasing from \$300 to \$700/month.

*Rep. Lois J. Frankel
District 85*

Explanation of Vote for Sequence Number 1307

I want to go on record as fully supporting Sections 1-7 of the bill that provide a dedicated funding source for Everglades restoration. In that regard, I voted for this legislation in its original form when it passed the House on March 12th, 2002.

However, in its present form, this legislation has harmful provisions, i.e. Sections 8 and 9 that make it harder for citizens to challenge a bad environmental decision by a governmental agency. For this reason, I voted no on the bill.

Explanation of Vote for Sequence Number 1307

I want to go on record of supporting the original language in this bill reflecting a dedicated funding source for the Everglades restoration. In that regard I voted for this bill in its original form. However, I voted No against this bill in its final form due to the language that was added in Sec. 8 and 9, which would make it very difficult for citizens to challenge a bad environmental decision by a governmental agency.
