

## Mission Statement

**CEPRI will be a proactive participant in ensuring that Florida's K-20 Education System achieves the highest level of student learning and contributes significantly to improving the economy and quality of life in Florida. CEPRI will utilize research and evaluation to identify sound policies, which will utilize available public and private resources as effectively as possible to fund a student centered seamless educational system, which provides all Floridians with access to and attainment of the highest quality learning in the country.**

**In discharging its duties as provided in Florida Statute 1008.51, CEPRI will:**

- **Evaluate the effectiveness and necessity of existing or proposed policies and programs – and recommend modifications which are necessary or desirable.**
- **Research and disseminate information and data which helps various elements of the System carry out their specific roles as effectively as possible.**
- **Recommend ways to improve the System – particularly by identifying issues which are barriers to achieving a high level of learning and by proposing how to eliminate them.**
